

1 Q. **Re: p. B-19** What are the estimated operation, maintenance and repair
2 costs of the proposed anti-fouling systems over their expected service life?

3

4

5 A. The estimated annual operation, maintenance and repair cost of the anti-
6 fouling system is \$52,700, which includes chemical supply.

7

8 The expected service life of this equipment is at least 20 years.
