

1    Q.    Does Hydro intend to integrate the existing CF(L)Co MRS at Churchill Falls  
2           with the proposed Hydro MRS? Please describe the MRS technology used  
3           by the CF(L)Co system.

4

5

6    A.    There are no plans to integrate the CF(L)Co MRS with the proposed Hydro  
7           MRS. CF(L)Co's existing MRS is a conventional radio system with a central  
8           switch and several multi-repeater radial circuits.
