2 **& 4.4.** Has DTW agreed to the use of 50 repeater sites in the event that NP
3 joins the NLH MRS?

- 6 A. DTW has not officially agreed to the use of 50 repeaters; however, the
7 concept has been presented to DTW and it appears likely that they are
8 interested in pursuing the use of all repeaters as it addressed areas of known
9 poor coverage which will not be addressed by Hydro's needs alone.
