

1 **Install NOx Monitor, p. B-86, \$106,300**

2 Q. Does NLH have plans to install emissions monitoring devices in other rural  
3 isolated area of the Province?

4

5

6 A. Hydro has two additional monitors tentatively included in its 5-year plan for  
7 2008 as directed by the Provincial Department of Environment &  
8 Conservation. Depending on the results and data collected from the monitor  
9 proposed for 2006, these additional monitors may be proposed for the 2008  
10 Capital Budget.
