

1 Tab H, Section 4 – Performance Target Methodology...Feeders

2 Q. Please explain what is meant by:

3 “Ultimately, the generation of feeder targets are mechanisms which will
4 respond to the areas of optimum system performance and will be [required to
5 decrease] to better that performance and thereby that of the system.” (page
6 5)

7
8
9 A. In other words, as progress is made in reducing the SAIDI and SAIFI
10 statistics for each individual feeder, the overall performance of the system
11 will have been improved towards an optimum target.
