

1 Q. Please provide all data in support of the values in Table 5 of the Rates
2 Evidence, including a forecast December 2006 RSP report.

3

4

5 A. Please see response to IC 36 NLH for the forecast December 2006 RSP
6 report, which provides the calculation of the balances shown in Table 5 of the
7 Rates Evidence. The Newfoundland Power forecast recovery rates shown in
8 Table 5 of the Rates Evidence are the current RSP rates for Newfoundland
9 Power, as approved by the Board effective July 1, 2006. The calculation of
10 the forecast RSP rates for Industrial Customers is shown on Page 3 of 5 of
11 the response to IC 36 NLH.
