

1 Q. Please indicate where in the Application cost savings related to Hydro's DSM
2 activities are included. Provide all supporting calculations setting out the
3 assumptions and magnitude of these savings.

4

5

6 A. Hydro is currently exploring potential initiatives in the design of the energy
7 conservation program, therefore specific cost savings have not yet been
8 determined. Please also see response to CA 40 NLH.

9

10 Ongoing cost savings as a result of the Compact Fluorescent Lighting
11 Program are primarily fuel savings and are reflected in the load and fuel
12 forecasts. Please also see response to CA 5 NLH.
