

1 Q. Was NERA made aware of Hydro's previous "Interruptible B" rate offering? If
2 so, does this rate offering fit NERA's description of a rate that may have
3 "important benefits on an operational basis, which are not captured in a long-
4 term marginal cost analysis".

5

6

7 A. NERA has provided the following response to this Request For Information:

8

9 We were not aware of a previous Interruptible B rate offering, and aside from
10 one reference to "Interruptible B load" in Board Order No. P.U. 14(2004), we
11 found no mention of it in the materials we reviewed for the project.
