

1    Q.    What conservation targets have been set for the DSM initiatives for each of  
2           the next five years?

3

4

5    A.    Currently, Hydro is exploring and evaluating a variety of potential Demand  
6           Side Management initiatives to create a comprehensive program. Once  
7           completed, the final program details will include conservation targets for the  
8           length of each initiative. Please see IC 2 NLH and CA 167 NLH.
