

1 Q. Provide an explanation of why Hydro is unable to complete an update of the
2 annual average hydraulic production for the year ended 2005 using the
3 spreadsheet methodology, and as a consequence is not able to reconcile the
4 differences as requested in IC-130 NLH.

5
6
7 A. Hydro did not update the annual average hydraulic production estimate to
8 the end of 2005 using the former spreadsheet method, as use of this
9 method has been discontinued per the direction of Board Order No. P.U. 14
10 (2004).
