

1    Q.    In what time period is Hydro planning to “explore new interruptible options  
2            that would reward curtailable loads for operational savings” as recommended  
3            by NERA? (NP-99 NLH).

4

5

6    A.    Hydro has not yet discussed a timetable with our customers to establish such  
7            rate options but will begin investigating the merit of these in 2007.
