

1    Q.    Confirm that Industrial Customers' power on order (i.e., firm load) is based on  
2           their demand requirements from Hydro and not their annual energy  
3           requirement.

4

5

6    A.    The Industrial Customers' power on order is a demand value and is declared  
7           by the customers on an annual basis. Hydro does not know the bases behind  
8           the customers' decisions for the particular levels declared.
