

1 Q. Provide the rate that would be proposed for Newfoundland Power for 2007 if
2 the wholesale rate was designed purely on an embedded cost methodology
3 with the rural subsidy and specifically assigned customer costs identified as a
4 specifically assigned charge per month. (Rates Evidence, page 17, lines 11
5 to 12)

6

7

8 A. Rates reflecting embedded costs, with the rural subsidy and specifically
9 assigned customer costs identified as a specifically assigned charge per
10 month are as follows:

11

12 Demand (\$/kW/mo.)	7.49
13 Energy (mills/kWh)	38.14
14 Specifically assigned charges (\$/mo.)	3,593,676
