

1 Q. Please provide any evidence known to you suggesting that Hydro's future
2 fuel oil prices are likely to be in the range of 50% of the \$55/bbl March 2006
3 forecast.

4

5

6 A. Hydro has no evidence to suggest that future fuel oil prices are likely to be in
7 the range of 50% of the \$55/bbl March 2006 forecast. However, the 2004
8 test year included fuel oil prices in the range of 50% of the \$55/bbl March
9 2006 forecast, with no evidence to suggest that prices would double in the
10 intervening two years.
