

1 **Q. Please confirm whether the estimated rate impacts for switching to the**
2 **1% fuel provided in paragraph 14 of the Application has changed since**
3 **the date of filing and, if so, what is the currently estimated rate impact?**

4

5

6 **A. The fuel forecast provided in response to CA 1 NLH shows a forecast**
7 **difference between 2% sulphur fuel and 1% sulphur fuel of approximately \$2**
8 **per barrel, down from the previous forecast difference of \$3 per barrel.**

9 **Current estimated rate impacts for an increase of \$2 per barrel would result**
10 **in an approximate 0.50% to 0.75% increase in rates to Newfoundland**

11 **Power's and Hydro's (non-Labrador Interconnected) residential and general**
12 **service customers and an approximate 1.5% increase to Hydro's Island**

13 **Industrial customers.**
