

1    Q.    With reference to Hydro's response to IC-6 NLH, page 1, line 27 and to IC-7  
2            NLH, page 1, line 25, are both the Upper Salmon Access Road and the Burnt  
3            Dam Access Road 48 km long?

4  
5  
6    A.    Yes.

7  
8            The portion of the Upper Salmon Access Road to be upgraded has been  
9            accurately measured in the field as outlined in the previously submitted  
10           Condition Assessment report.

11  
12           The portion of the Burnt Dam Access Road to be upgraded has only been  
13           estimated from old drawings and maps. The exact length, areas requiring  
14           extra work and definition of the detailed work scope will be determined in a  
15           condition assessment scheduled to be carried out in late October 2006.
