

1    **B-23 Replace Fuel Piping, \$529,800**

2    Q.    What is the usual service life for these types of lines?

3

4

5    A.    The useful life of a buried steel pipe is highly variable, depending on soil  
6           chemistry and elevation of the water table. Failure of these pipes after 30  
7           years of service is not unusual.
