

In reference to Schedule “B”, page 25 of 82 – Distribution System Feeder Remote Control, project cost \$1,200,000:

Q. Please provide the specific costs relating to this project, that is, the cost of materials per unit and the cost of labour.

A. The installation of the relays and reclosers will cost \$375,000 labour and \$825,000 non-labour for a total cost of \$1,200,000. The relays will cost \$3,500 each while the reclosers will cost \$27,000 each. These costs exclude other major equipment such as RTUs and gateways that are required as part of the installation.
