

1 **In reference to Schedule “B”, page 33 of 82 and the transmission system engineering study**
2 **at a project cost of \$500,000:**

3
4 **Q. Please advise how many customers are in the Old Perlican/New Chelsea area and**
5 **the anticipated growth in that area.**

6
7 A. The Company serves 2,595 customers from its Old Perlican and New Chelsea
8 substations. Newfoundland Power does not forecast the number of customers broken
9 down by substation.
