

1 **In reference to Schedule “B”, page 33 of 82 and the transmission system engineering study**  
2 **at a project cost of \$500,000:**

3  
4 **Q. Please advise how many customers are in the Port Aux Basques/Rose Blanche area**  
5 **and the anticipated growth in that area.**

6  
7 A. The Company serves in excess of 5,000 customers from its Doyles, Grand Bay, Port Aux  
8 Basques and Long Lake substations. Newfoundland Power does not forecast the number  
9 of customers broken down by substation.
