

In reference to Schedule “B”, page 36 of 82 – Meters, project cost of \$674,000:

Q. Please advise if Newfoundland Power has its own shop for the repair and maintenance of meters or, if not, what is in place for this work.

A. Newfoundland Power does not have an accredited shop for the repair and maintenance of meters. This service is contracted out to an accredited meter service provider. In 2002, the contract for this service was awarded to Newfoundland and Labrador Hydro.
