

In reference to Schedule “B”, page 41 of 82 – Transformers, with a project cost of \$4,975,000:

Q. What warranties are in place for purchased transformers?

A. For pole mounted transformers, the entire transformer has a 30-month warranty from the date of notification of shipment or a 24-month warranty from date of first use by the Company, whichever occurs first. In addition, the stainless steel tank has a warranty against rust for a period of 20 years after shipment of the unit.

For pad mounted transformers the entire transformer has an 18-month warranty from the date of notification of shipment or a 12-month warranty from the date of first use, whichever occurs first.
