

**In reference to Schedule “B”, page 43 of 82 – Reconstruction, at a project cost of \$2,745,000:**

**Q. Please provide a costing of each project from a labour and materials perspective and provide the unit cost for materials used on each and every project.**

A. These projects cannot be itemized at budget time. Costing on an individual project basis is therefore not available. On a corporate wide basis, the budget is comprised of estimated labour costs of \$1,928,000 and non-labour costs of \$817,000. (See also the Company’s response to CA-35 (b)).
