

**PUB 4.0**

**(RE: p. 15 & 16 of 82)      Purchase Portable Diesel Generation (\$1,500,000)**

**PUB 4.3**

**Q.      Describe specifically how the purchase of a portable diesel generation unit will reduce distribution and transmission construction costs.**

A.      A review of the impact on construction costs of utilizing a portable generation unit to support distribution and transmission construction activity may be found at pp. 4 – 6 of “Portable Diesel Generation: Reliability Analysis, Sizing and Unit Location Review – October 2002” filed in response to Information Request PUB 4.1.
