

- 1 **Q. Provide the maintenance history for vehicles 025D and 007D identified on**
2 **Attachment A to Response to Information CA-45 (a).**
3
4 A. The maintenance histories for these two 4 x 4 Ford F-150 pick-ups are contained in
5 Attachments A and B.
6
7 These two vehicles are primarily used for off road use related to power plants on the
8 Southern Shore of the Avalon Peninsula. Both vehicles must travel to dams and other
9 facilities located in the back country and must travel over rough terrain. A higher than
10 average degree of maintenance is required to operate these vehicles safely.
