

Energy Supply - Appendix 2 - Attachment A

Q. What is the current undepreciated capital cost of the New Chelsea plant.

A. The Company does not maintain a record of the un-depreciated capital cost of each hydro plant. As per the Depreciation Study filed with the 2003 General Rate Application, the New Chelsea plant would form part of the total Hydro Production assets (accounts 320 - 327 inclusive in the Company's System of Accounts).
