

Reliability

Q. List all projects proposed in the 2004 Capital Budget Application that are not listed in PUB-9, PUB-10 or PUB-11.

A. Table 1 provides a summary of all projects in the 2004 Capital Budget whose principal justification is neither reliability, safety nor improvement in operational efficiency. These projects are justified primarily on the basis of customer service, environmental or unforeseen reasons.

**Table 1
Other Justification**

Project
Extensions Meters Services Street Lighting Transformers Relocate/Replace Distribution Lines for Third Parties Feeder Additions & Upgrades to Accommodate Growth Interest During Construction Transformer Cooling Refurbishment Feeder Additions Due to Load Growth and Reliability Increase Corner Brook Transformer Capacity Allowance for Unforeseen Items General Expenses Capital
