

General

Q. Ref: Reply to PUB-4 NP. Explain why internal labour associated with NP engineering staff is not included under “Internal Labour”.

A. In compliance with Board Order No. P.U. 36 (2002-2003), Schedule C, Page 1 Newfoundland Power provided a breakdown of engineering costs for projects in its 2004 Capital Budget. These costs are incurred when either staff or consultants undertake engineering tasks as outlined in Response to Request for Information PUB-004 NP.

Internal labour associated with engineering tasks is not included under “Internal Labour” since it is included in “Engineering”, in compliance with the order noted above.
