**Q. Is NP aware of the Dark Skies Initiative (see: <http://www.darksky.org/index.html> or <http://www.dark-skies.org/main.shtm>), and if so, what policies has it adopted to encourage end users (e.g. cities, towns and businesses) to implement improvements in the design of outdoor lighting that are consistent with DSI (B-40, Street Lighting)?**

**A.** While Newfoundland Power has been aware of the Dark Skies Initiative with respect to light pollution for some time, the Company has not adopted any policies with respect to this matter.
