

1 **Q. At the present time is Newfoundland Power Inc. in a position to advise the Board**  
2 **whether the design and installation methods used in the Michigan penstock project**  
3 **would be suitable for the Rattling Brook penstock project and, if so, please provide**  
4 **the basis for this position?**  
5

6 A. There is no reasonable justification to employ the design and installation methods used in  
7 Upper Peninsula Power Company's 2001 Victoria Dam penstock replacement for  
8 Newfoundland Power's proposed Rattling Brook penstock replacement.  
9

10 Please refer to the Response to CA-18.0 NP.
