Weekly Adjustment of Maximum Prices of Regulated Petroleum Products

Effective 12:01 a.m. Friday, March 27, 2026 the Public Utilities Board set maximum prices for regulated petroleum products in all areas of the province except where maximum price adjustments have been suspended. The changes to maximum prices reflect recent changes in market commodity prices.

The changes to maximum fuel prices are as follows:

- all types of gasoline motor fuel will decrease by up to 1.0 cents per litre (“cpl”);
- diesel motor fuel on the Island will decrease by up to 12.6 cpl;
- diesel motor fuel in Zones 13 and 13a in Labrador will decrease by 12.8 cpl;
- furnace oil heating fuel on the Island will decrease by 10.94 cpl;
- stove oil heating fuel in Zones 13 and 13a in Labrador will decrease by 11.17 cpl; and,
- propane heating fuel will decrease by 1.7 cpl.

While the Board’s next regularly scheduled price adjustment is on Friday, April 3, 2026, there is currently a significant amount of volatility in the market commodity prices used to calculate maximum prices. The Board is monitoring changes in these market prices closely and extraordinary adjustments to the Board’s maximum prices are possible in the coming days.

More information about how maximum prices are set, including a full breakdown by pricing zone, can be found on the Board’s website [here](#).
