**Extraordinary Adjustment of Maximum Prices of
Certain Regulated Petroleum Products**

Due to recent commodity market developments, the Public Utilities Board will intervene and adjust maximum prices outside its regular pricing schedule for gasoline motor fuels in all areas of the province, except where maximum price adjustments have been suspended.

Effective 12:01 a.m. Friday, May 5, 2023, the changes to maximum prices are as follows:

- all types of gasoline motor fuel will decrease by up to 8.2 cents per litre.

These maximum prices reflect the change in the average benchmark price of the products since the Board last adjusted maximum prices on Thursday, May 4, 2023. More information about how maximum prices are set, including a full breakdown by pricing zone, can be found on the Board's website [here](#).

While the Board's next regularly scheduled price adjustment is on Thursday, May 11, 2023 the Board continues to monitor the daily benchmark prices for motor fuels and heating fuels using the prescribed sources set out in the Petroleum Products Regulations and will adjust maximum prices outside the scheduled adjustment if circumstances warrant.
