

Q. Re: Schedule B – 2016 Capital Projects (p. 11 of 98) Greenhill Gas Turbine Overhaul

When does Newfoundland Power anticipate that the unit will be taken out of service and put back into service?

A. The overhaul of the OLYMPUS gas generator used to power the Greenhill Gas Turbine facility is anticipated to take between 10 to 14 weeks to complete. The tentative project schedule has the gas generator coming out of service on May 2, 2016, returning to service on August 12, 2016.
