1 **Q.   What is the anticipated breakdown cost for each mobile computer?**
2
3 A.   The Company categorizes mobile computers based on job related requirements. These
4   categories include:
5
6   (i)   Mobile User – Administration
7   (ii)   Mobile User – Technical[1]
8   (iii)   Mobile User – Field[2]
9
10   Table 1 includes the estimated cost for each mobile computer category.[3]
11
12

Table 1
Cost Breakdown for Mobile Computers

User Category	Cost	Notes
Mobile User – Administration	$1,600	includes warranty, keyboard, mouse, docking station, and monitor
Mobile User – Technical	$1,700	includes warranty, keyboard, mouse, docking station, and monitor
Mobile User – Field	$3,400	includes warranty, docking station, DC power supply attachment

---

[1]   This category includes Engineering Technologists, Line/Operations Supervisors (General Forepersons),
      Engineers and other technical positions.
[2]   Mobile devices in this category are ruggedized computers designed to be used in all operating conditions.
      These devices are limited to use in heavy fleet vehicles by Powerline Technicians.
[3]   The estimated costs for mobile computers are based on the costs of purchasing mobile computers in 2015. The
      Company expects these costs to be similar in 2016.
