

1 Q. **2018 Capital Projects \$500,000 and Over, Hydraulic Generation In-Service Failures,**  
2 **Volume I, Page C-31**

3 *“Hydro uses historical data and engineering judgement to predict the magnitude of*  
4 *in-service failures.”*

5

6 For the period 2013 to 2017, provide the total capital expenditures by year for the  
7 hydraulic generation in-service failures experienced by Hydro that are the basis of  
8 the \$1,251,100 budget estimate.

9

10

11 A. Refer to the response to PUB-NLH-014.
