Dear Ms. Blundon;

On April 12, 2018 the Labrador Interconnected Group (“LIG”) transmitted by email a letter to the Board and parties to the GRA indicating that Hydro's responses to RFIs LAB-NLH-084 and LAB-NLH-085 were unresponsive. By letter dated April 13, 2018, the Board indicated that it was treating the letter from the LIG as a motion and set the date of April 23, 2018 for the parties to respond to the motion.

Hydro has considered the LIG motion and has determined that the interests of all concerned would likely be best served by providing revised responses to these RFIs which explain in greater detail the basis for its original response. In essence, Hydro is consenting to the LIG motion and will provide these responses at its earliest opportunity, possibly as early as Monday, April 23. It is Hydro's position that this obviates the need for the parties to file replies to the motion.

Hydro sincerely expects that the revised RFI responses will be found to be more fulsome such that they will be better understood by the Board and the parties.

Sincerely,

JAT
