

1 Q. (Reference 2017 GRA Volume I) For the fiscal year 2016, what was the total cost for
2 Hydro's embedded contractors?

3

4

5 A. The total cost for Newfoundland and Labrador Hydro's embedded contractors in
6 2016 was \$5.9 million; of which \$0.9 million was for the provision of professional
7 services related to the Exploits generating assets.¹

¹ As the costs associated with Exploits is unregulated, these costs are not included in Hydro's revenue requirement for recovery from customers.
