

1 Q. (Reference 2017 GRA Volume I) How many embedded contractors were employed
2 by Hydro for the 2016 fiscal year?

3

4

5 A. Newfoundland and Labrador Hydro enters into professional service contracts with
6 third party vendors for the provision of embedded contractors and therefore does
7 not directly employ embedded contractors.

8

9 In 2016 Newfoundland and Labrador Hydro had professional services agreements in
10 place for 35 embedded contractors; 5 of whom performed work related to the
11 Exploits generating assets.¹

¹ The costs associated with Exploits are non-regulated and are not included in Hydro's revenue requirement for recovery from customers.
