(iii)

(iv) « Hydro has two mining facilities served on the Labrador Industrial rates,
IOC and Wabush Mines. IOC's Power on Order is forecast to be 245.0

1		MW for 2018. Wabush Mines is currently not operational but still using
2		a minimal amount of demand. »
3		
4		Confirm that for Labrador Industrial customers, the electricity bill is composed of: (i
5		a Demand Charge and (ii) a non-regulated Energy charge? If not, please elaborate.
6		
7		
8	A.	Current Labrador Industrial Transmission customers' electricity bills are comprised
9		of the following charges, including:
10		A demand charge, which is computed based on the regulated transmission
11		demand charge and a non-regulated generation demand charge; <sup>1</sup>
12		An energy charge, which is computed based on the non-regulated energy
13		rate; and
14		• Various other charges, including: HST, past due amounts (if applicable), and
15		interest on past due amounts (if applicable).

<sup>&</sup>lt;sup>1</sup> The Board approved a Labrador Industrial Transmission Rate of \$1.19 per kW per month effective July 1, 2017, in Order No. P.U. 22(2017). The Board also approved the 2015 Test Year Cost of Service Study which is used to determine the \$0.42 per kW non-regulated generation demand rate to provide generation demand cost recovery.
