

1 Q. Further to NLH-IC-001, please provide a listing of the utilities in Alberta that
2 have abandoned the ELG procedure since the Foster Associates report was
3 presented.

4 A. As noted in the pre-filed testimony of Mr. P.Bowman [page 15, line 30 to page 16,
5 line 2], to this point in time no utilities have been ordered to change from ELG to
6 date. The latest reference of which Mr. P.Bowman is aware is the ATCO Electric
7 GRA Decision [page 15, line 33] which discusses the potential for a generic
8 hearing on depreciation after concerns over ELG were raised by 2 different
9 intervenors.
