

1 **Question:** Does IOC intend on undertaking any energy efficiency initiatives in the next 5 years? If  
2 so, please provide a description and timeline for the implementation of such projects.  
3 If not, please provide an explanation as to why no such projects are planned in the  
4 next five years.  
5

6 **Reference:** Evidence of IOC, §27  
7

8 **Response:** IOC expects to readdress energy efficiency in 2018. A steering committee has been  
9 established and initiatives will be reviewed and prioritized. This program will focus on  
10 all energy usage including fuel. At this early stage of the review, no projects have yet  
11 been scope and analysed to the level necessary to be included in IOC's financial and  
12 capital expenditure plan.
