

1 Q. **Additional Cost of Service Information filed March 22, 2018**

2

3 Page 7, footnote 18. Has Hydro completed any analysis of the implications of the
4 material uncertainty associated with the amount of Recapture Energy available for
5 the Island Interconnected system due to the potential increases in the load of the
6 Labrador Interconnected system referred to in the footnote? If not, why not? If yes,
7 provide a copy of the analysis.

8

9

10 A. A reduction in the availability of Recapture Energy can have a material impact on
11 the potential savings resulting from off-island purchases. Please refer to responses
12 NP-NLH-286, NP-NLH-287, and NP-NLH-289.

13

14 Hydro is currently assessing how to deal with the recent influx of requests to
15 provide service to data centres in Labrador.
