

1 Q. Re: 2017 GRA Compliance Application, Exhibit 3, page 8 (p. 72 pdf)

2

3 Preamble:

4 Table 8 indicates a substantial reduction in Recapture Energy for the 2019 Test
5 Year, compared to the October 2018 filing.

6

7 Please indicate if the extended LIL outage mentioned in LAB-NLH-009 fully accounts for this
8 substantial reduction in Recapture Energy, or if other factors are also at play (e.g. data
9 centres in Labrador, the Tacora Mine, etc.). If so, please quantify the contributions of each
10 factor.

11

12

13 A. Table 1 provides a comparison of the Recapture Energy forecast included in the October
14 2018 Filing¹ compared with the 2017 General Rate Application Compliance Application
15 filing. The increased Labrador requirement in November and December 2019 will directly
16 affect the amount of Recapture Energy that can be available to Island or for export. The
17 forecast protocol supplies the Labrador requirement prior to deliveries to the Island or
18 export.

Table 1: Recapture Energy Requirement for Island and Labrador (GWh)

Month	October 2018 Filing			Compliance Filing		
	Labrador Requirement	Island Requirement ²	Available Exports	Labrador Requirement	Island Requirement ¹	Available Exports
January	108.40	56.76	29.81	118.5	66.95	9.07
February	104.20	50.83	21.11	116.9	23.60	36.82
March	91.43	56.64	46.64	107.2	51.40	36.31
April	70.20	55.35	63.12	84.7	65.35	38.21
May	44.94	57.20	92.81	59	-	146.50
June	21.82	54.67	112.22	30.1	-	168.80
July	25.67	56.91	109.18	46.3	-	156.01
August	27.02	57.26	110.67	50.3	-	155.20
September	32.58	54.97	101.14	53.5	-	145.40
October	49.67	55.20	90.18	76.1	7.76	113.15
November	77.68	54.31	57.01	109.5	78.43	0.06
December	113.40	57.05	24.51	147.9	47.48	-
Total	767.00	667.17	858.41	1,000.00	340.97	1,005.54

¹ "2018 Cost Deferral and Interim Rates Application," (Rev. 2) November 14, 2018 (Originally filed October 26, 2018), (October 2018 Filing).

² Island Requirement is expressed at Soldiers Pond (excluding losses). All other values are expressed at Churchill Falls.
