

- 1 **Q. Further to the response to PUB-Nalcor-071 does Newfoundland Power know when**
2 **(if at all) Memorial University will be converting their oil boilers to electric**
3 **resistance boilers, and how much of their oil capacity will be converted? If so, please**
4 **provide any detailed information Newfoundland Power has on the planned timeline,**
5 **extent of conversion, consideration of continuing use of oil as backup fuel, and**
6 **planning for avoidance of use of electric heat (fully or partially) during winter peak**
7 **periods. If so, please provide explicit information on the planned duration of use of**
8 **electric heat during the coldest days of the winter heating season.**
9
- 10 A. Newfoundland Power is not aware of any specific plans Memorial University has to
11 convert their oil boilers to electric resistance boilers.
