

- 1 **Q. Please prepare and provide a map showing all of Newfoundland Power’s generating**
2 **plants. Show, on the map, the numbers of plant personnel. Also, if known, show the**
3 **locations and sizes of Newfoundland and Labrador Hydro’s hydro plants on the**
4 **same map.**
5
- 6 A. Attachment A to this response provides a map showing all Newfoundland Power
7 generating plants, including the number and location of plant personnel involved in the
8 operation and maintenance of the generating units.¹ In addition, there is one Manager
9 located in Head Office on Kenmount Road in St. John’s who oversees all of the
10 Company’s generation operations and maintenance groups.
11
- 12 Newfoundland Power does not have the information necessary to add all Newfoundland
13 and Labrador Hydro’s hydro plants on the same map.

¹ The base map used in Attachment A is the same base map previously provided to Newfoundland Power by Newfoundland and Labrador Hydro.

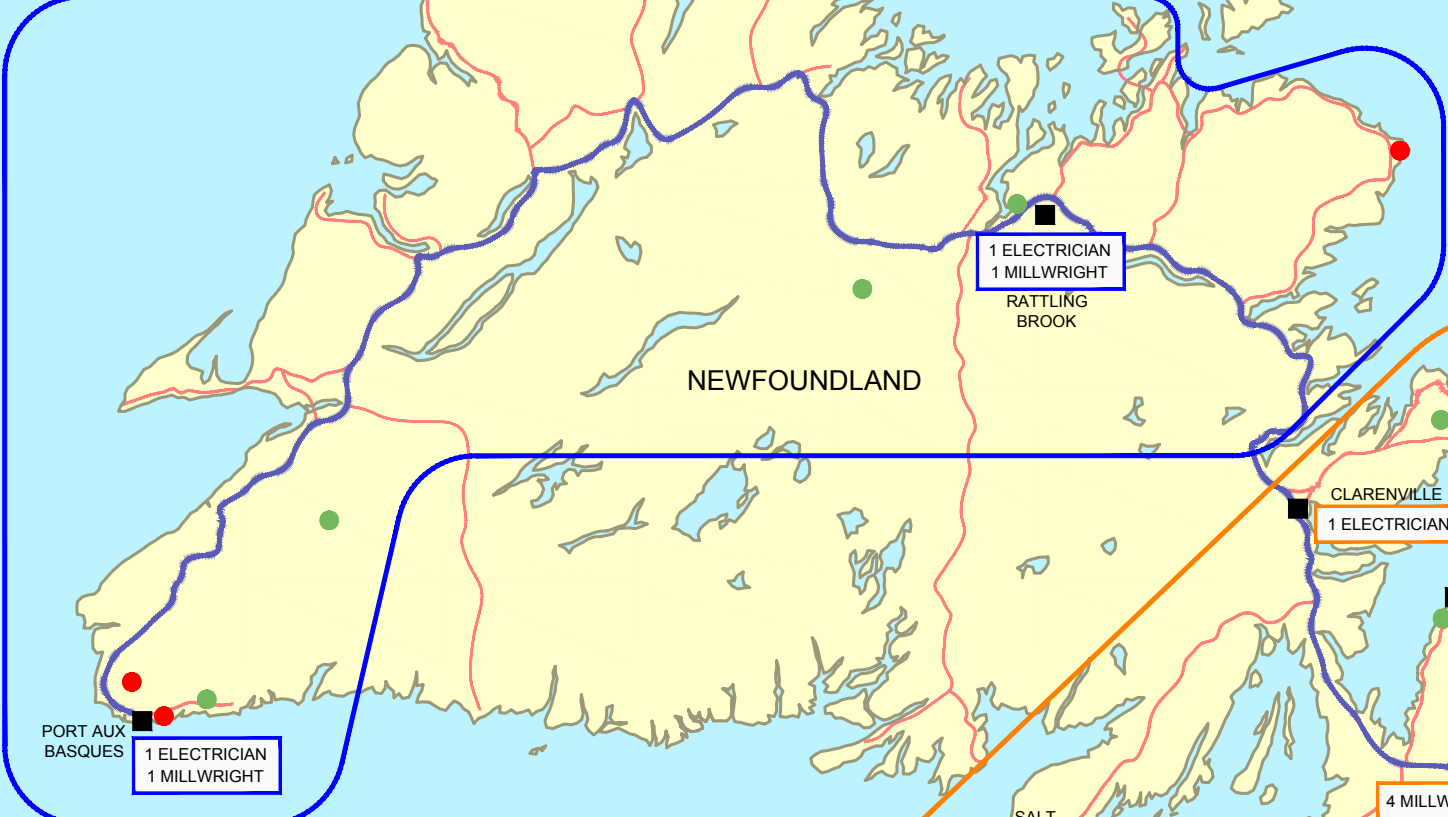

Map of Newfoundland Power's Generating Plants

LEGEND

- HYDRO PLANT
- THERMAL PLANT
- BASE OF OPERATIONS

GENERATION MAINTENANCE GROUP
 PROVIDES SUPPORT TO OPERATIONS
 MAJOR MAINTENANCE AND UPGRADING
 LOCATED IN ST. JOHN'S (DUFFY PLACE)
 1 SUPERVISOR
 2 ENGINEERING TECHS
 2 ELECTRICIANS
 4 MILLWRIGHTS
