Upon the occurrence and during the continuance of an Enforcement Event, the Collateral Agent may do any one or more of the following:

all without any additional notice, demand, presentment for payment, protest, noting of protest, dishonour, notice of dishonour or any other action being required. If an Enforcement Event occurs and is continuing, the LIL Construction Facility shall immediately and automatically be cancelled and the LIL Loan and the LIL Make-Whole Amount shall be accelerated and become immediately and automatically due and payable without any action on the part of the Collateral Agent or any of the GAA Finance Parties being required.

Any Proceeds of Realization received by any of the Intermediary Trust or the Collateral Agent, as the case may be, shall be applied as follows:

14.3.1 firstly, to pay all costs (including Realization Costs) incurred or paid by the Intermediary Trust, the other GAA Finance Parties and the Collateral Agent up to and including the day any Proceeds of Realization are distributed in accordance with the provisions of this subsection 14.3.1;

14.3.2 secondly, to pay all other Various Agent Costs and Expenses incurred or paid up to and including the day any Proceeds of Realization are distributed in accordance with the provisions of this subsection 14.3.2;

14.3.3 thirdly, to pay all Intermediary Trust Project Costs and Expenses incurred or paid up to and including the day any Proceeds of Realization are distributed in accordance with the provisions of this subsection 14.3.3;

14.3.7 lastly, to pay any surplus to any Person or Persons who by Applicable Law shall have the right to receive same.

#### 14.4 **Application of Payments**

### ARTICLE 15

#### **INDEMNITIES**

#### 15.1 **Change in Law**

If the Intermediary Trust determines (which determination shall be evidenced by a certificate submitted to the Partnership and the Collateral Agent by the Intermediary Trust and, in the absence of demonstrable error, such certificate shall constitute *prima facie* evidence of the subject matter thereof among the parties hereto) that:

15.1.1 a Change in Law has made or shall make it unlawful, impracticable or contrary to any Applicable Law for the Intermediary Trust to maintain or give effect to all or any part of its obligations as contemplated by this Agreement and the other LIL Project Finance Documents, or to make or maintain all or any part of the LIL Loan hereunder, then the obligations of the Intermediary Trust to maintain or give effect to such part of such obligations or to make or maintain such part of the LIL Loan shall terminate and, subject to the provisions of any such Applicable Law and those of Section 15.2 with respect to losses and expenses, the Partnership shall repay in full any such affected LIL Loan, together with all interest accrued thereon and the LIL Make-Whole Amount, immediately upon demand of the Intermediary Trust; or

15.1.2 a Change in Law has:

- (a) imposed, modified, or deemed applicable any loan ceiling against the Intermediary Trust or imposed, modified or deemed applicable any special Tax (other than a Tax on the overall net income of the Intermediary Trust), reserve, deposit or similar requirement with respect to assets held by, deposits in or for the account of, the acquisition of funds by, or loans by the Intermediary Trust; or
- (b) changed the basis of taxation of payments to the Intermediary Trust under this Agreement (other than a change affecting taxation on the overall net income of the Intermediary Trust); or

- (c) imposed on the Intermediary Trust any other condition (including the amount of capital required or expected to be maintained by the Intermediary Trust as a result of this Agreement) or monetary restraint with respect to this Agreement; and

the result of any of the foregoing is to increase the cost to the Intermediary Trust of making or maintaining the LIL Construction Facility, the LIL Loan or any part thereof or to reduce any amount receivable by the Intermediary Trust with respect to the LIL Loan or any part thereof by an amount which the Intermediary Trust deems in its sole discretion to be material, within ten (10) Business Days of receipt of the certificate referred to above (which certificate shall contain all required computations and reasonable explanations of the amounts required to be paid); then

- (d) the Partnership shall pay to Collateral Agent, for the account of the Intermediary Trust, such additional amount computed by Collateral Agent as will, on an after-tax basis, compensate the Intermediary Trust for such additional cost or reduction in amounts receivable which the Intermediary Trust determines to be attributable to the Partnership or the LIL Loan made to the Partnership; and
- (e) subject to the provisions of Section 15.2 with respect to losses and expenses, the Partnership may repay in full the LIL Loan together, in each case, with accrued interest thereon and the LIL Make-Whole Amount.

## 15.2 **Reimbursement of Losses and Expenses**

Whenever the Intermediary Trust shall sustain or incur any losses and expenses in connection with:

- 15.2.1 the failure of the Partnership to borrow pursuant to a LIL Draw Request once delivered (whether by reason of the Partnership's decision not to proceed, the non-fulfilment by the Partnership of any of the conditions set forth herein, the existence of a LIL Event of Default on the relevant LIL Drawdown Date or for any other reason other than default by the Intermediary Trust resulting from a default by the Funding Vehicle); or
- 15.2.2 the declaration by the Collateral Agent following the occurrence and continuance of an Enforcement Event that the LIL Loan is immediately due and payable; or
- 15.2.3 the failure of the Partnership to pay when due any principal, interest, Sinking Fund Payment, fees or other amount under this Agreement when due (whether at maturity, by reason of acceleration or otherwise).

(the events contemplated above shall be referred to individually as a "**LIL Loss Event**" and the funds repaid, not borrowed or not repaid, as the case may be, which are subject to any such LIL Loss Event shall be collectively referred to as the "**LIL Affected Funds**").

the Partnership agrees to pay to the Collateral Agent, for the account of the Intermediary Trust, upon demand, an amount certified by the Collateral Agent to be necessary to compensate the Intermediary Trust for all such losses and expenses. The certificate of the Collateral Agent shall also specify the computation and reasonable explanations of the amount to be paid.

**15.3 Environmental Indemnity**

The Credit Parties shall at all times indemnify and hold harmless the Indemnified Parties against and from any and all losses and expenses of any nature whatsoever, incurred, suffered, sustained or required to be paid by them or any one thereof, under or on account of Environmental Laws, including the assertion of any Lien thereunder (collectively, the "**Environmental Losses**"), with respect to:

15.3.1 any violation or alleged violation of Environmental Laws, or the presence of any Hazardous Material affecting any Asset of any Credit Party in violation of Environmental Laws;

15.3.2 any Clean-Up costs incurred by any Governmental Authority or any costs incurred by any other Person or damages from injury to, destruction of, or loss of natural resources, including reasonable costs of assessing such injury, destruction or loss incurred in connection with the property, operations and activities of such other Person or the property, operations and activities of the Partnership as a result of the violation of Environmental Laws by the Partnership;

15.3.3 liability for personal injury or property damage arising under any statutory or common law tort theory; and

15.3.4 any other environmental matter affecting any Asset of a Credit Party or the operations and activities of a Credit Party within the jurisdiction of any Governmental Authority.

The obligations of the Credit Parties under this Section shall arise upon the discovery of any Hazardous Material, whether or not any Governmental Authority has taken or threatened any action in connection with the presence of any Hazardous Material.

**15.4 General Indemnity**

The Credit Parties hereby indemnify and hold harmless the Indemnified Parties from and against any and all losses and expenses, joint and several or joint or several, that may be incurred by or asserted or awarded against any Indemnified Party, in each case arising out of or in connection with or relating to any investigation, litigation or proceeding or the preparation of any defence with respect thereto arising out of or in connection with or relating to this Agreement (including, without limitation, any liability that any Indemnified Party incurs by virtue of being found, in respect of the Project, liable as a partner or joint venturer), the other LIL Project Finance Documents or the transactions contemplated hereby or thereby, or any use made or proposed to be made with the proceeds of the LIL Construction Facility, whether or not such investigation, litigation or

proceeding is brought by any Credit Party or any of their respective partners, shareholders or creditors, an Indemnified Party or any other Person, or an Indemnified Party is otherwise a party thereto and whether or not the transactions contemplated hereby are consummated, except to the extent such losses and expenses are found in a final judgment to have directly resulted from such Indemnified Party's gross negligence or wilful misconduct.

15.5 **Claims under the Indemnities**

The Indemnified Party claiming indemnification under Sections 15.3 or 15.4 shall give the Credit Parties notice in writing of particulars of any claim asserted by third parties against it which is covered by such indemnities and the Credit Parties shall, within fifteen (15) days, give notice in writing to such Indemnified Party whether they wish to dispute such claim at their sole cost and expense. The Indemnified Party shall not permit the settlement of or compromise of such claim without the written consent of one of the Credit Parties, unless the said fifteen (15) day period has expired without one of the Credit Parties having given written notice of its desire to dispute such claim. If the Indemnified Party is unable to obtain timely advice from the Credit Parties that they wish to dispute such claim as aforesaid, the Indemnified Party shall be entitled to deal with such claim in such manner as it deems appropriate. If the Credit Parties give such written notice to the Indemnified Party that they do wish to dispute such claim, the Credit Parties shall have the obligation to contest, settle, compromise or dispute such claim in the name of or on behalf of the Person against whom it is made, at their own cost and expense, and shall at their own cost and expense defend expeditiously the Person against whom such claim is made from all such actions or proceedings to which the said indemnity applies, and the Indemnified Party shall arrange that the Credit Parties shall have the right to carry on such actions or proceedings in its name; provided that, counsel retained by the Credit Parties to prosecute such defense is approved by the Indemnified Party and the Credit Parties (i) shall keep the Indemnified Party advised as to the course of the proceedings, (ii) shall not settle any claim without the prior consent of the Indemnified Party unless the settlement results in a full and final release of the Indemnified Party without cost or any risk to the reputation of the Indemnified Party and does not contain any admission of fault, and (iii) shall prosecute and dispute or conduct such negotiations in good faith and with due diligence; and provided, further that, notwithstanding any provision herein contained, the Indemnified Party shall at all times have the right to retain its own counsel, with the prior written consent of the Credit Parties and at the reasonable cost and expense of the Credit Parties, to advise it in any of the foregoing, to appear in its name and act on its behalf in any proceedings or conduct negotiations on its behalf. Subject to the foregoing, the Indemnified Party shall make available to the Credit Parties copies of all files, books, records and documents, information and data (except for such files, books, records and documents, information and data which are confidential) in the possession and control of the Person against whom the claim is made relevant to such actions or proceedings for the purposes of such defence and shall cause such Person to cooperate without expense to itself in all reasonable respect and to assist in the defence of any such actions or proceedings.

**15.6 Remedial Action**

In the event of:

15.6.1 any Release of Hazardous Materials, the threat of a Release of any Hazardous Material or the presence of any Hazardous Material affecting or relating to any Asset of any Credit Party in violation of Environmental Laws which, singly or in the aggregate, **(i)** would result in losses and expenses to the Credit Parties in excess of CDN\$50,000,000 or **(ii)** would have a Material Adverse Effect; or

15.6.2 any Credit Party failing to comply with any of the requirements of Environmental Laws, which non-compliance, singly or in the aggregate, would have a Material Adverse Effect;

the Collateral Agent after having given written notice of the intention of the GAA Finance Parties to the Credit Parties (no later than fifteen (15) Business Days before giving effect to such intention at their election, but without the obligation so to do), may give such notices and/or cause such work to be performed at such property and/or take any and all other actions as the Collateral Agent shall deem necessary or advisable in order to Clean-Up or cure non-compliance. Any amounts expended by the Collateral Agent in any of the foregoing activities shall be repayable by the Partnership upon the demand of the Collateral Agent, shall form part of the LIL Loan and interest thereon shall be computed and be payable at the same rate as that applicable to the Tranche C Loan and such amounts shall constitute part of the LIL Secured Obligations.

**15.7 Acknowledgement**

The Credit Parties acknowledge that the Collateral Agent and the GAA Finance Parties have agreed to the LIL Loan being made in reliance upon the representations, warranties and covenants in this Agreement relating to the environment. For this reason, it is the intention of the Credit Parties, the Collateral Agent and the GAA Finance Parties that the Credit Parties shall be liable for any liability or Indebtedness arising under this Article even if the amount of liability incurred exceeds the amount of the LIL Loan. The liability and Indebtedness of the Credit Parties arising under this Article shall constitute part of the LIL Secured Obligations, shall be secured by the LIL Security Documents, are absolute and unconditional and shall not be affected by any act, omission, or circumstance whatsoever, whether or not occasioned by the fault of the Collateral Agent and the GAA Finance Parties or any one thereof, except to the extent such liabilities are determined, in a final judgment, to have resulted directly from the gross negligence or wilful misconduct of the Collateral Agent and the GAA Finance Parties, their respective directors, officers, employees, advisors, representatives and agents or any one thereof. All of the representations, warranties, covenants and indemnities of this Agreement relating to the environment shall survive the repayment of the LIL Loan and shall survive the transfer of any or all right in and to the Assets of any Credit Party to any party, whether or not affiliated with them.

The obligations and the Indebtedness arising under Section 15.3 are not in any way diminished by the knowledge of any one of such beneficiaries of the non-compliance by any Credit Party with Environmental Laws; they shall survive the repayment of the LIL Loan as well as the sale or disposition of the property which is the basis of the indemnity claimed.

## ARTICLE 16

Moreover, and without limiting the foregoing, whenever any reference is made in this Agreement to a decision or judgment to be made by, consent or waiver to be granted by, discretion to be exercised by, action to be taken by, request to be made by, or otherwise to, the Collateral Agent, such reference shall be deemed to be to the Collateral Agent, acting in accordance with the Requisite Instructions.

#### 16.3 Directions in Respect of the Intermediary Trust Proceeds Account

The Intermediary Trust and the Partnership acknowledge and agree that the Partnership has an interest in ensuring that the funds in the Intermediary Trust Proceeds Account are properly Invested from time to time, and that such Investments are sufficiently liquid to allow the Intermediary Trust to perform its obligations as lender hereunder, and to allow the Partnership to access the funds necessary under the LIL Construction Facility to fund Project Costs as per the terms hereof. In furtherance of the foregoing, the Intermediary Trust directs the Collateral Agent to act in accordance with the instructions of the Partnership with respect to all instructions contemplated in the IT Blocked Account Agreement as to the Investments to be made from funds held in the Intermediary Trust Proceeds Account, and the liquidation of such Investments.

The IT Trustee has entered into this Agreement in its capacity as trustee of the Intermediary Trust. Any and all of the representations, warranties, undertakings, covenants, indemnities, agreements and other obligations made on the part of the IT Trustee herein and therein are made and intended not as personal representations, warranties, undertakings, covenants, indemnities, agreements and other obligations by the IT Trustee or for the purpose or with the intention of binding the IT Trustee in its personal capacity, but are made and intended for the purpose of binding only the Assets of the Intermediary Trust. No Assets of the IT Trustee (other than the Assets of the Intermediary Trust), whether owned beneficially by it in its personal capacity or otherwise, will be subject to levy, execution or other enforcement procedures with regard to any of the representations, warranties, undertakings, covenants, indemnities, agreements and other obligations of the Intermediary Trust or the IT Trustee under this Agreement or any of the documents accessory hereto. No recourse may be had or taken, directly or indirectly against the IT Trustee in its personal capacity, any beneficiary of the Intermediary Trust or any Affiliate, shareholder, officer, director, employee or agent of the IT Trustee or any predecessor or successor of the IT Trustee, with regard to the representations, warranties, undertakings, covenants, indemnities, agreements and other obligations of the Intermediary Trust or the IT Trustee under this Agreement and the documents accessory hereto.

**17.5 Successors and Assigns**

Subject to the provisions of Section 17.6, this Agreement shall be binding upon and shall enure to the benefit of the parties hereto and their respective successors and permitted assigns.

**17.6 Assignment by Intermediary Trust**

The parties hereby acknowledge that on or immediately prior to the first day of the Operating Period, in full and final payment of all its Indebtedness to the Funding Vehicle under the IT Project Finance Agreement, the Intermediary Trust shall Assign to the Funding Vehicle all Indebtedness owed to it by the Partnership under this Agreement and the other LIL Project Finance Documents and all its rights, titles and interests therein. Pursuant to such Assignment, the Funding Vehicle shall become the direct creditor of the Credit Parties under the LIL Project Finance Documents as if it were the original creditor thereunder and thereupon (i) the IT Trustee and the Intermediary Trust shall automatically be released from all their obligations under the Consolidated Transactions Documents including all indemnity obligations notwithstanding any provision of any Consolidated Transaction Document to the contrary and shall cease being parties thereto in any capacity, (ii) the Collateral Agent shall perform the Project Financing Duties on behalf only of the Funding Vehicle and Canada, and (iii) the Credit Parties agree to execute and deliver to the Funding Vehicle, at their cost and expense, such confirmations

and Registrations as the Collateral Agent may require in connection with such Assignment.

Save and except for (i) the Assignment, and (ii) any assignment pursuant to the LIL Security Documents, the Intermediary Trust hereby covenants and agrees that, and the Funding Vehicle, in furtherance of the provisions of Section 9.7 of the Collateral Agency Agreement, covenants and agrees that, following the Assignment, it shall not sell, assign, transfer or otherwise dispose of, or grant a participating interest in, any Indebtedness owed to it by any Credit Party or any Liens granted in connection therewith to any Person at any time, notwithstanding the existence of any LIL Event of Default, without having obtained the express prior written consent of the Partnership and Opco.

17.8 **Obligation to Pay Absolute**

The obligations of the Partnership to make payments on the LIL Loan as and when in this Agreement provided shall be unconditional and irrevocable, and shall be paid strictly in accordance with the terms of this Agreement under all circumstances without any right of compensation or set-off and notwithstanding any defense, right of action or claim of any nature whatsoever which the Partnership may at any time have or have had against the Collateral Agent or the Intermediary Trust, whether in connection with this Agreement or otherwise.

17.9 **Rights and Recourses Cumulative**

The rights and remedies of the Intermediary Trust and the Collateral Agent under this Agreement shall be cumulative and not exclusive of any right or remedy which the Intermediary Trust would otherwise have and no failure or delay by the Collateral Agent or the Intermediary Trust in exercising any right shall operate as a waiver thereof, nor shall any single or partial exercise of any power or right preclude its other or further exercise or the exercise of any other power or right.

17.10 **Further Assurances**

The parties hereto agree to execute and deliver such further and other documents and perform and cause to be performed such further and other acts and things as may be necessary or desirable in order to give full effect to this Agreement and every part thereof.

The term of bonds in the BSF must not extend beyond the date on which the BSF funds are required for repayment of the relevant MFLTA or LIL bond maturity. This will ensure that the sinking fund does not take on any interest rate exposure.

BSF holdings must be denominated in Canadian dollars.

Requirements:

1. No structured products will be allowed in the sinking fund (this includes covered bonds, NHA MBS, callables, extendibles, derivatives);
2. To be considered an acceptable security for a given bucket above, the security must have ratings at or above the minimum rating indicated from two of Moodys, S&P, or DBRS;
3. If a holding, other than Canada and Canada-Guaranteed Bonds (including MFLTA and LIL guaranteed bonds), is downgraded such that it does not have two ratings that meet the minimum rating threshold (see above), the amount of the security that is beyond the maximum holdings of the bucket it qualifies for based on the downgraded rating, if any, must be sold within 90 days and any principal loss must be contributed by the Project Co

or made up in future periods by the BSF retaining interest income equal to the principal lost;

4. No interest may flow out of the BSF unless the balance of the BSF, on a mark-to-market basis, is greater than the BSF balance as indicated in the final sinking fund payment schedule at that point in time;
5. Collateral Agent is to give quarterly hold reports.

## 1.0 Purpose

The purpose of this document is to establish a *Basis of Design* (BOD) for the Lower Churchill Project (LCP). This BOD will form the overarching project definition that will be used to prepare engineering design philosophies, project contract packaging, project estimates, project schedules, design briefs, detailed design specifications and drawings, construction planning, and all other project functions that depend on a clear definition of what is to be specifically financed and constructed.

Typically, this BOD is not changed or altered without major cost and schedule implications to the project as a whole and would only be considered and approved by LCP Executive Management, and then only after a clear recommendation from the Project Director.

## 2.0 Scope

The objectives of this document are to establish the BOD for the following

- Muskrat Falls Generation
- Labrador Transmission Asset
- Labrador – Island Transmission Link

The Maritime Link is excluded from this BOD and will be prepared under separate cover.

## 3.0 Definitions

Throughout this document, the following defined words are italicized.

### **Basis of Design**

A compilation of the fundamental criteria, principles and/or assumptions upon which design philosophies and engineering design briefs will be developed.

### **Bulkhead Gates**

Steel gates used to isolate water passages for inspection or maintenance, which are installed and removed under balanced pressures.

### **Cavitation Resistant Design**

A design to prevent the formation of the vapour phase in a liquid flow when the hydrodynamic pressure falls below the vapour pressure of the liquid.

### **Change Control Board**

A panel within the Project Management Team that is responsible for making the ultimate decision to approve reject or elevate a Project Change Notice. See LCP-PT-MD-0000-PM-PL-0002-01, Project Change Management Plan.

<b>Cofferdam</b>	A temporary barrier for excluding water from an area that could otherwise be submerged.
<b>Construction Flood</b>	The seasonal peak river flow that the diversion facilities are designed to pass during construction of the dam. Accepted practice is based on a 5% risk of exceedence for the duration of the operation of the diversion facilities.
<b>Converter Station</b>	A <i>converter station</i> consists of equipment that converts power from ac to dc (rectifier) and dc to ac (inverter).
<b>Counterpoise</b>	Steel wire installed along the length of the overhead line and bonded (connected) to each tower. Used to reduce resistivity between the overhead line structures and the ground for lightning protection.

<b>Electrode Line</b>	A transmission line connecting the <i>electrode</i> site to the <i>converter station</i> .
<b>Fail Safe Design</b>	A design that in the event of the failure of equipment, processes or systems, the event will produce minimum propagation beyond the immediate environment of the failing entity. In addition, the failure will be economically acceptable, and those devices in the system will perform their intended function and eliminate danger upon the loss of actuating power.
<b>Fish Compensation Flow</b>	Minimum flow required downstream of the dam sites during reservoir impoundment which will be required to maintain fish habitat and reduce the effects of salt water intrusion into the Churchill River.
<b>Fish Habitat Compensation</b>	This involves replacing the loss of fish habitat with newly created habitat or improving the productive capacity of some other natural habitat.

## 7.0 Descriptions

### 7.1 General

This BOD includes Muskrat Falls Generation, Labrador Transmission Asset and the Labrador-Island Transmission Link.

The primary reason for developing Muskrat Falls Generation, the Labrador Transmission Asset and the Labrador - Island Transmission Link is to meet increased capacity and energy requirements on the Island of Newfoundland. The electrical system on the Island of Newfoundland will experience a capacity deficit in 2015 and an energy short fall in 2021. Extensive analysis of the alternative supply options for the Island has demonstrated that Muskrat Falls and the associated transmission interconnection is the least cost technically acceptable supply alternative for the Island. Muskrat Falls and the interconnection not only provide for future load growth but also facilitate the retirement of the Holyrood Thermal Generating Station virtually eliminating the Island's dependence on fossil fuel fired generation.

All design assumptions used to establish the BOD respect the following overarching principles:

- Only proven technologies will be considered, unless it can be clearly demonstrated to the satisfaction of the Engineering Manager, Project Managers, Project Director and VP of the LCP that emerging technologies can be as reliable and provide significant cost and/or schedule savings.
- Local climatic/service conditions such as ambient temperature, elevation, humidity, sea temperature, sea currents and wind will be respected throughout the Project.
- All generating plants and transmission systems will be remotely operated and monitored from NE-NLH's Energy Control Centre.
- All designs shall assume a 50 year design life for the purposes of evaluation.
- Environmental *mitigation* and *rehabilitation* will be designed by LCP prior to issuing requests for proposals leading to construction contracts.
- The designs will assume the use of existing transportation infrastructure to the maximum extent possible. In particular, existing roads, bridges, railways and wharfs.
- *Good Utility Practice* will be observed.
- *Fail Safe Design* principles will be employed.
- Principles of *Life Cycle Cost Analysis* will be employed.
- The designs will be consistent with the NE Safety and Health Program.
- The designs will be consistent with NE Environmental Policy and Guiding Principles.
- The designs will be consistent with NE Asset Management Policy and Guiding Principles.
- The designs will be consistent with all applicable governing Standards, Codes, Acts and Regulations.
- All assets and systems will be designed to ensure safety, reliability, efficiency and minimal impact to the environment.

## 7.2 Muskrat Falls Generation

### 1100 Access - General

- Site roads to be gravel surfaced unless conditions dictate otherwise e.g. to limit dust and flying stones in areas such as accommodations complex and other site facilities.
- Permanent site access from south, along south side of river via TLH.
- Temporary site access to north side from TLH.

### 1200 Permanent Accommodations

- No permanent accommodations required.

### 1320 Construction Power

- Construction power will be supplied from the existing 138 kV transmission line between CF and HVGB by means of a temporary tap station at MF, to be located on the north side of the Churchill River. It will comprise of a 50 MVA, 138 – 25 kV transformer with an on-load tap changer (OLTC), 138 kV circuit breakers for the transformer and the line feeder to HVGB and capacitor banks to provide voltage regulation. The installation will be capable of providing 12 MW peak load and will be remotely controlled and supervised from the Nalcor ECC in St. John's.
- Construction power will be supplied to the south side of the Churchill River with a 25 kV distribution feeder that will take off from this tap station and cross the river to provide power to the construction sites and the campsite located approximately 10.5 km east of Muskrat Falls.
- A new 125 MVA, 230 – 138 kV transformer with OLTC will be installed in CF as a replacement for the two existing 42 MVA transformers without OLTC to accommodate the increase of power transfer to provide 12 MW of power at MF.
- Once the 315 kV HVac network is energized during construction, power will be supplied from the 315 – 138 kV substation transformer tertiary winding until all construction facilities are demobilized.

### 1420 Construction Telecommunications – Muskrat Falls

- Communications during early works of access road, camp start-up and start of site excavations will be by land mobile radio system and cellular phones.

1.13 **Accounting Terms; GAAP**

1.13.1 Unless a clear contrary intention appears in a Project Finance Document or Guarantee Transaction Document, all terms of an accounting or financial nature shall be construed in accordance with GAAP, as in effect from time to time. For purposes of the calculation of DER and DSCR, such ratios shall be calculated in accordance with the definitions hereof and not in accordance with GAAP, it being understood that the definition of "Capital Account" shall be calculated as provided for in the LIL Project Finance Agreement. All calculations for the purposes of determining compliance with any financial ratios and financial covenants contained in any Project Finance Document or Guarantee Transaction Document shall be made on a basis consistent with GAAP used in the preparation of the first Financial Statements of the Obligors delivered under the Project Finance Agreement. Any financial ratios required to be maintained by the Partnership pursuant to any Project Finance Document or Guarantee Transaction Document shall be calculated by dividing the appropriate component by the other component, carrying the result to one place more than the number of places by which such ratio is expressed in any Project Finance Document or Guarantee Transaction Document and rounding the result up or down to the nearest number (with a round-up if there is no nearest number) to the number of places by which such ratio is expressed therein.

1.13.2 The parties hereto agree that if at any time there is a material change to GAAP, then the Partnership and the Collateral Agent shall use commercially reasonable efforts to negotiate in good faith amendments to the provisions of the applicable Project Finance Document or Guarantee Transaction Document, as the case may be, that are affected by such material change with the intent of having the respective positions of the Partnership and the Collateral Agent after such material change conform as nearly as possible to their respective positions immediately prior to the implementation of such

material change; provided, however, that until any such amendments shall have been agreed upon, the terms, conditions and undertakings of the applicable Project Finance Document or Guarantee Transaction Document shall be interpreted and applied as if such material change did not apply to the Partnership and the accounting principles applicable to the Partnership immediately prior to the implementation of such material change shall continue to apply to the Partnership for the purpose of determining if the Partnership complies with the financial covenants of the applicable Project Finance Document or Guarantee Transaction Document and the Partnership shall continue to provide Financial Statements under the applicable Project Finance Document or Guarantee Transaction Document prepared in accordance with such accounting principles.

The Collateral Agent and the GAA Finance Parties shall not be bound to exhaust their recourses against a Credit Party or others or any Liens or Guarantees they may at any time hold in connection with the Muskrat/LTA Secured Obligations before

being entitled to payment from the other Credit Party. The liability of each Credit Party hereunder shall not be released, reduced or affected by reason of any waiver, compromise, or arrangement granted by the Collateral Agent or any GAA Finance Party to the other Credit Party without the consent of such Credit Party or by reason of any release of, or any stay of Proceedings against that or the other Credit Party pursuant to any Insolvency Law or any similar Law or any Law affecting creditors' rights generally or by reason of any circumstance which might otherwise constitute a defence available to, or a discharge of, any Credit Party. Neither Credit Party shall be subrogated to any right of the Collateral Agent until (i) indefeasible payment in full of all the Muskrat/LTA Secured Obligations, including, for clarity, and without duplication, all repayments required to be made to Canada under the GAA, and (ii) the Funding Vehicle has no remaining obligation to make any Advance, make any payment, make any other extension of credit or provide any other financial service under, by reason of, or otherwise in respect of, any of the Muskrat/LTA Project Finance Documents.

### **ARTICLE 3**

#### **MUSKRAT/LTA CONSTRUCTION FACILITY**

##### **3.1 Grant of Muskrat/LTA Construction Facility**

The Funding Vehicle agrees, upon the terms and subject to the conditions of this Agreement, to lend to the Credit Parties an amount of up to but not exceeding, in the aggregate, the Muskrat/LTA Construction Facility which shall be available in three tranches, namely Tranche A, Tranche B and Tranche C.

##### **3.2 Purpose**

The single Advance under the Muskrat/LTA Construction Facility shall be used by the Credit Parties exclusively for the purpose of financing the Project Costs.

##### **3.3 Facility Limit**

3.3.1 As of the Closing Date, the aggregate amount of the Muskrat/LTA Construction Facility is CDN\$2,600,000,000, divided as follows as amongst the three Tranches: (i) an amount equal to the aggregate amount of the FV Bond - Series A will be available as Tranche A; (ii) an amount equal to the aggregate amount of the FV Bond - Series B will be available as Tranche B; and (iii) an amount equal to the aggregate amount of the FV Bond - Series C will be available as Tranche C.

3.3.2 Where under any of the terms hereof the Muskrat/LTA Construction Facility and any Tranche thereof is cancelled, reduced or terminated, same may not subsequently be increased, any such cancellation, reduction or termination thereof being permanent.

**3.4 Nature and Availability**

- 3.4.1 The Muskrat/LTA Construction Facility is available on a non-revolving basis such that the Credit Parties may not reborrow the whole or any part of the Advance previously repaid, any such repayment automatically reducing the Muskrat/LTA Construction Facility (and, rateably, each Tranche) by an amount equal to the amount repaid.
- 3.4.2 The Muskrat/LTA Construction Facility is available in Canadian Dollars only by way of a single Drawdown.

**3.5 Borrowing Procedures**

In order to obtain the Drawdown on the Drawdown Date hereunder, the Credit Parties must deliver to the Collateral Agent the Draw Request at the latest by 10:00 a.m., NL standard time, at least two (2) Business Days prior to the proposed Drawdown Date. The Drawdown shall be apportioned rateably amongst each of the Tranches. Once delivered, the Draw Request may not subsequently be revoked or withdrawn by the Credit Parties.

**3.6 Repayments**

The Credit Parties hereby agree to repay on the:

- 3.6.1 Tranche A Maturity Date, the sum of (a) the entire amount of the Tranche A Construction Loan outstanding on such date, and (b) accrued and unpaid interest, fees and other amounts and interest on arrears of interest, fees and other amounts, in all cases, relating to Tranche A, up to, but excluding the Tranche A Maturity Date;
- 3.6.2 Tranche B Maturity Date, the sum of (a) the entire amount of the Tranche B Construction Loan outstanding on such date, and (b) accrued and unpaid interest, fees and other amounts and interest on arrears of interest, fees and other amounts, in all cases, relating to Tranche B, up to, but excluding the Tranche B Maturity Date; and
- 3.6.3 Tranche C Maturity Date, the sum of (a) the entire amount of the Tranche C Construction Loan outstanding on such date, and (b) accrued and unpaid interest, fees and other amounts and interest on arrears of interest, fees and other amounts, in all cases, relating to Tranche C, up to, but excluding the Tranche C Maturity Date.

**3.7 Voluntary Prepayments**

- 3.7.1 The Credit Parties may voluntarily prepay at any time the whole (and the whole only) of the Muskrat/LTA Loan by paying to the Collateral Agent, for the account of the Funding Vehicle, before 1:00 p.m., NL standard time, on the Muskrat/LTA Voluntary Prepayment Date an amount equal to the sum of (i) the aggregate principal amount of the Muskrat/LTA Construction Loan;

(ii) accrued and unpaid interest on such principal amount, in an aggregate amount which is equal to the aggregate amount of interest accrued on the FV Bonds which is payable on the FV Bond Redemption Date; and (iii) the Muskrat/LTA Make-Whole Amount.

3.7.2 The Credit Parties shall issue a Muskrat/LTA Voluntary Prepayment Notice at the latest by 10:00 a.m., NL standard time, at least 35 days prior to the proposed Muskrat/LTA Voluntary Prepayment Date. Once delivered, no Muskrat/LTA Voluntary Prepayment Notice may be revoked or withdrawn by the Credit Parties.

3.7.3 Upon a Muskrat/LTA Voluntary Prepayment Notice having been so given, the Muskrat/LTA Loan will thereupon be due and payable in an amount equal to that set forth in subsection 3.7.1 on the Muskrat/LTA Voluntary Prepayment Date, in the same manner and with the same effect as if such date were the maturity date of the Muskrat/LTA Loan, anything herein to the contrary notwithstanding, and from and after such Muskrat/LTA Voluntary Prepayment, if the moneys necessary to prepay the Muskrat/LTA Loan are paid as herein provided, the Muskrat/LTA Loan will not be considered outstanding hereunder and interest in respect of the Muskrat/LTA Construction Facility will cease.

### 3.8 **Sinking Fund Account Payments**

The Credit Parties hereby agree to pay to the Collateral Agent for deposit in the Sinking Fund Account, on each Sinking Fund Deposit Date, an amount equal to the amount as is set forth beside each such Sinking Fund Deposit Date in Schedule "Y" hereto (each such payment being a "**Sinking Fund Payment**"), less any amount transferred to the Sinking Fund Account pursuant to Section 3.9 and required to be imputed towards such Sinking Fund Payment in accordance with the provisions of Section 3.9. Amounts so deposited in the Sinking Fund Account shall only be released by the Collateral Agent in accordance with Section 8.17.

### 3.9 **Prepayment of Sinking Fund Account**

If as a result of the application of paragraphs (v) to (xxviii) of the definition of "Final Funding Request":

3.9.1 there remains a balance in the Project Funding Accounts, the Project Operating Accounts and the Working Capital Reserve Account, the aggregate amount of such balance, as calculated pursuant to paragraph (xxix) of the definition of "Final Funding Request" shall on the date of the Funds Release relating to the Final Funding Request to be made hereunder, be transferred to the Sinking Fund Account; and

3.9.2 the Muskrat/LTA Proceeds Account Balance is greater than nil, a Funds Release shall be deemed to have been requested pursuant to the Funds Release Request delivered in connection with the Final Funding Request in an amount

sufficient to reduce the Muskrat/LTA Proceeds Account Balance to nil, and such amount shall be deposited into the Sinking Fund Account;

and the amounts contemplated in subsections 3.9.1 and 3.9.2 shall be imputed to the Sinking Fund Payments on each Sinking Fund Deposit Date in the chronological order thereof.

4.1.3 Interest is payable on each Muskrat/LTA Interest Payment Date (i) in respect of the first Muskrat/LTA Interest Payment Date, in an amount of interest accrued and to accrue from the date of the Advance hereunder up to and including the Business Day immediately following such Muskrat/LTA Interest Payment Date, and (ii) in respect of any Muskrat/LTA Interest Payment Date thereafter, in an amount of interest accrued from the immediately preceding Muskrat/LTA Interest Payment Date up to and including such subsequent Muskrat/LTA Interest Payment Date.

4.1.4 Interest on all overdue interest on each Tranche of the Muskrat/LTA Construction Loan shall be calculated, compounded and payable in accordance with the corresponding provisions of the MTI and each relevant Supplemental Indenture as they relate to such Tranche as set forth in the definition of Applicable Interest Rate.

The receipt by the Collateral Agent of such amounts shall be deemed to constitute the receipt of such amounts by the Funding Vehicle.

5.2.2 If for any reason any such payment or repayment is made directly to the Funding Vehicle, the Funding Vehicle shall promptly remit any amount so received to the Collateral Agent at the Collateral Agent's Office.

#### 5.3 Payment on any Business Day by 3:00 p.m., Toronto time

Whenever any payment or repayment falls due on a day which is not a Business Day, such payment or repayment shall be made on the next following Business Day. - 15.1.2.4 the Credit Parties shall pay to Collateral Agent, for the account of the Funding Vehicle, such additional amount computed by Collateral Agent as will, on an after-tax basis, compensate the Funding Vehicle for such additional cost or reduction in amounts receivable which the Funding Vehicle determines to be attributable to the Credit Parties or the Muskrat/LTA Loan made to the Credit Parties; and
- 15.1.2.5 subject to the provisions of Section 15.2 with respect to losses and expenses, the Credit Parties may repay in full the Muskrat/LTA Loan together, in each case, with accrued interest thereon and the Muskrat/LTA Make-Whole Amount.

## 15.2 **Reimbursement of Losses and Expenses**

Whenever the Funding Vehicle shall sustain or incur any losses and expenses in connection with:

- 15.2.1 the failure of either Credit Party to borrow pursuant to the single Draw Request once delivered (whether by reason of either Credit Party's decision not to proceed, the non-fulfilment by either Credit Party of any of the conditions set forth herein, the existence of a Muskrat/LTA Event of Default on the relevant Drawdown Date or for any other reason other than default by the Funding Vehicle); or
- 15.2.2 the declaration by the Collateral Agent following the occurrence and continuance of an Enforcement Event that the Muskrat/LTA Loan is immediately due and payable; or

15.2.3 the failure of either Credit Party to pay when due any Sinking Fund Payment, principal, interest, fees or other amount under this Agreement when due (whether at maturity, by reason of acceleration or otherwise);

(the events contemplated above shall be referred to individually as a "**Loss Event**" and the funds converted, repaid, not borrowed or not repaid, as the case may be, which are subject to any such Loss Event shall be collectively referred to as the "**Affected Funds**");

the Credit Parties agree to pay to the Collateral Agent for the account of the Funding Vehicle, upon demand, an amount certified by the Collateral Agent to be necessary to compensate the Funding Vehicle for all such losses and expenses. The certificate of the Collateral Agent shall also specify the computation and reasonable explanations of the amount to be paid.

### 15.3 **Environmental Indemnity**

The Credit Parties shall at all times indemnify and hold harmless the Indemnified Parties against and from any and all losses and expenses of any nature whatsoever, incurred, suffered, sustained or required to be paid by them or any one thereof, under or on account of Environmental Laws, including the assertion of any Lien thereunder (collectively, the "**Environmental Losses**"), with respect to:

15.3.1 any violation or alleged violation of Environmental Laws, or the presence of any Hazardous Material affecting any Asset of either Credit Party in violation of Environmental Laws;

15.3.2 any Clean-Up costs incurred by any Governmental Authority or any costs incurred by any other Person or damages from injury to, destruction of, or loss of natural resources, including reasonable costs of assessing such injury, destruction or loss incurred in connection with the property, operations and activities of such other Person or the property, operations and activities of either Credit Party as a result of the violation of Environmental Laws by either Credit Party;

15.3.3 liability for personal injury or property damage arising under any statutory or common law tort theory; and

15.3.4 any other environmental matter affecting any Asset of either Credit Party or the operations and activities of either Credit Party within the jurisdiction of any Governmental Authority.

The obligations of the Credit Parties under this Section shall arise upon the discovery of any Hazardous Material, whether or not any Governmental Authority has taken or threatened any action in connection with the presence of any Hazardous Material.

15.4 **General Indemnity**

The Credit Parties hereby indemnify and hold harmless the Indemnified Parties from and against any and all losses and expenses, joint and several or joint or several, that may be incurred by or asserted or awarded against any Indemnified Party, in each case arising out of or in connection with or relating to any investigation, litigation or proceeding or the preparation of any defence with respect thereto arising out of or in connection with or relating to this Agreement (including, without limitation, any liability that any Indemnified Party incurs by virtue of being found, in respect of the Projects, liable as a partner or joint venturer), the other Muskrat/LTA Project Finance Documents or the transactions contemplated hereby or thereby, or any use made or proposed to be made with the proceeds of the Muskrat/LTA Construction Facility, whether or not such investigation, litigation or proceeding is brought by either Credit Party or any of their respective partners, shareholders or creditors, an Indemnified Party or any other Person, or an Indemnified Party is otherwise a party thereto and whether or not the transactions contemplated hereby are consummated, except to the extent such losses and expenses are found in a final judgment to have directly resulted from such Indemnified Party's gross negligence or wilful misconduct.

15.5 **Claims under the Indemnities**

The Indemnified Party claiming indemnification under Sections 15.3 or 15.4 shall give the Credit Parties notice in writing of particulars of any claim asserted by third parties against it which is covered by such indemnities and the Credit Parties shall, within fifteen (15) days, give notice in writing to such Indemnified Party whether they wish to dispute such claim at their sole cost and expense. The Indemnified Party shall not permit the settlement of or compromise of such claim without the written consent of one of the Credit Parties, unless the said fifteen (15) day period has expired without one of the Credit Parties having given written notice of its desire to dispute such claim. If the Indemnified Party is unable to obtain timely advice from the Credit Parties that they wish to dispute such claim as aforesaid, the Indemnified Party shall be entitled to deal with such claim in such manner as it deems appropriate. If the Credit Parties give such written notice to the Indemnified Party that they do wish to dispute such claim, the Credit Parties shall have the obligation to contest, settle, compromise or dispute such claim in the name of or on behalf of the Person against whom it is made, at their own cost and expense, and shall at their own cost and expense defend expeditiously the Person against whom such claim is made from all such actions or proceedings to which the said indemnity applies, and the Indemnified Party shall arrange that the Credit Parties shall have the right to carry on such actions or proceedings in its name; provided that, counsel retained by the Credit Parties to prosecute such defense is approved by the Indemnified Party and the Credit Parties (i) shall keep the Indemnified Party advised as to the course of the proceedings, (ii) shall not settle any claim without the prior consent of the Indemnified Party unless the settlement results in a full and final release of the Indemnified Party without cost or any risk to the reputation of the Indemnified Party and does not contain any admission of fault, and (iii) shall prosecute and dispute or conduct such negotiations in good faith and with due diligence; and provided, further that, notwithstanding any provision herein contained, the Indemnified Party shall at all times have the right to retain its own counsel,

with the prior written consent of the Credit Parties and at the reasonable cost and expense of the Credit Parties, to advise it in any of the foregoing, to appear in its name and act on its behalf in any proceedings or conduct negotiations on its behalf. Subject to the foregoing, the Indemnified Party shall make available to the Credit Parties copies of all files, books, records and documents, information and data (except for such files, books, records and documents, information and data which are confidential) in the possession and control of the Person against whom the claim is made relevant to such actions or proceedings for the purposes of such defence and shall cause such Person to cooperate without expense to itself in all reasonable respect and to assist in the defence of any such actions or proceedings.

## 15.6 **Remedial Action**

In the event of:

- 15.6.1 any Release of Hazardous Materials, the threat of a Release of any Hazardous Material or the presence of any Hazardous Material affecting or relating to any Asset of either Credit Party in violation of Environmental Laws which, singly or in the aggregate, (i) would result in losses and expenses to the Credit Parties in excess of CDN\$50,000,000 or (ii) would have a Material Adverse Effect; or
- 15.6.2 any Credit Party failing to comply with any of the requirements of Environmental Laws, which non-compliance, singly or in the aggregate, would have a Material Adverse Effect;

the Collateral Agent after having given written notice of the intention of the GAA Finance Parties to the Credit Parties (no later than fifteen (15) Business Days before giving effect to such intention at their election, but without the obligation so to do), may give such notices and/or cause such work to be performed at such property and/or take any and all other actions as the Collateral Agent shall deem necessary or advisable in order to Clean-Up or cure non-compliance. Any amounts expended by the Collateral Agent in any of the foregoing activities shall be repayable by the Credit Parties upon the demand of the Collateral Agent, shall form part of the Muskrat/LTA Loan and interest thereon shall be computed and be payable at the same rate as that applicable to the Tranche C Loan and such amounts shall constitute part of the Muskrat/LTA Secured Obligations.

## 15.7 **Acknowledgement**

The Credit Parties acknowledge that the Collateral Agent and the GAA Finance Parties have agreed to the Muskrat/LTA Loan being made in reliance upon the representations, warranties and covenants in this Agreement relating to the environment. For this reason, it is the intention of the Credit Parties, the Collateral Agent and the GAA Finance Parties that the Credit Parties shall be liable for any liability or Indebtedness arising under this Article even if the amount of liability incurred exceeds the amount of the Muskrat/LTA Loan. The liability and Indebtedness of the Credit Parties arising under this Article shall constitute part of the Muskrat/LTA Secured Obligations, shall be secured by the

Muskrat/LTA Security Documents, are absolute and unconditional and shall not be affected by any act, omission, or circumstance whatsoever, whether or not occasioned by the fault of the Collateral Agent and the GAA Finance Parties or any one thereof, except to the extent such liabilities are determined, in a final judgment, to have resulted directly from the gross negligence or wilful misconduct of the Collateral Agent and the GAA Finance Parties, their respective directors, officers, employees, advisors, representatives and agents or any one thereof. All of the representations, warranties, covenants and indemnities of this Agreement relating to the environment shall survive the repayment of the Muskrat/LTA Loan and shall survive the transfer of any or all right in and to the Assets of either Credit Party to any party, whether or not affiliated with them.

The obligations and the Indebtedness arising under Section 15.3 are not in any way diminished by the knowledge of any one of such beneficiaries of the non-compliance by either Credit Party with Environmental Laws; they shall survive the repayment of the Muskrat/LTA Loan as well as the sale or disposition of the property which is the basis of the indemnity claimed.

## **ARTICLE 16**

Moreover, and without limiting the foregoing, whenever any reference is made in this Agreement to a decision or judgment to be made by, consent or waiver to be granted by, discretion to be exercised by, action to be taken by, request to be made by, or otherwise to, the Collateral Agent, such reference shall be deemed to be to the Collateral Agent, acting in accordance with the Requisite Instructions.

17.3.2 No waiver of any provision of this Agreement, nor consent to any departure by any party therefrom, shall in any event be effective unless the same shall be in writing and signed by all the parties hereto, and then said waiver or consent shall be effective only in the specific instance and for the specific purpose for which given. No failure on the part of any party to exercise, and no delay in exercising, any right hereunder shall operate as a waiver thereof.

The Issuer Trustee has entered into this Agreement in its capacity as trustee of the Funding Vehicle. Any and all of the representations, warranties, undertakings, covenants, indemnities, agreements and other obligations made on the part of the Issuer Trustee herein are made and intended not as personal representations, warranties, undertakings, covenants, indemnities, agreements and other obligations by the Issuer Trustee or for the purpose or with the intention of binding the Issuer Trustee in its personal capacity, but are made and intended for the purpose of binding only the Assets of the Funding Vehicle. **SCHEDULE "Z"**

**SINKING FUND INVESTMENTS**

**Sinking Fund Composition Requirements**

To mitigate risk of principal loss in the BSF, hold limits will be placed on broad investment buckets, individual credits and term of the BSF investments.

The following table outlines allowed hold limits:

	Minimum Holding	Maximum Holding	Minimum Rating	Single Name Hold Limit
Canada and Canada-Guaranteed Bonds (includes MFLTA and LIL guaranteed bonds)	50%	100%	Not applicable	No Limit
AAA Provinces and AAA Corporates	0%	50%	AAA	Provinces 12.5% Corporate 5%
AA Provinces	0%	25%	AA-, Aa3, AA(low)	8.5%

The term of bonds in the BSF must not extend beyond the date on which the BSF funds are required for repayment of the relevant MFLTA or LIL bond maturity. This will ensure that the sinking fund does not take on any interest rate exposure.

BSF holdings must be denominated in Canadian dollars.

Requirements:

1. No structured products will be allowed in the sinking fund (this includes covered bonds, NHA MBS, callables, extendibles, derivatives);
2. To be considered an acceptable security for a given bucket above, the security must have ratings at or above the minimum rating indicated from two of Moodys, S&P, or DBRS;
3. If a holding, other than Canada and Canada-Guaranteed Bonds (including MFLTA and LIL guaranteed bonds), is downgraded such that it does not have two ratings that meet the minimum rating threshold (see above), the amount of the security that is beyond the maximum holdings of the bucket it qualifies for based on the downgraded rating, if any, must be sold within 90 days and any principal loss must be contributed by the Project Co

or made up in future periods by the BSF retaining interest income equal to the principal lost;

4. No interest may flow out of the BSF unless the balance of the BSF, on a mark-to-market basis, is greater than the BSF balance as indicated in the final sinking fund payment schedule at that point in time;
5. Collateral Agent is to give quarterly hold reports.

## 1.0 Purpose

The purpose of this document is to establish a *Basis of Design* (BOD) for the Lower Churchill Project (LCP). This BOD will form the overarching project definition that will be used to prepare engineering design philosophies, project contract packaging, project estimates, project schedules, design briefs, detailed design specifications and drawings, construction planning, and all other project functions that depend on a clear definition of what is to be specifically financed and constructed.

Typically, this BOD is not changed or altered without major cost and schedule implications to the project as a whole and would only be considered and approved by LCP Executive Management, and then only after a clear recommendation from the Project Director.

## 2.0 Scope

The objectives of this document are to establish the BOD for the following

- Muskrat Falls Generation
- Labrador Transmission Asset
- Labrador – Island Transmission Link

The Maritime Link is excluded from this BOD and will be prepared under separate cover.

## 3.0 Definitions

Throughout this document, the following defined words are italicized.

### **Basis of Design**

A compilation of the fundamental criteria, principles and/or assumptions upon which design philosophies and engineering design briefs will be developed.

### **Bulkhead Gates**

Steel gates used to isolate water passages for inspection or maintenance, which are installed and removed under balanced pressures.

### **Cavitation Resistant Design**

A design to prevent the formation of the vapour phase in a liquid flow when the hydrodynamic pressure falls below the vapour pressure of the liquid.

### **Change Control Board**

A panel within the Project Management Team that is responsible for making the ultimate decision to approve reject or elevate a Project Change Notice. See LCP-PT-MD-0000-PM-PL-0002-01, Project Change Management Plan.

---

<b>Cofferdam</b>	A temporary barrier for excluding water from an area that could otherwise be submerged.
<b>Construction Flood</b>	The seasonal peak river flow that the diversion facilities are designed to pass during construction of the dam. Accepted practice is based on a 5% risk of exceedence for the duration of the operation of the diversion facilities.
<b>Converter Station</b>	A <i>converter station</i> consists of equipment that converts power from ac to dc (rectifier) and dc to ac (inverter).
<b>Counterpoise</b>	Steel wire installed along the length of the overhead line and bonded (connected) to each tower. Used to reduce resistivity between the overhead line structures and the ground for lightning protection.
<b>Electrode</b>	A grounded means to provide a return path for unbalanced dc current for HVdc transmission system, enabling it to operate in mono-polar mode.
<b>Electrode Line</b>	A transmission line connecting the <i>electrode</i> site to the <i>converter station</i> .
<b>Fail Safe Design</b>	A design that in the event of the failure of equipment, processes or systems, the event will produce minimum propagation beyond the immediate environment of the failing entity. In addition, the failure will be economically acceptable, and those devices in the system will perform their intended function and eliminate danger upon the loss of actuating power.
<b>Fish Compensation Flow</b>	Minimum flow required downstream of the dam sites during reservoir impoundment which will be required to maintain fish habitat and reduce the effects of salt water intrusion into the Churchill River.
<b>Fish Habitat Compensation</b>	This involves replacing the loss of fish habitat with newly created habitat or improving the productive capacity of some other natural habitat.

---

<b>Flip Bucket</b>	A formed geometrical shape at the downstream end of a spillway discharge for the purpose of throwing the water clear of the hydraulic structure and into a <i>plunge pool</i> for energy dissipation.
<b>Francis Turbine</b>	A mixed flow reaction turbine with fixed runner vanes that converts hydraulic energy to mechanical energy where the water flow is controlled by the setting of the adjustable <i>wicket gates</i> .
<b>Full Supply Level</b>	The maximum normal operating water level, corresponding to the top of the live storage, in a reservoir.
<b>Generator</b>	An assembly of stationary and rotating components coupled to the turbine converting mechanical energy to electrical energy.
<b>Good Utility Practice</b>	The practices, methods and acts engaged in, or approved by, a significant portion of the electrical utility industry in North America, or any of the practices, methods and acts which, in the exercise of reasonable judgment in light of the facts known at the time the decision was made, are expected to accomplish the desired result at a reasonable cost consistent with good business practices, reliability, safety and expedition. <i>Good Utility Practice</i> is not intended to be limited to optimum practice, method or act to the exclusion of all others, but rather to include all practices, methods or acts generally accepted in North America.
<b>Kaplan Turbine</b>	A reaction type, axial flow, adjustable blade turbine that converts hydraulic energy to mechanical energy.
<b>Life Cycle Cost Analysis</b>	The process of selecting the most cost-effective approach from a series of alternatives so that the least long-term cost of ownership is achieved where life cycle costs are total costs estimated to be incurred in the design, development, production, operation, maintenance, support, and final disposition of an asset over its anticipated useful life from inception to disposal.
<b>Low Supply Level</b>	The minimum normal operating water level, corresponding to the bottom of the live storage, in a reservoir.

<b>Mass Impregnated (MI)</b>	An electrical insulation method used for power cables. The conductor is tightly wrapped with porous paper and saturated with oil, installed under pressure, to provide electrical insulation.
<b>Mitigation</b>	Measures implemented during the design, construction and operations phases of the project which are intended to avoid or reduce known or predicted impacts to the existing environment.
<b>Overhead Ground Wire (OHGW)</b>	Provides lightning protection for the power conductors. When used, direct lightning strikes are minimized, and potential disturbances due to lightning are reduced.
<b>Optical Ground Wire (OPGW)</b>	Performs the same function as <i>Overhead Ground Wire</i> ; however, it also carries a fibre optic communication system within the wire strands.
<b>Penstock</b>	A conduit that conveys water from the intake to the turbine.
<b>Plunge Pool</b>	A deep depression downstream of a spillway into which spilled water “plunges” to dissipate energy.
<b>Probable Maximum Flood (PMF)</b>	Canadian Dam Association terminology for “an estimate of hypothetical flood (peak flow, volume and hydrograph shape) that is considered to be the most severe ‘reasonably possible’ at a particular location and time of year, based on relatively comprehensive hydro meteorological analysis of critical runoff-producing precipitation (snowmelt if pertinent) and hydrologic factors favourable for maximum flood runoff”.
<b>Proven Technology</b>	This is the state of technology used in the design, construction and operation of any system including each piece of equipment, component or structure that has a proven record of performance. (First technology applications will only be considered after review by the LCP Technical and Design Integrity group and then only after approval by Executive Management).

---

<b>Rehabilitation</b>	Measures taken to remedy environmental damage to the environment.
<b>Reliability Level Return Period</b>	A statistical measurement denoting the average recurrence interval over an extended period of time. Used to estimate loads to design transmission lines.
<b>Rotor</b>	The multi-poled rotating component of the <i>generator</i> .
<b>Split Yard</b>	Switchyard divided physically into two independent sections with an electrical connection so as to limit the loss of generation in order to meet reliability criteria.
<b>Stoplog</b>	Steel sections used to isolate water passages for inspection or maintenance and are installed and removed under balanced pressures.
<b>Tailrace</b>	A watercourse that carries water away from a turbine or powerhouse.

<b>Waste Management</b>	The management of waste generation in order to reduce the volume of solid waste deposited in landfills through recycling and the reuse of materials where practical.
<b>Wicket Gates</b>	Adjustable guide vanes used to regulate the flow of water into a turbine.

## 7.0 Descriptions

### 7.1 General

This BOD includes Muskrat Falls Generation, Labrador Transmission Asset and the Labrador-Island Transmission Link.

The primary reason for developing Muskrat Falls Generation, the Labrador Transmission Asset and the Labrador - Island Transmission Link is to meet increased capacity and energy requirements on the Island of Newfoundland. The electrical system on the Island of Newfoundland will experience a capacity deficit in 2015 and an energy short fall in 2021. Extensive analysis of the alternative supply options for the Island has demonstrated that Muskrat Falls and the associated transmission interconnection is the least cost technically acceptable supply alternative for the Island. Muskrat Falls and the interconnection not only provide for future load growth but also facilitate the retirement of the Holyrood Thermal Generating Station virtually eliminating the Island's dependence on fossil fuel fired generation.

All design assumptions used to establish the BOD respect the following overarching principles:

- Only proven technologies will be considered, unless it can be clearly demonstrated to the satisfaction of the Engineering Manager, Project Managers, Project Director and VP of the LCP that emerging technologies can be as reliable and provide significant cost and/or schedule savings.
- Local climatic/service conditions such as ambient temperature, elevation, humidity, sea temperature, sea currents and wind will be respected throughout the Project.
- All generating plants and transmission systems will be remotely operated and monitored from NE-NLH's Energy Control Centre.
- All designs shall assume a 50 year design life for the purposes of evaluation.
- Environmental *mitigation* and *rehabilitation* will be designed by LCP prior to issuing requests for proposals leading to construction contracts.
- The designs will assume the use of existing transportation infrastructure to the maximum extent possible. In particular, existing roads, bridges, railways and wharfs.
- *Good Utility Practice* will be observed.
- *Fail Safe Design* principles will be employed.
- Principles of *Life Cycle Cost Analysis* will be employed.
- The designs will be consistent with the NE Safety and Health Program.
- The designs will be consistent with NE Environmental Policy and Guiding Principles.
- The designs will be consistent with NE Asset Management Policy and Guiding Principles.
- The designs will be consistent with all applicable governing Standards, Codes, Acts and Regulations.
- All assets and systems will be designed to ensure safety, reliability, efficiency and minimal impact to the environment.

- Land cables shall connect submarine cables to cable termination system within the transition compound.
- The route for the submarine cable(s) crossing shall be designed to meet the transmission, protection, reliability, and design life requirements, and give consideration to technical and economic optimization.
- Cable corridor as per Key Plan. (See Drawing 1).
- Cables shall be adequately protected along the entire length of the crossing as required. Cable protection methodology will employ proven technologies only, and may include rock placement, trenching, horizontal directional drilling (HDD) and concrete mattresses.
- Where discrete protection application is required, protection measures shall be designed to meet the transmission and reliability requirements.

#### 8520 Transition Compound – Northern Peninsula

- Situated on a level fenced site at Shoal Cove.
- Enclosed building and provision for submarine cable termination system and associated switching requirements.
- Concrete pads and steel structures to support the electrical equipment and switchgear.
- Cable to overhead line transition equipment.
- High-speed switching, control, protection, monitoring and communication equipment.

#### 8220 Soldiers Pond Converter Station

- 900 MW,  $\pm 350$  kV bi-pole, LCC *converter station* capable of operating in mono-polar mode.
- Each pole rated at 450 MW with 100% overload protection for ten minutes and 50% overload protection for continuous operation.

nearly as possible to their respective positions immediately prior to the implementation of such material change; provided, however, that until any such amendments shall have been agreed upon, the terms, conditions and undertakings of the applicable Muskrat/LTA Project Finance Document or Guarantee Transaction Document shall be interpreted and applied as if such material change did not apply to the Credit Parties and the accounting principles applicable to the Credit Parties immediately prior to the implementation of such material change shall continue to apply to the Credit Parties for the purpose of determining if the Credit Parties comply with the financial covenants of the applicable Muskrat/LTA Project Finance Document or Guarantee Transaction Document and the Credit Parties shall continue to provide Financial Statements under the applicable Muskrat/LTA Project Finance Document or Guarantee Transaction Document prepared in accordance with such accounting principles.

All payments made by the Issuer to Bondholders after the occurrence and during the continuance of an Event of Default will be made equally and rateably in respect of all amounts then due and payable to Bondholders.

### **3.3 Registration; Transfer; Exchange**

3.3.1 The Indenture Trustee will keep or cause to be kept by and at the principal office of the Indenture Trustee in the City of Toronto, Ontario and at such other place or places in Canada or by such other registrar or registrars as the Issuer may designate or appoint, with the approval of the Indenture Trustee, registers in which will be alphabetically entered the names (together with the addresses) of the holders of all Bonds and of all transfers of Bonds. The Indenture Trustee may act and rely on an opinion of counsel of the transferor that a transfer of a Bond is in accordance with Applicable Law, including securities legislation.

- 3.3.3 Neither the Issuer nor the Indenture Trustee nor any registrar will be required to make:

  - (c) an exchange of any Bonds on the day of any selection by the Indenture Trustee of such Bonds to be redeemed or until the date that the notice of redemption is mailed; or
  - (d) an exchange of any Bonds that have been selected or called for redemption, unless upon due presentation thereof for redemption such Bonds are not redeemed.

Notice of such request will be provided by the Indenture Trustee to the Issuer and the Guarantor.
- 3.3.5 Such registers will at all reasonable times, upon prior written notice to the Indenture Trustee, be open for inspection by the Issuer, the Guarantor and any Bondholder (including any Beneficial Owner who delivers a Beneficial Owner Declaration) and any other Person entitled thereto by law. Neither the Indenture Trustee nor any registrar for any of the Bonds nor the Issuer will be charged with notice of or be bound to see the execution of any trust, express, implied or constructive, in respect of any Bond and may transfer the same on the direction of the holder thereof, whether named as trustee or otherwise, as though that Person were the beneficial owner thereof.
- 3.3.6 Except as herein otherwise provided, in every case of exchange of Bonds or transfer of Bonds, the Indenture Trustee or other registrar may, subject to Applicable Law, make a sufficient charge to reimburse it for any stamp tax or

other governmental charge required to be paid, and in addition a reasonable charge for its services, for every Bond issued upon such exchange or transfer, and payment of such charges will be made by the Issuer.

- 3.3.8 Notwithstanding the foregoing, the transfer by a Beneficial Owner of an interest in any Bond represented by a Book Entry Bond will be effected only (a) with respect to the interests of Clearing Agency participants, through records maintained by the applicable Clearing Agency or its nominee for the Book Entry Bond, and (b) with respect to interests of Persons other than Clearing Agency participants, through records maintained by the applicable Clearing Agency's participants (and other securities intermediaries).

### **3.5 Mutilation, Loss or Destruction**

If any Bond issued hereunder becomes mutilated or is lost, destroyed or stolen, provided the Issuer or the Indenture Trustee has no notice that the Bond has been acquired by a *bona fide* purchaser, the Issuer in its discretion may issue, and thereupon the Indenture Trustee will certify and deliver, a new Bond of like date and tenor, with a notation as to the unpaid principal amount outstanding thereunder on the registration panel thereof, upon surrender and cancellation of the mutilated Bond or, in case of a lost or destroyed or stolen Bond, in lieu of and in substitution for the same. ### **3.6 Persons Entitled to Payment**

- 3.6.1 The Person in whose name any Bond is registered will be deemed the owner thereof for all purposes of this Indenture. Payment of or on account of the principal of, and interest and Premium (if any) on, such Bond will be made only to such registered holder and such payment will be good and sufficient discharge of the liability of the Issuer, the Indenture Trustee and each Fiscal Agent for the amounts paid, and none of the Issuer, the Indenture Trustee, any Fiscal Agent or any registrar will be bound to inquire into the title of any such holder (except as

so provided). Where Bonds are registered in more than one name, the principal of, and interest and Premium (if any), from time to time payable on, them may be paid by cheque or wire transfer payable to one of such holders failing written instructions from them to the contrary and the receipt by any one of such holders thereof will be a valid discharge to the Indenture Trustee and any other Fiscal Agent and to the Issuer.

3.6.2 The registered holder for the time being of any Bond will be entitled to the payment of all principal, interest and Premium (if any) payable thereon, free from all equities or rights of set-off or counterclaim between the Issuer and the original or any intermediate holder thereof (except any equities of which the Issuer is required to take notice by statute or by order of a court of competent jurisdiction), and all Persons may act accordingly. A transferee of a Bond will, after the appropriate form of transfer is lodged with the registrar and upon compliance with all other conditions in that behalf required by this Indenture or by any conditions endorsed on the Bond or by law, be entitled to be entered on any one of the Bond Registers as the owner of such Bond, free from all equities or rights of set-off or counterclaim between the Issuer and his, her or its transferor or any previous holder thereof, save in respect of equities of which the Issuer is required to take notice by statute or order of a court of competent jurisdiction.

3.6.3 Delivery of a Bond to the Indenture Trustee by the holder of such Bond will, upon payment thereof, be a good discharge to the Issuer of all obligations evidenced by such Bond. The Indenture Trustee will not be bound to inquire into the title of any such holder, save as ordered by a court of competent jurisdiction or as required by statute and neither the Indenture Trustee nor any Fiscal Agent will be bound to see to the execution of any trust affecting the ownership of any Bond or be affected by notice of any equity that may be subsisting in respect thereof.

### **3.7 Payments**

3.7.1 Subject to Section 3.8 and Section 3.9, unless otherwise provided with respect to any Series of Bonds in the Supplemental Indenture authorizing the creation and issue of such Series of Bonds, as the principal and interest on such Bonds becomes payable (except principal and interest payable at maturity or on redemption, which will be paid on such maturity or redemption upon presentation and surrender of such Bonds for payment), the Issuer will, at the request of the registered holder of Bonds:

- (a) five Business Days preceding the date on which principal and interest on such Bonds becomes due, forward or cause to be forwarded by prepaid post to the holder for the time being, or, in the case of joint holders, to one of such joint holders, at his, her or its address appearing on the appropriate Bond Register, one or more cheques (drawn on a Canadian chartered bank) for such principal or interest (less any tax required to be deducted or withheld plus any gross up required to be

paid pursuant to any Supplemental Indenture) payable to the order of such holder or holders and negotiable at par at each of the places at which interest on the Bonds is payable; or

- (b) effect a wire transfer of immediately available funds to the holder or, in the case of joint holders, to one of such joint holders, based on the wire transfer instructions provided by any such holder to the Issuer in the amount of such principal or interest (less any tax required to be deducted or withheld plus any gross up required to be paid with respect to such Bond);

in each case in immediately available funds for receipt not later than 1:00 p.m. St. John's, NL standard time on the date such payment is due. Any amount received by wire transfer after such time will be deemed received on the next Business Day and interest will accrue on such amount until receipt thereof. The forwarding of such cheque or cheques or implementation of such wire transfer will satisfy and discharge the liability for such payment to the extent of the sums represented thereby unless such cheque is not paid on presentation or is lost, destroyed or stolen or such wire transfer is not received on or prior to the applicable Payment Date. In the event of the non-receipt of any such cheque by the holder, or the loss or destruction thereof, the Issuer or the Indenture Trustee, upon being furnished with evidence of such non-receipt, loss or destruction and indemnity satisfactory to it, acting reasonably, will issue or cause to be issued to such holder a replacement cheque for the same amount. Interest in respect of the principal amount of the Bonds will cease to accrue from the due date thereof unless payment of principal or interest thereon, as the case may be, is improperly withheld or refused.

- 3.7.2 Subject to Section 3.7.3 and Section 3.8, payment of principal and the Premium (if any) due at maturity or repayment in full of any Bond will be made only upon presentation and surrender of the Bond to the Indenture Trustee or Paying Agent for cancellation.
- 3.7.3 The final payment on any Bond will, if such Bond is a Definitive Bond, be made only upon presentation and surrender of such Bond on or after the Payment Date at the principal office of the Indenture Trustee designated in the Supplemental Indenture creating such Bond if the Indenture Trustee acts as a Paying Agent for such Bond or, at the option of the holder, the principal office of any other Paying Agent (if any) designated in such Supplemental Indenture, or, if such Bond has been called for redemption or repayment, at any other place as may be specified in the notice of redemption or repayment. If such Bond is a Book Entry Bond on deposit with a Clearing Agency, such final payment will be deposited with such Clearing Agency and paid to the Beneficial Owners thereof in accordance with such Clearing Agency's practices and procedures.
- 3.7.4 The Issuer, in lieu of forwarding or causing to be forwarded any cheque in payment of principal or interest:

- (a) where banking law and practice permit, may make such payments by electronic funds transfer on the Payment Date; or
- (b) may agree in writing with any holder of Bonds to make payment to or to the order of such holder at any place at which such payment is due pursuant to Section 3.8;

in which case the Issuer may make all such payments by pre-authorized transfer payments or other form of electronic payments acceptable to the Indenture Trustee or holder of the Bond.

### **3.8 Payment Agreement**

Notwithstanding anything to the contrary contained in this Indenture or in any Bond, the Issuer may enter into an agreement with the registered holder of any Bond providing for the payment of principal of, and interest and Premium (if any) on, any of the Bonds held by such holder at a place and in the manner other than the place or in the manner of payment specified herein or in the Supplemental Indentures creating such Bonds for the making of all payments with respect to such Bonds to such Bondholder, without presentation or surrender of such Bonds (in this Section, a "**Payment Agreement**"). Payment of principal of, and interest and Premium (if any) on, any Bond in accordance with this Section 3.8 will absolutely satisfy and discharge the liability of the Issuer with respect to such payment under such Bond unless, in the case of payment by cheque, a cheque for payment thereof is not paid on presentation or is lost, destroyed or stolen. From time to time the Issuer will furnish to the Indenture Trustee and the Guarantor, a Trust Certificate as to the Persons with whom the Issuer has entered into a Payment Agreement.

### **3.9 Book Entry Bonds**

- 3.9.1 Except as may be specified in a Supplemental Indenture, the Bonds of each Series will be issued as one or more Book Entry Bond(s), each in the name of a Clearing Agency maintaining book entry records with respect to the Beneficial Owners of such Bonds.
- 3.9.2 When a Book Entry Bond has been deposited with a Clearing Agency, the rights of the Beneficial Owners of such Book Entry Bond with respect to the principal, interest or other amounts acquired, the time at which such amounts are acquired, the method of transfer and the ability and procedure to enforce payment will be as determined by the rules of the applicable Clearing Agency and Applicable Laws.
- 3.9.3 Payments of principal of, and interest and Premium (if any) on, any Bond represented by a Book Entry Bond will be made in accordance with the rules of the applicable Clearing Agency.
- 3.9.4 Neither the Issuer nor the Indenture Trustee will be under any obligation to deliver, nor will the Beneficial Owner of a Book Entry Bond have any right, other than as provided in Section 3.9.5, to require the delivery of a certificate evidencing the interest of such Beneficial Owner in such Book Entry Bond.

3.9.5 The Issuer will deliver to the Indenture Trustee Definitive Bonds to be issued to the Beneficial Owners of any Book Entry Bond if:

- (a) the Issuer is required to do so by Applicable Law;
- (b) the applicable Clearing Agency service for such Beneficial Owners ceases to exist or is unavailable or is predicted to be unavailable for a reasonable period of time;
- (c) the Issuer determines that the applicable Clearing Agency is no longer willing or able to discharge properly its responsibilities to such Beneficial Owners and the Issuer is unable to find a qualified successor;
- (d) the Issuer elects to terminate its involvement with the applicable Clearing Agency for any reason (including, without limitation, in circumstances where the Issuer considers it impractical or inefficient to effect any distribution or holding of Bonds through the applicable Clearing Agency or through the facilities of the applicable Clearing Agency); or
- (e) after the occurrence and during the continuance of an Event of Default, Beneficial Owners who have delivered Beneficial Owner Declarations and who hold more than 50% of the outstanding principal amount of a Book Entry Bond outstanding determine that continued use of the applicable Clearing Agency is no longer in the interests of such Beneficial Owners and notify the Indenture Trustee and the Issuer in writing to such effect.

3.9.6 Prior to the occurrence of any of the events in Section 3.9.5 and while the Bonds of any Series are represented by a Book Entry Bond, subject to the rights of Beneficial Owners to request and receive information and documentation and to issue Bondholders' Requests directing that specific actions be taken, where specifically provided for in this Indenture, the Issuer and the Indenture Trustee will deal with each applicable Clearing Agency for all purposes, including the delivery of reports and information and the making of payments on such Bonds, as the sole holder of such Bonds and the authorized representative of the Beneficial Owners of such Bonds. In particular, the Indenture Trustee will give only to each applicable Clearing Agency all notices, reports, certificates, financial statements and other communications required to be provided to the holders of such Bonds, (provided that the Indenture Trustee will, while such reports and statements are current, maintain custody of the same).

3.9.7 Upon the occurrence of any of the events described in Section 3.9.5, relative to any Book Entry Bond, the Indenture Trustee will notify all Beneficial Owners of such Book Entry Bond, through the applicable Clearing Agency's

depository system, of the availability of Definitive Bonds for such Series. Upon surrender by the applicable Clearing Agency of the relevant Book Entry Bond and instructions from it for re-registration, the Issuer will deliver to the Indenture Trustee Definitive Bonds of such Series to be issued to the Beneficial Owners of such Book Entry Bonds, the Indenture Trustee will register such Bonds according to the instruction from the applicable Clearing Agency for such re-registration and thereafter the Indenture Trustee and the Issuer will recognize the registered holders of such Definitive Bonds as the holders of such Bonds for all purposes of this Indenture. Payments of principal, interest, Premiums (if any) and other amounts with respect to such Bonds will thereafter be made directly to holders of Definitive Bonds in accordance with the procedures set out in this Indenture to holders in whose names the Definitive Bonds were registered. Any payment by cheque will be made by cheque mailed to the address of each such holder as it appears on the applicable Bond Register. The final payment on any such Definitive Bond, however, will be made only upon presentation and surrender of such Definitive Bond at the office or agency specified in this Indenture.

- 3.9.8 The Indenture Trustee will have no liability whatsoever for:
- (a) any aspect of the records relating to or payments made on account of any Beneficial Owner of any Book Entry Bond;
  - (b) maintaining, supervising or reviewing any records relating to the beneficial ownership of any Book Entry Bond; or
  - (c) any advice or representation made or given by or with respect to a Clearing Agency and made or given herein with respect to rules of such Clearing Agency or any action to be taken by a Clearing Agency or at the direction of a participant or beneficiary of a Clearing Agency.
- 3.9.9 Nothing herein or in a Supplemental Indenture will prevent the Beneficial Owners of a Book Entry Bond from voting any Bonds using duly executed voting instruction forms.

### **3.10 Signature**

Except as otherwise permitted or required with respect to any Bonds by the Supplemental Indenture creating such Bonds, all such Bonds will be signed (either manually or by facsimile signature) by an officer of the Issuer Trustee. If the Indenture Trustee receives a request for the issue of a new Bond pursuant to Section 3.3 or Section 3.5, and the Indenture Trustee has requested the signature by the Issuer Trustee of such new Bond and the Issuer Trustee has not signed and delivered the same to the Indenture Trustee for certification within 10 days of a request by the Indenture Trustee therefor, the Indenture Trustee will be entitled (but not obligated) to sign the same by its duly authorized officers on behalf of the Issuer Trustee, the Issuer Trustee hereby irrevocably appointing the Indenture Trustee its attorney for such purposes. A facsimile signature upon any Bond will, for all purposes of this Indenture, be deemed to be the signature of the Person whose signature it purports to be and to

have been signed at the time such facsimile signature is reproduced and, notwithstanding that any such Person whose signature, either manual or in facsimile, may appear on such Bond is not, at the date of this Indenture or at the date of the Bond or at the date of the certifying and delivery thereof, an officer of the Issuer Trustee, such Bonds will be valid and binding upon the Issuer Trustee and entitled to the benefit hereof and of the Federal Loan Guarantee.

### **3.11 Certification**

No Bond will be issued until it has been certified by or on behalf of the Indenture Trustee in a form referred to in Section 2.2. Such certificate will be conclusive evidence that such Bond is duly issued and is entitled to the benefits hereof and of the Federal Loan Guarantee. The certificate of the Indenture Trustee on any Bond will not be construed as a representation or warranty by the Indenture Trustee as to the validity of this Indenture or of such Bond. The certificate of the Indenture Trustee on any Bond will, however, be a representation and warranty by the Indenture Trustee that such Bond has been duly certified by or on behalf of the Indenture Trustee pursuant to the provisions of this Indenture.

## **ARTICLE 4**

### **SPECIAL PROVISIONS RELATING TO PLEDGE BONDS**

#### **4.1 Mandatory Provisions of Pledge Bonds**

Each Pledge Bond will be subject to the following conditions and restrictions, which will be set out in the Pledge related to such Pledge Bond and will be referenced or legended in such Pledge Bond:

- 4.1.1 such Pledge Bond will not be transferable or negotiable except to an assignee of all of the Borrowings secured by such Pledge Bond, or to an assignee or successor of the facility or security agent or other Person in a similar capacity in respect of the Borrowings secured by such Pledge Bond and only in conjunction with an assignment of the related Pledge or the entering into by the assignee of a Pledge complying with this Section 4.1;
- 4.1.2 notwithstanding the principal amount of such Pledge Bond, or the rate of interest expressed to be payable thereon, or that such Pledge Bond may be expressed to be payable on demand, such Pledge Bond will constitute an obligation of the Issuer to the holder thereof or other Persons in whose favour the Borrowings secured by such Pledge Bond are owed only to the extent of the lesser of:
  - (a) the outstanding Borrowings in principal, interest, premium, fees and other amounts (excluding any undrawn amount under a Credit Facility), provided, however, that for the purposes of this Section 4.1.2(a):

- (i) the amount of any contingent liability under an outstanding letter of credit, letter of guarantee, bankers' acceptance or similar instrument will be considered to be a Borrowing; and
    - (ii) the net marked to market value of a Financial Instrument Obligation which would be payable by the Issuer to a counterparty to such Financial Instrument Obligation will be deemed to be a Borrowing (but disregarding any netting of any rights or obligations of the parties to such Financial Instrument Obligation, or their Affiliates, in accordance with any other Financial Instrument Obligation that does not constitute a Borrowing); and
  - (b) the principal amount of such Pledge Bond and interest accrued thereon; provided, however, that no Pledge Bond will be deemed to have been redeemed only by reason of the Issuer having no indebtedness or liability to the Persons in whose favour any Borrowings are secured by any such Pledge at any time while a Pledge Bond is so Pledged, and will be payable only in accordance with the payment provisions applicable to the relevant Borrowings;
- 4.1.3 notwithstanding the principal amount of such Pledge Bond, the holder or holders thereof will, for the purposes of establishing a quorum under Section 11.1, be deemed to hold Bonds, and will only be entitled to that number of votes at any meeting of Bondholders or in respect of any Ordinary Resolution, Special Resolution, Extraordinary Resolution or Bondholders' Request to which the holder of an Obligation Bond would be entitled to vote or participate, in a principal amount equal to the lesser of:
- (a) the principal amount of all outstanding Borrowings (other than any undrawn amount under a Credit Facility) secured by such Pledge Bond at the time of calculation, provided, however, that for the purposes of this Section 4.1.3(a):
    - (i) the amount of any contingent liability under an outstanding letter of credit, letter of guarantee, bankers' acceptance or similar instrument will be considered to be principal outstanding under a Borrowing; and
    - (ii) in respect of a Financial Instrument Obligation:
      - (A) where no Event of Default then exists, the principal amount deemed to be outstanding in respect of such Financial Instrument Obligation will be such amount as may be determined in accordance with the relevant Supplemental Indenture or Pledge but not to exceed the net marked to market value of such Financial Instrument

Obligation which would be payable by the Issuer to such counterparty (but disregarding the netting of any rights or obligations of the parties to such Financial Instrument Obligation, or their respective Affiliates, in accordance with any other Financial Instrument Obligation that does not constitute a Borrowing); and

(B) while an Event of Default exists, the principal amount deemed to be outstanding will be the net amount which would be payable by the Issuer upon the early termination of such Financial Instrument Obligation in accordance with its terms; and

(b) the principal amount of such Pledge Bond;

4.1.4 all of the rights of the holder or holders of such Pledge Bond (including all voting rights) may be divisible with respect to all Borrowings secured by such Pledge Bond, provided that such rights, other than voting rights, may only be exercised by the holder of such Pledge Bond or its agent and that voting rights relating to such Pledge Bond may only be exercised by the holder thereof or any Person duly appointed as proxy for voting such Pledge Bond; and

4.1.5 upon termination or cancellation of all Credit Facilities, Financial Instrument Obligations and all other Borrowings that are secured by a Pledge Bond and the payment in full of all amounts outstanding under the related Underlying Pledge Bond Documents, the holder of such Pledge Bond will deliver the Pledge Bond to the Indenture Trustee for cancellation by the Indenture Trustee.

## **4.2 Determination of Borrowings Outstanding under Pledge Bonds**

The amounts outstanding under a Pledge Bond will be determined in accordance with Section 4.1. In order to determine the total outstanding Borrowings secured by any Pledge Bond:

4.2.1 for the purposes only of the definitions of "Bondholders' Request", "Ordinary Resolution", "Extraordinary Resolution" and "Special Resolution" and for the purposes of Sections 11.1, each Bondholder holding a Pledge Bond will deliver to the Indenture Trustee and the Guarantor, within five Business Days of receipt of a written request from the Indenture Trustee (or such shorter time as is set out in Section 11.13), a Bondholder's Certificate setting forth the total principal amount outstanding and secured by its Pledge Bond as of the date specified in such written request and the Indenture Trustee will deliver all such Bondholder's Certificates to the Issuer and the Guarantor and will make them available for inspection by any Bondholder for a period of three Business Days after the expiry of the time stated to provide the same in the written request. If any Bondholder fails to provide the Indenture Trustee with a Bondholder's Certificate setting forth such Bondholder's total principal

outstanding within the time stated in the written request (such Bondholder referred to in this Section 4.2 as a "**Defaulting Bondholder**"), the Indenture Trustee will for purposes of any determination required at such time consider such Defaulting Bondholder's total principal amount outstanding and secured by such Pledge Bond to be the amount as stated by the Issuer in a Trust Certificate delivered to the Indenture Trustee. If, within the time allotted for examination of the Bondholder's Certificates, neither a Bondholder nor the Issuer objects to the amount of the total principal amount outstanding set forth in any Bondholder's Certificate, then the Indenture Trustee may rely on such Bondholder's Certificates as conclusive and act thereon, or, to the extent applicable, on such Trust Certificates. If a Bondholder, the Issuer or the Guarantor disputes the amount of the total principal amount outstanding set forth in any Bondholder's Certificate, the Indenture Trustee will be entitled to independently determine directly or by an independent auditor or financial consultant, the amount of the total principal amount outstanding and secured by such Pledge Bond in respect of the disputed Bondholder Certificate and such determination, absent manifest error, will be conclusively binding on the Bondholders and the Issuer; and

- 4.2.2 for all other purposes including for the purposes of Sections 4.1.2 and 13.4, each Bondholder holding a Pledge Bond will deliver to the Indenture Trustee, within five Business Days of receipt of a written request from the Indenture Trustee (or such shorter time as the Indenture Trustee may specify), a Bondholder's Certificate setting forth the total amount outstanding and secured by its Pledge Bond in principal, interest, premium, fees and other amounts, as of the date specified in such written request and identifying each component of such total amount. The Indenture Trustee will deliver all such Bondholder's Certificates to the Issuer and the Guarantor and will make them available for inspection by any Bondholder for a period of three Business Days after the expiry of the time stated to provide the same in the written request. If any Bondholder fails to provide the Indenture Trustee with a Bondholder's Certificate setting forth such Bondholder's total amount outstanding within the time stated in the written request, the Indenture Trustee will for purposes of any determination required at such time consider such Defaulting Bondholder's total amount outstanding and secured by such Pledge Bond to be the amount as stated by the Issuer in a Trust Certificate delivered to the Indenture Trustee (that shall identify each component of such amount in principal, interest, premium, fees and other amounts). If, within the time allotted for examination of the Bondholder's Certificates, neither a Bondholder nor the Issuer objects to the total amount outstanding set forth in any Bondholder's Certificate, then the Indenture Trustee may rely on such Bondholder's Certificates as conclusive and act thereon, or, to the extent applicable, on such Trust Certificates. If a Bondholder, the Issuer or the Guarantor disputes the total amount outstanding set forth in any Bondholder's Certificate, the Indenture Trustee will be entitled to independently determine directly or by an independent auditor or financial consultant, the total amount outstanding and secured by such Pledge Bond in respect of the disputed

Bondholder Certificate and such determination, absent manifest error, will be conclusively binding on the Bondholder and the Issuer.

## ARTICLE 5

### REDEMPTION AND PURCHASE OF BONDS

#### 5.1 General

Provided that no Event of Default has occurred and is then continuing, the Issuer will have the right, at its option, to redeem either in whole at any time or in part from time to time prior to maturity, Bonds issued hereunder of any Series which by their terms are made so redeemable (subject, however, to any applicable restriction on the redemption of Bonds of such Series) with such Premiums (if any), on such date or dates, upon such notice, upon such terms respecting payment and otherwise in the manner that will be expressed in the Supplemental Indenture authorizing or providing for the issue of such Bonds or in such Bonds or otherwise in this Indenture. In the case of any redemption of Bonds (a) prior to the expiration of any applicable restriction on such redemption provided in the terms of such Bonds or elsewhere in this Indenture or in the applicable Supplemental Indenture, or (b) pursuant to an election of the Issuer that is subject to a condition specified in the terms of such Bonds, the Issuer will furnish to the Indenture Trustee a Trust Certificate evidencing compliance with such restriction or condition.

#### 5.2 Partial Redemption of Bonds

If less than all of the outstanding Bonds of any Series are to be redeemed, the Issuer will, in each such case, at least 15 Business Days before the notice of redemption is required to be given, notify the Indenture Trustee in writing of its intention to redeem Bonds of that Series and of the aggregate principal amount of such Bonds to be redeemed. Unless otherwise specified in the applicable Supplemental Indenture, the Bonds to be redeemed will be selected on a pro rata basis (to the nearest multiple of \$1,000 in accordance with the principal amount of Outstanding Bonds of that Series registered in the name of each holder. In the case of a partial redemption, Bonds may be redeemed only in denominations of \$1,000 or any whole multiple thereof. The holder of any Bond called for redemption in part only will surrender such Bond at the principal office of the Indenture Trustee (with, if the Issuer or the Indenture Trustee so requires, due endorsement by, or a written instrument of transfer in form satisfactory to the Issuer and the Indenture Trustee, duly executed by the holder thereof or its attorney duly authorized in writing) and the Issuer Trustee will execute and the Indenture Trustee will certify and deliver to the holder of such Bond, without charge, a new Bond or Bonds of the same Series and tenor (including a Book Entry Bond, as applicable) of any authorized denomination or denominations as requested by such holder, in the aggregate principal amount equal to and in exchange for the unredeemed portion of the principal of the Bond so surrendered. In the alternative, payment of the applicable Redemption Price of any portion of any Bond may be made to the registered holder thereof without presentation or surrender thereof to the Indenture Trustee and such registered holder may be requested to make the notation thereon if there will have been filed with the Indenture Trustee a certified copy of, or extract from, an agreement between the Issuer and such registered holder, (or the owner whose nominee the registered holder is), to the effect thereof. The Indenture Trustee will be under no duty to determine that such notations have been made by

such registered holder. Unless the context otherwise requires, the word Bond or Bonds as used in this Article 5 will be deemed to mean and include any part of the principal amount of any Bond which in accordance with the foregoing provisions has become subject to redemption.

### **5.3 Notice of Redemption**

Except as otherwise required or permitted with respect to any Bonds by the Supplemental Indenture creating such Bonds, notice of intention to redeem any Bonds (in whole or in part) prior to their Maturity Dates will be given by or on behalf of the Issuer to the holders of the Bonds which are to be redeemed, not more than 60 days nor less than 30 days prior to the Redemption Date in the manner provided in Section 15.2. Every notice of redemption will, unless all of the Bonds then outstanding are to be redeemed, state the designating numbers of the Bonds called for redemption and, in case a Bond is to be redeemed in part only, state that part of the principal amount thereof to be redeemed. Any notice of intention to redeem will:

- 5.3.1 specify the Redemption Date and the place of payment;
- 5.3.2 include an example of how the Redemption Price (including any Premium) will be calculated;
- 5.3.3 if less than all of the Outstanding Bonds of that Series are to be redeemed, identify (and in the case of partial redemption, specify the principal amount of) the particular Bonds to be redeemed;
- 5.3.4 state that all interest thereon will cease from and after such Redemption Date; and
- 5.3.5 include the name and telephone number of a representative of the Issuer Trustee who can be contacted if a Bondholder has further inquiries.

For purposes of this Section 5.3, if the Bonds of a Series are Book Entry Bonds only, notice to each applicable Clearing Agency will constitute notice to all the Bondholders of that Series. The Issuer will obtain from two Investment Dealers the applicable Canada Yield Price (as such term will be defined in any Supplemental Indenture), if applicable, necessary to determine the Redemption Price prior to the Redemption Date (and will use its commercially reasonable efforts to do so three Business Days immediately preceding the Redemption Date), and forthwith after determining such Redemption Price, the Issuer will provide the Indenture Trustee (by telephone and confirmed in writing) with particulars of the calculation of the Redemption Price. In the case of Book Entry Bonds, the redemption will take place in such manner as may be agreed by each applicable Clearing Agency, the Indenture Trustee and the Issuer.

### **5.4 Bonds Due on Redemption Dates**

Upon notice having been so given, all the Bonds called for redemption (or the portion of such Bonds called for partial redemption) will thereupon be due and payable at the Redemption Price on the Redemption Date specified in such notice, in the same manner and with the same effect as if it were the respective Maturity Date or demand date of such Bonds (or such portion being redeemed), anything in the Bonds or herein to the contrary notwithstanding, and from and after such Redemption

Date, if the moneys necessary to redeem (or partially redeem) such Bonds are deposited as hereinafter provided and affidavits or other proof satisfactory to the Indenture Trustee as to the mailing of such notices are lodged with the Indenture Trustee, such Bonds (or portions thereof as will have been redeemed) will not be considered as Outstanding hereunder and interest upon such Bonds (or portions thereof as will have been redeemed) will cease.

If any question arises as to whether any required redemption notice was given or deposit made, such question will be decided by the Indenture Trustee, whose decision will be final and binding upon all parties in interest.

### **5.5 Deposit of Redemption Moneys**

Upon Bonds having been called for redemption (or partial redemption) as provided in this Indenture, the Issuer will (a) deposit with the Indenture Trustee before 1:00 p.m. (St. John's, NL standard time) on the Redemption Date fixed in the applicable notice of redemption, the Redemption Prices of the Definitive Bonds (or portions thereof) to be redeemed, and (b) deposit with each applicable Clearing Agency, in accordance with its book entry only system, before 1:00 p.m. (St. John's, NL standard time) on the Redemption Date fixed in the applicable notice of redemption, the Redemption Prices of the Book Entry Bonds (or portions thereof) to be redeemed and will give written notice to the Indenture Trustee and the Guarantor that such payment has been made. From the sums so deposited, the Indenture Trustee will pay or cause to be paid to the holders of such Definitive Bonds called for redemption, upon surrender of such Definitive Bonds at the principal office of the Indenture Trustee in the City of St. John's, NL, and such other places (if any) as may be specified in the notice of redemption, the Redemption Prices for such Bonds.

### **5.6 Failure to Surrender Bonds Called for Redemption**

If any holder of a Bond called for redemption in whole or in part fails within 30 days after a Redemption Date to surrender its Bond, or does not, within such time, accept payment of the applicable Redemption Price payable in respect thereof or give such receipt therefor (if any) as the Issuer or the Indenture Trustee may require, provided that the Issuer has paid the applicable Redemption Price in accordance with Section 5.5 and directed the Indenture Trustee to set it aside in trust for such holder, either in the deposit department of the Indenture Trustee or an Affiliate of the Indenture Trustee or in a Permitted Financial Institution, such setting aside will, for all purposes, be deemed a payment to such Bondholder of the sum so set aside, and to that extent, such Bond will thereafter not be considered as Outstanding hereunder and the Bondholder will have no other right except (upon surrender and delivery up of his, her or its Bond) to receive payment out of the moneys so deposited of the applicable Redemption Price of such Bond.

Any moneys so set aside and interest thereon (if any) not claimed by or paid to the holder of the Bonds entitled thereto within six years after the date of such setting aside will be repaid to the Issuer by the Indenture Trustee on demand and thereupon the Indenture Trustee will be released from all further liability with respect to such moneys and thereafter the holders of the Bonds in respect of which such moneys were so paid to the Issuer will have no rights in respect thereof except to obtain payment of such moneys from the Issuer, subject to any defense the Issuer may have and to the provisions of this Indenture.

## **5.7 Purchase of Bonds**

With respect to any Series of Bonds, unless otherwise provided herein or in the Supplemental Indenture authorizing the creation and issue of such Series of Bonds, at any time and from time to time, provided that no Event of Default has occurred and is continuing, the Issuer may purchase Bonds:

- 5.7.1 by private agreement or in the open market; or
- 5.7.2 pursuant to a call for tenders given to all holders of the Bonds or the Series of Bonds to be purchased, by notice given in accordance with Section 15.2, which notice will specify the expiration date of the offer, the aggregate principal amount of Bonds offered to be purchased, the purchase date (which will not be earlier than 15 days after the giving of such notice), the purchase price and the place of payment thereof. In the event that an aggregate principal amount of the Bonds, or the Bonds of the Series to be purchased, is tendered which is greater than that offered to be purchased, such tendered Bonds will be purchased on a *pro rata* basis in the proportion, as nearly as practicable, which the principal amount of Bonds or Series of Bonds tendered by each holder bears to the principal amount of Bonds or Series of Bonds offered to be purchased by the Issuer.

## **5.8 Cancellation of Bonds**

All Bonds that are redeemed in whole under this Article 5 or under any Supplemental Indenture, and any Bonds that are purchased by the Issuer, will be forthwith delivered to the Indenture Trustee and will be cancelled by the Indenture Trustee, and no Bonds will be issued in substitution therefor.

## **5.9 Application to All Series of Bonds**

The provisions of Section 5.2 to Section 5.6, inclusive, will apply to each Series of Bonds if by their terms they are redeemable unless otherwise provided in instruments supplemental or ancillary hereto establishing the terms of the Bonds of such Series.

The Issuer will well, duly and punctually pay or cause to be paid to every Bondholder, without deduction or set-off, the principal of and interest and any other amounts due on the Bonds of which it is the holder (including, without duplication, the Premium (if any) on such Bonds), on the dates, at the places, in the moneys, and in the manner specified herein and in the Bonds and any Supplemental Indentures. In addition, the Issuer will observe and perform all conditions, covenants and requirements of the Indenture Documents.

# **ARTICLE 9**

## **REPORTING AND NOTIFICATIONS**

### **9.1 Statements, Certificates and Default Notices to be Provided By Indenture Trustee to Bondholders**

Subject to Section 16.9.10 and Section 16.12, the Indenture Trustee will, as soon as possible but in any event within three Business Days of receiving the same, deliver to all Bondholders, with a copy to the Guarantor, a notice of any Event of Default of which it becomes aware.

### **9.2 Information Generally Available to Bondholders**

Each Bondholder (and Beneficial Owner who delivers a Beneficial Owner Declaration) will have the right to obtain from the Indenture Trustee a copy of this Indenture, any Supplemental Indenture, the Federal Loan Guarantee and any Trust Certificate delivered to the Indenture Trustee pursuant to this Indenture (subject to executing a confidentiality agreement in respect of any Confidential Information referred to in any such Trust Certificate, in the form contemplated by Section 9.3.2).

### **9.3 Information Available to Bondholders by Bondholders' Request**

Each Bondholder (and Beneficial Owner who delivers a Beneficial Owner Declaration) will have the right to obtain from the Indenture Trustee a copy of any Indenture Document, written notice, report, certificate or other information that is in the Indenture Trustee's possession or was delivered to the Indenture Trustee in accordance with this Indenture (and is not specifically referred to in Section 9.2) if such Bondholder (or Beneficial Owner) delivers to the Indenture Trustee:

- 9.3.1 a Bondholders' Request in respect of the same, provided that a Bondholders' Request will not be required if any such request is made when an Event of Default exists; and
- 9.3.2 a confidentiality agreement in respect of any requested Confidential Information in a form approved by the Indenture Trustee acting on the advice of Counsel and after consultation with the Issuer.

## **ARTICLE 10**

### **SUPPLEMENTAL INDENTURES**

#### **10.1 Supplemental Indentures**

- 10.1.1 From time to time the Issuer and the Indenture Trustee may, and, when so directed by this Indenture, the Issuer and the Indenture Trustee will, without the prior consent or concurrence of the Bondholders, but subject to the consent of the Guarantor, execute, acknowledge and deliver by their proper officers or representatives, Supplemental Indentures or do and perform any other acts and things, and execute and deliver any other deeds or documents, for any one or more of the following purposes:
  - (a) evidencing the succession, or successive successions, of any other Person to the Issuer and the covenants of and obligations assumed by any such successor in accordance with the provisions of this Indenture;
  - (b) providing for the issue of Bonds of any one or more Series and for establishing the terms, provisions and conditions of a Series of Bonds provided, however, that the only event of default that will be permitted for any Series of Bonds is the Event of Default contemplated herein;
  - (c) adding to or altering the provisions hereof in respect of the registration and transfer of Bonds; making provision for the issue of Bonds in denominations other than those provided for in this Indenture or in any Supplemental Indenture and for the exchange of bonds of different denominations; and making any modification in the forms of Bonds, provided that, in each case, in the opinion of Counsel, the rights of Bondholders are not prejudiced thereby in any material respect;

- (d) implementing the provisions of any Bondholders' Request, Extraordinary Resolution, Special Resolution or Ordinary Resolution delivered or passed in accordance with the terms of this Indenture;
- (e) imposing additional limitations or restrictions on the Issuer, including on the ability of the Issuer to issue Bonds hereunder or limitations on any terms of the Bonds that may be issued;
- (f) making any modifications or amendments to any provisions of any Indenture Document that are of a formal, minor or technical nature;
- (g) making any addition to, deletion from or alteration of the provisions of any Indenture Document that the Issuer deems necessary or advisable and which, in the Opinion of Counsel, does not materially and adversely affect the interests of Bondholders or prejudice the rights of the Indenture Trustee hereunder; and
- (h) making any addition to, deletion from or alterations to the provisions of any Indenture Document that may be considered necessary or desirable by the Issuer and the Indenture Trustee to give effect to any Applicable Laws or Trust Indenture Legislation.

10.1.2 The Indenture Trustee may also, without the consent or concurrence of the Bondholders, by Supplemental Indenture or otherwise, concur with the Issuer in making any change or correction in any Indenture Document as to which it will have been advised by Counsel that the same is non-substantive or is required for the purpose of curing or correcting any ambiguity or defective or inconsistent provision or clerical omission or mistake or manifest error contained herein or therein or in any Supplemental Indenture or other Indenture Document. The Indenture Trustee will provide to each Bondholder and the Guarantor a copy of any Supplemental Indenture or other document entered into pursuant to the terms of this Section 10.1.

10.1.3 Any Supplemental Indenture referred to and permitted by Section 10.1 will become effective only on the conditions, to the extent and at the time provided in such Supplemental Indenture. The copy of every Supplemental Indenture delivered to the Indenture Trustee will be accompanied by an Opinion of Issuer Counsel stating that such Supplemental Indenture has been duly authorized, executed and delivered by the Issuer and that it constitutes legal, valid and binding obligations of the Issuer enforceable in accordance with its terms, subject to usual and customary exceptions.

10.1.4 No Supplemental Indenture will change or modify any of the rights or obligations of any Fiscal Agent without its prior written consent thereto.

## 10.2 Supplemental Indentures to Prevail

Where any provision of this Indenture is supplemented, modified or amended by the provisions of any Supplemental Indenture that authorizes a Series of Bonds, the provision of this Indenture will be read as so supplemented, modified or amended with respect to all Bonds of such Series. In the event of any conflict or inconsistency between any provision of this Indenture as so supplemented, modified or amended and any other provision of this Indenture, such other provision of this Indenture will be deemed to have been so supplemented, modified or amended to the extent necessary to remove all such conflict or inconsistency, but only with respect to Bonds issued pursuant to such Supplemental Indenture.

## ARTICLE 11

### BONDHOLDERS' MEETINGS

#### 11.1 Conduct of Meetings

Meetings of Bondholders will be convened, held and conducted in the following manner:

- 11.1.1 **Calling of Meetings.** At any time and from time to time the Indenture Trustee or the Issuer may convene a meeting of all Bondholders or the Bondholders of a Series provided that notice of such meeting is given as contemplated in Section 11.1.2. In addition, the Indenture Trustee will call such a meeting (i) if the Indenture Trustee receives a Bondholders' Request to this effect or (ii) if, after the occurrence of an Event of Default, the Indenture Trustee receives a written request to this effect from any one or more Bondholders (and/or Beneficial Owners who have delivered Beneficial Owner Directions) who hold not less than 1% of the principal amount of all Bonds then Outstanding. If the Indenture Trustee fails to give notice to convene a meeting within five Business Days after it has been so requested to convene a meeting by a Bondholders' Request, a Bondholder, a Beneficial Owner or the Issuer may convene such meeting and the notice calling such meeting may be signed by such Person as such Bondholder, Beneficial Owner or the Issuer (as applicable) may specify. Every such meeting will be held at the City of St. John's, NL or at such other place as the Indenture Trustee may, acting reasonably, in any case determine or approve. A meeting of Bondholders may be held by means of such telephone, electronic or other communication facilities as permit all Persons participating in the meeting to communicate with each other simultaneously and instantaneously, and each Bondholder will be permitted, if it so notifies the Indenture Trustee and complies with the requirements of Section 1.12 and provided that such Bondholder provides sufficient proof to the Indenture Trustee that it is a holder of Bonds or a duly appointed proxy therefor, to participate in any meeting of Bondholders by any of the foregoing means as it will elect.
- 11.1.2 **Notice of Meetings.** At least 10 but not more than 30 days' prior notice of any meeting of Bondholders will be given to the applicable Bondholders and

to the Issuer and the Guarantor, and such notice will state the time when, and the place where and the means by which, said meeting is to be held and will specify in general terms the nature of the business to be transacted at such meeting, but it will not be necessary to specify in the notice the text of the resolutions proposed to be passed. Subject to Section 11.1.3, notices must be given in the manner set forth in Article 15 and a copy thereof must be given to the Indenture Trustee (unless it called the meeting). It will not be necessary to specify in the notice of any adjournment of a meeting the nature of the business to be transacted at the adjourned meeting. The non-receipt of any such notice by a Bondholder will not invalidate any resolution passed at such meeting.

- 11.1.3 **Quorum.** At any meeting of Bondholders (or holders of any Series of Bonds, as applicable), subject as herein provided, a quorum will consist of Persons present or represented by proxy holding either personally or as proxies for holders not less than 25% of the total principal outstanding in respect of the Outstanding Bonds (or Series, as the case may be). If a quorum is not present on the date for which the meeting is called within 30 minutes from the time fixed for the holding of such meeting, such meeting, if convened by Bondholders or on a Bondholders' Request, will be dissolved; but in any other case, the meeting will be adjourned to the same day in the next week (unless such day is not a Business Day, in which case it shall be adjourned to the next following Business Day) at the same time and place. At the adjourned meeting the Bondholders present in person or by proxy will form a quorum and may transact the business for which the meeting was originally convened notwithstanding that they may not represent 25% of the principal amount of the Outstanding Bonds (or Series, as the case may be).
- 11.1.4 **Chairman.** Some Person, who need not be a Bondholder, nominated in writing by the Indenture Trustee, will be Chairman of the meeting but, if no Person is so nominated or if the Person so nominated is not present within 25 minutes after the time fixed for the holding of the meeting, the Bondholders present or represented by proxy will choose an individual present to be Chairman.
- 11.1.5 **Power to Adjourn.** The Chairman of any meeting at which a quorum of Bondholders is present may, with the consent of the majority of the Bondholders present, adjourn such meeting and no notice of such adjourned meeting need be given except such notice, if any, as the meeting so adjourned may resolve.
- 11.1.6 **Voting.** Each Bondholder present or represented at the meeting will have one vote for every \$1,000 principal amount of Outstanding Bonds of which it is then a holder. A proxy need not be a Bondholder. In the case of joint registered holders of a Bond, any one of them present in person or represented by proxy at the meeting may vote in the absence of the other or others; but if more than one of them is present in person or represented by proxy, they will vote together in respect of the Bonds of which they are joint registered holders. In the case of a Book Entry Bond, the applicable Clearing Agency

may appoint or cause to be appointed a Person or Persons as proxies and will designate the number of votes entitled to each such Person, and each such Person will be entitled to be present at any meeting of Bondholders and will be entitled to vote at such meeting in accordance with the number of votes set out in such Clearing Agency's designation. Subject to the provisions of Section 11.2, in the case of Bonds held by a Person other than an individual, an officer or representative of such Person may vote the Bonds held by it unless there is more than one officer or representative of such Person present at the meeting, and those officers and representatives present do not agree on how the Bonds may be voted, in which case a written proxy will be required to determine who may vote the Bonds and how such Bonds are to be voted.

- 11.1.7 **Poll.** Every question submitted to a meeting of Bondholders, except an Extraordinary Resolution or Special Resolution, will be decided in the first place by a majority of the votes given on a show of hands or, if any of the Bondholders are present by telephone, electronic or other acceptable communication facilities, by any other means by which the vote of such holder may be registered, and will be binding on all Bondholders. Upon the request of any Bondholder present at a meeting in Person or by proxy, a question will be determined by a poll. A poll will be taken on every Extraordinary Resolution or Special Resolution. The result of a poll will be deemed to be the decision of the meeting at which the poll was demanded and will be binding on the Bondholders for whom the meeting was held.
- 11.1.8 **Declaration by Chairman of Result of Vote.** At any meeting of the Bondholders, in cases where no poll is required or requested, a declaration made by the Chairman that a resolution has been carried, or carried by a particular majority, or lost, will be conclusive evidence thereof.

## **11.2 Regulations**

The Indenture Trustee may from time to time make reasonable regulations (and reasonable variations thereof) not inconsistent with the terms of this Indenture as it thinks fit with respect to the conduct of meetings including, without limitation, with respect to:

- 11.2.1 the voting by proxy of Bondholders and the form of instrument appointing proxies in which the same will be executed and with respect to the production of the authority of any Person signing on behalf of the giver of the proxy;
- 11.2.2 the lodging of instruments appointing proxies at any place or places and in such custody as the Indenture Trustee directs and the time, if any, before the holding of the meeting or adjourned meeting by which the same must be deposited;
- 11.2.3 the forwarding by the custodian thereof of particulars of instruments appointing proxies by letter, electronic mail or facsimile before the meeting to the Indenture Trustee; and

11.2.4 the calling of meetings of Bondholders and the conduct of business thereat.

Any regulations so made will be binding and effective and votes given in accordance therewith will be valid and will be counted. Instruments appointing proxies, the particulars of which are forwarded in accordance with the regulations, will confer the same right to vote as though the instruments themselves were produced at the meeting. Save as herein otherwise specified, the only Persons who will be recognized at any meeting of Bondholders as the holders of Bonds or as entitled to vote or be present at the meeting in respect thereof will be the holders of the Bonds in respect of which the meeting has been called or proxies of such holders.

### **11.3 Persons Who May Attend**

The Indenture Trustee, the Issuer Trustee and the Guarantor, by their respective employees, representatives, trustees, officers, partners, directors, agents and legal advisers, may attend any meeting of the Bondholders, but will have no vote as such.

### **11.4 Powers Exercisable by Extraordinary Resolution**

11.4.1 Subject to Sections 11.6 and 11.7 and in addition to all other powers conferred upon them by this Indenture or at law, Bondholders will have the power exercisable from time to time by Extraordinary Resolution to do any of the following provided that, where no Event of Default has occurred and is then continuing, the consent of the Guarantor is obtained:

- (a) sanction any change whatsoever in any of the provisions of this Indenture or any modification, waiver, abrogation, alteration, compromise or arrangement of the rights of the Bondholders against the Issuer or the Guarantor, whether such rights arise under this Indenture or the Bonds or otherwise, and to authorize the Indenture Trustee to concur in and execute any Supplemental Indenture embodying any such change, modification, waiver, abrogation, alteration, compromise or arrangement;
- (b) direct, authorize or require the Indenture Trustee to exercise or refrain from exercising any power, right, remedy or authority given to it by this Indenture, the Bonds or any Indenture Document in any manner specified in such Extraordinary Resolution subject to complying with Section 16.12;
- (c) sanction any scheme for the reorganization, arrangement, reconstruction or recapitalization of the Issuer into or with any other Person or for the consolidation, amalgamation, merger or sale of all or substantially all of the assets of the Issuer into, with or to any other Person;
- (d) file or prove a claim or debt against the Issuer in any Proceedings involving the Issuer and to generally act for and on behalf of Bondholders in any such Proceedings and to consent to any compromise or

arrangement with any creditor or creditors or any class or classes of creditors, whether secured or otherwise, and with holders of any shares or securities of the Issuer;

- (e) direct the Indenture Trustee to waive any Event of Default in accordance with Section 12.4, or cancel or annul any declaration made pursuant to Section 12.2, either unconditionally or on such terms as are specified in the Extraordinary Resolution;
- (f) restrain any Bondholder from taking or instituting any Proceeding for the execution of any trust or power hereunder or for the appointment of a liquidator or receiver where Article 12 or Article 13 has not been complied with, and to require such Bondholder to waive any Event of Default on which any Proceeding is founded where such waiver is approved in accordance with this Indenture; and, in case any Proceeding has been brought by a Bondholder or Bondholders pursuant to Section 14.1 after failure of the Indenture Trustee to act, power to direct such holder or holders and the Indenture Trustee to waive the Default in respect of which such Proceeding has been brought where such waiver is approved in accordance with this Indenture, upon payment of the costs, charges and expenses incurred in connection therewith, and to stay or discontinue or otherwise deal with any such Proceeding;
- (g) establish a committee, and to provide for the appointment of members thereof, with power and authority (subject to such limitations, if any, as may be prescribed in the resolution) to exercise, on behalf of the Bondholders of a Series or, provided the Bondholders of every other Series pass an Extraordinary Resolution to that effect, all Series (or if less than all Series pass such Extraordinary Resolution, the Series in respect of which such Extraordinary Resolution was passed) such of the powers of such Bondholders as are exercisable by Extraordinary Resolution or other resolution as will be included in such appointment, and to remove or dissolve any committee so appointed. The Extraordinary Resolution making such appointment may provide for payment of the expenses and disbursements of and remuneration of such committee and of the Indenture Trustee. Such committee will consist of such number of Persons as may be prescribed in the Extraordinary Resolution appointing it, and the members need not be Bondholders. Every such committee may elect its chairman, and may make regulations respecting its quorum, the calling of its meetings, the filling of vacancies occurring in its number and its procedures generally. Such regulations may provide that the committee may act at a meeting at which a quorum is present or may act by written resolutions signed by a number of members thereof necessary to constitute a quorum. All acts of any such committee within the authority delegated to it will be binding upon all applicable

Bondholders, and the Issuer, the Guarantor and the Indenture Trustee will be entitled to act and rely on actions taken by such committee. Neither the committee nor any member thereof will be liable for any loss arising from or in connection with any action taken or omitted to be taken by them in good faith, unless such action or omission constitutes gross negligence or wilful misconduct. Any such committee will be indemnified by the Issuer save and except with respect to any action or omission on their part that constitutes gross negligence or wilful misconduct. In addition, any such committee will have the right to cause the Issuer to acquire insurance to protect the committee members against liabilities that might be incurred by them in acting as members of such committee. The Bondholders creating such committee will advise the Indenture Trustee and the Issuer of its creation as soon as practicable following its creation; and

- (h) amend, alter or repeal any Extraordinary Resolution previously passed or any decisions of any committee appointed in accordance with Section 11.4.1(g).

11.4.2 Except as otherwise provided for herein, no action will be taken at a meeting of Bondholders which changes any provision of this Indenture or changes or prejudices the exercise of any right of any Bondholder except by Extraordinary Resolution as hereinbefore provided or by resolution or written instrument as hereafter provided. In addition, no action will be taken at a meeting of Bondholders which changes any entitlement of a Fiscal Agent unless the Fiscal Agent has approved in writing such revision.

## **11.5 Powers Cumulative**

Any one or more of the powers and any combination of the powers of this Indenture stated to be exercisable by Bondholders by Extraordinary Resolution or otherwise will be deemed to be several and cumulative and not dependent on each other, and the exercise of any one or more of such powers, or any combination of such powers from time to time will not exhaust or be deemed to exhaust the rights of the Bondholders to exercise such power or powers, or combination of powers, thereafter from time to time. No powers exercisable by Extraordinary Resolution pursuant to this Indenture will derogate in any way from any rights of the Issuer under or pursuant to this Indenture.

## **11.6 Series Approval**

11.6.1 If in the Opinion of Counsel delivered to the Indenture Trustee, any business to be transacted at a meeting of Bondholders, or any action to be taken or power to be exercised by instrument in writing under Section 11.10, does not adversely affect the rights of the holders of Bonds of any one or more Series under the Indenture Documents, the provisions of this Article 11 will apply as if the Bonds of such Series were not Outstanding with respect to such business, action or power and no notice of any such meeting need be given to the holders of the

Bonds of such Series. Without limiting the generality of the foregoing, a proposal to modify or terminate any covenant or agreement which, by its terms, is effective only so long as Bonds of a Series are Outstanding or which is enacted for the exclusive benefit of the holders of Bonds of one or more Series or which modifies, abrogates, alters, amends or otherwise affects the terms or provisions of only one or more Series will be deemed not to adversely affect the rights of the holders of Bonds of any other Series.

- 11.6.2 If in the Opinion of Counsel delivered to the Indenture Trustee, any business to be transacted at a meeting of Bondholders, or any action to be taken or power to be exercised by instrument in writing under Section 11.10, would affect the rights of the holders of Bonds of any one or more Series under the Indenture Documents (and for the purposes of this Article 11, the word "Series" will be deemed, unless the context otherwise requires, to mean any Series and also any part of a Series) in a manner or to an extent substantially differing from that in or to which it affects the rights of the holders of the Bonds of any other Series (as to which an Opinion of Counsel will be binding on all Bondholders, the Indenture Trustee, the Issuer and the Guarantor for all purposes hereof) then:
- (a) reference to such fact, indicating each Series so especially affected, will be made in the notice of such meeting and the meeting will be and is in this Section 12.6.2 called a "**Series Meeting**"; and
  - (b) the holders of Bonds of a Series so especially affected will not be bound by any action taken or power exercised at a meeting of Bondholders generally, or at a Series Meeting or by instrument in writing unless, in addition to compliance with the other provisions of this Article 11:
    - (i) at such meeting:
      - (A) there are present in Person or by proxyholders at least 50% in principal amount of the Outstanding Bonds of such Series (subject to the provisions of this Article 11 as to adjourned meetings); and
      - (B) the resolution is passed by an Ordinary Resolution or an Extraordinary Resolution of the holders of such Series who voted on the resolution at such meeting, as may be required; or
    - (ii) a written instrument is signed in one or more counterparts by the holders of more than 50% of the aggregate outstanding principal amount of the Bonds of such Series or, in the case of an Extraordinary Resolution, of more than 66<sup>2</sup>/<sub>3</sub>% of the aggregate outstanding principal amount of the Bonds of such Series.

## 11.7 Special Resolution

Notwithstanding any other term of this Indenture, a Special Resolution will be required in order to:

- 11.7.1 sanction the exchange of Bonds for, or the conversion of Bonds into, bonds, debentures, notes, or other securities or obligations of the Issuer or any other Person formed or to be formed and power to sanction the distribution of such bonds, debentures, notes, shares, warrants or other securities or obligations;
- 11.7.2 change the stated maturity of or the date for payment of any installment of interest and/or principal on any Bonds, reduce the principal amount thereof or the rate of interest payable thereon, change the currency in which any Bond or the interest thereon is payable, change the Redemption Price of any Bonds, or repay any principal under any Bonds sooner than permitted by the terms of the Indenture;
- 11.7.3 reduce the percentage in principal amount of Outstanding Bonds the consent of whose holders is required for any Bondholders' Request, Ordinary Resolution, Extraordinary Resolution or Special Resolution or any modification or amendment to this Indenture or to the terms and conditions of such Bonds, or for any waiver of compliance therewith, or reduce the requirements for voting and quorum at any meeting of Bondholders at which a resolution is to be adopted;
- 11.7.4 amend or vary the *pari passu* ranking of the Bonds as provided for in this Indenture;
- 11.7.5 amend or vary the provisions of Section 13.2;
- 11.7.6 modify, amend or waive this Section 11.7; or
- 11.7.7 authorize the Indenture Trustee to agree to any amendment, modification, waiver or variance of any provision of the Federal Loan Guarantee;

provided that, if no Event of Default has occurred and is then continuing, the consent of the Guarantor will also be required for each of the foregoing matters.

## 11.8 Deemed Consent of Bondholders

Subject to the provisions of Section 12.4 and the other provisions of this Indenture, if a Bondholder is entitled to and does, in a Bondholders' Request, request the Indenture Trustee to declare the principal and interest on the Bonds and the other Obligations to be due and payable, or to proceed to enforce the rights as set forth in Article 12 or Article 13, then, unless such Bondholder rescinds such request, the remaining Bondholders will be deemed to have consented to (a) such Bondholder's Request, including, without limitation, any such Bondholder's Request that directs and controls the actions of the Indenture Trustee in a manner that is not inconsistent with this Indenture, and (b) such actions ancillary to such Bondholder's Request as such

Bondholder or the Indenture Trustee may reasonably require in order to give effect to and to implement such Bondholder's Request.

### **11.9 Binding Effect of Resolutions**

Every Ordinary Resolution, Extraordinary Resolution or Special Resolution passed in accordance with the provisions hereof at a meeting of Bondholders or by an instrument in writing in lieu of a meeting of Bondholders will be binding upon all Bondholders, and each Bondholder and the Indenture Trustee will be bound to give effect thereto accordingly.

### **11.10 Signed Instruments**

Any resolution or instrument signed in one or more counterparts by the Bondholders or by holders of a Series of Bonds holding:

- 11.10.1 more than 50% of the aggregate outstanding amount of the Outstanding Bonds or such Series of Bonds, as the case may be, will have the same force and effect as an Ordinary Resolution duly passed at a meeting of the holders of such Bonds or such Series;

## 11.13 Emergency Meetings

## ARTICLE 12

### EVENTS OF DEFAULT AND ACCELERATION

#### 12.1 Event of Default

An "Event of Default" in respect of the Bonds issued hereunder shall occur if the Issuer fails to pay when due any principal, interest, Premium (if any) or other amount due and payable under any Obligation Bond or under any Underlying Pledge Bond Document secured by any Pledge Bond (an "Amount Due"), and neither the Issuer nor the Guarantor pays such Amount Due within five Business Days following written demand by any Fiscal Agent to the Guarantor and the Issuer in the manner contemplated in the Federal Loan Guarantee.

#### 12.2 Demand for Payment

Each Fiscal Agent that has not received an Amount Due by 1:00 p.m., St. John's, NL standard time on the due date thereof shall issue under the terms hereof and the Federal Loan Guarantee, by email on the due date of such Amount Due, a Payment Demand to the Guarantor and the Issuer demanding payment of the Amount Due. No instructions, consents or documentation shall be required from any Person in order for any Fiscal Agent to send a Payment Demand as aforesaid and the obligation to do so shall arise immediately upon an Amount Due not being received by 1:00 p.m., St. John's, NL standard time on the due date thereof.

#### 12.3 Indenture Trustee May Declare Principal and Interest Due

Subject to the provisions of Section 12.4 and Section 13.2, if an Event of Default occurs, the Indenture Trustee will, upon receipt of a Bondholders' Request, declare the principal of, interest and Premium (if any) and other amounts on the Bonds, all other amounts owing under the provisions of this Indenture and all Obligations to be due and payable and the same (including but not limited to interest accrued thereon from the time of such declaration and to the extent permitted by law at the Default Rate) will forthwith become immediately due and payable to the Indenture Trustee on demand, anything therein or herein contained to the contrary notwithstanding, in each case without presentment, protest or further notice, all of which are hereby waived. The Issuer will pay forthwith to the Indenture Trustee on such demand being made, for the benefit of the Bondholders, the amount of the principal of, interest then accrued and Premium (if any) on all the Bonds, all other amounts owing under the provisions of this Indenture and all Obligations together with interest on all such amounts at the respective rates of interest borne by such amounts (or, to the extent permitted by law, from the date of such declaration at the Default Rate), from the date of such declaration until payment is received by the Indenture Trustee. Such payment when made by the Issuer or the Guarantor will be deemed to have been made on the Bonds and any moneys so received by the Indenture Trustee will be applied in accordance with Section 13.4. The Issuer acknowledges, and the parties hereto agree, that each holder of a Bond has the right to maintain its investment in the Bonds free from prepayment by the Issuer (except as specifically provided for pursuant to the terms of such Bonds or any Supplemental Indenture related thereto) and that the provision for payment of a Premium by the Issuer in the event that the Bonds are prepaid or are accelerated as a result of an

Event of Default, is intended to provide compensation for the deprivation of such right under such circumstances.

#### **12.4 Waiver of Default**

If an Event of Default occurs, the holders of the Bonds will have the power by Extraordinary Resolution to instruct the Indenture Trustee, at any time, to waive such Event of Default or to annul any declaration made by the Indenture Trustee at the direction of the holders of the Bonds pursuant to Section 12.3 and, thereupon, the Indenture Trustee will waive such Event of Default or annul such declaration upon such terms and conditions as such holders will prescribe; provided always that no act or omission either of the Indenture Trustee or of the holders of Bonds will extend to or be taken in any manner whatsoever to affect any subsequent Event of Default or the rights resulting therefrom and no delay or omission of the Indenture Trustee or Bondholders will impair any rights or powers granted to them. Notwithstanding the foregoing, no waiver of an Event of Default or annulment of a declaration by the Indenture Trustee under Section 12.3 will be effective as regards any Affected Bonds unless it has been approved by an Extraordinary Resolution of the holders of such Affected Bonds.

If an Event of Default has occurred and prior to a declaration by the Indenture Trustee under Section 12.3, the Issuer or the Guarantor has cured the default giving rise to such Event of Default (even if the cure periods specified for the purposes of such Event of Default have expired), such Event of Default will be deemed to have ceased to exist for every purpose of the Indenture Documents.

### **ARTICLE 13**

#### **REMEDIES IN CASE OF DEFAULT**

##### **13.1 General**

13.1.1 If and so long as an Event of Default has occurred and is continuing, the Indenture Trustee may, subject to compliance with the provisions of Section 16.12, in its discretion or upon delivery to the Indenture Trustee of a Bondholders' Request, in addition to any rights or remedy provided by law, proceed to protect and enforce its rights and the rights of the Bondholders under this Indenture and the other Indenture Documents, by such appropriate private or judicial proceedings as the Bondholders' Request will provide, in order to protect and enforce such rights, whether for the specific enforcement of any covenant or agreement in this Indenture or the other Indenture Documents or in aid of the exercise of any power granted herein or therein, or to enforce any other proper remedy.

13.1.2 The Indenture Trustee will not exercise the powers contained in this Section 13.1 unless it has received a Bondholders' Request, and subject to compliance with Section 16.12.

- 13.1.3 Subject to the provisions of this Indenture, the Indenture Trustee may following enforcement of its rights hereunder , upon receipt of a Bondholders' Request to this effect: (a) grant extensions of time, (b) accept compositions or compromises, (c) grant releases and discharges, and (d) otherwise deal with the Issuer, the Guarantor, the debtors of the Issuer or the Guarantor, sureties and others as the Indenture Trustee sees fit without prejudice to the liability of the Issuer or the Guarantor to the Indenture Trustee or the Indenture Trustee's rights hereunder.
- 13.1.4 The Indenture Trustee may, subject to Section 13.4, apply any proceeds realized through the enforcement of its rights hereunder to payment of expenses in connection with the preservation and realization of its rights as described above and the Indenture Trustee may apply any balance of such proceeds to payment of the obligations of the Issuer and the Guarantor hereunder and under the Bonds in compliance with the terms hereof and, in the absence of such terms, in such order as the Indenture Trustee sees fit but subject to Applicable Laws.
- 13.1.5 All rights of action hereunder may be enforced by the Indenture Trustee without the possession of any of the Bonds or the production thereof on the Proceedings relative thereto.
- 13.1.6 No course of dealing on the part of the Indenture Trustee or any Bondholder, nor any delay or failure of the Indenture Trustee or of a Bondholder to exercise any remedy referred to in this Section 13.1, will operate as a waiver of any such remedy or will be construed to be a waiver of any Event of Default hereunder or acquiescence therein or will otherwise prejudice any rights, powers or remedies of the Indenture Trustee or such holder.
- 13.1.7 Unless and until it has been required so to do under the terms hereof, the Indenture Trustee will not be bound to give any notice or do or take any act, action or Proceeding by virtue of the powers conferred on it hereby. The Indenture Trustee will not be required to take notice of any Event of Default hereunder, other than in payment of any moneys required by any provision hereof to be paid to it, unless and until such time as it has received notice in writing of such Event of Default hereunder and in the absence of any such notice and subject to the foregoing, the Indenture Trustee may assume that the Issuer and the Guarantor are not in default hereunder.

## **13.2 Right of Holders of Certain Matured and Accelerated Bonds to Commence Enforcement**

Notwithstanding Section 13.1, Bondholders who hold any Series of Bonds (the "**Affected Bonds**") in respect of which:

- 13.2.1 the Maturity Date has passed, and all amounts outstanding in respect of such Bonds have not been repaid in full within five Business Days of such Maturity Date; or

- 13.2.2 all amounts outstanding or secured thereunder have been accelerated in accordance with their terms and the terms of the Supplemental Indenture creating such Bonds as a result of the occurrence of an Event of Default and the Bondholders are specifically entitled under such Bonds or Supplemental Indenture thereupon to direct the Indenture Trustee to commence enforcement in accordance with Section 13.1 of this Indenture if such Bonds are accelerated as a result of such Event of Default;

may issue Bondholders' Requests for the purposes only of directing the Indenture Trustee to declare the principal and interest due under the Affected Bonds and all other Obligations secured by any Pledge of any Pledge Bond that is an Affected Bond to be due and payable, to proceed to protect and enforce the rights of the Bondholders of such Affected Bonds under the Indenture Documents or to take any other action contemplated by Section 13.1 as regards the Affected Bonds only including taking any Proceeding against the Guarantor, subject in each case to compliance with the provisions of Section 16.12.

### **13.3 Bondholders May Direct Indenture Trustee's Action by Bondholders' Requests and Conflicts between Bondholders' Requests and Ordinary Resolution**

Except as herein otherwise expressly provided, Bondholders may, by Bondholders' Request, from time to time, direct and control the action of the Indenture Trustee in any Proceeding under this Article 13. Notwithstanding any Bondholders' Request (whether issued by holders of Bonds or Affected Bonds), subject to Section 12.4, Bondholders may by Ordinary Resolution direct and control the actions of the Indenture Trustee in enforcing the Indenture Trustee's rights under this Indenture and the other Indenture Documents, provided that any acceleration, realization or enforcement that is initiated by a Bondholders' Request is continued. If there is a conflict or inconsistency between any Bondholders' Request issued by the holders of all Bonds, any Bondholders' Request issued by the holders of Affected Bonds or any Ordinary Resolution passed by the holders of all Bonds in respect of the manner in which any remedies, enforcement or realization under the Indenture Documents are to be exercised, the Ordinary Resolution or, if no such resolution has been passed, the Bondholders' Request issued by the holders of all Bonds will govern to the extent of such conflict or inconsistency provided, however, that any acceleration, realization or enforcement initiated by a Bondholders' Request issued by the holders of Affected Bonds is continued as regards the Affected Bonds.

### **13.4 Application of Money**

Whenever money arising from the exercise of any rights provided for in this Article 13 are to be applied by the Indenture Trustee, money will be applied by the Indenture Trustee at such times, and from time to time, as the Indenture Trustee determines pursuant to the terms of this Indenture, having due regard to the amount of such money available for application and the likelihood of additional moneys becoming available for such application in the future. The Indenture Trustee may retain such amounts as it deems appropriate for such purposes as may be required to preserve and protect its rights hereunder. The deposit of such money with any Paying Agent, or otherwise setting aside money in trust for any proper purpose, will constitute a proper application by the Indenture Trustee, and the Indenture Trustee will not have any liability to the Issuer, the Guarantor, any Bondholder or any other Person for any delay in applying any such

money, so long as the Indenture Trustee acts with reasonable diligence, having due regard to the circumstances, and ultimately applies such money in accordance with such provisions of this Indenture as may be applicable at the time of application by the Indenture Trustee. Whenever the Indenture Trustee exercises its rights hereunder in applying such money, it will fix the date upon which such application is to be made and upon such date, interest on the amounts of principal to be paid on such date will cease to accrue. The Indenture Trustee will give such notice as it may deem appropriate for fixing of any such date to the Guarantor and each Bondholder.

13.4.1 For purposes of this Article 13, the amount due on any Pledge Bond will be equal to the lesser of the face amount of such Pledge Bond and the aggregate amount secured by the Pledge Bond (including accrued and unpaid interest thereon) at such time expressed in Canadian Dollars. For purposes of determining such aggregate amount owing, the Indenture Trustee may rely on a Bondholder's Certificate delivered pursuant to Section 4.2.2 setting forth in reasonable detail the aggregate amount owing by the Issuer from time to time for which the Pledge Bond was pledged to such Bondholder.

13.4.2 After an Event of Default and enforcement of the rights of the Indenture Trustee, any money received by the Indenture Trustee or any Bondholder pursuant to the provisions of this Article 13 or as a result of legal or other proceedings against the Issuer or the Guarantor pursuant thereto or from any trustee in bankruptcy, receiver or liquidator of the Issuer, will be applied as follows:

- (a) first, to pay or reimburse to the Indenture Trustee all fees, costs, charges, expenses, advances and remuneration owing to the Indenture Trustee (including any receiver) and any other Fiscal Agent in or about the execution of its trust, or otherwise in relation hereto, with interest thereon as herein provided;
- (b) second, in or towards payment of all interest (other than interest owing on any overdue interest and Premium (if any)) owing under the Bonds, on a *pro rata* basis;
- (c) third, in or towards payment of principal, interest on overdue interest and Premium (if any) and all other amounts (including amounts owing under Financial Instrument Obligations that do not constitute interest) owing under the Bonds, on a *pro rata* basis; and
- (d) fourth, in or towards payment of any other liabilities or obligations of the Issuer or the Guarantor to Bondholders owing hereunder or in connection with the Bonds;

and the surplus (if any) will be paid to the Issuer or its assigns.

### **13.5 Limitation of Indenture Trustee's Liability**

Subject to the provisions of Article 16, none of the Indenture Trustee, any receiver appointed by it or any other Fiscal Agent will be responsible or liable, otherwise than as a trustee, for any debts contracted by it, for damages to Persons or property, or for salaries or non-fulfillment of contracts during any period while the Indenture Trustee, any receiver or any other Fiscal Agent manages the property of the Issuer, nor will the Indenture Trustee, any receiver or any other Fiscal Agent be liable to account for anything except actual receipts, or be liable for any loss on realization or for any default or omission for which they might otherwise be liable other than as a result of gross negligence or wilful misconduct.

### **13.6 Protection of Persons Dealing with Indenture Trustee**

No Person dealing with the Indenture Trustee or its agents shall be required to (a) inquire whether the powers which the Indenture Trustee is purporting to exercise have become exercisable, (b) inquire whether any money remains due upon the Bonds, or (c) see the application of any money paid to it; and, in the absence of fraud on the part of such Person, such dealing will be deemed, so far as regards the safety and protection of such Person, to be within the powers conferred to the Indenture Trustee and to be valid and effectual accordingly.

### **13.7 Remedies Cumulative**

No remedy conferred in any Indenture Document upon or reserved to the Indenture Trustee, or upon or to the holders of Bonds, is intended to be exclusive of any other remedy, but each and every such remedy will be cumulative and will be in addition to every other remedy given under the Indenture Documents or now existing or hereafter to exist by law or by statute.

### **13.8 Indenture Trustees Appointed Attorney**

The Issuer hereby irrevocably appoints the Indenture Trustee to be the attorney in its name and on its behalf, to execute and do any deeds, assurances and things which the Issuer ought to execute and do, and has not executed or done, under the covenants and provisions contained herein and generally to use the name of the Issuer in the exercise of all or any of the powers hereby conferred on the Indenture Trustee. This power of attorney is coupled with an interest and will survive the winding-up, dissolution or bankruptcy of the Issuer and will only be exercisable by the Indenture Trustee following the occurrence and continuance of an Event of Default.

## **ARTICLE 14**

### **SUITS BY BONDHOLDERS AND INDENTURE TRUSTEE**

#### **14.1 Bondholders May Not Sue**

Subject to Section 14.3, no Bondholder has the right to institute any Proceeding for payment of any principal, interest, Premium (if any), fees or any other payment obligations owing on or secured by a Bond (including pursuant to the Underlying Pledge Bond Documents), or for the purposes of exercising any remedy authorized by any Indenture Document or by law or equity,

or for the execution of any trust or power under this Indenture or any other Indenture Document or available at law, or for the appointment of a liquidator or receiver or for a bankruptcy or other order under the *Bankruptcy and Insolvency Act* (Canada) or any other insolvency legislation, or to have the Issuer wound up, or to file or prove a claim in any liquidation or bankruptcy Proceedings, or for any other remedy hereunder, unless a Bondholders' Request to this effect has been issued in accordance with Section 12.3, Section 13.1 or Section 13.2 (as applicable) and the indemnity and funding commitment required by the Indenture Trustee has been delivered to the Indenture Trustee and there is compliance with the provisions of Section 16.12, and the Indenture Trustee has failed to act within 30 days thereafter. If the Indenture Trustee has so failed to act, but not otherwise, any Bondholder, acting on its own behalf and on behalf of all Bondholders, will be entitled to take Proceedings that the Indenture Trustee might have taken hereunder; it being understood and intended that no Bondholder will have the right in any manner whatsoever to adversely affect, disturb or prejudice rights created pursuant to this Indenture by its action, or to enforce any right hereunder or under any Bond, except subject to the conditions and in the manner herein provided, and that all powers and trusts hereunder will be exercised and all Proceedings at law will be instituted, had and maintained by the Indenture Trustee, except only as herein provided, and in any event for the equal benefit of all Bondholders unless the holder of an Affected Bond is instituting a Proceeding as a result of the Indenture Trustee's failure to act in accordance with the provisions of Section 13.2 and this Section 14.1, in which case such powers and trusts will be exercised and Proceedings instituted for the equal benefit of the holders of the Affected Bonds only. Any money received as a result of a Proceeding taken by any Bondholder (other than by the holder of an Affected Bond in accordance with the provisions hereof and, for clarity, any moneys received by such holder of an Affected Bond will not be subject to the provisions of Section 13.4.2) hereunder must be forthwith paid to the Indenture Trustee and will be distributed in accordance with the terms of this Indenture.

#### **14.2 Bondholders May Waive Default**

If any Proceeding is brought by the Indenture Trustee or any Bondholder after failure of the Indenture Trustee to act, Bondholders (where permitted pursuant to Article 12, Article 13 and Section 11.7) may, by Extraordinary Resolution, direct the Indenture Trustee or the Bondholder bringing any such Proceeding to waive the Event of Default in respect of which any such Proceeding has been brought upon payment of the costs, charges and expenses incurred by the Indenture Trustee or the Bondholder, as the case may be, in connection therewith, and to stay or discontinue or otherwise deal with any such Proceeding, and the Indenture Trustee or such Bondholder, as the case may be, will thereupon do so, except that only holders of Affected Bonds may waive any "Event of Default" under the terms of such Bonds or the applicable Supplemental Indenture that would entitle the holders of such Affected Bonds to issue a Bondholders' Request pursuant to Section 13.2.

#### **14.3 Unconditional Right of Bondholders to Receive Principal and Interest**

Each Bondholder will have the right on the terms stated herein, which is absolute and unconditional, to receive payment of the principal of, and interest on, such Bond when due as expressed in such Bond, and, subject to compliance with Section 14.1, to institute suit for the enforcement of any such payment.

#### **14.4 Payment Free from Equities**

A Bond will be paid by the Issuer, and may be assigned by a Bondholder, absolutely free and clear of all equities, rights of set-off, claims, defences, counterclaims, rights or other matters whatsoever (collectively, "**Claims**"), whether existing between a holder and the Issuer and/or any third parties or intermediate holders, and whether now existing or hereafter arising (before or after notice of any assignment to the Issuer) which could impair or adversely affect in any way the entitlement of any present or future holder to enforce the Bonds strictly in accordance with the terms and provisions hereof and of the Bonds, and the Issuer hereby agrees not to assert, as against any assignee or any present or future holder, any Claims arising out of this Indenture or any Bond that it had against a predecessor holder (other than the defence that obligations hereunder have been performed or observed by the Issuer). For greater certainty, but without limiting the generality of the foregoing, the foregoing will apply:

- 14.4.1 notwithstanding that such Claim arises due to any act or omission of any holder of a Bond or any intermediate holder of a Bond or any other party;
- 14.4.2 regardless of how closely or inseparably connected such Claim is to the obligations or whether it flows out of dealings or transactions related thereto; and
- 14.4.3 notwithstanding actual or constructive notice to any assignee or any present or future holder of a Bond, or to any intermediate holder of a Bond or any other third party of such Claim, regardless of when received or deemed to be received.

The foregoing will be without prejudice to the right of the Issuer to subsequently assert any Claim as against the assignor.

## **16.4 Funds held in Trust and Security Therefor**

All money held by any Fiscal Agent, as such, at any time pursuant to the terms of this Indenture will be and are hereby assigned, transferred and set over to such Fiscal Agent in trust for the purposes and upon the terms and conditions of this Indenture. Each Fiscal Agent will acknowledge such trust for the benefit of the Indenture Trustee. All money held by any Fiscal Agent, as such, may be deposited by such Fiscal Agent in its banking department if its banking department is a Permitted Financial Institution or with such other banks or trust companies as may be designated by the Issuer in accordance with the requirements hereof, including an Affiliate of the Indenture Trustee or another Fiscal Agent.

## **16.5 Resignation, etc. and Appointment of New Indenture Trustee**

- 16.5.1 The Indenture Trustee may resign its trust hereunder by giving to the Issuer and the Guarantor not less than 60 days notice in writing or such shorter notice as the Issuer and the Guarantor may accept as sufficient, and, if requested by either the Issuer or the Guarantor, by publishing notice thereof in the Authorized Newspapers, specifying the date on which such resignation will take effect. Subject to any conflict of interest permitted to the Indenture Trustee pursuant to this Indenture, the Indenture Trustee will resign in the event that a material conflict of interest arises in its role as a fiduciary under this Indenture and is not eliminated within 60 days after ascertaining that it has such a material conflict of interest. The Bondholders will also have the right to remove the Indenture Trustee by Ordinary Resolution, subject to the consent of the Guarantor. If the Indenture Trustee is dissolved, becomes bankrupt, is placed in liquidation or otherwise becomes incapable of acting hereunder it shall be deemed to have resigned on the occurrence of any such event. Any resignation by the Indenture Trustee will take effect only upon the appointment of the successor Indenture Trustee in accordance with Section 16.5.2. In each case, upon such resignation being

effective, the Indenture Trustee will be discharged from all further duties and liabilities hereunder.

- 16.5.2 In case of the resignation of the Indenture Trustee or its removal from office or incapacity to act, its successor will be at once appointed by the Issuer, provided that such successor so appointed will be a trust company qualified and authorized to carry on trust business in all Provinces of Canada, as necessary and applicable, there will not exist a material conflict of interest in its role as a fiduciary under this Indenture and the appointment is consented to by the Guarantor. Should the Issuer fail to make such appointment, then the successor will be appointed by a court of competent jurisdiction in NL upon the application of the Indenture Trustee, any Bondholder, any Beneficial Owner who has delivered a Beneficial Owner Declaration or the Guarantor, upon such notice to the Bondholders and given in such manner as will be determined by such court upon the application of the Indenture Trustee, Bondholder, Beneficial Owner or Guarantor. The Issuer will be responsible for all costs and expenses incurred in connection with the appointment of the replacement trustee. Any newly appointed Indenture Trustee will be vested with the same powers, rights, duties and responsibilities as if it had been originally named as Indenture Trustee, without any further assurance, conveyance, act or deed, but there will be immediately executed, at the expense of the Issuer, all such instruments (if any) as the new Indenture Trustee may be advised by Counsel are necessary or advisable. The retiring Indenture Trustee will, upon payment in full of its outstanding fees and expenses, duly assign, transfer and deliver to the new Indenture Trustee all property (including its records and registers) and money held and all records kept by the retiring Indenture Trustee, and will, upon the written request of the new Indenture Trustee, the Issuer or the Guarantor, execute and deliver an instrument assigning and transferring to such successor Indenture Trustee, upon the trusts expressed herein, all rights, powers and trusts of the retiring Indenture Trustee (including in its capacity as Indenture Trustee). Should any deed, conveyance or instrument in writing from the Issuer be required by any new Indenture Trustee for more fully and certainly vesting in and confirming to it such estates, properties, rights, powers and trusts, then any and all such deeds, conveyances and instruments in writing will, on request of the new Indenture Trustee, be made, executed, acknowledged and delivered by the Issuer. The Issuer will notify Bondholders and the Guarantor of such appointment and will publish notice of such appointment in the Authorized Newspapers, such publication to be made within 30 days of such appointment.

## **16.6 Merger, Consolidation or Assignment of Fiscal Agents**

Any company into which any Fiscal Agent may be merged or with which it may be consolidated or amalgamated, or any company resulting from any merger, consolidation or amalgamation to which it is a party, or any company to whom a Fiscal Agent may transfer all or substantially all of its corporate trust business, provided such company is a bank or trust company which is qualified to be a successor to such Fiscal Agent pursuant to Section 16.10.1, and is authorized by

law to perform all of the duties imposed upon it by this Indenture, will be the successor to such Fiscal Agent without the execution of any instrument or any further act unless in the Opinion of Counsel such action would be prudent. The Indenture Trustee will give written notice to the Issuer, the Guarantor and the Bondholders of any such consolidation, amalgamation, succession or transfer by publishing notice of the same (at the expense of the Issuer) in the Authorized Newspapers within 30 days of such consolidation, amalgamation or succession.

### **16.7 Fiscal Agents May Deal in Bonds**

Subject to Section 16.11 and Trust Indenture Legislation, Fiscal Agents may buy, lend upon and deal in the Bonds either with the Issuer or otherwise, and generally contract and enter into financial transactions with the Issuer or otherwise, without being liable to account for any profit made thereby.

### **16.8 Fiscal Agents Not Required to Give Security**

No Fiscal Agent will be required to give security for the execution of the trusts or its conduct or administration hereunder.

### **16.9 Protection of Fiscal Agents**

By way of supplement to the provisions of any law for the time being relating to indenture trustees, it is expressly declared and agreed as follows:

- 16.9.1 a Fiscal Agent will not be liable for or by reason of any statements of facts or recitals in this Indenture or in the Bonds (except the representation contained in Section 16.11 and in the certificate of the Indenture Trustee on the Bonds) or be required to verify the same, but all such statements or recitals are deemed to be made by the Issuer;
- 16.9.2 each Fiscal Agent will be protected in acting and relying upon any notice, resolution, request, consent, order, certificate, report, opinion or other document believed by it to be genuine and to have been signed by the proper parties or party;
- 16.9.3 a Fiscal Agent will have no obligation to calculate the amount due on any interest Payment Date for any Bonds; and, if at any time a Fiscal Agent is asked and if it agrees to make any interest payment, the Issuer covenants to provide to it a Trust Certificate detailing the amount due to each Bondholder on the relevant interest Payment Date, no later than seven Business Days prior to the interest payment due date, and the Fiscal Agent will be able to act and rely absolutely upon the accuracy and completeness of such Trust Certificate;
- 16.9.4 nothing herein contained will impose any obligation on a Fiscal Agent to see or to require evidence of registration or filing (or renewals thereof) of this Indenture or any instrument ancillary or supplemental hereto;

- 16.9.5 the Indenture Trustee will not be bound to give any notice of the execution hereof;
- 16.9.6 no Fiscal Agent will incur any liability or be responsible for the consequence of any breach on the part of the Issuer of any of the covenants herein contained or of any act of the agents or servants of the Issuer;

- 16.9.8 the Indenture Trustee will not be required to analyze or evaluate the insurance coverages of the Issuer and nothing herein will be deemed to make the Indenture Trustee responsible for failure by the Issuer to maintain insurance coverage or for any loss arising out of any want, defect or insufficiency in any insurance policy, or because of failure of any insurer to pay the full amount of any loss or damage insured against;
- 16.9.9 no Fiscal Agent will incur any liability with respect to the delivery or non-delivery of any certificate or certificates whether delivered by hand, mail or other means;
- 16.9.10 provided the Indenture Trustee has used its commercially reasonable efforts to cause the notices contemplated by Section 9.1 (including notice of an Event of Default) to be sent to Bondholders, the Indenture Trustee will not be liable for the failure of a Bondholder to receive any notice delivered by mail;
- 16.9.11 the duties and obligations of a Fiscal Agent will be determined solely by the provisions hereof and, accordingly, a Fiscal Agent will only be responsible for the performance of the duties and obligations it has undertaken herein;
- 16.9.12 save and except with respect to the sending of a Payment Demand in accordance with the provisions of Section 12.2, which each Fiscal Agent is bound to do without any instruction, consent or documentation of any kind from any Person as set forth therein, a Fiscal Agent will retain the right not to act and will not be liable for refusing to act unless it has received clear and reasonable documentation which complies with the terms of this Indenture, provided that such documentation must not require the exercise of any discretion or independent judgment;
- 16.9.13 in the event of any disagreement arising regarding the terms of this Indenture, a Fiscal Agent will be entitled at its option to refuse to comply with any or all demands whatsoever until the dispute is settled either by agreement amongst the various parties or by a court of competent jurisdiction;

- 16.9.14 the Indenture Trustee will not have any liability whatsoever for maintaining, supervising or reviewing any records relating to beneficial ownership interests in the Bonds;
- 16.9.15 a Fiscal Agent will be entitled to rely and act upon any direction, order, instruction, notice or communication provided to it under this Indenture which is sent to it by facsimile transmission or other form of electronic delivery; and
- 16.9.16 no Fiscal Agent (including the Indenture Trustee) will be liable for (a) any consequential, punitive or special damages or (b) not performing any act or fulfilling any duty, obligation or responsibility hereunder by reason of Force Majeure.

#### **16.10 Resignation or Removal of Paying Agents**

- 16.10.1 Any Paying Agent may at any time resign and be discharged of the duties and obligations created by this Indenture by giving at least 60 days written notice to the Issuer, the Guarantor and the Indenture Trustee. Any Paying Agent may be removed at any time, except during the continuance of an Event of Default, by an instrument to such effect signed by the Issuer and filed with such Paying Agent, the Guarantor and the Indenture Trustee. Any successor Paying Agent will be appointed by the Issuer with the consent of the Guarantor and will be a bank or trust company that meets the requirements of Section 16.1 and has, on a consolidated basis with its parent corporation, a combined capital and surplus of at least \$1 billion, or is otherwise approved by Bondholders by an Ordinary Resolution, and willing and able to accept the office of Paying Agent on reasonable and customary terms and authorized by law to perform all of the duties imposed upon it by this Indenture.
- 16.10.2 If a Paying Agent resigns or is removed, it will pay over, assign and deliver any money held by it as Paying Agent to its successor, or if there is no successor then appointed, to the Indenture Trustee. If for any reason there is no Paying Agent at any time, the Indenture Trustee will act as such Paying Agent.

#### **16.11 Conflict of Interest**

The Indenture Trustee represents to the Issuer and the Bondholders that at the time of the execution and delivery hereof no material conflict of interest exists in the Indenture Trustee's role as a fiduciary hereunder and agrees that, subject to any conflict of interest permitted to the Indenture Trustee pursuant to this Indenture, in the event of a material conflict of interest arising hereafter, it will, forthwith upon ascertaining that it has such conflict of interest, either eliminate the same within 60 days or resign in the manner and with the effect specified in Section 16.5.

#### **16.12 Conditions Precedent to Indenture Trustee's Obligation to Act**

- 16.12.1 The Indenture Trustee will not be bound to give any notice or do or take any act, action or Proceeding by virtue of the powers conferred on it hereby unless and until required so to do under the terms hereof; nor will the Indenture

Trustee be required to take any notice of any Event of Default hereunder, other than in payment of any money required by any provision hereof to be paid to it, unless and until notified in writing of such Event of Default, which notice will distinctly specify the Event of Default desired to be brought to the attention of the Indenture Trustee. In the absence of any such written notice, the Indenture Trustee may for all purposes of this Indenture conclusively assume that the Issuer and the Guarantor are not in default hereunder and that no Event of Default has occurred with respect to the payment of principal of or costs, fees, charges, expenses or interest on the Bonds or in the observance or performance of any of the covenants, agreements or conditions contained herein. No such written notice or request will limit any discretion herein given to the Indenture Trustee to determine whether or not the Indenture Trustee will take any action with respect to any Event of Default or take action without any such request.

- 16.12.2 The obligation of the Indenture Trustee to commence or continue any act, action or Proceeding for the purpose of enforcing any rights of the Indenture Trustee or the Bondholders hereunder will be conditional upon the Bondholders furnishing, when required by notice in writing by the Indenture Trustee, (a) sufficient funds to commence or continue such act, action or Proceeding and (b) an indemnity satisfactory to the Indenture Trustee to protect and hold harmless the Indenture Trustee against the costs, charges and expenses and liabilities arising directly or indirectly by reason therefor or to be incurred thereby and any loss and damage it may suffer by reason thereof (save and except for loss or damage resulting from the Indenture Trustee's gross negligence or wilful misconduct) and, without limiting the generality of the foregoing, such indemnity will include a full indemnity referable to any and all environmental liability.
- 16.12.3 None of the provisions contained in this Indenture will require the Indenture Trustee to expend or risk its own funds or otherwise incur financial liability in the performance of any of its duties or in the exercise of any of its rights or powers hereunder.
- 16.12.4 The Issuer and the Guarantor will provide to the Indenture Trustee an incumbency certificate setting out the names and sample signatures of those individuals who are authorized to give instructions to the Indenture Trustee hereunder. The Indenture Trustee will be entitled to rely on any certificate, Written Direction or notice given by any of the individuals so designated by the Issuer and the Guarantor until the Indenture Trustee receives a revised incumbency certificate hereunder. The Indenture Trustee may refuse to act upon any instructions that are given by an individual other than a person identified in the then most current incumbency certificate provided to the Indenture Trustee pursuant to this Section 16.12.4.

### **16.13 Employ Agents**

Each Fiscal Agent may employ such agents and other assistants as it may reasonably require for the proper determination and discharge of its duties hereunder, and may pay reasonable remuneration for all services performed for it in the discharge of the trusts hereof. All costs incurred therein will be payable on demand.

### **16.14 Reliance on Evidence of Compliance**

In the exercise of its rights, duties and obligations a Fiscal Agent may, if it is acting in good faith, act and rely, as to the truth of the statements and the accuracy of the opinions expressed therein, upon statutory declarations, opinions, reports or certificates furnished pursuant to any covenant, condition or other requirement of this Indenture or required by a Fiscal Agent to be furnished to it in the exercise of its rights and duties under this Indenture where such statutory declarations, opinions, reports or certificates comply with the requirements of this Indenture and the Fiscal Agent examines such evidence and determines that such evidence indicates compliance with the applicable requirements of this Indenture.

### **16.15 Provision of Evidence of Compliance to Indenture Trustee**

In addition to any other provisions of this Indenture, the Issuer will furnish to the Indenture Trustee and the Guarantor evidence of compliance with the conditions precedent provided for in this Indenture relating to:

- 16.15.1 the certification and delivery of Bonds applied for under any Supplemental Indenture;
- 16.15.2 the satisfaction and discharge of this Indenture; and
- 16.15.3 the taking of any other action or step to be taken by the Indenture Trustee at the request of or on the application of the Issuer.

### **16.16 Contents of Evidence of Compliance**

Evidence of compliance required by Section 16.15 will consist of:

- 16.16.1 a Trust Certificate (unless otherwise specifically provided) stating that such conditions precedent have been complied with in accordance with the terms of this Indenture; and
- 16.16.2 in the case of conditions precedent compliance with which are, by this Indenture, made subject to review or examination by a solicitor, an Opinion of Issuer Counsel that such conditions precedent have been complied with in accordance with the terms of this Indenture.

## **16.17 General Provisions as to Certificates, Opinions, Etc.**

- 16.17.1 Each Trust Certificate, Opinion of Counsel, Opinion of Issuer Counsel and certificate of an Investment Dealer required under this Indenture or furnished in connection with any application, Written Order, Written Request, Written Direction or Written Consent made to the Indenture Trustee or any Fiscal Agent pursuant to any provisions of this Indenture will specify the Section under which such application, Written Order, Written Request, Written Direction or Written Consent is being made and will include a statement that the Person signing such certificate or giving such opinion has read and is familiar with those provisions of this Indenture relating to the conditions precedent, with respect to compliance with which such evidence is being given. Each such certificate and opinion will, in addition, include:
- (a) a brief statement of the nature and scope of the examination or investigation upon which the statements or opinions contained in the evidence are based;
  - (b) a statement that, in the belief of the Person giving the evidence, he or she has made such examination or investigation as is necessary to enable him or her to make the statements or give the opinions contained or expressed therein;
  - (c) a statement whether in the opinion of such Person the conditions precedent, if any, with respect to compliance with which such evidence is being given have been complied with or satisfied; and
  - (d) a statement that (unless the context otherwise requires), in the case of a Trust Certificate, so far as known to the signer after having made due inquiry pursuant to this Section 16.17, no Event of Default has occurred and is continuing, or if an Event of Default has occurred and is continuing, specifying the same.
- 16.17.2 Whenever the delivery of a certificate, opinion or report is a condition precedent to the taking of any action by the Indenture Trustee hereunder, the truth and accuracy of the facts and opinions stated in such certificate, opinion or report will in each case be conditions precedent to the right of the Issuer to have such action taken.
- 16.17.3 Any application, written demand, statement, request, notice, designation, direction, nomination or other instrument to be made by the Issuer under any of the provisions hereof will, unless otherwise provided, be deemed sufficiently made and executed if executed by any officer of the Issuer Trustee having responsibility for and knowledge of the particular matter at issue.
- 16.17.4 The same officer or director of the Issuer Trustee, or the same Investment Dealer or other Person, as the case may be, may, but need not, certify as to all the matters required to be certified under any provision of this Indenture, but

different officers, directors, Investment Dealers or other Persons may certify different facts, respectively. Where any Person is required to make, give or execute two or more orders, requests, certificates, statutory declarations, opinions or other instruments under this Indenture, any such orders, requests, certificates, statutory declarations, opinions or other instruments may, but need not be, consolidated and form one instrument. Whenever any Trust Certificate or other certificate is required to state that no Event of Default has occurred and is continuing hereunder or to state any such Event of Default, each signer of that certificate may make such statement upon the basis of his or her best knowledge and belief after reasonable inquiry.

- 16.17.5 Any certificate or Opinion of Counsel or Opinion of Issuer Counsel may be based, insofar as it relates to factual matters or information in the possession of the Issuer, or another Person, upon the certificate of an officer or officers of the Issuer or such other Person, unless such Counsel or Issuer Counsel knows that the certificate with respect to the matters upon which its certificate or opinion may be based is untrue.
- 16.17.6 Where it is reasonable in the circumstances so to do:
- (a) the Indenture Trustee may request an Opinion of Counsel or Opinion of Issuer Counsel hereunder; and
  - (b) the Issuer Trustee may request an Opinion of Issuer Counsel hereunder.
- 16.17.7 Counsel or Issuer Counsel in giving any opinion hereunder may act and rely in whole or in part upon the opinions of other counsel provided that Counsel or Issuer Counsel, as applicable, will consider such other counsel as one upon whose opinion it may reasonably rely.
- 16.17.8 Counsel or Issuer Counsel in giving any opinions hereunder, as to matters of interpretation and fact not within the professional competence of Counsel or Issuer Counsel, as applicable, may rely upon other experts' certificates.
- 16.17.9 Any certificate of any expert, insofar as it relates to matters outside such expert's competence or responsibility, may be based upon a certificate or opinion of or upon representations by Counsel or Issuer Counsel or some other qualified expert, unless such first-mentioned expert knows that the certificate or opinion or representations with respect to the matters upon which his, her or its certificate may be based are erroneous, or in the exercise of reasonable care should have known that the same were erroneous.
- 16.17.10 The statements made in all Trust Certificates which may be executed and filed pursuant to the provisions of this Indenture will be true and correct, and the Issuer will duly perform any undertaking set forth on behalf of the Issuer in any such Trust Certificates.

#### 17.2 Survival

The provisions of this Article 17 will survive the termination or discharge of this Indenture and the payment or satisfaction of all Obligations, or the removal or resignation of any Fiscal Agent.

## ARTICLE 18

### DEFEASANCE

#### 18.1 Defeasance

18.1.1 If payment of all principal of, and interest and Premium (if any) on, all Outstanding Bonds in accordance with their terms and this Indenture is made, or is provided for in accordance with Section 18.2.1, and if all other sums payable by the Issuer hereunder or thereunder (including any and all fees and expenses of the Indenture Trustee and all Fiscal Agents) have been paid or provided for, then, subject to the further provisions of this Sections 18.1.1 and 18.2, the Issuer will be promptly and fully discharged and released from all Obligations and all Funds and Accounts will be paid to the Issuer in each case on the date the conditions set forth in Section 18.2 are satisfied (in this Article 18, "**defeasance**"). For this purpose, such defeasance means that the Issuer will be deemed to have paid and discharged the entire indebtedness represented by the Outstanding Bonds, which will thereafter be deemed to be

**"Outstanding"** only for the purposes of Section 18.3 and the other sections of this Indenture referred to in this Section 18.1.1, and to have satisfied all its other obligations under such Bonds and this Indenture insofar as such Bonds are concerned (and the Indenture Trustee, at the expense of the Issuer, will execute and deliver to the Issuer all such instruments as may be necessary to evidence such discharge and satisfaction) except for the following obligations which will survive until otherwise terminated or discharged hereunder:

- (a) the rights of holders of Outstanding Bonds to receive, solely from the trust fund described and as more fully set forth in Section 18.2, payments in respect of the principal of, and interest and Premium (if any) on, such Outstanding Bonds when such payments are due;
- (b) the Issuer's rights of redemption (to the extent such Bonds are redeemable in accordance with their terms) and obligations with respect to such Bonds under Sections 3.3, 3.5, and 3.9;
- (c) the rights, powers, trusts, duties and immunities of each Fiscal Agent hereunder and under the Supplemental Indentures and the obligations of the Issuer under Section 8.4;
- (d) the indemnities under Article 17, and
- (e) this Article 18.

18.1.2 If payment of all principal of, and interest and Premium (if any) on, all Outstanding Bonds of a Series in accordance with their terms, this Indenture and the Supplemental Indenture authorizing such Series is made, or is provided for in accordance with Section 18.2, and if all other sums payable by the Issuer hereunder or thereunder with respect to such Series have been paid or provided for, then, subject to the further provisions of this Section 18.1.2 and Section 18.2, the Issuer will be promptly and fully discharged and released from any and all of its obligations in respect of the Supplemental Indenture authorizing such Series and all Outstanding Bonds of such Series, in each case on the date the conditions set forth in Section 18.2 are satisfied (in this Article 18, a "**Series Defeasance**"). For this purpose, such Series Defeasance means that the Issuer will be deemed to have paid and discharged the entire indebtedness represented by the Outstanding Bonds of such Series, which will thereafter be deemed to be Outstanding only for the purposes of Section 18.3 and the other Sections of this Indenture referred to in this Section 18.1.2, and to have satisfied all its other obligations under such Bonds and the Supplemental Indenture authorizing such Series insofar as such Bonds are concerned (and the Indenture Trustee at the expense of the Issuer will execute and deliver to the Issuer all such instruments as may be necessary to evidence such discharge and satisfaction) except for the following obligations which will survive until otherwise terminated or discharged hereunder:

- (a) the rights of holders of such Series to receive, solely from the trust fund described and as more fully set forth in Section 18.2, payments in respect of the principal of, and interest and Premium (if any) on, such Series when such payments are due;
- (b) the Issuer's rights of redemption (to the extent such Series is redeemable in accordance with its terms) and obligations with respect to such Series under Sections 3.3, 3.5, and 3.9.
- (c) the rights, powers, trusts, duties and immunities of each Fiscal Agent hereunder and under the Supplemental Indenture authorizing such Series with respect to such Series and the obligations of the Issuer under Section 8.4;
- (d) the indemnities under Article 17; and
- (e) this Article 18.

## **18.2 Providing for Payment of Bonds**

Payment of all Outstanding Bonds or all Outstanding Bonds of a Series may be provided for by complying with the following conditions:

- 18.2.1 the Issuer irrevocably deposits or causes to be deposited with the Indenture Trustee as trust funds in trust for the purpose of making the following payments, specifically pledged as security for, and dedicated solely to, the benefit of the holders of such Bonds, money or non-callable Central Government Obligations which, through the scheduled payment of principal and interest (without reinvestment thereof) in respect of such Central Government Obligations in accordance with their terms, will provide, either alone or in combination with such money and not later than the due date of any payment of principal of, and interest and Premium (if any) on, such Bonds, money in an amount sufficient (after deducting any taxes payable on the income or capital gain generated on any amounts invested), in the opinion of an Independent Accountant expressed in a certificate delivered to the Indenture Trustee, to pay and discharge when due, whether at maturity or upon fixed redemption dates, the principal of, and interest on the applicable interest Payment Dates and the Premium (if any) on, such Bonds, and the Issuer will have irrevocably instructed the Indenture Trustee, in writing, to apply such money and/or proceeds of such Central Government Obligations to such payments with respect to such Bonds. Before making such a deposit, the Issuer may give to the Indenture Trustee a notice of its election to redeem all of such Bonds, to the extent redeemable in accordance with their terms, which notice will be irrevocable. Such irrevocable notice of redemption, if given, will be given effect in applying the foregoing. If any such Bonds are not subject to redemption within 45 days after the making of such a deposit, at the time of making such a deposit, the Issuer will give to the Indenture Trustee, in

form satisfactory to it, irrevocable instructions to notify the holders of such Bonds that payment of such Bonds has been provided for pursuant to this Article 18;

- 18.2.2 the Issuer delivers to the Indenture Trustee an Opinion of Issuer Counsel to the effect that the holders of such Bonds will not recognize a gain or loss for Canadian federal income tax purposes as a result of such deposit, defeasance (or Series Defeasance, as the case may be) or discharge, and will be subject to Canadian federal income tax on the same amount, in the same manner and at the same time as would have been the case if such deposit, defeasance (or Series Defeasance, as the case may be) and discharge had not occurred;
- 18.2.3 no Event of Default has occurred and is continuing on the date such deposit is made;
- 18.2.4 the Issuer delivers to the Indenture Trustee a Trust Certificate and an Opinion of Issuer Counsel, each stating that all conditions precedent provided for relating to the defeasance (or Series Defeasance, as the case may be) under Section 18.1 and this Section 18.2 have been satisfied; and
- 18.2.5 the Issuer delivers to the Indenture Trustee a Trust Certificate stating that, after the deposit is made, the Issuer will not be insolvent and that there is no intent to confer a benefit on the beneficiaries of the trust.

### **18.3 Deposit to Be Held in Trust**

All money and Central Government Obligations (including the proceeds thereof) deposited with the Indenture Trustee pursuant to Section 18.2 in respect of all Outstanding Bonds or all Outstanding Bonds of a Series will be held in trust and applied by the Indenture Trustee in accordance with the provisions of such Bonds, this Indenture and the applicable Supplemental Indentures, to the payment, either directly or through any Fiscal Agent, as the Indenture Trustee may determine, to the holders of such Bonds, when due, of all sums due and to become due in respect of the principal of, and interest and Premium (if any) on, such Bonds.

### **18.4 Reinstatement**

If the Indenture Trustee or any Fiscal Agent is unable to apply any money, any Central Government Obligations or the proceeds thereof in accordance with Section 18.3 by reason of any order or judgment of any Governmental Authority enjoining, restraining or otherwise prohibiting such application, then the Issuer and Guarantor's obligations under this Indenture, the applicable Supplemental Indentures and all Outstanding Bonds or all Outstanding Bonds of the applicable Series will be revived and reinstated as though no deposit had occurred pursuant to Section 18.2, until such time as the Indenture Trustee or such Fiscal Agent is permitted to apply all such money, Central Government Obligations and proceeds in accordance with Section 18.3; provided, however, that if the Issuer makes any payment of principal of, and interest and Premium (if any) on, any such Bond following the reinstatement of its obligations, the Issuer will be subrogated to the rights of the holders of such Bond to receive such payment from the money, Central Government Obligations and proceeds thereof held by the Indenture Trustee.

## **18.5 Indemnity**

The Issuer will pay and indemnify the Indenture Trustee against all Taxes, fees or other charges imposed on or assessed against the Central Government Obligations deposited pursuant to Section 18.2 or the principal and interest received in respect thereof.

## **ARTICLE 19**

### **MISCELLANEOUS AND GENERAL**

#### **19.1 Provisions Regarding Liability**

The Issuer Trustee has entered into this Indenture and the other Indenture Documents in its capacity as trustee of the Issuer. #### **19.2 Waiver of Trial by Jury**

The parties hereto hereby waive any right they may have to require a trial by jury of any proceeding commenced in connection herewith.

#### **19.3 Funds Held for Particular Bonds**

- 19.3.1 The amounts held by any Fiscal Agent for the payment of the interest, principal or redemption price or accrued interest or any other amount due on any date with respect to particular Bonds will, on and after such date and pending such payment, be set aside on its books and held in trust by it for the holders of the Bonds entitled thereto, and for the purposes of this Indenture and the applicable Supplemental Indentures, such interest, principal, redemption price or other amount, after the due date thereof, will no longer be considered to be unpaid.

- 19.3.2 If all Outstanding Bonds will have been defeased in accordance with Article 18, at the request of the Issuer, all money held by any Fiscal Agent (other than money held as trust funds for Bondholders' defeasance) will be paid over to the Issuer as its absolute property.
- 19.3.3 Anything in this Indenture to the contrary notwithstanding, any money held by a Fiscal Agent in trust for the payment and discharge of any of the Bonds which remains unclaimed for six years after the date when such Bonds have become due and payable, either at their stated Maturity Dates or by call for earlier redemption will, at the written request of the Issuer, be repaid by the Fiscal Agent to the Issuer, as its absolute property, and the Fiscal Agent will thereupon be released and discharged. Before being required to make any such payment to the Issuer, the Issuer will notify the relevant Bondholders and will cause to be published at least twice, at an interval or not less than seven days between publications, in the Authorized Newspapers, notice that such money remains unclaimed and that, after a date named in such notice, which date will be not less than 10 nor more than 20 days after the date of the first publication of such notice, the balance of such money then unclaimed will be returned to the Issuer.

#### **19.4 Counterparts**

This Indenture may be executed in several counterparts, each of which so executed will be deemed to be an original, and such counterparts together will constitute one and the same instrument.

#### **19.5 Successors and Assigns**

The provisions of this Indenture will enure to the benefit of, and be binding upon, the parties and their respective successors and, in the case of the Indenture Trustee, assigns, including any Person that acquires all or substantially all of the corporate trust business of the Indenture Trustee and assumes its obligations hereunder and under the other Indenture Documents to which it is a party. Any assignment by the Indenture Trustee will be effective without the necessity for any further notice or advice to or approval of the parties hereto and without any further act or formality whatsoever.

#### **19.6 AML Provision**

The Indenture Trustee shall retain the right not to act and shall not be liable for refusing to act if, due to a lack of information or for any other reason whatsoever, the Indenture Trustee, in its sole judgment, determines that such act might cause it to be in non-compliance with any applicable anti-money laundering or anti-terrorist legislation, regulation or guideline.

**GUARANTEE**

**2.1**            **Guarantee**

The Guarantor hereby irrevocably, absolutely and unconditionally guarantees to the Trustee the due and timely payment to the Financing Parties of all the Guaranteed Obligations at the times, in the currencies and in the manner provided for in the Trust Indenture, the Bonds and the other Financing Documents.

It is hereby agreed and declared that the obligations of the Guarantor under the foregoing guarantee shall extend (without any further act or formality) to all Guaranteed Obligations, whether heretofore or hereafter issued and the Guaranteed Obligations resulting therefrom.

**2.2**            **Nature of Guarantee**

The obligations of the Guarantor hereunder are and shall be irrevocable, absolute and unconditional, present and continuing and constitute a guarantee of payment and not merely a guarantee of collection. As and by way of indemnity, the Guarantor shall irrevocably, absolutely and unconditionally pay to the Trustee all such amounts as shall be required from time to time to ensure that the Financing Parties receive and are paid the full amount of the Guaranteed Obligations regardless of (a) the unenforceability or invalidity of the Guaranteed Obligations or any failure by the Issuer to duly and punctually pay in full the Guaranteed Obligations when due, (b) any loss of any right of the Financing Parties against the Issuer in respect of the Guaranteed Obligations for any reason whatsoever, including by operation of any bankruptcy, insolvency or similar such laws, any laws affecting creditors' rights generally or general principles of equity and (c) any act or omission of the Trustee or any other Fiscal Agent in connection with the enforcement of any of the rights of the Trustee against the Issuer.

**2.3**            **Payment Demand**

Within five (5) Business Days of its receipt of a written demand from any Fiscal Agent in the form attached as Schedule A (a "**Payment Demand**"), the Guarantor shall pay to the Trustee each amount claimed in the Payment Demand in immediately available funds and as directed by such Fiscal Agent in the Payment Demand. A Payment Demand will not be valid under this Guarantee Agreement unless the amount claimed is due to the Financing Parties and has not been paid by the Issuer by the time provided on the Due Date. Any amount payable by the Guarantor under this Guarantee Agreement which is not paid when required herein will bear interest from the date of such demand until paid in full at the rate or rates expressed to be payable on the corresponding Guaranteed Obligations owing under the applicable Financing Documents.

**2.4 Withholdings**

All amounts payable by the Guarantor under this Guarantee Agreement shall be made free and clear of and without deduction for or on account of any present or future taxes, charges, fees, levies, duties or withholdings of any kind. If the Guarantor is obliged to deduct or withhold an amount in respect of any such taxes, charges, fees, levies, duties or withholdings, then in such event the Guarantor shall pay to the Trustee such additional amount as is necessary to ensure that the Financing Parties receive and retain (on an after-tax basis, after payment of any and all income taxes on such additional amounts) an amount equal to the full amount otherwise payable hereunder, net of any such taxes, charges, fees, levies, duties or withholdings.

**2.5 Statement of Account**

Any statement of account prepared by the Trustee as regards the Guaranteed Obligations shall constitute *prima facie* evidence of the amount which, as at the date of the statement so prepared, is due by the Issuer to the Financing Parties and the Trustee and the Guarantor hereby acknowledges and agrees that, absent manifest error, it shall be bound by each such statement. The Trustee agrees to provide the Guarantor with the computations and calculations used by the Trustee to prepare each such statement of account promptly following a request therefor.

**2.6 No Requirement to Exhaust Recourse**

None of the Financing Parties shall be bound to seek or exhaust its recourse or remedies against the Issuer, any other guarantor or any other Person nor to enforce, marshal or value any liens before being entitled to payment under this Guarantee Agreement.

**2.7 Postponed Subrogation**

The Guarantor shall not be subrogated to any right of the Financing Parties until (i) indefeasible payment in full of all the Guaranteed Obligations and (ii) none of the Financing Parties has any remaining obligation to make any advance, make any payment, make any other extension of credit or provide any other financial service under, by reason of, or otherwise in respect of, any of the Financing Documents. Thereafter, the Guarantor (i) shall be subrogated to the rights of the Financing Parties under, pursuant to and otherwise in respect of all the Financing Documents and (ii) may require the Financing Parties to assign to it and each other Person that has made payment of the Guaranteed Obligations pursuant to any other guarantee, any of their respective rights then remaining with respect to the Guaranteed Obligations, but any such assignment shall be without representation or warranty by, or recourse against, any of the Financing Parties.

**2.8 Set-Off Acknowledgement**

The Guarantor hereby acknowledges and agrees that vis-à-vis the Financing Parties it has no available remedy of set-off. Accordingly, each payment to be made by the Guarantor hereunder in respect of the Guaranteed Obligations shall be made as required in whole without application of the right of set-off. Each payment to be made by the Guarantor hereunder in respect of the Guaranteed Obligations shall be made without regard to any equities between or

among any of the Issuer, the Guarantor and the Financing Parties and without counterclaim, reduction, recoupment, retention or diminution of any kind or nature (including as a result of any defence, right of action, recoupment, retention or counterclaim of any nature that the Issuer or the Guarantor may have or have had against any of the Financing Parties or any other Person).

**2.9 Imputation of moneys received in reduction of Guaranteed Obligations**

Notwithstanding every legal rule concerning the imputation of payments, all sums of money received by the Trustee from the Guarantor pursuant to the provisions of this Article 2 shall be applied in reduction of the Guaranteed Obligations as provided in the Financing Documents.

**2.10 Irregularity in borrowings of no effect on obligations of the Guarantors**

All sums of money, advances, renewals, commitments and undertakings related to the Guaranteed Obligations borrowed or effectively obtained from the Financing Parties by the Issuer pursuant to the Financing Documents shall be considered as being part of the Guaranteed Obligations, notwithstanding any irregularity, defect or flaw in the borrowing or obtaining of such sums of money, advances, renewals, commitments and undertakings, whether or not any one of the Financing Parties was aware of the same, it being expressly understood that any sum which cannot be recovered from the Guarantor as guarantor hereunder for reasons of voidness of the principal obligation may be recovered from the Guarantor under the indemnity contained in Section 2.2 and shall be payable to the Trustee, for the benefit of the Financing Parties, upon demand therefor by the Trustee.

**2.11 No Release of Guarantor**

Until the Guaranteed Obligations have been indefeasibly paid in full and all credit facilities, extensions of credit and accommodations to the Issuer under the Financing Documents have been cancelled and terminated, the obligations of the Guarantor hereunder shall not be reduced, limited or terminated, nor shall the Guarantor be discharged from any obligation hereunder for any reason whatsoever including, but not limited to (whether or not the same shall have occurred or failed to occur once or more than once and, in the case of extensions of time for payment, observance or performance of obligations, whether such extensions or any of them are for periods longer than the respective periods then specified therefor and whether or not the Guarantor shall have received notice thereof or assented thereto):

2.11.2 any composition or settlement (whether by way of release, acceptance of a plan of reorganization or otherwise) of the Guaranteed Obligations;

2.11.3 the release of any liens securing any or all of the Guaranteed Obligations or any release, compromise, settlement or extension of time for payment, observance or performance of any obligations under any of the Financing Documents;

2.11.4 any failure to exercise, delay in the exercise of, exercise or waiver of, or forbearance or other indulgence with respect to any rights, remedies and/or recourses available to any of the Financing Parties, including but not limited to:

- (a) any exercise of or failure to exercise any counterclaim, reduction, recoupment or retention;
- (b) any election of rights, remedies and/or recourses effected by any of them;
- (c) any subordination by operation of Applicable Law, whether present or future, of any or all of the Guaranteed Obligations;
- (d) any election not to or failure to protect or preserve any collateral or protect, preserve or continue the perfection of any lien on any collateral securing any or all of the Guaranteed Obligations;
- (e) any disallowance, invalidity, illegality, voidness or unenforceability of any or all liens securing any or all of the Guaranteed Obligations; and

2.11.5 any other act or failure to act which varies the risks of the Guarantor hereunder or, but for the provisions hereof, under the terms of any Applicable Law, would operate to reduce, limit or terminate the obligations of the Guarantor from any obligation hereunder.

## **2.12 Certain Waivers**

The Guarantor hereby waives:

2.12.1 any requirement and any right to require, that any power be exercised or any action be taken against the Issuer or any other guarantor or any collateral for any of the Guaranteed Obligations;

2.12.2 any and all defences to and counterclaims, reductions, retentions and claims of recoupment against any and all of the Guaranteed Obligations that may at any time be available to the Issuer or any other guarantor. As regards set-offs, the Guarantor confirms the acknowledgement contained in Section 2.8;

2.12.3 any notice of acceptance of the incurrence or renewal of any Guaranteed Obligations;

2.12.4 all notices which may be required by Applicable Law to preserve any rights against the Guarantor hereunder including, but not limited to, any notice of default, demand, dishonour, presentment and protest;

2.12.5 diligence;

2.12.6 any defence based upon, arising out of or in any way related to:

- (a) any claim that any election of remedies by the Financing Parties impaired, reduced, released or extinguished any rights that the Guarantor might otherwise have had against the Issuer or any other guarantor;
- (b) any claim that the Guaranteed Obligations should be strictly construed against the Financing Parties; and
- (c) any and all other defences related to the Guaranteed Obligations save and except for the receipt by the Financing Parties of the full, final and definitive payment of the amount of the Guaranteed Obligations and the cancellation in full of all credit facilities, extensions of credit and other financial services under the Financing Documents.

**2.13 No Release in Event of Bankruptcy**

No settlement or discharge of the Guaranteed Obligations shall be effective if any payment by the Guarantor in respect thereof is avoided or reduced by virtue of any provision or enactment relating to bankruptcy, insolvency, liquidation, fraudulent conveyances, assignments and preferences or similar laws of general application from time to time, and if such payment is so avoided or reduced, the Financing Parties and the Trustee shall be entitled to recover the amount of such payment as if such settlement or discharge had not occurred.

**2.14 Additional Security**

This Guarantee Agreement shall be in addition to and without prejudice to any other security by whomsoever given, held at any time by any of the Financing Parties. None of the Financing Parties shall be under any obligation to marshal any such security or any of the funds or assets they or any one thereof may be entitled to receive or have a claim upon.

**2.15 Continuing Liability of Guarantor**

The Guaranteed Obligations shall be deemed not to have been paid, observed or performed, and the liability of the Guarantor hereunder in respect thereof shall continue and not be discharged, to the extent that any payment, observance or performance thereof by the Issuer or any other guarantor, or out of the proceeds of any collateral (collectively referred to herein as the "**Disgorged Amount**"), is recovered from or reimbursed by or for the account of any of the Financing Parties for any reason, including, but not limited to, a preference or fraudulent transfer or by virtue of any subordination (whether present or future or contractual or otherwise) of the Guaranteed Obligations, whether such recovery or payment over is effected by any judgment, decree or order of any court or Governmental Authority, by any plan of reorganization or by settlement or compromise by any of the Financing Parties (whether or not consented to by the Issuer, the Guarantor or any other guarantor) of any claim for any such recovery or payment over. The Guarantor hereby expressly waives the benefit of any Applicable Law of limitations and agrees that it shall be liable hereunder whenever such a recovery or payment ever occurs.

**2.16 Continuance of Guarantee Agreement**

Subject to Section 2.15, this Guarantee Agreement shall continue in full force and effect until the indefeasible payment, observance and performance in full of the Guaranteed Obligations and the cancellation of all the credit facilities, extensions of credit and financial services to the Issuer, provided, however, that where at any time any of the Financing Parties is required to pay over any Disgorged Amount, such Person shall be permitted to make a claim therefor under the provisions of Section 2.15.

**2.17 Reasonableness of Waivers, Renunciations, Declarations and Authorizations**

The Guarantor agrees that each of the waivers, renunciations, declarations and authorizations set forth in this Guarantee Agreement is made with full knowledge of its significance and consequences and if any of such waivers, renunciations, declarations and authorizations is determined to be contrary to any Applicable Law or public policy, such waivers, renunciations, declarations and authorizations shall be effective only to the maximum extent permitted by Applicable Law.

**2.18 Authority to Modify Guaranteed Obligations**

The Guarantor expressly authorizes the Financing Parties or any one thereof, at any time and from time to time, without notice and without affecting the liability of the Guarantor hereunder, to:

2.2 **Purpose**

All Advances under the LIL Facilities shall be used by the Partnership exclusively for the purpose of financing the Project Costs.

2.3 **LIL Construction Facility Limit**

2.3.1 As of the LIL Second Amendment and Restatement Effective Date, the aggregate amount of the LIL Construction Facility is CDN\$3,375,000,000, comprised of the following:

2.3.1.1 as to CDN\$2,400,000,000, the Initial Construction Tranches, each such Initial Construction Tranche being for an amount equal to the aggregate principal amount of FV Bonds issued under the series of FV Bonds listed in Schedule "JJ" under the heading

"Corresponding FV Bonds Series" opposite the name of such Initial Construction Tranche;

2.3.1.2 as to CDN\$975,000,000, the New Construction Tranches, each such New Construction Tranche being for an amount equal to the aggregate principal amount of FV Bonds issued under the series of FV Bonds listed in Schedule "KK" under the heading "Corresponding FV Bonds Series" opposite the name of such New Construction Tranche (minus the portion of CDN\$75,000,000 representing the rateable share of the amount such series of FV Bonds over CDN\$1,050,000,000).

Immediately following the Commissioning Date, the LIL Construction Facility shall automatically be increased by CDN\$75,000,000, such increase to be apportioned as among the New Construction Tranches in accordance with the proportions established in paragraph 2.3.1.2.

2.3.2 Where pursuant to the terms hereof the LIL Construction Facility or any Construction Tranche thereof is cancelled, reduced or terminated, any such cancellation, reduction or termination thereof shall be permanent and, with respect to any reduction, such amount may not be subsequently increased.

#### 2.3A **Working Capital Revolving Facility Limit**

2.3A.1 As of the LIL Second Amendment and Restatement Effective Date, the aggregate amount of the Working Capital Revolving Facility is CDN\$75,000,000, divided as follows as amongst the Working Capital Revolving Tranches, each such Working Capital Revolving Tranche being for an amount equal to the aggregate principal amount of FV Bonds issued under the series of FV Bonds listed in Schedule "LL" under the heading "Corresponding FV Bond Series" opposite the name of such Working Capital Revolving Tranche (minus the portion of CDN\$975,000,000 representing the rateable share of such series of FV Bonds over CDN\$1,050,000,000). #### 2.4 **Nature and Availability**

2.4.1 The LIL Construction Facility is available on a non-revolving basis such that the Partnership may not reborrow the whole or any part of any Advance previously repaid, any such repayment automatically reducing the LIL

Construction Facility by an amount equal to the amount repaid. Any such reduction of the LIL Construction Facility resulting from (i) a prepayment on any LIL Voluntary Prepayment Date shall result in a rateable reduction of each Initial Construction Tranche or each New Construction Tranche, as the case may be, and (ii) a repayment pursuant to Section 2.6 shall result in a reduction of the Construction Tranche to which such repayment relates by an amount equal to such repayment. Subject to Section 2.7, and, further thereto, the rateable reduction of each Working Capital Revolving Tranche, the Working Capital Revolving Facility is available on a revolving basis such that the Partnership may reborrow the whole or any part of any Advance previously repaid provided, however, that as of and from, and including, the first LIL Drawdown under Section 7.9, the Working Capital Revolving Facility shall cease to be available on a revolving basis.

2.4.2 The parties acknowledge and agree that prior to the date hereof, an amount of CDN\$2,042,288,737.84 was drawn under the LIL Construction Facility, and that accordingly that amount is no longer available for drawdown under the LIL Construction Facility. The LIL Facilities are available in Canadian Dollars only.

2.4.3 LIL Drawdowns under the LIL Construction Facility and the Working Capital Revolving Facility may only be made during the Construction Period.

## 2.5 **Borrowing Procedures**

In order to obtain a LIL Drawdown under the LIL Construction Facility on any LIL Drawdown Date hereunder, the Partnership must deliver to the Collateral Agent a LIL Draw Request at the latest by 10:00 a.m., Newfoundland Time, concurrently with the Funding Request or the Final Funding Request, as the case may be, relating to the proposed LIL Drawdown Date. In order to obtain a LIL Drawdown under the Working Capital Revolving Facility on any LIL Drawdown Date hereunder, the Partnership must deliver a Working Capital Funding Request within the time periods provided in Section 7.8 or 7.9, as the case may be. Any portion of any LIL Drawdown forming part of (i) the aggregate principal amount of CDN\$2,400,000,000 to be first drawn under the LIL Construction Facility shall be apportioned rateably amongst each of the Initial Construction Tranches, (ii) the balance of the aggregate principal amount drawn under the LIL Construction Facility shall be apportioned rateably amongst each of the New Construction Tranches and (iii) any principal amount drawn under the Working Capital Revolving Facility shall be apportioned rateably amongst the Working Capital Revolving Tranches. Once delivered, no LIL Draw Request may subsequently be revoked or withdrawn by the Partnership.

## 2.6 **Repayments of the LIL Construction Loan**

The Partnership hereby agrees to repay in respect of each Construction Tranche on the Corresponding Tranche Maturity Date the sum of (a) the entire amount of the Corresponding Tranche Construction Loan outstanding on such date, and (b) accrued and

unpaid interest, fees and other amounts and interest on arrears of interest, fees and other amounts, in all cases, relating to such Construction Tranche, accrued and unpaid up to, but excluding, the Corresponding Tranche Maturity Date.

**2.6A Maintenance of Minimum WCRF Requirement**

The Partnership hereby agrees to:

2.6A.1 request in any Funding Request that immediately follows a LIL Drawdown under the Working Capital Revolving Facility an amount sufficient for purpose of repaying the Working Capital Revolving Loan, such that thereafter the Available Working Capital Revolving Facility shall be equal to the Minimum WCRF Requirement, provided, however, that no such request shall be required to be made in the circumstances contemplated in either one of clauses (a) and (b) of paragraph (ii) of the definition of Funding Requirements; and

2.6A.2 use the proceeds of each such request exclusively for the relevant purpose set forth in Section 2.6A.1.

**2.7 Voluntary Prepayments**

2.7.1 The Partnership may voluntarily and permanently prepay at any time (a) the whole (and the whole only) of the LIL Loan outstanding under the Initial Construction Tranches or (b) the whole (and the whole only) of the LIL Loan outstanding under the New Construction Tranches and Working Capital Revolving Tranches, in each case, by paying to the Collateral Agent, for the account of the Intermediary Trust, and after the Assignment, for the account of the Funding Vehicle, before 1:00 p.m., Newfoundland Time, on the LIL Voluntary Prepayment Date an amount equal to the sum of (i) the aggregate principal amount of the LIL Loan under the Initial Construction Tranches or, as the case may be, under the New Construction Tranches and Working Capital Revolving Tranches; (ii) accrued and unpaid (a) interest on such principal amount, and (b) LIL Stand-By Fee, in an aggregate amount which, together, shall be equal to the aggregate amount of interest accrued on the FV Bonds which will be payable on the FV Bond Redemption Date; and (iii) the LIL Make-Whole Amount.

2.7.2 The Partnership shall issue a LIL Voluntary Prepayment Notice at the latest by 10:00 a.m., Newfoundland Time, at least 35 days prior to the proposed LIL Voluntary Prepayment Date. Once delivered, no LIL Voluntary Prepayment Notice may be revoked or withdrawn by the Partnership.

2.7.3 Upon a LIL Voluntary Prepayment Notice having been so given, the LIL Loan under the Initial Construction Tranches or, as the case may be, under the New Construction Tranches and Working Capital Revolving Tranches will thereupon be due and payable in an amount equal to that set forth in subsection 2.7.1 on the LIL Voluntary Prepayment Date, in the same

manner and with the same effect as if such date were the maturity date of such LIL Loan, anything herein to the contrary notwithstanding, and from and after such LIL Voluntary Prepayment, if the moneys necessary to prepay such LIL Loan are paid as herein provided, such LIL Loan will not be considered outstanding hereunder and interest and Stand-By Fee will cease in respect of the portion of the LIL Facilities relating to such LIL Loan.

**2.8 Sinking Fund Account Payments**

The Partnership hereby agrees to pay to the Collateral Agent for deposit in the Sinking Fund Account, on each Sinking Fund Deposit Date, an amount equal to the amount as is set forth beside each such Sinking Fund Deposit Date in Schedule "X" hereto (each such payment being a "**Sinking Fund Payment**"), less any amount transferred to the Sinking Fund Account pursuant to Section 2.9 and required to be imputed towards such Sinking Fund Payment in accordance with the provisions of Section 2.9. Amounts so deposited in the Sinking Fund Account shall only be released by the Collateral Agent in accordance with Section 8.10. The Partnership shall invest any amounts held in the Sinking Fund Account in accordance with Schedule "Y".

**2.9 Prepayment of Sinking Fund Account**

If as a result of the application of paragraphs (v) to (xvi) of the definition of "Final Funding Request":

- 2.9.3 the Available Working Capital Revolving Facility is greater than nil, an Advance shall be deemed to have been requested pursuant to the LIL Draw Request delivered in connection with the Final Funding Request in an amount sufficient to reduce the Available Working Capital Revolving Facility to nil, and such amount shall be deposited into the Sinking Fund Account;

and the amounts contemplated in subsections 2.9.1, 2.9.2 and 2.9.3 shall be imputed, on a proportionate basis, to each of the Sinking Fund Payments set forth in Schedule "X" hereto for each Sinking Fund Deposit Date in the chronological order thereof.

2.10 **Conversion of the Working Capital Revolving Loan**

Immediately following the Commissioning Date, the Working Capital Revolving Loan, in principal, interest, fees and other amounts and interest on arrears of interest, fees and other amounts, shall automatically be converted into amounts outstanding under the LIL Construction Facility, and shall be allocated on a proportionate basis among the New Construction Tranches.

3.1 **Interest**

- 3.1.1 The Partnership hereby covenants and agrees to pay to the Collateral Agent, for the account of the Intermediary Trust, and after the Assignment, for the account of the Funding Vehicle, interest on each Construction Tranche and Working Capital Revolving Tranche at an annual rate equal to the Applicable Interest Rate applicable to such Construction Tranche or Working Capital Revolving Tranche, as the case may be, such interest to be reduced during the Construction Period in accordance with subsection 3.2.1, and during the Operating Period in accordance with subsection 3.1.8.

#### 5.2 Nature of Guarantee

The obligations of Opco hereunder are and shall be irrevocable, absolute and unconditional, present and continuing and constitute a guarantee of payment and not merely a guarantee of collection. As and by way of indemnity, Opco shall irrevocably, absolutely and unconditionally pay to the Collateral Agent all such amounts as shall be required from time to time to ensure that the Collateral Agent receives and is paid the full amount of the LIL Guaranteed Obligations regardless of (a) the unenforceability or invalidity of the LIL Guaranteed Obligations or any failure by the Partnership to duly and punctually pay in full the LIL Guaranteed Obligations when due, (b) any loss of any right of the Collateral Agent or any GAA Finance Party against the Partnership in respect of the LIL Guaranteed Obligations for any reason whatsoever, including by operation of any bankruptcy, insolvency or similar such laws, any laws affecting creditors' rights generally or general principles of equity and (c) any act or omission of the Collateral Agent or any GAA Finance Party in connection with the enforcement of any of the rights of the Collateral Agent or any GAA Finance Party against the Partnership.

#### 5.3 Payment Demand

Within five (5) Business Days of its receipt of a written demand from the Collateral Agent in the form attached as Schedule "A" (a "**LIL Payment Demand**"), Opco shall pay to the Collateral Agent each amount claimed in the Payment Demand in immediately available funds and as directed by the Collateral Agent in the Payment Demand. A Payment Demand will not be valid under this Article 5 unless the amount claimed is due to the Intermediary Trust, or, after the Assignment, the Funding Vehicle, and has not been paid by the Partnership by the time provided on the LIL Due Date. Any amount payable by Opco under this Article 5 which is not paid when required herein will bear interest from the date of such demand until paid in full at the rate or rates expressed to be payable on the corresponding LIL Guaranteed Obligations owing under the applicable LIL Project Finance Documents.

5.4 **Withholdings**

All amounts payable by Opco under this Article 5 shall be made free and clear of and without deduction for or on account of any present or future Taxes, charges, fees, levies, duties or withholdings of any kind. If Opco is obliged to deduct or withhold an amount in respect of any such Taxes, charges, fees, levies, duties or withholdings, then in such event Opco shall pay to the Collateral Agent such additional amount as is necessary to ensure that the Collateral Agent receives and retains (on an after-Tax basis, after payment of any and all income taxes on such additional amounts) an amount equal to the full amount otherwise payable hereunder, net of any such Taxes, charges, fees, levies, duties or withholdings.

5.5 **Statement of Account**

The Collateral Agent agrees to provide Opco with the computations and calculations used by the Collateral Agent to prepare each such statement of account following a request therefor.

Opco hereby acknowledges and agrees that vis-à-vis the Intermediary Trust (or, after the Assignment, the Funding Vehicle), Canada and the Collateral Agent it has no available remedy of set-off. Accordingly, each payment to be made by Opco hereunder in respect of the LIL Guaranteed Obligations shall be made as required in whole without application of the right of set-off. Tax on the overall net income of the Intermediary Trust (or, after the Assignment, the Funding Vehicle)), reserve, deposit or similar requirement with respect to assets held by, deposits in or for the account of, the acquisition of funds by, or loans by the Intermediary Trust (or, after the Assignment, the Funding Vehicle); or

- (b) changed the basis of taxation of payments to the Intermediary Trust under this Agreement (other than a change affecting taxation on the overall net income of the Intermediary Trust (or, after the Assignment, the Funding Vehicle)); or
- (c) imposed on the Intermediary Trust (or, after the Assignment, the Funding Vehicle) any other condition (including the amount of capital required or expected to be maintained by the Intermediary Trust as a result of this Agreement) or monetary restraint with respect to this Agreement; and

the result of any of the foregoing is to increase the cost to the Intermediary Trust (or, after the Assignment, the Funding Vehicle) of making or maintaining the LIL Facilities, the LIL Loan or any part thereof or to reduce any amount receivable by the Intermediary Trust (or, after the Assignment, the Funding Vehicle) with respect to the LIL Loan or any part thereof by an amount which the Intermediary Trust (or, after the Assignment, the Funding Vehicle) deems in its sole discretion to be material, within ten (10) Business Days of receipt of the certificate referred to above (which certificate shall contain all required computations and reasonable explanations of the amounts required to be paid); then

- (d) the Partnership shall pay to Collateral Agent, for the account of the Intermediary Trust (or, after the Assignment, the Funding Vehicle), such additional amount computed by Collateral Agent as will, on an after-tax basis, compensate the Intermediary Trust (or, after the Assignment, the Funding Vehicle) for such additional cost or reduction in amounts receivable which the Intermediary Trust (or, after the Assignment, the Funding Vehicle) determines to be attributable to the Partnership or the LIL Loan made to the Partnership; and
- (e) subject to the provisions of Section 15.2 with respect to losses and expenses, the Partnership may repay in full the LIL Loan together, in each case, with accrued interest thereon and the LIL Make-Whole Amount.

**15.2 Reimbursement of Losses and Expenses**

Whenever the Intermediary Trust shall sustain or incur any losses and expenses in connection with:

- 15.2.1 the failure of the Partnership to borrow pursuant to a LIL Draw Request or Working Capital Revolving Funding Request, as the case may be, once delivered (whether by reason of the Partnership's decision not to proceed, the non-fulfilment by the Partnership of any of the conditions set forth herein, the existence of a LIL Event of Default on the relevant LIL Drawdown Date or for any other reason other than default by the Intermediary Trust resulting from a default by the Funding Vehicle); or
- 15.2.2 the declaration by the Collateral Agent following the occurrence and continuance of an Enforcement Event that the LIL Loan is immediately due and payable; or
- 15.2.3 the failure of the Partnership to pay when due any principal, interest, Sinking Fund Payment, fees or other amount under this Agreement when due (whether at maturity, by reason of acceleration or otherwise).

(the events contemplated above shall be referred to individually as a "**LIL Loss Event**" and the funds repaid, not borrowed or not repaid, as the case may be, which are subject to any such LIL Loss Event shall be collectively referred to as the "**LIL Affected Funds**").

the Partnership agrees to pay to the Collateral Agent, for the account of the Intermediary Trust, upon demand, an amount certified by the Collateral Agent to be necessary to compensate the Intermediary Trust for all such losses and expenses. The certificate of the Collateral Agent shall also specify the computation and reasonable explanations of the amount to be paid.

**15.3 Environmental Indemnity**

The Credit Parties shall at all times indemnify and hold harmless the Indemnified Parties against and from any and all losses and expenses of any nature whatsoever, incurred, suffered, sustained or required to be paid by them or any one thereof, under or on account of Environmental Laws, including the assertion of any Lien thereunder (collectively, the "**Environmental Losses**"), with respect to:

- 15.3.1 any violation or alleged violation of Environmental Laws, or the presence of any Hazardous Material affecting any Asset of any Credit Party in violation of Environmental Laws;
- 15.3.2 any Clean-Up costs incurred by any Governmental Authority or any costs incurred by any other Person or damages from injury to, destruction of, or loss of natural resources, including reasonable costs of assessing such injury, destruction or loss incurred in connection with the property, operations and activities of such other Person or the property, operations and activities of the

Partnership as a result of the violation of Environmental Laws by the Partnership;

- 15.3.3 liability for personal injury or property damage arising under any statutory or common law tort theory; and
- 15.3.4 any other environmental matter affecting any Asset of a Credit Party or the operations and activities of a Credit Party within the jurisdiction of any Governmental Authority.

The obligations of the Credit Parties under this Section shall arise upon the discovery of any Hazardous Material, whether or not any Governmental Authority has taken or threatened any action in connection with the presence of any Hazardous Material.

#### 15.4 **General Indemnity**

The Credit Parties hereby indemnify and hold harmless the Indemnified Parties from and against any and all losses and expenses, joint and several or joint or several, that may be incurred by or asserted or awarded against any Indemnified Party, in each case arising out of or in connection with or relating to any investigation, litigation or proceeding or the preparation of any defence with respect thereto arising out of or in connection with or relating to this Agreement (including, without limitation, any liability that any Indemnified Party incurs by virtue of being found, in respect of the Project, liable as a partner or joint venturer), the other LIL Project Finance Documents or the transactions contemplated hereby or thereby, or any use made or proposed to be made with the proceeds of the LIL Facilities, whether or not such investigation, litigation or proceeding is brought by any Credit Party or any of their respective partners, shareholders or creditors, an Indemnified Party or any other Person, or an Indemnified Party is otherwise a party thereto and whether or not the transactions contemplated hereby are consummated, except to the extent such losses and expenses are found in a final judgment to have directly resulted from such Indemnified Party's gross negligence or wilful misconduct.

#### 15.5 **Claims under the Indemnities**

The Indemnified Party claiming indemnification under Sections 15.3 or 15.4 shall give the Credit Parties notice in writing of particulars of any claim asserted by third parties against it which is covered by such indemnities and the Credit Parties shall, within fifteen (15) days, give notice in writing to such Indemnified Party whether they wish to dispute such claim at their sole cost and expense. The Indemnified Party shall not permit the settlement of or compromise of such claim without the written consent of one of the Credit Parties, unless the said fifteen (15) day period has expired without one of the Credit Parties having given written notice of its desire to dispute such claim. If the Indemnified Party is unable to obtain timely advice from the Credit Parties that they wish to dispute such claim as aforesaid, the Indemnified Party shall be entitled to deal with such claim in such manner as it deems appropriate. If the Credit Parties give such written notice to the Indemnified Party that they do wish to dispute such claim, the Credit Parties

shall have the obligation to contest, settle, compromise or dispute such claim in the name of or on behalf of the Person against whom it is made, at their own cost and expense, and shall at their own cost and expense defend expeditiously the Person against whom such claim is made from all such actions or proceedings to which the said indemnity applies, and the Indemnified Party shall arrange that the Credit Parties shall have the right to carry on such actions or proceedings in its name; provided that, counsel retained by the Credit Parties to prosecute such defense is approved by the Indemnified Party and the Credit Parties (i) shall keep the Indemnified Party advised as to the course of the proceedings, (ii) shall not settle any claim without the prior consent of the Indemnified Party unless the settlement results in a full and final release of the Indemnified Party without cost or any risk to the reputation of the Indemnified Party and does not contain any admission of fault, and (iii) shall prosecute and dispute or conduct such negotiations in good faith and with due diligence; and provided, further that, notwithstanding any provision herein contained, the Indemnified Party shall at all times have the right to retain its own counsel, with the prior written consent of the Credit Parties and at the reasonable cost and expense of the Credit Parties, to advise it in any of the foregoing, to appear in its name and act on its behalf in any proceedings or conduct negotiations on its behalf. Subject to the foregoing, the Indemnified Party shall make available to the Credit Parties copies of all files, books, records and documents, information and data (except for such files, books, records and documents, information and data which are confidential) in the possession and control of the Person against whom the claim is made relevant to such actions or proceedings for the purposes of such defence and shall cause such Person to cooperate without expense to itself in all reasonable respect and to assist in the defence of any such actions or proceedings.

## 15.6 **Remedial Action**

In the event of:

- 15.6.1 any Release of Hazardous Materials, the threat of a Release of any Hazardous Material or the presence of any Hazardous Material affecting or relating to any Asset of any Credit Party in violation of Environmental Laws which, singly or in the aggregate, (i) would result in losses and expenses to the Credit Parties in excess of CDN\$50,000,000 or (ii) would have a Material Adverse Effect; or
- 15.6.2 any Credit Party failing to comply with any of the requirements of Environmental Laws, which non-compliance, singly or in the aggregate, would have a Material Adverse Effect;

the Collateral Agent after having given written notice of the intention of the GAA Finance Parties to the Credit Parties (no later than fifteen (15) Business Days before giving effect to such intention at their election, but without the obligation so to do), may give such notices and/or cause such work to be performed at such property and/or take any and all other actions as the Collateral Agent shall deem necessary or advisable in order to Clean-Up or cure non-compliance. Any amounts expended by the Collateral Agent in any of the foregoing activities shall be repayable by the Partnership upon the

demand of the Collateral Agent, shall form part of the LIL Loan and interest thereon shall be computed and be payable at the same rate as that applicable to the FV Bond latest to mature under the Construction Tranches and such amounts shall constitute part of the LIL Secured Obligations.

**15.7 Acknowledgement**

The Credit Parties acknowledge that the Collateral Agent and the GAA Finance Parties have agreed to the LIL Loan being made in reliance upon the representations, warranties and covenants in this Agreement relating to the environment. For this reason, it is the intention of the Credit Parties, the Collateral Agent and the GAA Finance Parties that the Credit Parties shall be liable for any liability or Indebtedness arising under this Article even if the amount of liability incurred exceeds the amount of the LIL Loan. The liability and Indebtedness of the Credit Parties arising under this Article shall constitute part of the LIL Secured Obligations, shall be secured by the LIL Security Documents, are absolute and unconditional and shall not be affected by any act, omission, or circumstance whatsoever, whether or not occasioned by the fault of the Collateral Agent and the GAA Finance Parties or any one thereof, except to the extent such liabilities are determined, in a final judgment, to have resulted directly from the gross negligence or wilful misconduct of the Collateral Agent and the GAA Finance Parties, their respective directors, officers, employees, advisors, representatives and agents or any one thereof. All of the representations, warranties, covenants and indemnities of this Agreement relating to the environment shall survive the repayment of the LIL Loan and shall survive the transfer of any or all right in and to the Assets of any Credit Party to any party, whether or not affiliated with them.

The obligations and the Indebtedness arising under Section 15.3 are not in any way diminished by the knowledge of any one of such beneficiaries of the non-compliance by any Credit Party with Environmental Laws; they shall survive the repayment of the LIL Loan as well as the sale or disposition of the property which is the basis of the indemnity claimed.

**ARTICLE 16**

**SPECIAL PROVISIONS**

**16.1 Covenant of the Intermediary Trust**

The Intermediary Trust covenants and agrees that, on demand made by the Partnership from time to time, it shall request that the Funding Vehicle claim from the Indenture Trustee any moneys set aside in connection with any redemption of any securities issued by the Funding Vehicle under Section 5.6 of each MTI six (6) years following such setting aside if the holders of such securities have not claimed such amounts and that such amounts be paid to the Intermediary Trust and the Intermediary Trust shall pay same to the Partnership upon receipt.

16.2 **Actions and Decisions of the Collateral Agent and GAA Finance Parties**

Moreover, and without limiting the foregoing, whenever any reference is made in this Agreement to a decision or judgment to be made by, consent or waiver to be granted by, discretion to be exercised by, action to be taken by, request to be made by, or otherwise to, the Collateral Agent, such reference shall be deemed to be to the Collateral Agent, acting in accordance with the Requisite Instructions.

16.3 **Directions in Respect of the Intermediary Trust Proceeds Account**

The Intermediary Trust and the Partnership acknowledge and agree that the Partnership has an interest in ensuring that the funds in the Intermediary Trust Proceeds Account are properly Invested from time to time, and that such Investments are sufficiently liquid to allow the Intermediary Trust to perform its obligations as lender hereunder, and to allow the Partnership to access the funds necessary under the LIL Facilities to fund Project Costs as per the terms hereof. In furtherance of the foregoing, the Intermediary Trust directs the Collateral Agent to act in accordance with the instructions of the Partnership with respect to all instructions contemplated in the IT Blocked Account Agreement as to the Investments to be made from funds held in the Intermediary Trust Proceeds Account, and the liquidation of such Investments.

17.3.2 No waiver of any provision of this Agreement, nor consent to any departure by any party therefrom, shall in any event be effective unless the same shall be in writing and signed by all the parties hereto, and then said waiver or consent shall be effective only in the specific instance and for the specific purpose for which given. The IT Trustee has entered into this Agreement in its capacity as trustee of the Intermediary Trust. Any and all of the representations, warranties, undertakings, covenants, indemnities, agreements and other obligations made on the part of the IT Trustee herein and therein are made and intended not as personal representations, warranties, undertakings, covenants, indemnities, agreements and other obligations by the IT Trustee or for the purpose or with the intention of binding the IT Trustee in its personal capacity, but are made and intended for the purpose of binding only the Assets of the Intermediary Trust. No Assets of the IT Trustee (other than the Assets of the Intermediary Trust), whether owned beneficially by it in its personal capacity or otherwise, will be subject to levy, execution or other enforcement procedures with regard to any of the representations, warranties, undertakings, covenants, indemnities, agreements and other obligations of the Intermediary Trust or the IT Trustee under this Agreement or any of the documents accessory hereto. No recourse may be had or taken, directly or indirectly against the IT Trustee in its personal capacity, any beneficiary of the Intermediary Trust or any Affiliate, shareholder, officer, director, employee or agent of the IT Trustee or any predecessor or successor of the IT Trustee, with regard to the representations, warranties, undertakings, covenants, indemnities, agreements and other

Subject to the provisions of Section 17.6, this Agreement shall be binding upon and shall enure to the benefit of the parties hereto and their respective successors and permitted assigns.

**17.6 Assignment by Intermediary Trust**

The parties hereby acknowledge that on or immediately prior to the first day of the Operating Period, in full and final payment of all its Indebtedness to the Funding Vehicle under the IT Project Finance Agreement, the Intermediary Trust shall Assign to the Funding Vehicle all Indebtedness owed to it by the Partnership under this Agreement and the other LIL Project Finance Documents and all its rights, titles and interests therein. Pursuant to such Assignment, the Funding Vehicle shall become the direct creditor of the Credit Parties under the LIL Project Finance Documents as if it were the original creditor thereunder and thereupon (i) the IT Trustee and the Intermediary Trust shall automatically be released from all their obligations under the Consolidated Transactions Documents including all indemnity obligations notwithstanding any provision of any Consolidated Transaction Document to the contrary and shall cease being parties thereto in any capacity, (ii) the Collateral Agent shall perform the Project Financing Duties on behalf only of the Funding Vehicle and Canada, and (iii) the Credit Parties agree to execute and deliver to the Funding Vehicle, at their cost and expense, such confirmations and Registrations as the Collateral Agent may require in connection with such Assignment.

Save and except for (i) the Assignment, and (ii) any assignment pursuant to the LIL Security Documents, the Intermediary Trust hereby covenants and agrees that, and the Funding Vehicle, in furtherance of the provisions of Section 9.7 of the Collateral Agency Agreement, covenants and agrees that, following the Assignment, it shall not sell, assign, transfer or otherwise dispose of, or grant a participating interest in, any Indebtedness owed to it by any Credit Party or any Liens granted in connection therewith to any Person at any time, notwithstanding the existence of any LIL Event of Default, without having obtained the express prior written consent of the Partnership and Opco.

**17.7 No Novation**

Any security provided by the Partnership shall not constitute a payment, nor shall it operate novation of any amount due hereunder and shall not operate by way of set-off of, or merge with, any Indebtedness or liability of the Partnership or of any other Person or Persons to the Intermediary Trust (or, after the Assignment, the Funding Vehicle) under any deed, guarantee, contract, bill of exchange, promissory note, letter of credit, certificate of deposit or other instrument by which the same may now or at any time hereafter be represented or evidenced.

**17.8 Obligation to Pay Absolute**

The obligations of the Partnership to make payments on the LIL Loan as and when in this Agreement provided shall be unconditional and irrevocable, and shall be paid strictly in accordance with the terms of this Agreement under all circumstances without any right of compensation or set-off and notwithstanding any defense, right of action or claim of any nature whatsoever which the Partnership may at any time have or have had against the Collateral Agent or the Intermediary Trust (or, after the Assignment, the Funding Vehicle), whether in connection with this Agreement or otherwise.

**17.9 Rights and Recourses Cumulative**

The rights and remedies of the Intermediary Trust (or, after the Assignment, the Funding Vehicle) and the Collateral Agent under this Agreement shall be cumulative and not exclusive of any right or remedy which the Intermediary Trust (or, after the Assignment, the Funding Vehicle) would otherwise have and no failure or delay by the Collateral Agent or the Intermediary Trust (or, after the Assignment, the Funding Vehicle) in exercising any right shall operate as a waiver thereof, nor shall any single or partial exercise of any power or right preclude its other or further exercise or the exercise of any other power or right.

**17.10 Further Assurances**

The parties hereto agree to execute and deliver such further and other documents and perform and cause to be performed such further and other acts and things as may be necessary or desirable in order to give full effect to this Agreement and every part thereof.
