3. This amount is determined by subtracting line 2 of this Schedule from line 1 of this Schedule.
4. Insert the amount of Additional Debt proposed to be incurred to fund the Funding Requirements.
5. (i) Where the funding of the Funding Requirements is made prior to the date on which DER first becomes equal to 75% following the 2017 Closing Date, the Debt Rateable Share corresponds to 100%, unless the Debt Rateable Share of 100% would result in a DER that exceeds 75%, in which case the Debt Rateable Share shall be calculated in accordance with clause (ii) below.

(ii) Where the funding of the Funding Requirements is made following the date on which DER first becomes equal to 75% following the 2017 Closing Date:

(A) prior to the LIL Construction Facility being fully disbursed and the Working Capital Revolving Facility being fully disbursed following the first Advance pursuant to Section 7.9 of the LIL Project Finance Agreement, with respect to any Funding Requirements that are to be funded at any particular time, and in relation to which an Advance under the LIL Construction Facility is to be made, an Advance under the Working Capital Revolving Facility pursuant to Section 7.9 of the LIL Project Finance Agreement is to be effected or, as the case may be, Additional Debt is to be incurred as permitted pursuant to the terms of the LIL Project Finance Documents, the Debt Rateable Share corresponds to the lesser of:

in which case the Debt Rateable Share shall mean, expressed as a percentage:

$$\frac{D}{C}$$

In each case, where:

**D** = the sum of the Additional Debt proposed to be incurred, the Available LIL Construction Facility and the Available Working Capital Revolving Facility;

provided, however, that at all times where the LIL Construction Facility has been fully disbursed but:

- (i) the Available Working Capital Revolving Facility is sufficient to meet the Funding Requirements that are to be funded and in relation to which an Advance under the Working Capital Revolving Facility pursuant to Section 7.9 of the LIL Project Finance Agreement is to be effected, then the Debt Rateable Share of such Funding Requirements shall mean 100%; or

- (ii) the Available Working Capital Revolving Facility is insufficient to meet the Funding Requirements that are to be funded and in relation to which an Advance under the Working Capital Revolving Facility pursuant to Section 7.9 of the LIL Project Finance Agreement is to be effected, then the Debt Rateable Share of such Funding Requirements shall mean, expressed as a percentage:

7. This amount is determined by subtracting line 5 of Schedule "D" from line 6 of Schedule "D". Where the subtraction results in a negative amount, insert 0.

8. This amount is determined by subtracting line 4 and line 7 of this Schedule from line 6 of this Schedule. If the Funding Request relates to (i) any LIL Drawdown prior to the first LIL Drawdown pursuant to Section 7.9 of the LIL Project Finance Agreement, the full amount will be Advanced under the LIL Construction Facility, (ii) the first LIL Drawdown pursuant to Section 7.9 of the LIL Project Finance Agreement, where the Available LIL Construction Facility is greater than nil immediately prior to such LIL Drawdown, the amount of the Advance will be divided between the LIL Construction

## SCHEDULE "Y"

### SINKING FUND INVESTMENTS

#### Sinking Fund Composition Requirements

To mitigate risk of principal loss in the BSF, hold limits will be placed on broad investment buckets, individual credits and term of the BSF investments.

The following table outlines allowed hold limits:

	Minimum Holding	Maximum Holding	Minimum Rating	Single Name Hold Limit
Canada and Canada-Guaranteed Bonds (includes MFLTA and LIL guaranteed bonds)	50%	100%	Not applicable	No Limit
AAA Provinces (issued by or fully guaranteed by) and AAA Corporates	0%	50%	AAA	Provinces 12.5% Corporate 5%
AA Provinces (issued by or fully guaranteed by)	0%	25%	AA-. Aa3, AA(low)	8.5%

The term of bonds in the BSF must not extend beyond the date on which the BSF funds are required for repayment of the relevant MFLTA or LIL bond maturity. This will ensure that the sinking fund does not take on any interest rate exposure.

BSF holdings must be denominated in Canadian dollars.

Requirements:

1. No structured products will be allowed in the sinking fund (this includes covered bonds, NHA MBS, callables, extendibles, derivatives);
2. To be considered an acceptable security for a given bucket above, the security must have ratings at or above the minimum rating indicated from two of Moodys, S&P, or DBRS;
3. If a holding, other than Canada and Canada-Guaranteed Bonds (including MFLTA and LIL guaranteed bonds), is downgraded such that it does not have two ratings that meet the minimum rating threshold (see above), the amount of the security that is beyond the

maximum holdings of the bucket it qualifies for based on the downgraded rating, if any, must be sold within 90 days and any principal loss must be contributed by the Project Co or made up in future periods by the BSF retaining interest income equal to the principal lost;

4. No interest may flow out of the BSF unless the balance of the BSF, on a mark-to-market basis, is greater than the BSF balance as indicated in the final sinking fund payment schedule at that point in time;
5. Collateral Agent is to give quarterly hold reports.

## 1.0 Purpose

The purpose of this document is to establish a *Basis of Design* (BOD) for the Lower Churchill Project (LCP). This BOD will form the overarching project definition that will be used to prepare engineering design philosophies, project contract packaging, project estimates, project schedules, design briefs, detailed design specifications and drawings, construction planning, and all other project functions that depend on a clear definition of what is to be specifically financed and constructed.

Typically, this BOD is not changed or altered without major cost and schedule implications to the project as a whole and would only be considered and approved by LCP Executive Management, and then only after a clear recommendation from the Project Director.

## 2.0 Scope

The objectives of this document are to establish the BOD for the following

- Muskrat Falls Generation
- Labrador Transmission Asset
- Labrador – Island Transmission Link

The Maritime Link is excluded from this BOD and will be prepared under separate cover.

## 3.0 Definitions

Throughout this document, the following defined words are italicized.

<b>Basis of Design</b>	A compilation of the fundamental criteria, principles and/or assumptions upon which design philosophies and engineering design briefs will be developed.
<b>Bulkhead Gates</b>	Steel gates used to isolate water passages for inspection or maintenance, which are installed and removed under balanced pressures.
<b>Cavitation Resistant Design</b>	A design to prevent the formation of the vapour phase in a liquid flow when the hydrodynamic pressure falls below the vapour pressure of the liquid.
<b>Change Control Board</b>	A panel within the Project Management Team that is responsible for making the ultimate decision to approve reject or elevate a Project Change Notice. See LCP-PT-MD-0000-PM-PL-0002-01, Project Change Management Plan.

---

<b>Cofferdam</b>	A temporary barrier for excluding water from an area that could otherwise be submerged.
<b>Construction Flood</b>	The seasonal peak river flow that the diversion facilities are designed to pass during construction of the dam. Accepted practice is based on a 5% risk of exceedence for the duration of the operation of the diversion facilities.
<b>Converter Station</b>	A <i>converter station</i> consists of equipment that converts power from ac to dc (rectifier) and dc to ac (inverter).
<b>Counterpoise</b>	Steel wire installed along the length of the overhead line and bonded (connected) to each tower. Used to reduce resistivity between the overhead line structures and the ground for lightning protection.
<b>Electrode</b>	A grounded means to provide a return path for unbalanced dc current for HVdc transmission system, enabling it to operate in mono-polar mode.
<b>Electrode Line</b>	A transmission line connecting the <i>electrode</i> site to the <i>converter station</i> .
<b>Fail Safe Design</b>	A design that in the event of the failure of equipment, processes or systems, the event will produce minimum propagation beyond the immediate environment of the failing entity. In addition, the failure will be economically acceptable, and those devices in the system will perform their intended function and eliminate danger upon the loss of actuating power.
<b>Fish Compensation Flow</b>	Minimum flow required downstream of the dam sites during reservoir impoundment which will be required to maintain fish habitat and reduce the effects of salt water intrusion into the Churchill River.
<b>Fish Habitat Compensation</b>	This involves replacing the loss of fish habitat with newly created habitat or improving the productive capacity of some other natural habitat.

---

<b>Flip Bucket</b>	A formed geometrical shape at the downstream end of a spillway discharge for the purpose of throwing the water clear of the hydraulic structure and into a <i>plunge pool</i> for energy dissipation.
<b>Francis Turbine</b>	A mixed flow reaction turbine with fixed runner vanes that converts hydraulic energy to mechanical energy where the water flow is controlled by the setting of the adjustable <i>wicket gates</i> .
<b>Full Supply Level</b>	The maximum normal operating water level, corresponding to the top of the live storage, in a reservoir.
<b>Generator</b>	An assembly of stationary and rotating components coupled to the turbine converting mechanical energy to electrical energy.
<b>Good Utility Practice</b>	The practices, methods and acts engaged in, or approved by, a significant portion of the electrical utility industry in North America, or any of the practices, methods and acts which, in the exercise of reasonable judgment in light of the facts known at the time the decision was made, are expected to accomplish the desired result at a reasonable cost consistent with <i>good business practices, reliability, safety and expedition</i> . <i>Good Utility Practice</i> is not intended to be limited to optimum practice, method or act to the exclusion of all others, but rather to include all practices, methods or acts generally accepted in North America.
<b>Kaplan Turbine</b>	A reaction type, axial flow, adjustable blade turbine that converts hydraulic energy to mechanical energy.
<b>Life Cycle Cost Analysis</b>	The process of selecting the most cost-effective approach from a series of alternatives so that the least long-term cost of ownership is achieved where life cycle costs are total costs estimated to be incurred in the design, development, production, operation, maintenance, support, and final disposition of an asset over its anticipated useful life from inception to disposal.
<b>Low Supply Level</b>	The minimum normal operating water level, corresponding to the bottom of the live storage, in a reservoir.

<b>Mass Impregnated (MI)</b>	An electrical insulation method used for power cables. The conductor is tightly wrapped with porous paper and saturated with oil, installed under pressure, to provide electrical insulation.
<b>Mitigation</b>	Measures implemented during the design, construction and operations phases of the project which are intended to avoid or reduce known or predicted impacts to the existing environment.
<b>Overhead Ground Wire (OHGW)</b>	Provides lightning protection for the power conductors. When used, direct lightning strikes are minimized, and potential disturbances due to lightning are reduced.
<b>Optical Ground Wire (OPGW)</b>	<i>Performs the same function as Overhead Ground Wire; however, it also carries a fibre optic communication system within the wire strands.</i>
<b>Penstock</b>	A conduit that conveys water from the intake to the turbine.
<b>Plunge Pool</b>	A deep depression downstream of a spillway into which spilled water “plunges” to dissipate energy.
<b>Probable Maximum Flood (PMF)</b>	Canadian Dam Association terminology for “an estimate of hypothetical flood (peak flow, volume and hydrograph shape) that is considered to be the most severe ‘reasonably possible’ at a particular location and time of year, based on relatively comprehensive hydro meteorological analysis of critical runoff-producing precipitation (snowmelt if pertinent) and hydrologic factors favourable for maximum flood runoff”.
<b>Proven Technology</b>	This is the state of technology used in the design, construction and operation of any system including each piece of equipment, component or structure that has a proven record of performance. (First technology applications will only be considered after review by the LCP Technical and Design Integrity group and then only after approval by Executive Management).

---

<b>Rehabilitation</b>	Measures taken to remedy environmental damage to the environment.
<b>Reliability Level Return Period</b>	A statistical measurement denoting the average recurrence interval over an extended period of time. Used to estimate loads to design transmission lines.

## 7.0 Descriptions

### 7.1 General

This BOD includes Muskrat Falls Generation, Labrador Transmission Asset and the Labrador-Island Transmission Link.

The primary reason for developing Muskrat Falls Generation, the Labrador Transmission Asset and the Labrador - Island Transmission Link is to meet increased capacity and energy requirements on the Island of Newfoundland. The electrical system on the Island of Newfoundland will experience a capacity deficit in 2015 and an energy short fall in 2021. Extensive analysis of the alternative supply options for the Island has demonstrated that Muskrat Falls and the associated transmission interconnection is the least cost technically acceptable supply alternative for the Island. Muskrat Falls and the interconnection not only provide for future load growth but also facilitate the retirement of the Holyrood Thermal Generating Station virtually eliminating the Island's dependence on fossil fuel fired generation.

All design assumptions used to establish the BOD respect the following overarching principles:

- Only proven technologies will be considered, unless it can be clearly demonstrated to the satisfaction of the Engineering Manager, Project Managers, Project Director and VP of the LCP that emerging technologies can be as reliable and provide significant cost and/or schedule savings.
- Local climatic/service conditions such as ambient temperature, elevation, humidity, sea temperature, sea currents and wind will be respected throughout the Project.
- All generating plants and transmission systems will be remotely operated and monitored from NE-NLH's Energy Control Centre.
- All designs shall assume a 50 year design life for the purposes of evaluation.
- Environmental *mitigation* and *rehabilitation* will be designed by LCP prior to issuing requests for proposals leading to construction contracts.
- The designs will assume the use of existing transportation infrastructure to the maximum extent possible. In particular, existing roads, bridges, railways and wharfs.
- *Good Utility Practice* will be observed.
- *Fail Safe Design* principles will be employed.
- *Principles of Life Cycle Cost Analysis* will be employed.
- The designs will be consistent with the NE Safety and Health Program.
- The designs will be consistent with NE Environmental Policy and Guiding Principles.
- The designs will be consistent with NE Asset Management Policy and Guiding Principles.
- The designs will be consistent with all applicable governing Standards, Codes, Acts and Regulations.
- All assets and systems will be designed to ensure safety, reliability, efficiency and minimal impact to the environment.

- Situated on a level fenced site at Forteau Point.
- Enclosed building and provision for submarine cable termination system and associated switching requirements.
- Concrete pads and steel structures to support the electrical equipment and switchgear.
- Overhead line to cable transition equipment.
- High-speed switching, control, protection, monitoring and communication equipment.

---

8110 Marine Crossing – SOBI - General

- 350 kV, 900 MW submarine cable system to transmit power across the SOBI in bi-polar mode for 50-year design life, with capabilities to allow configuration in mono-polar mode.
- Each cable to have a nominal rating of 1286 A (one pu per pole) and a transient rating of 2572 A (two pu per pole) for five minutes in mono-pole mode.
- Consists of three *mass impregnated* submarine cables and associated components, inclusive of one spare submarine cable.
- Land cables shall connect submarine cables to cable termination system within the transition compound.
- The route for the submarine cable(s) crossing shall be designed to meet the transmission, protection, reliability, and design life requirements, and give consideration to technical and economic optimization.
- Cable corridor as per Key Plan. (See Drawing 1).
- Cables shall be adequately protected along the entire length of the crossing as required. Cable protection methodology will employ proven technologies only, and may include rock placement, trenching, horizontal directional drilling (HDD) and concrete mattresses.
- Where discrete protection application is required, protection measures shall be designed to meet the transmission and reliability requirements.

8520 Transition Compound – Northern Peninsula

- Situated on a level fenced site at Shoal Cove.
- Enclosed building and provision for submarine cable termination system and associated switching requirements.
- Concrete pads and steel structures to support the electrical equipment and switchgear.
- Cable to overhead line transition equipment.
- High-speed switching, control, protection, monitoring and communication equipment.

8220 Soldiers Pond Converter Station

- 900 MW,  $\pm 350$  kV bi-pole, LCC *converter station* capable of operating in mono-polar mode.
- Each pole rated at 450 MW with 100% overload protection for ten minutes and 50% overload protection for continuous operation.
- Situated next to the Soldiers Pond switchyard on the Avalon Peninsula on a level fenced site.
- Concrete foundations and galvanized steel structures to support the electrical equipment and switchgear.
- Mono-polar operation shall be supported by an *electrode*.

6320 Electrode Line – Newfoundland East

- An *electrode line* carrying two conductors generally follows the existing transmission ROW from Soldiers Pond to Conception Bay.
- Wood pole construction.
- 50-year *Reliability Level Return Period* of loads.
- *Electrode line* will have provision for arcing horns.

8620 Electrode Newfoundland East

- A shoreline pond *electrode* to be located at Dowden’s Point on the east side of Conception Bay.
- Nominal rating of 450 MW with 100% overload protection for ten minutes and 50% overload protection for continuous operation.

4500 Soldiers Pond Switchyard

- Situated on the north-east side of Soldiers Pond on a level, fenced site.
- Concrete foundations and galvanized steel structures to support the electrical equipment and switchgear.
- Electrical layout of the switchyard is to be in accordance with the proposed SLD. (See Drawing 2).
- Switchyard to interconnect eight 230 kV HVac transmission lines (four existing transmission lines looped in), the synchronous condensers and the Soldiers Pond Converter Station.

7100 Island System Upgrades East

- Three 175 MVAR high-inertia synchronous condensers at Soldiers Pond.
- 230 kV and 138 kV circuit breaker replacements.
- Replacement of conductors, 230 kV transmission line – Bay d’Espoir to Sunnyside.
- Looping in-out of the four existing 230 kV transmission lines into the new Soldier’s Pond Switchyard. This requires reconstruction of the resulting eight transmission lines entering and leaving the switchyard to account for lightning protection.
- Upgrade of the protection and control systems at Hardwoods, Oxen Pond, Holyrood and Western Avalon Switchyards.

9230 Operations Telecommunications System – Island Link

- Telecommunication System shall be comprised of three separate layers: Optical Transport Network (OTN), Convergence, and Access Layers.
- OTN Layer shall be the telecommunications backbone and utilize the OPGW, All Dielectric Self Supporting (ADSS) or equivalent fibre optic infrastructure. The OTN Layer equipment nodes shall be designed based upon the least total cost of ownership alternative.
- Convergence Layer shall be based on the Synchronous Optical Network (SONET) international standard. It shall be used to create logical point-to-point

---

telecommunication links between all MF locations. It will multiplex and de-multiplex the Access Layer subsystems for transmission on the OTN.

- Access Layer shall be based on the Ethernet (IEEE 802.3) standard. It shall be comprised of a minimum of three separate telecommunication systems: Protection and Control, SCADA, and Administrative systems. The Administrative system may include the following subsystems: telephony, corporate data, security access control system, and video surveillance.
- The Island Transmission Link Telecommunication Assets specifically includes the following.
  - HVdc OPGW fibre optics connecting
    - Muskrat Falls *Converter Station* to Forteau Point Transition Compound
    - Shoal Cove Transition Compound to Soldiers Pond *Converter Station*
  - ADSS fibre optics connecting
    - Forteau Point Transition Compound to the L'Anse au Diable *Electrode*
    - Soldiers Pond *Converter Station* to Dowden's Point *Electrode*
  - Fibre optic infrastructure shall also be used to connect
    - Forteau Point Transition Compound to Shoal Cove Transition Compound by optic fibres embedded in each power cable being installed across the SOBI

## ARTICLE 2

### JOINT AND SEVERAL OBLIGATIONS

2.1 **Joint and Several Obligations**

Each of the Credit Parties hereby confirms and agrees that all obligations of the Credit Parties hereunder shall be joint and several obligations of the Credit Parties (and not joint obligations alone). The Collateral Agent and the GAA Finance Parties shall not be bound to exhaust their recourses against a Credit Party or others or any Liens or Guarantees they may at any time hold in connection with the Muskrat/LTA Secured Obligations before being entitled to payment from the other Credit Party. The liability of each Credit Party hereunder shall not be released, reduced or affected by reason of any waiver, compromise, or arrangement granted by the Collateral Agent or any GAA Finance Party

to the other Credit Party without the consent of such Credit Party or by reason of any release of, or any stay of Proceedings against that or the other Credit Party pursuant to any Insolvency Law or any similar Law or any Law affecting creditors' rights generally or by reason of any circumstance which might otherwise constitute a defence available to, or a discharge of, any Credit Party. Neither Credit Party shall be subrogated to any right of the Collateral Agent until (i) indefeasible payment in full of all the Muskrat/LTA Secured Obligations, including, for clarity, and without duplication, all repayments required to be made to Canada under the GAA, and (ii) the Funding Vehicle has no remaining obligation to make any Advance, make any payment, make any other extension of credit or provide any other financial service under, by reason of, or otherwise in respect of, any of the Muskrat/LTA Project Finance Documents.

### ARTICLE 3

#### MUSKRAT/LTA CONSTRUCTION FACILITY

##### 3.1 Grant of Muskrat/LTA Construction Facility

The Funding Vehicle agrees, upon the terms and subject to the conditions of this Agreement, to lend to the Credit Parties an amount of up to but not exceeding, in the aggregate, the Muskrat/LTA Construction Facility which shall be available in tranches, namely the Tranches.

##### 3.2 Purpose

Each Advance under the Muskrat/LTA Construction Facility shall be used by the Credit Parties exclusively for the purpose of financing the Project Costs.

##### 3.3 Facility Limit

3.3.1 As of the Muskrat/LTA Second Amendment and Restatement Effective Date, the aggregate amount of the Muskrat/LTA Construction Facility is CDN\$4,450,000,000 comprised of the following:

3.3.1.1 as to CDN\$2,600,000,000, the Initial Tranches, each such Initial Tranche being for an amount equal to the aggregate principal amount of FV Bonds issued under the series of FV Bonds listed in Schedule "KK" under the heading "Corresponding FV Bonds Series" opposite the name of such Initial Tranche; and

3.3.1.2 as to CDN\$1,850,000,000, each such New Tranche being for an amount equal to the aggregate principal amount of FV Bonds issued under the series of FV Bonds listed in Schedule "LL" under the heading "Corresponding FV Bonds Series" opposite the name of such New Tranche.

3.3.2 Where pursuant to the terms hereof the Muskrat/LTA Construction Facility or any Tranche thereof is cancelled, reduced or terminated, any such

cancellation, reduction or termination thereof shall be permanent and, with respect to any reduction, such amount may not be subsequently increased.

### 3.4 **Nature and Availability**

3.4.1 The Muskrat/LTA Construction Facility is available on a non-revolving basis such that the Credit Parties may not reborrow the whole or any part of an Advance previously repaid, any such repayment automatically reducing the Muskrat/LTA Construction Facility by an amount equal to the amount repaid. Any such reduction of the Muskrat/LTA Construction Facility resulting from (i) a prepayment on any Muskrat/LTA Voluntary Prepayment Date shall result in a rateable reduction of each Initial Tranche or each New Tranche, as the case may be, and (ii) a repayment pursuant to Section 3.6 shall result in a reduction of the Tranche to which such repayment relates by an amount equal to such repayment.

3.4.2 The parties acknowledge and agree that prior to the date hereof, an amount of CDN\$2,600,000,000 was drawn under the Muskrat/LTA Construction Facility, and that accordingly that amount is no longer available for drawdown under the Muskrat/LTA Construction Facility. The balance of the Muskrat/LTA Construction Facility is available in Canadian Dollars only by way of a single Drawdown.

### 3.5 **Borrowing Procedures**

In order to obtain a Drawdown on a Drawdown Date, the Credit Parties must deliver to the Collateral Agent a Draw Request at the latest by 5:00 p.m., Newfoundland Time, at least two (2) Business Days prior to the proposed Drawdown Date. The first Drawdown was apportioned rateably amongst each of the Initial Tranches, and the second Drawdown shall be apportioned rateably amongst each of the New Tranches. Once delivered, a Draw Request may not subsequently be revoked or withdrawn by the Credit Parties.

### 3.6 **Repayments**

The Credit Parties hereby agree to repay in respect of each Tranche on the Corresponding Tranche Maturity Date, the sum of (a) the entire amount of the Corresponding Tranche Construction Loan outstanding on such date, and (b) accrued and unpaid interest, fees and other amounts and interest on arrears of interest, fees and other amounts, in all cases, relating to such Tranche, up to, but excluding the Corresponding Tranche Maturity Date;

#### 3.6A **Maintenance of Minimum WCR Requirement**

The Credit Parties hereby agree to:

3.6A1 request in any Funds Release Request that immediately follows a WCR Release, an amount sufficient for purpose of funding the Working Capital Reserve Account, such that thereafter the amount on deposit in the

Working Capital Reserve Account shall be equal to the Minimum WCR Requirement provided, however, that no such request shall be required to be made in the circumstances contemplated in either one of clauses (a) and (b) of paragraph (ii) of the definition of Funding Requirements; and

- 3.6A2 use the proceeds of each such request exclusively for the relevant purpose set forth in Section 3.6A.1.

### 3.7 Voluntary Prepayments

- 3.7.1 The Credit Parties may voluntarily prepay at any time (a) the whole (and the whole only) of the Muskrat/LTA Loan outstanding under the Initial Tranches or (b) the whole (and the whole only) of the Muskrat/LTA Loan outstanding under the New Tranches, in each case, by paying to the Collateral Agent, for the account of the Funding Vehicle, before 1:00 p.m., Newfoundland Time, on the Muskrat/LTA Voluntary Prepayment Date an amount equal to the sum of (i) the aggregate principal amount of the Muskrat/LTA Construction Loan under the Initial Tranches or, as the case may be, under the New Tranches; (ii) accrued and unpaid interest on such principal amount, in an aggregate amount which is equal to the aggregate amount of interest accrued on the FV Bonds which is payable on the FV Bond Redemption Date; and (iii) the Muskrat/LTA Make-Whole Amount.

- 3.7.2 The Credit Parties shall issue a Muskrat/LTA Voluntary Prepayment Notice at the latest by 10:00 a.m., Newfoundland Time, at least 35 days prior to the proposed Muskrat/LTA Voluntary Prepayment Date. Once delivered, no Muskrat/LTA Voluntary Prepayment Notice may be revoked or withdrawn by the Credit Parties.

- 3.7.3 Upon a Muskrat/LTA Voluntary Prepayment Notice having been so given, the Muskrat/LTA Loan under the Initial Tranches or, as the case may be, under the New Tranches will thereupon be due and payable in an amount equal to that set forth in subsection 3.7.1 on the Muskrat/LTA Voluntary Prepayment Date, in the same manner and with the same effect as if such date were the maturity date of such Muskrat/LTA Loan, anything herein to the contrary notwithstanding, and from and after such Muskrat/LTA Voluntary Prepayment, if the moneys necessary to prepay such Muskrat/LTA Loan are paid as herein provided, such Muskrat/LTA Loan will not be considered outstanding hereunder and interest will cease in respect of the portion of the Muskrat/LTA Construction Facility relating to such Muskrat/LTA Loan.

### 3.8 Sinking Fund Account Payments

The Credit Parties hereby agree to pay to the Collateral Agent for deposit in the Sinking Fund Account, on each Sinking Fund Deposit Date, an amount equal to the amount set forth beside each such Sinking Fund Deposit Date in Schedule "Y" hereto (each such payment being a "**Sinking Fund Payment**"), less any amount transferred to the Sinking Fund Account pursuant to Section 3.9 and required to be imputed towards such Sinking

Fund Payment in accordance with the provisions of Section 3.9. Amounts so deposited in the Sinking Fund Account shall only be released by the Collateral Agent in accordance with Section 8.17. The Credit Parties shall invest any amounts held in the Sinking Fund Account in accordance with Schedule "Z".

### 3.9 **Prepayment of Sinking Fund Account**

If as a result of the application of paragraphs (v) to (xxviii) of the definition of "Final Funding Request":

3.9.1 there remains a balance in the Project Funding Accounts, the Project Operating Accounts and the Working Capital Reserve Account, the aggregate amount of such balance, as calculated pursuant to paragraph (xxix) of the definition of "Final Funding Request" shall, on the date of the Funds Release, the Base Equity Contributions or the Contingency Equity Contributions relating to the Final Funding Request to be made hereunder, be transferred to the Sinking Fund Account; and

3.9.2 the Muskrat/LTA Proceeds Account Balance is greater than nil, a Funds Release shall be deemed to have been requested pursuant to the Funds Release Request delivered in connection with the Final Funding Request in an amount sufficient to reduce the Muskrat/LTA Proceeds Account Balance to nil, and such amount shall be deposited into the Sinking Fund Account;

and the amounts contemplated in subsections 3.9.1 and 3.9.2 shall be imputed, on a proportionate basis, to each of the Sinking Fund Payments set forth in Schedule "Y" hereto for each Sinking Fund Deposit Date in the chronological order thereof.

## ARTICLE 4

### **INTEREST AND GUARANTEE FEE**

#### 4.1 **Interest**

4.1.1 The Credit Parties hereby covenant and agree to pay to the Collateral Agent, for the account of the Funding Vehicle, interest on each Tranche of the Muskrat/LTA Construction Loan at an annual rate equal to the Applicable Interest Rate applicable to such Tranche, such interest to be reduced in accordance with subsection 4.1.7.

4.1.2 The Muskrat/LTA Construction Loan shall bear interest from and including the date of the first Advance hereunder at a rate equal to the Applicable Interest Rate payable semi-annually in arrears on each Muskrat/LTA Interest Payment Date, such interest to be reduced in accordance with subsection 4.1.7.

4.1.3 Interest is payable on each Muskrat/LTA Interest Payment Date (i) in respect of the first Muskrat/LTA Interest Payment Date, in an amount of interest

accrued and to accrue from the date of the first Advance hereunder up to and including the second Business Day immediately following such Muskrat/LTA Interest Payment Date, and (ii) in respect of any Muskrat/LTA Interest Payment Date thereafter, in an amount of interest accrued from and including the immediately preceding Muskrat/LTA Interest Payment Date up to and excluding such subsequent Muskrat/LTA Interest Payment Date.

- 4.1.4 Interest on all overdue interest on each Tranche of the Muskrat/LTA Construction Loan shall be calculated, compounded and payable in accordance with the corresponding provisions of the applicable MTI and each relevant Supplemental Indenture as they relate to such Tranche as set forth in the definition of Applicable Interest Rate.
- 4.1.5 Interest payable on each Tranche of the Muskrat/LTA Construction Loan shall be payable after as well as before maturity and after as well as before default and judgement.
- 4.1.6 As additional interest payable in respect of the Muskrat/LTA Construction Loan, the Credit Parties hereby covenant and agree to pay to the Collateral Agent, for the account of the Funding Vehicle, on an annual basis, on the last Business Day of each calendar year, commencing on December 31, 2014 an amount equal to CDN\$10,000 in accordance with their respective Project Rateable Share.
- 4.1.7 The interest payable by the Credit Parties pursuant to Article 4 at any time shall be reduced by an amount equal to the total of the amount on deposit in the FV Proceeds Account and the FV Payment Account as at such time.
- 4.1.8 The payment of interest as provided in subsections 4.1.1 to 4.1.5 shall be funded in part by the transfers of the Income on Account Balances referred to in paragraph 8.1.1.3.

#### 4.2 **Guarantee Fee**

The Credit Parties hereby covenant and agree to pay to the Collateral Agent, for the account of Canada, on an annual basis, starting on the Muskrat/LTA Interest Payment Date in May 2018 and on the Muskrat/LTA Interest Payment Date in May of each year thereafter, a guarantee fee on account of the issuance by Canada of the Additional Federal Loan Guarantee equal to 0.5% of the Net FLG2 Debt (the "**Guarantee Fee**"), in accordance with their respective Project Rateable Share.

## ARTICLE 5

### MANNER OF PAYMENTS

#### 5.1 Apportionment of Payments between Credit Parties

If either Credit Party purports to assign this Agreement without the prior written consent of the Collateral Agent.

**ARTICLE 14****REMEDIES****14.1 Preliminary Measures**

Upon the occurrence of a Muskrat/LTA Event of Default (other than a Muskrat/LTA Event of Default listed in subsections 14.1.1 to 14.1.7), a one hundred and fifty (150) day consultation period (the "**Remedies Consultation Period**") shall automatically be triggered during which the Credit Parties shall meet with the Collateral Agent and the GAA Finance Parties during normal business hours, on request made by the Collateral Agent or the Credit Parties from time to time during such Remedies Consultation Period reasonably in advance of any proposed meeting, to discuss the Muskrat/LTA Event of Default, the cause of such Muskrat/LTA Event of Default and potential actions to be taken to cure the Muskrat/LTA Event of Default and attempt to come to an agreement on how to implement the remedy for the Muskrat/LTA Event of Default in a timeframe

acceptable to all such parties. Notwithstanding the existence of any Muskrat/LTA Event of Default (other than a Muskrat/LTA Event of Default listed in subsections 14.1.1 to 14.1.7) during the Remedies Consultation Period, neither the Collateral Agent nor any of the GAA Finance Parties shall be entitled to exercise any Right, Recourse or Remedy that might otherwise be available to it or them hereunder, under any other Muskrat/LTA Project Finance Document or under any Applicable Law including those contemplated in Section 14.2, save and except (i) for the right of the Collateral Agent to apply amounts on deposit in the DSRA to the payment of any Sinking Fund Payments then due and outstanding or any payment on the Muskrat/LTA Loan then due and outstanding and (ii) that as of and from the 90<sup>th</sup> day of such Remedies Consultation Period, the Collateral Agent may issue to the Credit Parties only (but not to third parties) any notices for enforcement required to be issued under Applicable Law similar to the notice required under Section 244 of the *Bankruptcy Act* (Canada), provided, however, that no such notice may be published, filed or registered in any public registry or elsewhere until the expiry of such Remedies Consultation Period. If at any time during a Remedies Consultation Period, an Insolvency Event (other than an Insolvency Event under clause (v) of the definition of "Insolvency Event") occurs with respect to any Credit Party or Nalcor, then such Remedies Consultation Period shall thereupon terminate. The following Muskrat/LTA Events of Default shall not trigger a Remedies Consultation Period:

- 14.1.1 a Muskrat Event of Default under Section 13.6 resulting from an Insolvency Event other than an Insolvency Event under clause (v) of the definition of "Insolvency Event";
- 14.1.2 a Muskrat/LTA Event of Default under Section 13.7;
- 14.1.3 a Muskrat/LTA Event of Default under Section 13.10;
- 14.1.4 a Muskrat/LTA Event of Default under Section 13.12;
- 14.1.5 a Muskrat/LTA Event of Default under Section 13.18, but only to the extent that it relates to the PPA or the GIA;
- 14.1.6 a Muskrat/LTA Event of Default under Section 13.22; or
- 14.1.7 a Muskrat/LTA Event of Default under Section 13.26 or Section 13.27, but only to the extent that the LIL Event of Default or IT Event of Default giving rise to such a Muskrat/LTA Event of Default has not triggered a concurrent Remedies Consultation Period (as defined in the LIL Master Definitions Agreement).

## 14.2 **Termination and Acceleration**

Upon the occurrence and during the continuance of a Muskrat/LTA Event of Default but subject to first completing the preliminary measures contemplated in Section 14.1, the Collateral Agent may do any one or more of the following:

- 14.2.1 declare the whole or any part of the Muskrat/LTA Construction Facility to be cancelled, terminated or reduced, whereupon the Funding Vehicle shall not be required to make any further Advance hereunder in respect of such portion of the Muskrat/LTA Construction Facility so cancelled, terminated or reduced;
- 14.2.2 accelerate the maturity of all or any item or part of the Muskrat/LTA Construction Loan and declare them and the Muskrat/LTA Make-Whole Amount to be payable on demand or immediately due and payable, whereupon they shall be so accelerated and become so payable or due and payable, as the case may be;
- 14.2.3 enforce or realize upon all or any Lien granted under the Muskrat/LTA Project Finance Documents;
- 14.2.4 suspend any rights of the Credit Parties under any Muskrat/LTA Project Finance Document, whereupon such rights shall be so suspended; and
- 14.2.5 take any other action, commence any other suit, action or proceeding or exercise such other rights as may be permitted by any Muskrat/LTA Project Finance Document or Applicable Law (whether or not provided for in any Muskrat/LTA Project Finance Document) at such times and in such manner as the Collateral Agent may consider expedient,

all without any additional notice, demand, presentment for payment, protest, noting of protest, dishonour, notice of dishonour or any other action being required. If a Muskrat/LTA Event of Default referred to in Section 13.6 occurs, the Muskrat/LTA Construction Facility shall immediately and automatically be cancelled and the Muskrat/LTA Construction Loan shall be accelerated and become immediately and automatically due and payable without any action on the part of the Collateral Agent or any of the GAA Finance Parties being required.

### 14.3 **Distribution of Proceeds of Realization**

Any Proceeds of Realization received by any of the Funding Vehicle or the Collateral Agent, as the case may be, shall be applied as follows:

- 14.3.1 firstly, to pay all costs (including Realization Costs) incurred or paid by the Funding Vehicle, the other GAA Finance Parties and the Collateral Agent up to and including the day any Proceeds of Realization are distributed in accordance with the provisions of this subsection 14.3.1;
- 14.3.2 secondly, to pay all other Various Agent Costs and Expenses incurred or paid up to and including the day any Proceeds of Realization are distributed in accordance with the provisions of this subsection 14.3.2;
- 14.3.3 thirdly, to pay all Funding Vehicle Project Costs and Expenses incurred or paid up to and including the day any Proceeds of Realization are distributed in accordance with the provisions of this subsection 14.3.3;

- 14.3.4 fourthly, to pay all Canada Project Costs and Expenses incurred or paid up to and including the day any Proceeds of Realization are distributed in accordance with the provisions of this subsection 14.3.4;
- 14.3.5 fifthly, to pay (i) all interest in respect of the Muskrat/LTA Loan, (ii) all principal on the Muskrat/LTA Loan and any Muskrat/LTA Make-Whole Amount, (iii) all breakage costs and other losses and expenses, in all cases then due and payable pursuant to the provisions of the Consolidated Transaction Documents up to and including the day any Proceeds of Realization are distributed in accordance with the provisions of this subsection 14.3.5 and (iv) the Guarantee Fee; and
- 14.3.6 lastly, to pay any surplus to any Person or Persons who by Applicable Law shall have the right to receive same.

#### 14.4 **Application of Payments**

Any payments received in respect of the Muskrat/LTA Secured Obligations from time to time may, notwithstanding any appropriation by the Funding Vehicle, but subject to the provisions of Section 14.3 be appropriated to such parts of the obligations of the Credit Parties under any Muskrat/LTA Project Finance Documents and in such order as the Collateral Agent, acting in accordance with the Requisite Instructions sees fit, and the Collateral Agent shall have the right to change any appropriation at any time pursuant to any such Requisite Instructions.

### ARTICLE 15

#### **INDEMNITIES**

#### 15.1 **Change in Law**

If the Funding Vehicle determines (which determination shall be evidenced by a certificate submitted to the Credit Parties and the Collateral Agent by the Intermediary Trust and, in the absence of demonstrable error, such certificate shall constitute *prima facie* evidence of the subject matter thereof among the parties hereto) that:

- 15.1.1 a Change in Law has made or shall make it unlawful, impracticable or contrary to any Applicable Law for the Funding Vehicle to maintain or give effect to all or any part of its obligations as contemplated by this Agreement and the other Muskrat/LTA Project Finance Documents, or to make or maintain all or any part of the Muskrat/LTA Loan hereunder, then the obligations of the Funding Vehicle to maintain or give effect to such part of such obligations or to make or maintain such part of the Muskrat/LTA Loan shall terminate and, subject to the provisions of any such Applicable Law and those of Section 15.2 with respect to losses and expenses, the Credit Parties shall repay in full any such affected Muskrat/LTA Loan, together with all interest accrued thereon and the Muskrat/LTA Make-Whole Amount, immediately upon demand of the Funding Vehicle; or

## 15.1.2 a Change in Law has:

- 15.1.2.1 imposed, modified, or deemed applicable any loan ceiling against the Funding Vehicle or imposed, modified or deemed applicable any special Tax (other than a Tax on the overall net income of the Funding Vehicle), reserve, deposit or similar requirement with respect to assets held by, deposits in or for the account of, the acquisition of funds by, or loans by the Funding Vehicle; or
- 15.1.2.2 changed the basis of taxation of payments to the Funding Vehicle under this Agreement (other than a change affecting taxation on the overall net income of the Funding Vehicle); or
- 15.1.2.3 imposed on the Funding Vehicle any other condition (including the amount of capital required or expected to be maintained by the Funding Vehicle as a result of this Agreement) or monetary restraint with respect to this Agreement; and

the result of any of the foregoing is to increase the cost to the Funding Vehicle of making or maintaining the Muskrat/LTA Construction Facility, the Muskrat/LTA Loan or any part thereof or to reduce any amount receivable by the Funding Vehicle with respect to the Muskrat/LTA Loan or any part thereof by an amount which the Funding Vehicle deems in its sole discretion to be material, within ten (10) Business Days of receipt of the certificate referred to above (which certificate shall contain all required computations and reasonable explanations of the amounts required to be paid); then

- 15.1.2.4 the Credit Parties shall pay to Collateral Agent, for the account of the Funding Vehicle, such additional amount computed by Collateral Agent as will, on an after-tax basis, compensate the Funding Vehicle for such additional cost or reduction in amounts receivable which the Funding Vehicle determines to be attributable to the Credit Parties or the Muskrat/LTA Loan made to the Credit Parties; and
- 15.1.2.5 subject to the provisions of Section 15.2 with respect to losses and expenses, the Credit Parties may repay in full the Muskrat/LTA Loan together, in each case, with accrued interest thereon and the Muskrat/LTA Make-Whole Amount.

15.2 **Reimbursement of Losses and Expenses**

Whenever the Funding Vehicle shall sustain or incur any losses and expenses in connection with:

- 15.2.1 the failure of either Credit Party to borrow pursuant to a Draw Request once delivered (whether by reason of either Credit Party's decision not to proceed,

the non-fulfilment by either Credit Party of any of the conditions set forth herein, the existence of a Muskrat/LTA Event of Default on the relevant Drawdown Date or for any other reason other than default by the Funding Vehicle); or

- 15.2.2 the declaration by the Collateral Agent following the occurrence and continuance of an Enforcement Event that the Muskrat/LTA Loan is immediately due and payable; or
- 15.2.3 the failure of either Credit Party to pay when due any Sinking Fund Payment, principal, interest, fees or other amount under this Agreement when due (whether at maturity, by reason of acceleration or otherwise);

(the events contemplated above shall be referred to individually as a "**Loss Event**" and the funds converted, repaid, not borrowed or not repaid, as the case may be, which are subject to any such Loss Event shall be collectively referred to as the "**Affected Funds**");

the Credit Parties agree to pay to the Collateral Agent for the account of the Funding Vehicle, upon demand, an amount certified by the Collateral Agent to be necessary to compensate the Funding Vehicle for all such losses and expenses. The certificate of the Collateral Agent shall also specify the computation and reasonable explanations of the amount to be paid.

### 15.3 **Environmental Indemnity**

The Credit Parties shall at all times indemnify and hold harmless the Indemnified Parties against and from any and all losses and expenses of any nature whatsoever, incurred, suffered, sustained or required to be paid by them or any one thereof, under or on account of Environmental Laws, including the assertion of any Lien thereunder (collectively, the "**Environmental Losses**"), with respect to:

- 15.3.1 any violation or alleged violation of Environmental Laws, or the presence of any Hazardous Material affecting any Asset of either Credit Party in violation of Environmental Laws;
- 15.3.2 any Clean-Up costs incurred by any Governmental Authority or any costs incurred by any other Person or damages from injury to, destruction of, or loss of natural resources, including reasonable costs of assessing such injury, destruction or loss incurred in connection with the property, operations and activities of such other Person or the property, operations and activities of either Credit Party as a result of the violation of Environmental Laws by either Credit Party;
- 15.3.3 liability for personal injury or property damage arising under any statutory or common law tort theory; and

- 15.3.4 any other environmental matter affecting any Asset of either Credit Party or the operations and activities of either Credit Party within the jurisdiction of any Governmental Authority.

The obligations of the Credit Parties under this Section shall arise upon the discovery of any Hazardous Material, whether or not any Governmental Authority has taken or threatened any action in connection with the presence of any Hazardous Material.

#### 15.4 **General Indemnity**

The Credit Parties hereby indemnify and hold harmless the Indemnified Parties from and against any and all losses and expenses, joint and several or joint or several, that may be incurred by or asserted or awarded against any Indemnified Party, in each case arising out of or in connection with or relating to any investigation, litigation or proceeding or the preparation of any defence with respect thereto arising out of or in connection with or relating to this Agreement (including, without limitation, any liability that any Indemnified Party incurs by virtue of being found, in respect of the Projects, liable as a partner or joint venturer), the other Muskrat/LTA Project Finance Documents or the transactions contemplated hereby or thereby, or any use made or proposed to be made with the proceeds of the Muskrat/LTA Construction Facility, whether or not such investigation, litigation or proceeding is brought by either Credit Party or any of their respective partners, shareholders or creditors, an Indemnified Party or any other Person, or an Indemnified Party is otherwise a party thereto and whether or not the transactions contemplated hereby are consummated, except to the extent such losses and expenses are found in a final judgment to have directly resulted from such Indemnified Party's gross negligence or wilful misconduct.

#### 15.5 **Claims under the Indemnities**

The Indemnified Party claiming indemnification under Sections 15.3 or 15.4 shall give the Credit Parties notice in writing of particulars of any claim asserted by third parties against it which is covered by such indemnities and the Credit Parties shall, within fifteen (15) days, give notice in writing to such Indemnified Party whether they wish to dispute such claim at their sole cost and expense. The Indemnified Party shall not permit the settlement of or compromise of such claim without the written consent of one of the Credit Parties, unless the said fifteen (15) day period has expired without one of the Credit Parties having given written notice of its desire to dispute such claim. If the Indemnified Party is unable to obtain timely advice from the Credit Parties that they wish to dispute such claim as aforesaid, the Indemnified Party shall be entitled to deal with such claim in such manner as it deems appropriate. If the Credit Parties give such written notice to the Indemnified Party that they do wish to dispute such claim, the Credit Parties shall have the obligation to contest, settle, compromise or dispute such claim in the name of or on behalf of the Person against whom it is made, at their own cost and expense, and shall at their own cost and expense defend expeditiously the Person against whom such claim is made from all such actions or proceedings to which the said indemnity applies, and the Indemnified Party shall arrange that the Credit Parties shall have the right to carry on such actions or proceedings in its name; provided that, counsel retained by the Credit Parties to prosecute such defense is approved by the Indemnified Party and the Credit

Parties (i) shall keep the Indemnified Party advised as to the course of the proceedings, (ii) shall not settle any claim without the prior consent of the Indemnified Party unless the settlement results in a full and final release of the Indemnified Party without cost or any risk to the reputation of the Indemnified Party and does not contain any admission of fault, and (iii) shall prosecute and dispute or conduct such negotiations in good faith and with due diligence; and provided, further that, notwithstanding any provision herein contained, the Indemnified Party shall at all times have the right to retain its own counsel, with the prior written consent of the Credit Parties and at the reasonable cost and expense of the Credit Parties, to advise it in any of the foregoing, to appear in its name and act on its behalf in any proceedings or conduct negotiations on its behalf. Subject to the foregoing, the Indemnified Party shall make available to the Credit Parties copies of all files, books, records and documents, information and data (except for such files, books, records and documents, information and data which are confidential) in the possession and control of the Person against whom the claim is made relevant to such actions or proceedings for the purposes of such defence and shall cause such Person to cooperate without expense to itself in all reasonable respect and to assist in the defence of any such actions or proceedings.

#### 15.6 **Remedial Action**

In the event of:

- 15.6.1 any Release of Hazardous Materials, the threat of a Release of any Hazardous Material or the presence of any Hazardous Material affecting or relating to any Asset of either Credit Party in violation of Environmental Laws which, singly or in the aggregate, (i) would result in losses and expenses to the Credit Parties in excess of CDN\$50,000,000 or (ii) would have a Material Adverse Effect; or
- 15.6.2 any Credit Party failing to comply with any of the requirements of Environmental Laws, which non-compliance, singly or in the aggregate, would have a Material Adverse Effect;

the Collateral Agent after having given written notice of the intention of the GAA Finance Parties to the Credit Parties (no later than fifteen (15) Business Days before giving effect to such intention at their election, but without the obligation so to do), may give such notices and/or cause such work to be performed at such property and/or take any and all other actions as the Collateral Agent shall deem necessary or advisable in order to Clean-Up or cure non-compliance. Any amounts expended by the Collateral Agent in any of the foregoing activities shall be repayable by the Credit Parties upon the demand of the Collateral Agent, shall form part of the Muskrat/LTA Loan and interest thereon shall be computed and be payable at the same rate as that applicable to the FV Bond latest to mature under the Tranches, and such amounts shall constitute part of the Muskrat/LTA Secured Obligations.

## 15.7 **Acknowledgement**

The Credit Parties acknowledge that the Collateral Agent and the GAA Finance Parties have agreed to the Muskrat/LTA Loan being made in reliance upon the representations, warranties and covenants in this Agreement relating to the environment. For this reason, it is the intention of the Credit Parties, the Collateral Agent and the GAA Finance Parties that the Credit Parties shall be liable for any liability or Indebtedness arising under this Article even if the amount of liability incurred exceeds the amount of the Muskrat/LTA Loan. The liability and Indebtedness of the Credit Parties arising under this Article shall constitute part of the Muskrat/LTA Secured Obligations, shall be secured by the Muskrat/LTA Security Documents, are absolute and unconditional and shall not be affected by any act, omission, or circumstance whatsoever, whether or not occasioned by the fault of the Collateral Agent and the GAA Finance Parties or any one thereof, except to the extent such liabilities are determined, in a final judgment, to have resulted directly from the gross negligence or wilful misconduct of the Collateral Agent and the GAA Finance Parties, their respective directors, officers, employees, advisors, representatives and agents or any one thereof. All of the representations, warranties, covenants and indemnities of this Agreement relating to the environment shall survive the repayment of the Muskrat/LTA Loan and shall survive the transfer of any or all right in and to the Assets of either Credit Party to any party, whether or not affiliated with them.

The obligations and the Indebtedness arising under Section 15.3 are not in any way diminished by the knowledge of any one of such beneficiaries of the non-compliance by either Credit Party with Environmental Laws; they shall survive the repayment of the Muskrat/LTA Loan as well as the sale or disposition of the property which is the basis of the indemnity claimed.

## ARTICLE 16

### **SPECIAL PROVISIONS**

#### 16.1 **Covenant of the Funding Vehicle**

The Funding Vehicle covenants and agrees that, on demand made by the Credit Parties from time to time, it shall request that the Indenture Trustee remit to it any moneys set aside in connection with any redemption of any securities issued by the Funding Vehicle under Section 5.6 of each MTI six (6) years following such setting aside if the holders of such securities have not claimed such amounts and that such amounts be paid to the Funding Vehicle and the Funding Vehicle shall pay same to the Credit Parties upon receipt.

#### 16.2 **Actions and Decisions of the Collateral Agent and GAA Finance Parties**

Whenever any reference is made in this Agreement to a decision or judgment to be made by, consent or waiver to be granted by, discretion to be exercised by, action to be taken by, request to be made by, or otherwise to the Collateral Agent, the GAA Finance Parties or any one of them, or any other Person, including the Collateral Agent's Counsel, the Independent Engineer or the Insurance Consultant, such reference shall be deemed to be a

reference to such Person, acting reasonably. Moreover, and without limiting the foregoing, whenever any reference is made in this Agreement to a decision or judgment to be made by, consent or waiver to be granted by, discretion to be exercised by, action to be taken by, request to be made by, or otherwise to, the Collateral Agent, such reference shall be deemed to be to the Collateral Agent, acting in accordance with the Requisite Instructions.

## ARTICLE 17

17.3 **Amendments and Waivers**

17.3.1 Subject to subsection 17.3.2, this Agreement may be changed from time to time by all of the parties hereto.

17.3.2 No waiver of any provision of this Agreement, nor consent to any departure by any party therefrom, shall in any event be effective unless the same shall be in writing and signed by all the parties hereto, and then said waiver or consent shall be effective only in the specific instance and for the specific purpose for which given. No failure on the part of any party to exercise, and no delay in exercising, any right hereunder shall operate as a waiver thereof.

17.4 **Provision Regarding Liability of Issuer Trustee**

The Issuer Trustee has entered into this Agreement in its capacity as trustee of the Funding Vehicle. Any and all of the representations, warranties, undertakings, covenants,

indemnities, agreements and other obligations made on the part of the Issuer Trustee herein are made and intended not as personal representations, warranties, undertakings, covenants, indemnities, agreements and other obligations by the Issuer Trustee or for the purpose or with the intention of binding the Issuer Trustee in its personal capacity, but are made and intended for the purpose of binding only the Assets of the Funding Vehicle. No Assets of the Issuer Trustee (other than the Assets of the Funding Vehicle), whether owned beneficially by it in its personal capacity or otherwise, will be subject to levy, execution or other enforcement procedures with regard to any of the representations, warranties, undertakings, covenants, indemnities, agreements and other obligations of the Funding Vehicle or the Issuer Trustee under this Agreement or any of the other documents accessory hereto. No recourse may be had or taken, directly or indirectly against the Issuer Trustee in its personal capacity, any beneficiary of the Funding Vehicle or any Affiliate, shareholder, officer, director, employee or agent of the Issuer Trustee or any predecessor or successor of the Issuer Trustee, with regard to the representations, warranties, undertakings, covenants, indemnities, agreements and other obligations of the Funding Vehicle or the Issuer Trustee under this Agreement and the documents accessory hereto.

17.5 **Successors and Assigns**

This Agreement shall be binding upon and shall enure to the benefit of the parties hereto and their respective successors and assigns, provided that no party hereto shall assign any of its rights or obligations hereunder without the prior written consent of each of the other parties hereto.

17.6 **No Novation**

17.7 **Obligation to Pay Absolute**

The obligations of any Credit Party to make payments on the Muskrat/LTA Loan as and when in this Agreement provided shall be unconditional and irrevocable, and shall be paid strictly in accordance with the terms of this Agreement under all circumstances without any right of compensation or set-off and notwithstanding any defense, right of action or claim of any nature whatsoever which any Credit Party may at any time have or have had against the Collateral Agent or the Funding Vehicle, whether in connection with this Agreement or otherwise.

17.8 **Rights and Recourses Cumulative**

The rights and remedies of the Funding Vehicle and the Collateral Agent under this Agreement shall be cumulative and not exclusive of any right or remedy which the

Funding Vehicle would otherwise have and no failure or delay by the Collateral Agent or the Funding Vehicle in exercising any right shall operate as a waiver thereof, nor shall any single or partial exercise of any power or right preclude its other or further exercise or the exercise of any other power or right.

$$\frac{[0.65 \times (A + C)] - B}{C}$$

where:

**A** = the sum of **(i)** the sum of the principal amount of the Funds Releases made to the Credit Parties (without taking into account the Funds Releases to be effected), **(ii)** the principal amount of all outstanding Additional Debt (without taking into account the Additional Debt proposed to be incurred) incurred by each Credit Party, and **(iii)** the aggregate outstanding balance of the Capital Account of each of Muskrat and Labrador Transco, the whole less the amount of the balance on deposit in the Sinking Fund Account;

1. Insert the amount in line 6 of Schedule "E".
2. Insert the amount in line 14 of Schedule "F".
3. This amount is determined by subtracting line 2 of this Schedule from line 1 of this Schedule.
4. Insert the amount of Additional Debt proposed to be incurred to fund the Funding Requirements.
5. (i) Where the funding of the Funding Requirements of Labrador Transco is made prior to the date on which DER first becomes equal to 65% following the 2017 Closing Date, the LTA Debt Rateable Share corresponds to 100%, unless the LTA Debt Rateable Share of 100% would result in a DER that exceeds 65%, in which case the LTA Debt Rateable Share shall be the percentage resulting from the following calculation:

$$\frac{[0.65 \times (A + C)] - B}{C}$$

where:

**A** = the sum of **(i)** the sum of the principal amount of the Funds Releases made to the Credit Parties (without taking into account the Funds Releases to be effected), **(ii)** the principal amount of all outstanding Additional Debt (without taking into account the Additional Debt proposed to be incurred) incurred by each Credit Party, and **(iii)** the aggregate outstanding balance of the Capital Account of each of Labrador Transco and Muskrat, the whole less the amount of the balance on deposit in the Sinking Fund Account;

**B** = the sum of **(i)** the sum of the principal amount of the Funds Releases made to the Credit Parties (without taking into account the Funds Releases to be effected), and **(ii)** the principal amount of all outstanding Additional Debt (without taking into account the

(ii) Where the funding of the Funding Requirements of Labrador Transco is made following the date on which DER first becomes equal to 65% following the 2017 Closing Date, the LTA Debt Rateable Share corresponds to:

(A) prior to the Muskrat/LTA Proceeds Account Balance being fully released and the amounts on deposit in the Working Capital Reserve Account being nil, with respect to any Funding Requirements of Labrador Transco that are to be funded at any particular time, and in relation to which a Funds Release is to be effected or a WCR Release pursuant to Section 7.11 of the Muskrat/LTA Project Finance Agreement is to be effected, or, as the case may be, Additional Debt is to be incurred as permitted pursuant to the terms of the Muskrat/LTA Project Finance Documents, 65%;

unless, as a result of the calculations in part (A) above, Labrador Transco is unable to fund in its entirety by way of Debt for Borrowed Money the portion of such Funding Requirements represented by such LTA Debt Rateable Share by reason of:

- (a) the portion of such Funding Requirements represented by such LTA Debt Rateable Share exceeding Labrador Transco's Funding Deficiency Rateable Share of the Muskrat/LTA Proceeds Account Balance; and
- (b) Labrador Transco not proposing to incur Additional Debt in an amount sufficient to fund the entire amount of the excess referred to in clause (a) above (such excess as reduced by any such Additional Debt proposed to be incurred shall be referred to herein as the "**LTA Funding Deficiency**");

in which case the LTA Debt Rateable Share shall mean, expressed as a percentage:

$$\frac{A}{B}$$

Where:

**A** = the sum of the Additional Debt proposed to be incurred and Labrador Transco's Funding Deficiency Rateable Share of the Muskrat/LTA Proceeds Account Balance;

**B** = the amount of such Funding Requirements, less the amount of the Aggregate Labrador Transco Eligible Account Balances, and Labrador Transco's Final WCRA Rateable Share of the Working Capital Reserve Account Balance, used to fund such Funding Requirements;

provided, however, that at all times where the Muskrat/LTA Proceeds Account has been fully released but:

- (i) Labrador Transco's Final WCRA Rateable Share of the Working Capital Reserve Account Balance is sufficient to meet the Funding Requirements of Labrador Transco that are to be funded, then the LTA Debt Rateable Share of such Funding Requirements shall mean 100%; and
- (ii) Labrador Transco's Final WCRA Rateable Share of the Working Capital Reserve Account Balance is insufficient to meet the Funding Requirements of Labrador Transco that are to be funded, as the case may be, then the LTA Debt Rateable Share of such Funding Requirements shall mean, expressed as a percentage:

$$\frac{A}{B}$$

Where "A" and "B" shall each have the same definition as above;

- (B) at all times thereafter, with respect to any Funding Requirements of Labrador Transco that are to be funded at any particular time, and in relation to which Additional Debt is to be incurred as permitted pursuant to the terms of the Muskrat/LTA Project Finance Documents, the lesser of 65% and the percentage resulting from the following calculation:

$$\frac{\text{the amount of Additional Debt proposed to be incurred by Labrador Transco to fund such Funding Requirements}}{\text{such Funding Requirements}}$$

- 6. This amount is determined by multiplying line 5 of this Schedule with line 3 of this Schedule.
- 7. This amount is determined by subtracting line 5 of Schedule "H" from line 6 of Schedule "H". Where the result of this subtraction is a negative amount, insert 0.

11. This amount is determined by multiplying line 10 of Schedule "E" with the positive difference, if any, between line 6 of this Schedule and line 7 of this Schedule. In the event that the difference between line 6 of this Schedule and line 7 of this Schedule is negative, insert 0.
12. This amount is determined by subtracting line 4 and line 7 of this Schedule from line 6 of this Schedule. Where this calculation results in the aggregate amount of Funds Release required being greater than the Muskrat/LTA Proceeds Account Balance, the amount to be inserted in line 12 of this Schedule shall be equal to the Muskrat/LTA Proceeds Account Balance.
13. This amount is determined by subtracting line 4, line 7 and line 12 of this Schedule from line 6 of this Schedule.

5. (i) Where the funding of the Funding Requirements of Muskrat is made prior to the date on which DER first becomes equal to 65% following the 2017 Closing Date, the MF Debt Rateable Share corresponds to 100%, unless the MF Debt Rateable Share of 100% would result in a DER that exceeds 65%, in which case the MF Debt Rateable Share shall be the percentage resulting from the following calculation:

$$\frac{[0.65 \times (A + C)] - B}{C}$$

where:

**A** = the sum of (i) the sum of the principal amount of the Funds Releases made to the Credit Parties (without taking into account the Funds Releases to be effected), (ii) the principal amount of all outstanding Additional Debt (without taking into account the Additional Debt proposed to be incurred) incurred by each Credit Party, and (iii) the aggregate outstanding balance of the Capital Account of each of Muskrat and Labrador Transco, the whole less the amount of the balance on deposit in the Sinking Fund Account;

- (A) prior to the Muskrat/LTA Proceeds Account Balance being fully released and the amounts on deposit in the Working Capital Reserve Account being nil, with respect to any Funding Requirements of Muskrat that are to be funded at any particular

time, and in relation to which a Funds Release is to be effected or a WCR Release pursuant to Section 7.11 of the Muskrat/LTA Project Finance Agreement is to be effected, or, as the case may be, Additional Debt is to be incurred as permitted pursuant to the terms of the Muskrat/LTA Project Finance Documents, 65%;

unless, as a result of the calculations in part (A) above, Muskrat is unable to fund in its entirety by way of Debt for Borrowed Money the portion of such Funding Requirements represented by such MF Debt Rateable Share by reason of:

- (a) the portion of such Funding Requirements represented by such MF Debt Rateable Share exceeding the sum of Muskrat's Funding Deficiency Rateable Share of the Muskrat/LTA Proceeds Account Balance and Muskrat's Funding Deficiency Rateable Share of the amounts on deposit in the Working Capital Reserve Account; and

$$\frac{A}{B}$$

Where:

**A** = the sum of the Additional Debt proposed to be incurred, Muskrat's Funding Deficiency Rateable Share of the Muskrat/LTA Proceeds Account Balance and Muskrat's Funding Deficiency Rateable Share of the amounts on deposit in the Working Capital Reserve Account;

**B** = the amount of such Funding Requirements less the amount of the Aggregate Muskrat Eligible Account Balances;

provided, however, that at all times where the Muskrat/LTA Proceeds Account has been fully released but:

- (i) Muskrat's Funding Deficiency Rateable Share of the amounts on deposit in the Working Capital Reserve Account is sufficient to meet the Funding Requirements of Muskrat that are to be funded and in relation to which a

WCR Release pursuant to Section 7.11 of the Muskrat/LTA Project Finance Agreement is to be effected, then the MF Debt Rateable Share of such Funding Requirements shall mean 100%; and

**SCHEDULE "Z"**

**SINKING FUND INVESTMENTS**

**Sinking Fund Composition Requirements**

To mitigate risk of principal loss in the BSF, hold limits will be placed on broad investment buckets, individual credits and term of the BSF investments.

The following table outlines allowed hold limits:

	Minimum Holding	Maximum Holding	Minimum Rating	Single Name Hold Limit
Canada and Canada-Guaranteed Bonds (includes MFLTA and LIL guaranteed bonds)	50%	100%	Not applicable	No Limit
AAA Provinces (issued by or fully guaranteed by) and AAA Corporates	0%	50%	AAA	Provinces 12.5% Corporate 5%
AA Provinces (issued by or fully guaranteed by)	0%	25%	AA-, Aa3, AA(low)	8.5%

The term of bonds in the BSF must not extend beyond the date on which the BSF funds are required for repayment of the relevant MFLTA or LIL bond maturity. This will ensure that the sinking fund does not take on any interest rate exposure.

BSF holdings must be denominated in Canadian dollars.

Requirements:

1. No structured products will be allowed in the sinking fund (this includes covered bonds, NHA MBS, callables, extendibles, derivatives);
2. To be considered an acceptable security for a given bucket above, the security must have ratings at or above the minimum rating indicated from two of Moodys, S&P, or DBRS;
3. If a holding, other than Canada and Canada-Guaranteed Bonds (including MFLTA and LIL guaranteed bonds), is downgraded such that it does not have two ratings that meet the minimum rating threshold (see above), the amount of the security that is beyond the maximum holdings of the bucket it qualifies for based on the downgraded rating, if any,

must be sold within 90 days and any principal loss must be contributed by the Project Co or made up in future periods by the BSF retaining interest income equal to the principal lost;

4. No interest may flow out of the BSF unless the balance of the BSF, on a mark-to-market basis, is greater than the BSF balance as indicated in the final sinking fund payment schedule at that point in time;
5. Collateral Agent is to give quarterly hold reports.

## **1.0 Purpose**

The purpose of this document is to establish a *Basis of Design* (BOD) for the Lower Churchill Project (LCP). This BOD will form the overarching project definition that will be used to prepare engineering design philosophies, project contract packaging, project estimates, project schedules, design briefs, detailed design specifications and drawings, construction planning, and all other project functions that depend on a clear definition of what is to be specifically financed and constructed.

Typically, this BOD is not changed or altered without major cost and schedule implications to the project as a whole and would only be considered and approved by LCP Executive Management, and then only after a clear recommendation from the Project Director.

## **2.0 Scope**

The objectives of this document are to establish the BOD for the following

- Muskrat Falls Generation
- Labrador Transmission Asset
- Labrador – Island Transmission Link

The Maritime Link is excluded from this BOD and will be prepared under separate cover.

## **3.0 Definitions**

Throughout this document, the following defined words are italicized.

<b>Basis of Design</b>	A compilation of the fundamental criteria, principles and/or assumptions upon which design philosophies and engineering design briefs will be developed.
<b>Bulkhead Gates</b>	Steel gates used to isolate water passages for inspection or maintenance, which are installed and removed under balanced pressures.
<b>Cavitation Resistant Design</b>	A design to prevent the formation of the vapour phase in a liquid flow when the hydrodynamic pressure falls below the vapour pressure of the liquid.
<b>Change Control Board</b>	A panel within the Project Management Team that is responsible for making the ultimate decision to approve reject or elevate a Project Change Notice. See LCP-PT-MD-0000-PM-PL-0002-01, Project Change Management Plan.

<b>Electrode Line</b>	A transmission line connecting the <i>electrode</i> site to the <i>converter station</i> .
<b>Fail Safe Design</b>	A design that in the event of the failure of equipment, processes or systems, the event will produce minimum propagation beyond the immediate environment of the failing entity. In addition, the failure will be economically acceptable, and those devices in the system will perform their intended function and eliminate danger upon the loss of actuating power.
<b>Fish Compensation Flow</b>	Minimum flow required downstream of the dam sites during reservoir impoundment which will be required to maintain fish habitat and reduce the effects of salt water intrusion into the Churchill River.
<b>Fish Habitat Compensation</b>	This involves replacing the loss of fish habitat with newly created habitat or improving the productive capacity of some other natural habitat.

## 7.0 Descriptions

### 7.1 General

This BOD includes Muskrat Falls Generation, Labrador Transmission Asset and the Labrador-Island Transmission Link.

The primary reason for developing Muskrat Falls Generation, the Labrador Transmission Asset and the Labrador - Island Transmission Link is to meet increased capacity and energy requirements on the Island of Newfoundland. The electrical system on the Island of Newfoundland will experience a capacity deficit in 2015 and an energy short fall in 2021. Extensive analysis of the alternative supply options for the Island has demonstrated that Muskrat Falls and the associated transmission interconnection is the least cost technically acceptable supply alternative for the Island. Muskrat Falls and the interconnection not only provide for future load growth but also facilitate the retirement of the Holyrood Thermal Generating Station virtually eliminating the Island's dependence on fossil fuel fired generation.

All design assumptions used to establish the BOD respect the following overarching principles:

- Only proven technologies will be considered, unless it can be clearly demonstrated to the satisfaction of the Engineering Manager, Project Managers, Project Director and VP of the LCP that emerging technologies can be as reliable and provide significant cost and/or schedule savings.
- Local climatic/service conditions such as ambient temperature, elevation, humidity, sea temperature, sea currents and wind will be respected throughout the Project.
- All generating plants and transmission systems will be remotely operated and monitored from NE-NLH's Energy Control Centre.
- All designs shall assume a 50 year design life for the purposes of evaluation.
- Environmental *mitigation* and *rehabilitation* will be designed by LCP prior to issuing requests for proposals leading to construction contracts.
- The designs will assume the use of existing transportation infrastructure to the maximum extent possible. In particular, existing roads, bridges, railways and wharfs.
- *Good Utility Practice* will be observed.
- *Fail Safe Design* principles will be employed.
- Principles of *Life Cycle Cost Analysis* will be employed.
- The designs will be consistent with the NE Safety and Health Program.
- The designs will be consistent with NE Environmental Policy and Guiding Principles.
- The designs will be consistent with NE Asset Management Policy and Guiding Principles.
- The designs will be consistent with all applicable governing Standards, Codes, Acts and Regulations.
- All assets and systems will be designed to ensure safety, reliability, efficiency and minimal impact to the environment.

## **7.2 Muskrat Falls Generation**

### 1100 Access - General

- Site roads to be gravel surfaced unless conditions dictate otherwise e.g. to limit dust and flying stones in areas such as accommodations complex and other site facilities.
- Permanent site access from south, along south side of river via TLH.
- Temporary site access to north side from TLH.

### 1200 Permanent Accommodations

- No permanent accommodations required.

### 1320 Construction Power

- Construction power will be supplied from the existing 138 kV transmission line between CF and HVGB by means of a temporary tap station at MF, to be located on the north side of the Churchill River. It will comprise of a 50 MVA, 138 – 25 kV transformer with an on-load tap changer (OLTC), 138 kV circuit breakers for the transformer and the line feeder to HVGB and capacitor banks to provide voltage regulation. The installation will be capable of providing 12 MW peak load and will be remotely controlled and supervised from the Nalcor ECC in St. John's.
- Construction power will be supplied to the south side of the Churchill River with a 25 kV distribution feeder that will take off from this tap station and cross the river to provide power to the construction sites and the campsite located approximately 10.5 km east of Muskrat Falls.
- A new 125 MVA, 230 – 138 kV transformer with OLTC will be installed in CF as a replacement for the two existing 42 MVA transformers without OLTC to accommodate the increase of power transfer to provide 12 MW of power at MF.
- Once the 315 kV HVac network is energized during construction, power will be supplied from the 315 – 138 kV substation transformer tertiary winding until all construction facilities are demobilized.

### 1420 Construction Telecommunications – Muskrat Falls

All calculations for the purposes of determining compliance with any financial ratios and financial covenants contained in any Muskrat/LTA Project Finance Document or Guarantee Transaction Document

shall be made on a basis consistent with GAAP used in the preparation of the first Financial Statements of the Credit Parties delivered under the Initial Muskrat/LTA Project Finance Agreement. Any financial ratios required to be maintained by the Credit Parties pursuant to any Muskrat/LTA Project Finance Document or Guarantee Transaction Document shall be calculated by dividing the appropriate component by the other component, carrying the result to one place more than the number of places by which such ratio is expressed in any Muskrat/LTA Project Finance Document or Guarantee Transaction Document and rounding the result up or down to the nearest number (with a round-up if there is no nearest number) to the number of places by which such ratio is expressed therein.

- 1.13.2 The parties hereto agree that if at any time there is a material change to GAAP, then the Credit Parties and the Collateral Agent shall use commercially reasonable efforts to negotiate in good faith amendments to the provisions of the applicable Muskrat/LTA Project Finance Document or Guarantee Transaction Document, as the case may be, that are affected by such material change with the intent of having the respective positions of the Credit Parties and the Collateral Agent after such material change conform as nearly as possible to their respective positions immediately prior to the implementation of such material change; provided, however, that until any such amendments shall have been agreed upon, the terms, conditions and undertakings of the applicable Muskrat/LTA Project Finance Document or Guarantee Transaction Document shall be interpreted and applied as if such material change did not apply to the Credit Parties and the accounting principles applicable to the Credit Parties immediately prior to the implementation of such material change shall continue to apply to the Credit Parties for the purpose of determining if the Credit Parties comply with the financial covenants of the applicable Muskrat/LTA Project Finance Document or Guarantee Transaction Document and the Credit Parties shall continue to provide Financial Statements under the applicable Muskrat/LTA Project Finance Document or Guarantee Transaction Document prepared in accordance with such accounting principles.

## ARTICLE 2

### GUARANTEE

#### 2.1 Guarantee

The Guarantor hereby irrevocably, absolutely and unconditionally guarantees to the Trustee the due and timely payment to the Financing Parties of all the Guaranteed Obligations at the times, in the currencies and in the manner provided for in the Trust Indenture, the Bonds and the other Financing Documents.

It is hereby agreed and declared that the obligations of the Guarantor under the foregoing guarantee shall extend (without any further act or formality) to all Guaranteed Obligations, whether heretofore or hereafter issued and the Guaranteed Obligations resulting therefrom.

#### 2.2 Nature of Guarantee

The obligations of the Guarantor hereunder are and shall be irrevocable, absolute and unconditional, present and continuing and constitute a guarantee of payment and not merely a guarantee of collection. As and by way of indemnity, the Guarantor shall irrevocably, absolutely and unconditionally pay to the Trustee all such amounts as shall be required from time to time to ensure that the Financing Parties receive and are paid the full amount of the Guaranteed Obligations regardless of (a) the unenforceability or invalidity of the Guaranteed Obligations or any failure by the Issuer to duly and punctually pay in full the Guaranteed Obligations when due, (b) any loss of any right of the Financing Parties against the Issuer in respect of the Guaranteed Obligations for any reason whatsoever, including by operation of any bankruptcy, insolvency or similar such laws, any laws affecting creditors' rights generally or general principles of equity and (c) any act or omission of the Trustee or any other Fiscal Agent in connection with the enforcement of any of the rights of the Trustee against the Issuer.

#### 2.3 Payment Demand

Within five (5) Business Days of its receipt of a written demand from any Fiscal Agent in the form attached as Schedule A (a "**Payment Demand**"), the Guarantor shall pay to the Trustee each amount claimed in the Payment Demand in immediately available funds and as directed by such Fiscal Agent in the Payment Demand. A Payment Demand will not be valid under this Guarantee Agreement unless the amount claimed is due to the Financing Parties and has not been paid by the Issuer by the time provided on the Due Date. Any amount payable by the Guarantor under this Guarantee Agreement which is not paid when required herein will bear interest from the date of such demand until paid in full at the rate or rates expressed to be payable on the corresponding Guaranteed Obligations owing under the applicable Financing Documents.

#### 2.4 Withholdings

All amounts payable by the Guarantor under this Guarantee Agreement shall be made free and clear of and without deduction for or on account of any present or future taxes,

charges, fees, levies, duties or withholdings of any kind. If the Guarantor is obliged to deduct or withhold an amount in respect of any such taxes, charges, fees, levies, duties or withholdings, then in such event the Guarantor shall pay to the Trustee such additional amount as is necessary to ensure that the Financing Parties receive and retain (on an after-tax basis, after payment of any and all income taxes on such additional amounts) an amount equal to the full amount otherwise payable hereunder, net of any such taxes, charges, fees, levies, duties or withholdings.

**2.5 Statement of Account**

Any statement of account prepared by the Trustee as regards the Guaranteed Obligations shall constitute *prima facie* evidence of the amount which, as at the date of the statement so prepared, is due by the Issuer to the Financing Parties and the Trustee and the Guarantor hereby acknowledges and agrees that, absent manifest error, it shall be bound by each such statement. The Trustee agrees to provide the Guarantor with the computations and calculations used by the Trustee to prepare each such statement of account promptly following a request therefor.

**2.6 No Requirement to Exhaust Recourse**

None of the Financing Parties shall be bound to seek or exhaust its recourse or remedies against the Issuer, any other guarantor or any other Person nor to enforce, marshal or value any liens before being entitled to payment under this Guarantee Agreement.

**2.7 Postponed Subrogation**

The Guarantor shall not be subrogated to any right of the Financing Parties until (i) indefeasible payment in full of all the Guaranteed Obligations and (ii) none of the Financing Parties has any remaining obligation to make any advance, make any payment, make any other extension of credit or provide any other financial service under, by reason of, or otherwise in respect of, any of the Financing Documents. Thereafter, the Guarantor (i) shall be subrogated to the rights of the Financing Parties under, pursuant to and otherwise in respect of all the Financing Documents and (ii) may require the Financing Parties to assign to it and each other Person that has made payment of the Guaranteed Obligations pursuant to any other guarantee, any of their respective rights then remaining with respect to the Guaranteed Obligations, but any such assignment shall be without representation or warranty by, or recourse against, any of the Financing Parties.

**2.8 Set-Off Acknowledgement**

The Guarantor hereby acknowledges and agrees that vis-à-vis the Financing Parties it has no available remedy of set-off. Accordingly, each payment to be made by the Guarantor hereunder in respect of the Guaranteed Obligations shall be made as required in whole without application of the right of set-off. Each payment to be made by the Guarantor hereunder in respect of the Guaranteed Obligations shall be made without regard to any equities between or among any of the Issuer, the Guarantor and the Financing Parties and without counterclaim, reduction, recoupment, retention or diminution of any kind or nature (including as a result of any

defence, right of action, recoupment, retention or counterclaim of any nature that the Issuer or the Guarantor may have or have had against any of the Financing Parties or any other Person).

**2.9 Imputation of moneys received in reduction of Guaranteed Obligations**

Notwithstanding every legal rule concerning the imputation of payments, all sums of money received by the Trustee from the Guarantor pursuant to the provisions of this Article 2 shall be applied in reduction of the Guaranteed Obligations as provided in the Financing Documents.

**2.10 Irregularity in borrowings of no effect on obligations of the Guarantors**

All sums of money, advances, renewals, commitments and undertakings related to the Guaranteed Obligations borrowed or effectively obtained from the Financing Parties by the Issuer pursuant to the Financing Documents shall be considered as being part of the Guaranteed Obligations, notwithstanding any irregularity, defect or flaw in the borrowing or obtaining of such sums of money, advances, renewals, commitments and undertakings, whether or not any one of the Financing Parties was aware of the same, it being expressly understood that any sum which cannot be recovered from the Guarantor as guarantor hereunder for reasons of voidness of the principal obligation may be recovered from the Guarantor under the indemnity contained in Section 2.2 and shall be payable to the Trustee, for the benefit of the Financing Parties, upon demand therefor by the Trustee.

**2.11 No Release of Guarantor**

Until the Guaranteed Obligations have been indefeasibly paid in full and all credit facilities, extensions of credit and accommodations to the Issuer under the Financing Documents have been cancelled and terminated, the obligations of the Guarantor hereunder shall not be reduced, limited or terminated, nor shall the Guarantor be discharged from any obligation hereunder for any reason whatsoever including, but not limited to (whether or not the same shall have occurred or failed to occur once or more than once and, in the case of extensions of time for payment, observance or performance of obligations, whether such extensions or any of them are for periods longer than the respective periods then specified therefor and whether or not the Guarantor shall have received notice thereof or assented thereto):

2.11.1 any extension of the time for payment, observance or performance, or any other amendment or modification of any of the terms and conditions of the Guaranteed Obligations or the Financing Documents;

2.11.2 any composition or settlement (whether by way of release, acceptance of a plan of reorganization or otherwise) of the Guaranteed Obligations;

2.11.3 the release of any liens securing any or all of the Guaranteed Obligations or any release, compromise, settlement or extension of time for payment, observance or performance of any obligations under any of the Financing Documents;

2.11.4 any failure to exercise, delay in the exercise of, exercise or waiver of, or forbearance or other indulgence with respect to any rights, remedies and/or recourses available to any of the Financing Parties, including but not limited to:

- (a) any exercise of or failure to exercise any counterclaim, reduction, recoupment or retention;
- (b) any election of rights, remedies and/or recourses effected by any of them;
- (c) any subordination by operation of Applicable Law, whether present or future, of any or all of the Guaranteed Obligations;
- (d) any election not to or failure to protect or preserve any collateral or protect, preserve or continue the perfection of any lien on any collateral securing any or all of the Guaranteed Obligations;
- (e) any disallowance, invalidity, illegality, voidness or unenforceability of any or all liens securing any or all of the Guaranteed Obligations; and

2.11.5 any other act or failure to act which varies the risks of the Guarantor hereunder or, but for the provisions hereof, under the terms of any Applicable Law, would operate to reduce, limit or terminate the obligations of the Guarantor from any obligation hereunder.

## **2.12 Certain Waivers**

The Guarantor hereby waives:

2.12.1 any requirement and any right to require, that any power be exercised or any action be taken against the Issuer or any other guarantor or any collateral for any of the Guaranteed Obligations;

2.12.2 any and all defences to and counterclaims, reductions, retentions and claims of recoupment against any and all of the Guaranteed Obligations that may at any time be available to the Issuer or any other guarantor. As regards set-offs, the Guarantor confirms the acknowledgement contained in Section 2.8;

2.12.3 any notice of acceptance of the incurrence or renewal of any Guaranteed Obligations;

2.12.4 all notices which may be required by Applicable Law to preserve any rights against the Guarantor hereunder including, but not limited to, any notice of default, demand, dishonour, presentment and protest;

2.12.5 diligence;

2.12.6 any defence based upon, arising out of or in any way related to:

- (a) any claim that any election of remedies by the Financing Parties impaired, reduced, released or extinguished any rights that the Guarantor might otherwise have had against the Issuer or any other guarantor;
- (b) any claim that the Guaranteed Obligations should be strictly construed against the Financing Parties; and
- (c) any and all other defences related to the Guaranteed Obligations save and except for the receipt by the Financing Parties of the full, final and definitive payment of the amount of the Guaranteed Obligations and the cancellation in full of all credit facilities, extensions of credit and other financial services under the Financing Documents.

**2.13      No Release in Event of Bankruptcy**

No settlement or discharge of the Guaranteed Obligations shall be effective if any payment by the Guarantor in respect thereof is avoided or reduced by virtue of any provision or enactment relating to bankruptcy, insolvency, liquidation, fraudulent conveyances, assignments and preferences or similar laws of general application from time to time, and if such payment is so avoided or reduced, the Financing Parties and the Trustee shall be entitled to recover the amount of such payment as if such settlement or discharge had not occurred.

**2.14      Additional Security**

This Guarantee Agreement shall be in addition to and without prejudice to any other security by whomsoever given, held at any time by any of the Financing Parties. None of the Financing Parties shall be under any obligation to marshal any such security or any of the funds or assets they or any one thereof may be entitled to receive or have a claim upon.

**2.15      Continuing Liability of Guarantor**

The Guaranteed Obligations shall be deemed not to have been paid, observed or performed, and the liability of the Guarantor hereunder in respect thereof shall continue and not be discharged, to the extent that any payment, observance or performance thereof by the Issuer or any other guarantor, or out of the proceeds of any collateral (collectively referred to herein as the "**Disgorged Amount**"), is recovered from or reimbursed by or for the account of any of the Financing Parties for any reason, including, but not limited to, a preference or fraudulent transfer or by virtue of any subordination (whether present or future or contractual or otherwise) of the Guaranteed Obligations, whether such recovery or payment over is effected by any judgment, decree or order of any court or Governmental Authority, by any plan of reorganization or by settlement or compromise by any of the Financing Parties (whether or not consented to by the Issuer, the Guarantor or any other guarantor) of any claim for any such recovery or payment over. The Guarantor hereby expressly waives the benefit of any Applicable Law of limitations and agrees that it shall be liable hereunder whenever such a recovery or payment ever occurs.

**2.16**            **Continuance of Guarantee Agreement**

Subject to Section 2.15, this Guarantee Agreement shall continue in full force and effect until the indefeasible payment, observance and performance in full of the Guaranteed Obligations and the cancellation of all the credit facilities, extensions of credit and financial services to the Issuer, provided, however, that where at any time any of the Financing Parties is required to pay over any Disgorged Amount, such Person shall be permitted to make a claim therefor under the provisions of Section 2.15.

**2.17**            **Reasonableness of Waivers, Renunciations, Declarations and Authorizations**

The Guarantor agrees that each of the waivers, renunciations, declarations and authorizations set forth in this Guarantee Agreement is made with full knowledge of its significance and consequences and if any of such waivers, renunciations, declarations and authorizations is determined to be contrary to any Applicable Law or public policy, such waivers, renunciations, declarations and authorizations shall be effective only to the maximum extent permitted by Applicable Law.

**2.18**            **Authority to Modify Guaranteed Obligations**

The Guarantor expressly authorizes the Financing Parties or any one thereof, at any time and from time to time, without notice and without affecting the liability of the Guarantor hereunder, to:

2.18.1            change, modify, alter, amend, supplement, extend, renew, compromise, novate, replace, suspend or waive the terms of all or any part of the Guaranteed Obligations and any security and guarantees therefor;

2.18.2            accept new or additional instruments, documents, agreements, security or guarantees in connection with all or any part of the Guaranteed Obligations;

2.18.3            accept partial payments on the Guaranteed Obligations;

2.18.4            waive, release, reconvey, terminate, abandon, subordinate, exchange, substitute, transfer, compound, compromise, liquidate and enforce all or any part of the Guaranteed Obligations and any security or guarantee therefor, and apply any such security and direct the order or manner of sale thereof as the Trustee (for the benefit of the Financing Parties) in its discretion may determine; and

2.18.5            otherwise change, modify, alter, amend, supplement, extend, renew, compromise, novate, replace, suspend or waive the provisions of any of the Financing Documents.

Accordingly, in the event of a new trustee being appointed under the Trust Indenture, such new trustee shall thereupon become and be the trustee hereunder, but nevertheless, the Trustee shall forthwith assign, transfer and make over to the new trustee hereunder this Guarantee Agreement. All provisions of the Trust Indenture for the protection of the Trustee or for facilitating the administration of the trusts or otherwise relating to the Trustee solely as to its holding of the guarantee rights hereunder shall apply *mutatis mutandis* to this Guarantee Agreement and the Trustee's duties hereunder.

**ARTICLE 2**

**GUARANTEE**

**2.1**            **Guarantee**

The Guarantor hereby irrevocably, absolutely and unconditionally guarantees to the Trustee the due and timely payment to the Financing Parties of all the Guaranteed Obligations at the times, in the currencies and in the manner provided for in the Trust Indenture, the Bonds and the other Financing Documents.

It is hereby agreed and declared that the obligations of the Guarantor under the foregoing guarantee shall extend (without any further act or formality) to all Guaranteed Obligations, whether heretofore or hereafter issued and the Guaranteed Obligations resulting therefrom.

**2.2**            **Nature of Guarantee**

The obligations of the Guarantor hereunder are and shall be irrevocable, absolute and unconditional, present and continuing and constitute a guarantee of payment and not merely a guarantee of collection. As and by way of indemnity, the Guarantor shall irrevocably, absolutely and unconditionally pay to the Trustee all such amounts as shall be required from time to time to ensure that the Financing Parties receive and are paid the full amount of the Guaranteed Obligations regardless of (a) the unenforceability or invalidity of the Guaranteed Obligations or any failure by the Issuer to duly and punctually pay in full the Guaranteed Obligations when due, (b) any loss of any right of the Financing Parties against the Issuer in respect of the Guaranteed Obligations for any reason whatsoever, including by operation of any bankruptcy, insolvency or similar such laws, any laws affecting creditors' rights generally or general principles of equity and (c) any act or omission of the Trustee or any other Fiscal Agent in connection with the enforcement of any of the rights of the Trustee against the Issuer.

**2.3**            **Payment Demand**

Within five (5) Business Days of its receipt of a written demand from any Fiscal Agent in the form attached as Schedule A (a "**Payment Demand**"), the Guarantor shall pay to the Trustee each amount claimed in the Payment Demand in immediately available funds and as directed by such Fiscal Agent in the Payment Demand. A Payment Demand will not be valid under this Guarantee Agreement unless the amount claimed is due to the Financing Parties and has not been paid by the Issuer by the time provided on the Due Date. Any amount payable by the Guarantor under this Guarantee Agreement which is not paid when required herein will bear interest from the date of such demand until paid in full at the rate or rates expressed to be

payable on the corresponding Guaranteed Obligations owing under the applicable Financing Documents.

**2.4 Withholdings**

All amounts payable by the Guarantor under this Guarantee Agreement shall be made free and clear of and without deduction for or on account of any present or future taxes, charges, fees, levies, duties or withholdings of any kind. If the Guarantor is obliged to deduct or withhold an amount in respect of any such taxes, charges, fees, levies, duties or withholdings, then in such event the Guarantor shall pay to the Trustee such additional amount as is necessary to ensure that the Financing Parties receive and retain (on an after-tax basis, after payment of any and all income taxes on such additional amounts) an amount equal to the full amount otherwise payable hereunder, net of any such taxes, charges, fees, levies, duties or withholdings.

**2.5 Statement of Account**

Any statement of account prepared by the Trustee as regards the Guaranteed Obligations shall constitute *prima facie* evidence of the amount which, as at the date of the statement so prepared, is due by the Issuer to the Financing Parties and the Trustee and the Guarantor hereby acknowledges and agrees that, absent manifest error, it shall be bound by each such statement. The Trustee agrees to provide the Guarantor with the computations and calculations used by the Trustee to prepare each such statement of account promptly following a request therefor.

**2.6 No Requirement to Exhaust Recourse**

None of the Financing Parties shall be bound to seek or exhaust its recourse or remedies against the Issuer, any other guarantor or any other Person nor to enforce, marshal or value any liens before being entitled to payment under this Guarantee Agreement.

**2.7 Postponed Subrogation**

The Guarantor shall not be subrogated to any right of the Financing Parties until (i) indefeasible payment in full of all the Guaranteed Obligations and (ii) none of the Financing Parties has any remaining obligation to make any advance, make any payment, make any other extension of credit or provide any other financial service under, by reason of, or otherwise in respect of, any of the Financing Documents. Thereafter, the Guarantor (i) shall be subrogated to the rights of the Financing Parties under, pursuant to and otherwise in respect of all the Financing Documents and (ii) may require the Financing Parties to assign to it and each other Person that has made payment of the Guaranteed Obligations pursuant to any other guarantee, any of their respective rights then remaining with respect to the Guaranteed Obligations, but any such assignment shall be without representation or warranty by, or recourse against, any of the Financing Parties.

**2.8 Set-Off Acknowledgement**

The Guarantor hereby acknowledges and agrees that vis-à-vis the Financing Parties it has no available remedy of set-off. Accordingly, each payment to be made by the Guarantor hereunder in respect of the Guaranteed Obligations shall be made as required in whole without application of the right of set-off. Each payment to be made by the Guarantor hereunder in respect of the Guaranteed Obligations shall be made without regard to any equities between or among any of the Issuer, the Guarantor and the Financing Parties and without counterclaim, reduction, recoupment, retention or diminution of any kind or nature (including as a result of any defence, right of action, recoupment, retention or counterclaim of any nature that the Issuer or the Guarantor may have or have had against any of the Financing Parties or any other Person).

**2.9 Imputation of moneys received in reduction of Guaranteed Obligations**

Notwithstanding every legal rule concerning the imputation of payments, all sums of money received by the Trustee from the Guarantor pursuant to the provisions of this Article 2 shall be applied in reduction of the Guaranteed Obligations as provided in the Financing Documents.

**2.10 Irregularity in borrowings of no effect on obligations of the Guarantor**

All sums of money, advances, renewals, commitments and undertakings related to the Guaranteed Obligations borrowed or effectively obtained from the Financing Parties by the Issuer pursuant to the Financing Documents shall be considered as being part of the Guaranteed Obligations, notwithstanding any irregularity, defect or flaw in the borrowing or obtaining of such sums of money, advances, renewals, commitments and undertakings, whether or not any one of the Financing Parties was aware of the same, it being expressly understood that any sum which cannot be recovered from the Guarantor as guarantor hereunder for reasons of voidness of the principal obligation may be recovered from the Guarantor under the indemnity contained in Section 2.2 and shall be payable to the Trustee, for the benefit of the Financing Parties, upon demand therefor by the Trustee.

**2.11 No Release of Guarantor**

Until the Guaranteed Obligations have been indefeasibly paid in full and all credit facilities, extensions of credit and accommodations to the Issuer under the Financing Documents have been cancelled and terminated, the obligations of the Guarantor hereunder shall not be reduced, limited or terminated, nor shall the Guarantor be discharged from any obligation hereunder for any reason whatsoever including, but not limited to (whether or not the same shall have occurred or failed to occur once or more than once and, in the case of extensions of time for payment, observance or performance of obligations, whether such extensions or any of them are for periods longer than the respective periods then specified therefor and whether or not the Guarantor shall have received notice thereof or assented thereto):

2.11.1 any extension of the time for payment, observance or performance, or any other amendment or modification of any of the terms and conditions of the Guaranteed Obligations or the Financing Documents;

2.11.2 any composition or settlement (whether by way of release, acceptance of a plan of reorganization or otherwise) of the Guaranteed Obligations;

2.11.3 the release of any liens securing any or all of the Guaranteed Obligations or any release, compromise, settlement or extension of time for payment, observance or performance of any obligations under any of the Financing Documents;

2.11.4 any failure to exercise, delay in the exercise of, exercise or waiver of, or forbearance or other indulgence with respect to any rights, remedies and/or recourses available to any of the Financing Parties, including but not limited to:

- (a) any exercise of or failure to exercise any counterclaim, reduction, recoupment or retention;
- (b) any election of rights, remedies and/or recourses effected by any of them;
- (c) any subordination by operation of Applicable Law, whether present or future, of any or all of the Guaranteed Obligations;
- (d) any election not to or failure to protect or preserve any collateral or protect, preserve or continue the perfection of any lien on any collateral securing any or all of the Guaranteed Obligations;
- (e) any disallowance, invalidity, illegality, voidness or unenforceability of any or all liens securing any or all of the Guaranteed Obligations; and

2.11.5 any other act or failure to act which varies the risks of the Guarantor hereunder or, but for the provisions hereof, under the terms of any Applicable Law, would operate to reduce, limit or terminate the obligations of the Guarantor from any obligation hereunder.

## **2.12 Certain Waivers**

The Guarantor hereby waives:

2.12.1 any requirement and any right to require, that any power be exercised or any action be taken against the Issuer or any other guarantor or any collateral for any of the Guaranteed Obligations;

2.12.2 any and all defences to and counterclaims, reductions, retentions and claims of recoupment against any and all of the Guaranteed Obligations that may at any time be available to the Issuer or any other guarantor. As regards set-offs, the Guarantor confirms the acknowledgement contained in Section 2.8;

- 2.12.3 any notice of acceptance of the incurrence or renewal of any Guaranteed Obligations;
- 2.12.4 all notices which may be required by Applicable Law to preserve any rights against the Guarantor hereunder including, but not limited to, any notice of default, demand, dishonour, presentment and protest;
- 2.12.5 diligence;
- 2.12.6 any defence based upon, arising out of or in any way related to:
- (a) any claim that any election of remedies by the Financing Parties impaired, reduced, released or extinguished any rights that the Guarantor might otherwise have had against the Issuer or any other guarantor;
  - (b) any claim that the Guaranteed Obligations should be strictly construed against the Financing Parties; and
  - (c) any and all other defences related to the Guaranteed Obligations save and except for the receipt by the Financing Parties of the full, final and definitive payment of the amount of the Guaranteed Obligations and the cancellation in full of all credit facilities, extensions of credit and other financial services under the Financing Documents.

**2.13 No Release in Event of Bankruptcy**

No settlement or discharge of the Guaranteed Obligations shall be effective if any payment by the Guarantor in respect thereof is avoided or reduced by virtue of any provision or enactment relating to bankruptcy, insolvency, liquidation, fraudulent conveyances, assignments and preferences or similar laws of general application from time to time, and if such payment is so avoided or reduced, the Financing Parties and the Trustee shall be entitled to recover the amount of such payment as if such settlement or discharge had not occurred.

**2.14 Additional Security**

This Guarantee Agreement shall be in addition to and without prejudice to any other security by whomsoever given, held at any time by any of the Financing Parties. None of the Financing Parties shall be under any obligation to marshal any such security or any of the funds or assets they or any one thereof may be entitled to receive or have a claim upon.

**2.15 Continuing Liability of Guarantor**

The Guaranteed Obligations shall be deemed not to have been paid, observed or performed, and the liability of the Guarantor hereunder in respect thereof shall continue and not be discharged, to the extent that any payment, observance or performance thereof by the Issuer or any other guarantor, or out of the proceeds of any collateral (collectively referred to herein as

the "**Disgorged Amount**"), is recovered from or reimbursed by or for the account of any of the Financing Parties for any reason, including, but not limited to, a preference or fraudulent transfer or by virtue of any subordination (whether present or future or contractual or otherwise) of the Guaranteed Obligations, whether such recovery or payment over is effected by any judgment, decree or order of any court or Governmental Authority, by any plan of reorganization or by settlement or compromise by any of the Financing Parties (whether or not consented to by the Issuer, the Guarantor or any other guarantor) of any claim for any such recovery or payment over. The Guarantor hereby expressly waives the benefit of any Applicable Law of limitations and agrees that it shall be liable hereunder whenever such a recovery or payment ever occurs.

**2.16            Continuance of Guarantee Agreement**

Subject to Section 2.15, this Guarantee Agreement shall continue in full force and effect until the indefeasible payment, observance and performance in full of the Guaranteed Obligations and the cancellation of all the credit facilities, extensions of credit and financial services to the Issuer, provided, however, that where at any time any of the Financing Parties is required to pay over any Disgorged Amount, such Person shall be permitted to make a claim therefor under the provisions of Section 2.15.

**2.17            Reasonableness of Waivers, Renunciations, Declarations and Authorizations**

The Guarantor agrees that each of the waivers, renunciations, declarations and authorizations set forth in this Guarantee Agreement is made with full knowledge of its significance and consequences and if any of such waivers, renunciations, declarations and authorizations is determined to be contrary to any Applicable Law or public policy, such waivers, renunciations, declarations and authorizations shall be effective only to the maximum extent permitted by Applicable Law.

**2.18            Authority to Modify Guaranteed Obligations**

The Guarantor expressly authorizes the Financing Parties or any one thereof, at any time and from time to time, without notice and without affecting the liability of the Guarantor hereunder, to:

2.18.1            change, modify, alter, amend, supplement, extend, renew, compromise, novate, replace, suspend or waive the terms of all or any part of the Guaranteed Obligations and any security and guarantees therefor;

2.18.2            accept new or additional instruments, documents, agreements, security or guarantees in connection with all or any part of the Guaranteed Obligations;

2.18.3            accept partial payments on the Guaranteed Obligations;

2.18.4            waive, release, reconvey, terminate, abandon, subordinate, exchange, substitute, transfer, compound, compromise, liquidate and enforce all or any part of the Guaranteed Obligations and any security or guarantee therefor, and apply any such security and direct the

order or manner of sale thereof as the Trustee (for the benefit of the Financing Parties) in its discretion may determine; and

2.18.5 otherwise change, modify, alter, amend, supplement, extend, renew, compromise, novate, replace, suspend or waive the provisions of any of the Financing Documents.

No waiver of any of

the provisions of this Guarantee Agreement by the Trustee shall be effective unless it is in writing duly executed by the Trustee.

**GUARANTEE**

**2.1**            **Guarantee**

The Guarantor hereby irrevocably, absolutely and unconditionally guarantees to the Trustee the due and timely payment to the Financing Parties of all the Guaranteed Obligations at the times, in the currencies and in the manner provided for in the Trust Indenture, the Bonds and the other Financing Documents.

It is hereby agreed and declared that the obligations of the Guarantor under the foregoing guarantee shall extend (without any further act or formality) to all Guaranteed Obligations, whether heretofore or hereafter issued and the Guaranteed Obligations resulting therefrom.

**2.2**            **Nature of Guarantee**

The obligations of the Guarantor hereunder are and shall be irrevocable, absolute and unconditional, present and continuing and constitute a guarantee of payment and not merely a guarantee of collection. As and by way of indemnity, the Guarantor shall irrevocably, absolutely and unconditionally pay to the Trustee all such amounts as shall be required from time to time to ensure that the Financing Parties receive and are paid the full amount of the Guaranteed Obligations regardless of (a) the unenforceability or invalidity of the Guaranteed Obligations or any failure by the Issuer to duly and punctually pay in full the Guaranteed Obligations when due, (b) any loss of any right of the Financing Parties against the Issuer in respect of the Guaranteed Obligations for any reason whatsoever, including by operation of any bankruptcy, insolvency or similar such laws, any laws affecting creditors' rights generally or general principles of equity and (c) any act or omission of the Trustee or any other Fiscal Agent in connection with the enforcement of any of the rights of the Trustee against the Issuer.

**2.3**            **Payment Demand**

Within five (5) Business Days of its receipt of a written demand from any Fiscal Agent in the form attached as Schedule A (a "**Payment Demand**"), the Guarantor shall pay to the Trustee each amount claimed in the Payment Demand in immediately available funds and as directed by such Fiscal Agent in the Payment Demand. A Payment Demand will not be valid under this Guarantee Agreement unless the amount claimed is due to the Financing Parties and has not been paid by the Issuer by the time provided on the Due Date. Any amount payable by the Guarantor under this Guarantee Agreement which is not paid when required herein will bear interest from the date of such demand until paid in full at the rate or rates expressed to be payable on the corresponding Guaranteed Obligations owing under the applicable Financing Documents.

**2.4**            **Withholdings**

All amounts payable by the Guarantor under this Guarantee Agreement shall be made free and clear of and without deduction for or on account of any present or future taxes, charges, fees, levies, duties or withholdings of any kind. If the Guarantor is obliged to deduct or withhold an amount in respect of any such taxes, charges, fees, levies, duties or withholdings, then in such event the Guarantor shall pay to the Trustee such additional amount as is necessary to ensure that the Financing Parties receive and retain (on an after-tax basis, after payment of any and all income taxes on such additional amounts) an amount equal to the full amount otherwise payable hereunder, net of any such taxes, charges, fees, levies, duties or withholdings.

**2.5**            **Statement of Account**

Any statement of account prepared by the Trustee as regards the Guaranteed Obligations shall constitute *prima facie* evidence of the amount which, as at the date of the statement so prepared, is due by the Issuer to the Financing Parties and the Trustee and the Guarantor hereby acknowledges and agrees that, absent manifest error, it shall be bound by each such statement. The Trustee agrees to provide the Guarantor with the computations and calculations used by the Trustee to prepare each such statement of account promptly following a request therefor.

**2.6**            **No Requirement to Exhaust Recourse**

None of the Financing Parties shall be bound to seek or exhaust its recourse or remedies against the Issuer, any other guarantor or any other Person nor to enforce, marshal or value any liens before being entitled to payment under this Guarantee Agreement.

**2.7**            **Postponed Subrogation**

The Guarantor shall not be subrogated to any right of the Financing Parties until (i) indefeasible payment in full of all the Guaranteed Obligations and (ii) none of the Financing Parties has any remaining obligation to make any advance, make any payment, make any other extension of credit or provide any other financial service under, by reason of, or otherwise in respect of, any of the Financing Documents. Thereafter, the Guarantor (i) shall be subrogated to the rights of the Financing Parties under, pursuant to and otherwise in respect of all the Financing Documents and (ii) may require the Financing Parties to assign to it and each other Person that has made payment of the Guaranteed Obligations pursuant to any other guarantee, any of their respective rights then remaining with respect to the Guaranteed Obligations, but any such assignment shall be without representation or warranty by, or recourse against, any of the Financing Parties.

**2.8**            **Set-Off Acknowledgement**

The Guarantor hereby acknowledges and agrees that vis-à-vis the Financing Parties it has no available remedy of set-off. Accordingly, each payment to be made by the Guarantor hereunder in respect of the Guaranteed Obligations shall be made as required in whole without application of the right of set-off. Each payment to be made by the Guarantor hereunder in respect of the Guaranteed Obligations shall be made without regard to any equities between or

among any of the Issuer, the Guarantor and the Financing Parties and without counterclaim, reduction, recoupment, retention or diminution of any kind or nature (including as a result of any defence, right of action, recoupment, retention or counterclaim of any nature that the Issuer or the Guarantor may have or have had against any of the Financing Parties or any other Person).

**2.9 Imputation of moneys received in reduction of Guaranteed Obligations**

Notwithstanding every legal rule concerning the imputation of payments, all sums of money received by the Trustee from the Guarantor pursuant to the provisions of this Article 2 shall be applied in reduction of the Guaranteed Obligations as provided in the Financing Documents.

**2.10 Irregularity in borrowings of no effect on obligations of the Guarantors**

All sums of money, advances, renewals, commitments and undertakings related to the Guaranteed Obligations borrowed or effectively obtained from the Financing Parties by the Issuer pursuant to the Financing Documents shall be considered as being part of the Guaranteed Obligations, notwithstanding any irregularity, defect or flaw in the borrowing or obtaining of such sums of money, advances, renewals, commitments and undertakings, whether or not any one of the Financing Parties was aware of the same, it being expressly understood that any sum which cannot be recovered from the Guarantor as guarantor hereunder for reasons of voidness of the principal obligation may be recovered from the Guarantor under the indemnity contained in Section 2.2 and shall be payable to the Trustee, for the benefit of the Financing Parties, upon demand therefor by the Trustee.

**2.11 No Release of Guarantor**

Until the Guaranteed Obligations have been indefeasibly paid in full and all credit facilities, extensions of credit and accommodations to the Issuer under the Financing Documents have been cancelled and terminated, the obligations of the Guarantor hereunder shall not be reduced, limited or terminated, nor shall the Guarantor be discharged from any obligation hereunder for any reason whatsoever including, but not limited to (whether or not the same shall have occurred or failed to occur once or more than once and, in the case of extensions of time for payment, observance or performance of obligations, whether such extensions or any of them are for periods longer than the respective periods then specified therefor and whether or not the Guarantor shall have received notice thereof or assented thereto):

2.11.1 any extension of the time for payment, observance or performance, or any other amendment or modification of any of the terms and conditions of the Guaranteed Obligations or the Financing Documents;

2.11.2 any composition or settlement (whether by way of release, acceptance of a plan of reorganization or otherwise) of the Guaranteed Obligations;

2.11.3 the release of any liens securing any or all of the Guaranteed Obligations or any release, compromise, settlement or extension of time for payment, observance or performance of any obligations under any of the Financing Documents;

2.11.4 any failure to exercise, delay in the exercise of, exercise or waiver of, or forbearance or other indulgence with respect to any rights, remedies and/or recourses available to any of the Financing Parties, including but not limited to:

- (a) any exercise of or failure to exercise any counterclaim, reduction, recoupment or retention;
- (b) any election of rights, remedies and/or recourses effected by any of them;
- (c) any subordination by operation of Applicable Law, whether present or future, of any or all of the Guaranteed Obligations;
- (d) any election not to or failure to protect or preserve any collateral or protect, preserve or continue the perfection of any lien on any collateral securing any or all of the Guaranteed Obligations;
- (e) any disallowance, invalidity, illegality, voidness or unenforceability of any or all liens securing any or all of the Guaranteed Obligations; and

2.11.5 any other act or failure to act which varies the risks of the Guarantor hereunder or, but for the provisions hereof, under the terms of any Applicable Law, would operate to reduce, limit or terminate the obligations of the Guarantor from any obligation hereunder.

## **2.12 Certain Waivers**

The Guarantor hereby waives:

2.12.1 any requirement and any right to require, that any power be exercised or any action be taken against the Issuer or any other guarantor or any collateral for any of the Guaranteed Obligations;

2.12.2 any and all defences to and counterclaims, reductions, retentions and claims of recoupment against any and all of the Guaranteed Obligations that may at any time be available to the Issuer or any other guarantor. As regards set-offs, the Guarantor confirms the acknowledgement contained in Section 2.8;

2.12.3 any notice of acceptance of the incurrence or renewal of any Guaranteed Obligations;

2.12.4 all notices which may be required by Applicable Law to preserve any rights against the Guarantor hereunder including, but not limited to, any notice of default, demand, dishonour, presentment and protest;

2.12.5 diligence;

- 2.12.6 any defence based upon, arising out of or in any way related to:
- (a) any claim that any election of remedies by the Financing Parties impaired, reduced, released or extinguished any rights that the Guarantor might otherwise have had against the Issuer or any other guarantor;
  - (b) any claim that the Guaranteed Obligations should be strictly construed against the Financing Parties; and
  - (c) any and all other defences related to the Guaranteed Obligations save and except for the receipt by the Financing Parties of the full, final and definitive payment of the amount of the Guaranteed Obligations and the cancellation in full of all credit facilities, extensions of credit and other financial services under the Financing Documents.

**2.13 No Release in Event of Bankruptcy**

No settlement or discharge of the Guaranteed Obligations shall be effective if any payment by the Guarantor in respect thereof is avoided or reduced by virtue of any provision or enactment relating to bankruptcy, insolvency, liquidation, fraudulent conveyances, assignments and preferences or similar laws of general application from time to time, and if such payment is so avoided or reduced, the Financing Parties and the Trustee shall be entitled to recover the amount of such payment as if such settlement or discharge had not occurred.

**2.14 Additional Security**

This Guarantee Agreement shall be in addition to and without prejudice to any other security by whomsoever given, held at any time by any of the Financing Parties. None of the Financing Parties shall be under any obligation to marshal any such security or any of the funds or assets they or any one thereof may be entitled to receive or have a claim upon.

**2.15 Continuing Liability of Guarantor**

The Guaranteed Obligations shall be deemed not to have been paid, observed or performed, and the liability of the Guarantor hereunder in respect thereof shall continue and not be discharged, to the extent that any payment, observance or performance thereof by the Issuer or any other guarantor, or out of the proceeds of any collateral (collectively referred to herein as the "**Disgorged Amount**"), is recovered from or reimbursed by or for the account of any of the Financing Parties for any reason, including, but not limited to, a preference or fraudulent transfer or by virtue of any subordination (whether present or future or contractual or otherwise) of the Guaranteed Obligations, whether such recovery or payment over is effected by any judgment, decree or order of any court or Governmental Authority, by any plan of reorganization or by settlement or compromise by any of the Financing Parties (whether or not consented to by the Issuer, the Guarantor or any other guarantor) of any claim for any such recovery or payment over. The Guarantor hereby expressly waives the benefit of any Applicable Law of limitations and agrees that it shall be liable hereunder whenever such a recovery or payment ever occurs.

**2.16            Continuance of Guarantee Agreement**

Subject to Section 2.15, this Guarantee Agreement shall continue in full force and effect until the indefeasible payment, observance and performance in full of the Guaranteed Obligations and the cancellation of all the credit facilities, extensions of credit and financial services to the Issuer, provided, however, that where at any time any of the Financing Parties is required to pay over any Disgorged Amount, such Person shall be permitted to make a claim therefor under the provisions of Section 2.15.

**2.17            Reasonableness of Waivers, Renunciations, Declarations and Authorizations**

The Guarantor agrees that each of the waivers, renunciations, declarations and authorizations set forth in this Guarantee Agreement is made with full knowledge of its significance and consequences and if any of such waivers, renunciations, declarations and authorizations is determined to be contrary to any Applicable Law or public policy, such waivers, renunciations, declarations and authorizations shall be effective only to the maximum extent permitted by Applicable Law.

**2.18            Authority to Modify Guaranteed Obligations**

The Guarantor expressly authorizes the Financing Parties or any one thereof, at any time and from time to time, without notice and without affecting the liability of the Guarantor hereunder, to:

2.18.1            change, modify, alter, amend, supplement, extend, renew, compromise, novate, replace, suspend or waive the terms of all or any part of the Guaranteed Obligations and any security and guarantees therefor;

2.18.2            accept new or additional instruments, documents, agreements, security or guarantees in connection with all or any part of the Guaranteed Obligations;

2.18.3            accept partial payments on the Guaranteed Obligations;

2.18.4            waive, release, reconvey, terminate, abandon, subordinate, exchange, substitute, transfer, compound, compromise, liquidate and enforce all or any part of the Guaranteed Obligations and any security or guarantee therefor, and apply any such security and direct the order or manner of sale thereof as the Trustee (for the benefit of the Financing Parties) in its discretion may determine; and

2.18.5            otherwise change, modify, alter, amend, supplement, extend, renew, compromise, novate, replace, suspend or waive the provisions of any of the Financing Documents.

**GUARANTEE**

**2.1**            **Guarantee**

The Guarantor hereby irrevocably, absolutely and unconditionally guarantees to the Trustee the due and timely payment to the Financing Parties of all the Guaranteed Obligations at the times, in the currencies and in the manner provided for in the Trust Indenture, the Bonds and the other Financing Documents.

It is hereby agreed and declared that the obligations of the Guarantor under the foregoing guarantee shall extend (without any further act or formality) to all Guaranteed Obligations, whether heretofore or hereafter issued and the Guaranteed Obligations resulting therefrom.

**2.2**            **Nature of Guarantee**

The obligations of the Guarantor hereunder are and shall be irrevocable, absolute and unconditional, present and continuing and constitute a guarantee of payment and not merely a guarantee of collection. As and by way of indemnity, the Guarantor shall irrevocably, absolutely and unconditionally pay to the Trustee all such amounts as shall be required from time to time to ensure that the Financing Parties receive and are paid the full amount of the Guaranteed Obligations regardless of (a) the unenforceability or invalidity of the Guaranteed Obligations or any failure by the Issuer to duly and punctually pay in full the Guaranteed Obligations when due, (b) any loss of any right of the Financing Parties against the Issuer in respect of the Guaranteed Obligations for any reason whatsoever, including by operation of any bankruptcy, insolvency or similar such laws, any laws affecting creditors' rights generally or general principles of equity and (c) any act or omission of the Trustee or any other Fiscal Agent in connection with the enforcement of any of the rights of the Trustee against the Issuer.

**2.3**            **Payment Demand**

Within five (5) Business Days of its receipt of a written demand from any Fiscal Agent in the form attached as Schedule A (a "**Payment Demand**"), the Guarantor shall pay to the Trustee each amount claimed in the Payment Demand in immediately available funds and as directed by such Fiscal Agent in the Payment Demand. A Payment Demand will not be valid under this Guarantee Agreement unless the amount claimed is due to the Financing Parties and has not been paid by the Issuer by the time provided on the Due Date. Any amount payable by the Guarantor under this Guarantee Agreement which is not paid when required herein will bear interest from the date of such demand until paid in full at the rate or rates expressed to be

payable on the corresponding Guaranteed Obligations owing under the applicable Financing Documents.

**2.4            Withholdings**

All amounts payable by the Guarantor under this Guarantee Agreement shall be made free and clear of and without deduction for or on account of any present or future taxes, charges, fees, levies, duties or withholdings of any kind. If the Guarantor is obliged to deduct or withhold an amount in respect of any such taxes, charges, fees, levies, duties or withholdings, then in such event the Guarantor shall pay to the Trustee such additional amount as is necessary to ensure that the Financing Parties receive and retain (on an after-tax basis, after payment of any and all income taxes on such additional amounts) an amount equal to the full amount otherwise payable hereunder, net of any such taxes, charges, fees, levies, duties or withholdings.

**2.5            Statement of Account**

Any statement of account prepared by the Trustee as regards the Guaranteed Obligations shall constitute *prima facie* evidence of the amount which, as at the date of the statement so prepared, is due by the Issuer to the Financing Parties and the Trustee and the Guarantor hereby acknowledges and agrees that, absent manifest error, it shall be bound by each such statement. The Trustee agrees to provide the Guarantor with the computations and calculations used by the Trustee to prepare each such statement of account promptly following a request therefor.

**2.6            No Requirement to Exhaust Recourse**

None of the Financing Parties shall be bound to seek or exhaust its recourse or remedies against the Issuer, any other guarantor or any other Person nor to enforce, marshal or value any liens before being entitled to payment under this Guarantee Agreement.

**2.7            Postponed Subrogation**

The Guarantor shall not be subrogated to any right of the Financing Parties until (i) indefeasible payment in full of all the Guaranteed Obligations and (ii) none of the Financing Parties has any remaining obligation to make any advance, make any payment, make any other extension of credit or provide any other financial service under, by reason of, or otherwise in respect of, any of the Financing Documents. Thereafter, the Guarantor (i) shall be subrogated to the rights of the Financing Parties under, pursuant to and otherwise in respect of all the Financing Documents and (ii) may require the Financing Parties to assign to it and each other Person that has made payment of the Guaranteed Obligations pursuant to any other guarantee, any of their respective rights then remaining with respect to the Guaranteed Obligations, but any such assignment shall be without representation or warranty by, or recourse against, any of the Financing Parties.

**2.8 Set-Off Acknowledgement**

The Guarantor hereby acknowledges and agrees that vis-à-vis the Financing Parties it has no available remedy of set-off. Accordingly, each payment to be made by the Guarantor hereunder in respect of the Guaranteed Obligations shall be made as required in whole without application of the right of set-off. Each payment to be made by the Guarantor hereunder in respect of the Guaranteed Obligations shall be made without regard to any equities between or among any of the Issuer, the Guarantor and the Financing Parties and without counterclaim, reduction, recoupment, retention or diminution of any kind or nature (including as a result of any defence, right of action, recoupment, retention or counterclaim of any nature that the Issuer or the Guarantor may have or have had against any of the Financing Parties or any other Person).

**2.9 Imputation of moneys received in reduction of Guaranteed Obligations**

Notwithstanding every legal rule concerning the imputation of payments, all sums of money received by the Trustee from the Guarantor pursuant to the provisions of this Article 2 shall be applied in reduction of the Guaranteed Obligations as provided in the Financing Documents.

**2.10 Irregularity in borrowings of no effect on obligations of the Guarantor**

All sums of money, advances, renewals, commitments and undertakings related to the Guaranteed Obligations borrowed or effectively obtained from the Financing Parties by the Issuer pursuant to the Financing Documents shall be considered as being part of the Guaranteed Obligations, notwithstanding any irregularity, defect or flaw in the borrowing or obtaining of such sums of money, advances, renewals, commitments and undertakings, whether or not any one of the Financing Parties was aware of the same, it being expressly understood that any sum which cannot be recovered from the Guarantor as guarantor hereunder for reasons of voidness of the principal obligation may be recovered from the Guarantor under the indemnity contained in Section 2.2 and shall be payable to the Trustee, for the benefit of the Financing Parties, upon demand therefor by the Trustee.

**2.11 No Release of Guarantor**

Until the Guaranteed Obligations have been indefeasibly paid in full and all credit facilities, extensions of credit and accommodations to the Issuer under the Financing Documents have been cancelled and terminated, the obligations of the Guarantor hereunder shall not be reduced, limited or terminated, nor shall the Guarantor be discharged from any obligation hereunder for any reason whatsoever including, but not limited to (whether or not the same shall have occurred or failed to occur once or more than once and, in the case of extensions of time for payment, observance or performance of obligations, whether such extensions or any of them are for periods longer than the respective periods then specified therefor and whether or not the Guarantor shall have received notice thereof or assented thereto):

2.11.1 any extension of the time for payment, observance or performance, or any other amendment or modification of any of the terms and conditions of the Guaranteed Obligations or the Financing Documents;

2.11.2 any composition or settlement (whether by way of release, acceptance of a plan of reorganization or otherwise) of the Guaranteed Obligations;

2.11.3 the release of any liens securing any or all of the Guaranteed Obligations or any release, compromise, settlement or extension of time for payment, observance or performance of any obligations under any of the Financing Documents;

2.11.4 any failure to exercise, delay in the exercise of, exercise or waiver of, or forbearance or other indulgence with respect to any rights, remedies and/or recourses available to any of the Financing Parties, including but not limited to:

- (a) any exercise of or failure to exercise any counterclaim, reduction, recoupment or retention;
- (b) any election of rights, remedies and/or recourses effected by any of them;
- (c) any subordination by operation of Applicable Law, whether present or future, of any or all of the Guaranteed Obligations;
- (d) any election not to or failure to protect or preserve any collateral or protect, preserve or continue the perfection of any lien on any collateral securing any or all of the Guaranteed Obligations;
- (e) any disallowance, invalidity, illegality, voidness or unenforceability of any or all liens securing any or all of the Guaranteed Obligations; and

2.11.5 any other act or failure to act which varies the risks of the Guarantor hereunder or, but for the provisions hereof, under the terms of any Applicable Law, would operate to reduce, limit or terminate the obligations of the Guarantor from any obligation hereunder.

## **2.12 Certain Waivers**

The Guarantor hereby waives:

2.12.1 any requirement and any right to require, that any power be exercised or any action be taken against the Issuer or any other guarantor or any collateral for any of the Guaranteed Obligations;

2.12.2 any and all defences to and counterclaims, reductions, retentions and claims of recoupment against any and all of the Guaranteed Obligations that may at any time be available to the Issuer or any other guarantor. As regards set-offs, the Guarantor confirms the acknowledgement contained in Section 2.8;

- 2.12.3 any notice of acceptance of the incurrence or renewal of any Guaranteed Obligations;
- 2.12.4 all notices which may be required by Applicable Law to preserve any rights against the Guarantor hereunder including, but not limited to, any notice of default, demand, dishonour, presentment and protest;
- 2.12.5 diligence;
- 2.12.6 any defence based upon, arising out of or in any way related to:
- (a) any claim that any election of remedies by the Financing Parties impaired, reduced, released or extinguished any rights that the Guarantor might otherwise have had against the Issuer or any other guarantor;
  - (b) any claim that the Guaranteed Obligations should be strictly construed against the Financing Parties; and
  - (c) any and all other defences related to the Guaranteed Obligations save and except for the receipt by the Financing Parties of the full, final and definitive payment of the amount of the Guaranteed Obligations and the cancellation in full of all credit facilities, extensions of credit and other financial services under the Financing Documents.

**2.13 No Release in Event of Bankruptcy**

No settlement or discharge of the Guaranteed Obligations shall be effective if any payment by the Guarantor in respect thereof is avoided or reduced by virtue of any provision or enactment relating to bankruptcy, insolvency, liquidation, fraudulent conveyances, assignments and preferences or similar laws of general application from time to time, and if such payment is so avoided or reduced, the Financing Parties and the Trustee shall be entitled to recover the amount of such payment as if such settlement or discharge had not occurred.

**2.14 Additional Security**

This Guarantee Agreement shall be in addition to and without prejudice to any other security by whomsoever given, held at any time by any of the Financing Parties. None of the Financing Parties shall be under any obligation to marshal any such security or any of the funds or assets they or any one thereof may be entitled to receive or have a claim upon.

**2.15 Continuing Liability of Guarantor**

The Guaranteed Obligations shall be deemed not to have been paid, observed or performed, and the liability of the Guarantor hereunder in respect thereof shall continue and not be discharged, to the extent that any payment, observance or performance thereof by the Issuer or any other guarantor, or out of the proceeds of any collateral (collectively referred to herein as

the "**Disgorged Amount**"), is recovered from or reimbursed by or for the account of any of the Financing Parties for any reason, including, but not limited to, a preference or fraudulent transfer or by virtue of any subordination (whether present or future or contractual or otherwise) of the Guaranteed Obligations, whether such recovery or payment over is effected by any judgment, decree or order of any court or Governmental Authority, by any plan of reorganization or by settlement or compromise by any of the Financing Parties (whether or not consented to by the Issuer, the Guarantor or any other guarantor) of any claim for any such recovery or payment over. The Guarantor hereby expressly waives the benefit of any Applicable Law of limitations and agrees that it shall be liable hereunder whenever such a recovery or payment ever occurs.

**2.16            Continuance of Guarantee Agreement**

Subject to Section 2.15, this Guarantee Agreement shall continue in full force and effect until the indefeasible payment, observance and performance in full of the Guaranteed Obligations and the cancellation of all the credit facilities, extensions of credit and financial services to the Issuer, provided, however, that where at any time any of the Financing Parties is required to pay over any Disgorged Amount, such Person shall be permitted to make a claim therefor under the provisions of Section 2.15.

**2.17            Reasonableness of Waivers, Renunciations, Declarations and Authorizations**

The Guarantor agrees that each of the waivers, renunciations, declarations and authorizations set forth in this Guarantee Agreement is made with full knowledge of its significance and consequences and if any of such waivers, renunciations, declarations and authorizations is determined to be contrary to any Applicable Law or public policy, such waivers, renunciations, declarations and authorizations shall be effective only to the maximum extent permitted by Applicable Law.

**2.18            Authority to Modify Guaranteed Obligations**

The Guarantor expressly authorizes the Financing Parties or any one thereof, at any time and from time to time, without notice and without affecting the liability of the Guarantor hereunder, to:

2.18.1            change, modify, alter, amend, supplement, extend, renew, compromise, novate, replace, suspend or waive the terms of all or any part of the Guaranteed Obligations and any security and guarantees therefor;

2.18.2            accept new or additional instruments, documents, agreements, security or guarantees in connection with all or any part of the Guaranteed Obligations;

2.18.3            accept partial payments on the Guaranteed Obligations;

2.18.4            waive, release, reconvey, terminate, abandon, subordinate, exchange, substitute, transfer, compound, compromise, liquidate and enforce all or any part of the Guaranteed Obligations and any security or guarantee therefor, and apply any such security and direct the

order or manner of sale thereof as the Trustee (for the benefit of the Financing Parties) in its discretion may determine; and

2.18.5 otherwise change, modify, alter, amend, supplement, extend, renew, compromise, novate, replace, suspend or waive the provisions of any of the Financing Documents.

In each MF NL Crown Payment Demand issued under this Agreement, the Collateral Agent shall:

2.4.2.2 each MF NL Crown Contribution paid by NL Crown to the Collateral Agent under the MF Contingency Equity Commitment shall be deposited forthwith in the Muskrat Project Funding Account and shall be used exclusively to pay the MF Equity Rateable Share of MF Project Costs to be paid therewith following the exhaustion of the MF Base Equity Commitment as contemplated in the MF NL Crown Payment Demand issued by the Collateral Agent;

2.4.2.3 the MF NL Crown Contribution paid by NL Crown to the Collateral Agent under the MF DSRA Equity Commitment shall be deposited forthwith in the DSRA and shall be used exclusively to fund Muskrat's Project Rateable Share of the MF Equity Rateable Share of the Minimum DSRA Requirement as at the Commissioning Date or the DSRA Prefunding, as the case may be, to be funded therewith as contemplated in the MF NL Crown Payment Demand issued by the Collateral Agent;

2.4.2.4 the MF NL Crown Contribution paid by NL Crown to the Collateral Agent under the MF LRA Equity Commitment shall be deposited forthwith in the LRA and shall be used exclusively to fund 82% of the Minimum LRA Requirement as at the Commissioning Date, to be funded therewith as contemplated in the MF NL Crown Payment Demand issued by the Collateral Agent;

Even if a Muskrat/LTA Event of Default

or acceleration of the amounts owed by Muskrat under the Muskrat/LTA Project Finance Documents has occurred, the Collateral Agent shall not release any such MF NL Crown Contribution from the Muskrat Project Funding Account until such MF Debt Rateable Share has been deposited therein and the Collateral Agent can make the concurrent release referred to above;

2.4.2.6 the Collateral Agent shall only release the MF NL Crown Contribution under the MF DSRA Equity Commitment for deposit into the DSRA concurrently with the deposit of Muskrat's Project Rateable Share of the MF Debt Rateable Share of the Minimum DSRA Requirement as at the Commissioning Date or the DSRA Prefunding, as the case may be, into the DSRA. ## **2.5 Prima Facie Evidence**

NL Crown hereby acknowledges and agrees that any amount set forth by the Collateral Agent in any MF NL Crown Payment Demand as being the amount required to be paid by it pursuant to

the provisions hereof shall constitute *prima facie* evidence of the amount which, as of the date of any such MF NL Crown Payment Demand, is due and payable by NL Crown pursuant to the provisions hereof. Notwithstanding the foregoing, where at any time NL Crown has paid any amount set forth by the Collateral Agent in any MF NL Crown Payment Demand, or any other amount, and it is demonstrated at a later date that such payment was in excess of the amount required to be paid by NL Crown pursuant to the provisions hereof, then the amount of such excess payment shall be repaid to NL Crown, to the extent that it has not at such time already been used to pay for MF Project Costs.

## **2.6 Failure to Pay**

If by the fifth Business Day following the issuance by the Collateral Agent of a MF NL Crown Payment Demand, the amount specified in the MF NL Crown Payment Demand or required to be deposited in the Muskrat Project Funding Account, the DSRA or the LRA, as the case may be, is not deposited in such account or paid to the Collateral Agent for deposit to such account, the Collateral Agent shall thereupon be entitled to exercise all Rights, Remedies and/or Recourses then available to it against NL Crown in order to obtain payment of such amount, it being expressly agreed that any payment by NL Crown of the amount so demanded shall be subject to the MF NL Payment Conditions being met as provided in Section 2.4.2. Any amount payable by the NL Crown pursuant to a MF NL Crown Payment Demand which is not paid within five (5) Business Days following the issuance of such MF NL Crown Payment Demand as herein provided will bear interest from and including such fifth Business Day until paid in full at the rate expressed to be payable on the debt of Muskrat under the Muskrat/LTA Project Finance Documents. Any interest paid by the NL Crown under the terms of this Section shall constitute an equity investment by Nalcor in Muskrat and shall be deposited in the Muskrat Project Funding Account and shall be applied to defray the next following Nalcor MF Contribution required to be made under the terms of the MFESA.

## **2.7 Withholding**

All amounts payable by the Guarantor under this Guarantee Agreement shall be made free and clear of and without deduction for or on account of any present or future taxes, charges, fees, levies, duties or withholdings of any kind. If the Guarantor is obliged to deduct or withhold an amount in respect of any such taxes, charges, fees, levies, duties or withholdings, then in such event the Guarantor shall pay to the Collateral Agent such additional amount as is necessary to ensure that the GAA Finance Parties receive and retain (on an after-tax basis, after payment of any and all income taxes on such additional amounts) an amount equal to the full amount otherwise payable hereunder, net of any such taxes, charges, fees, levies, duties or withholdings.

## **2.8 Postponed Subrogation**

The Guarantor shall not be subrogated to any right of the Collateral Agent until all the MF Guaranteed Obligations are paid in full as provided in Sections 2.3 and 2.4. Thereafter, the Guarantor (i) shall be subrogated to the rights of the Collateral Agent under, pursuant to and otherwise in respect of the MFESA and (ii) may require the Collateral Agent to assign to it any of its rights then remaining under the MFESA with respect to the MF Guaranteed Obligations, but any such assignment shall be without representation or warranty by, or recourse against, the Collateral Agent.

## **2.9 Set-Off**

The Guarantor hereby acknowledges and agrees that vis-à-vis the Collateral Agent and the GAA Finance Parties it has no available remedy of set-off. Each payment to be made by the Guarantor hereunder in respect of its MF Guaranteed Obligations shall be made without regard to any equities between or among any of the MF Parties, the Guarantor, the Collateral Agent and the GAA Finance Parties and without counterclaim, reduction, recoupment, retention or diminution of any kind or nature (including as a result of any defence, right of action, recoupment, retention or counterclaim of any nature that the Guarantor or any other MF Parties may have or have had against any of the MF Parties, the GAA Finance Parties or any other Person).

## **2.10 Imputation of moneys received in reduction of MF Guaranteed Obligations**

Any obligation of Nalcor to make investments by way of equity under the MFESA shall be considered as being part of the MF Guaranteed Obligations, notwithstanding any lack of capacity, irregularity, defect or flaw in the creation or continuance of such obligation, whether or not the Collateral Agent was aware of the same, it being expressly understood that any such obligation which cannot be recovered from the Guarantor as guarantor hereunder by reason of any voidness of the principal obligation may be recovered from the Guarantor under the indemnity contained in Section 2.2 and shall be payable to the Collateral Agent upon demand therefor by the Collateral Agent in accordance with Sections 2.3 and 2.4.

## **2.12 No Release of Guarantor**

Until the MF Guaranteed Obligations have been paid in full as set forth in Sections 2.3 and 2.4, the obligations of the Guarantor hereunder shall not be reduced, limited or terminated, nor shall the Guarantor be discharged from any obligation hereunder for any reason whatsoever, including, but not limited to (whether or not the same shall have occurred or failed to occur once or more than once and, in the case of extensions of time for payment, observance or performance of obligations, whether such extensions or any of them are for periods longer than the respective periods then specified therefor and whether or not the Guarantor shall have received notice thereof or assented thereto):

2.12.2 any composition or settlement (whether by way of release, acceptance of a plan of reorganization or otherwise) of the MF Guaranteed Obligations;

2.12.3 any failure to exercise, delay in the exercise of, exercise or waiver of, or forbearance or other indulgence with respect to any Rights, Remedies and/or Recourses available to any of the GAA Finance Parties or the Collateral Agent, including but not limited to:

2.12.3.1 any exercise of or failure to exercise any right of set-off, counterclaim, reduction, recoupment or retention;

2.12.3.2 any election of Rights, Remedies and/or Recourses effected by any of them;

### **2.13 Certain Waivers.**

The Guarantor hereby waives:

2.13.1 except as set forth in Section 2.3, any requirement and any right to require, that any power be exercised or any action be taken against Nalcor or any other guarantor or any collateral for any of the MF Guaranteed Obligations;

2.13.6.3 any and all other defences related to the MF Guaranteed Obligations save and except for the receipt by the Collateral Agent of payment in full of the MF Guaranteed Obligations.

#### **2.14 No Release in Event of Bankruptcy**

No settlement or discharge of the MF Guaranteed Obligations shall be effective if any payment by the Guarantor in respect thereof is avoided or reduced by virtue of any provision or enactment relating to any Insolvency Laws, Fraudulent Conveyance Laws or similar laws of general application from time to time, and if such payment is so avoided or reduced, the Collateral Agent shall be entitled to recover the amount of such payment as if such settlement or discharge had not occurred.

#### **2.15 Additional Security**

This Guarantee Agreement shall be in addition to and without prejudice to any other security by whomsoever given, held at any time by the Collateral Agent or a GAA Finance Party.

Even if a LIL Event of Default or acceleration of the amounts owed by the Partnership under the LIL Project Finance Agreement has occurred, the Collateral Agent shall not release any such NL Crown Contribution from the Partnership Project Funding Account until such Debt Rateable Share has been deposited therein and the Collateral Agent can make the concurrent release referred to above;

2.4.2.5 the Collateral Agent shall only release the NL Crown Contribution under the DSRA Equity Commitment for deposit into the DSRA concurrently with the deposit of the Debt Rateable Share of the Minimum DSRA Requirement as at the Commissioning Date or the DSRA Prefunding, as the case may be, into the DSRA. Even if a LIL Event of Default or acceleration of the amounts owed by the Partnership under the LIL Project Finance Agreement has occurred, the Collateral Agent shall not release such NL Crown Contribution until such Debt Rateable Share has been made available to the Collateral Agent and the Collateral Agent can make the concurrent deposit referred to above;

2.4.2.6 subject to clause 2.4.2.9, under no circumstance shall any NL Crown Contribution under the Base Equity Commitment be used to fund anything other than the Equity Rateable Share of the Project Costs intended to be paid therewith;

2.4.2.7 subject to clause 2.4.2.9, under no circumstance shall any NL Crown Contribution under the Contingency Equity Commitment be used to fund anything other

than the Equity Rateable Share of the Project Costs intended to be paid therewith following the exhaustion of the Base Equity Commitment;

2.4.2.8 under no circumstance shall the NL Crown Contribution under the DSRA Equity Commitment be used to fund anything other than the Equity Rateable Share of the Minimum DSRA Requirement as at the Commissioning Date or the DSRA Prefunding, as the case may be; and

2.4.2.9 to the extent that Debt Service is required to be funded by any NL Crown Contribution under the Base Equity Commitment or Contingency Equity Commitment, then only such portion of Debt Service shall be so funded as constitutes interest and fees that are then due and outstanding and that constitute Project Costs and to the extent any scheduled instalments of principal of the Indebtedness of the Partnership under the LIL Project Finance Agreement are due and outstanding, such scheduled instalments of principal, but expressly excluding any accelerated amounts (and interest and fees relating to accelerated amounts) (the undertakings in clauses 2.4.2.6 to 2.4.2.9 are collectively referred to as the "**NL Payment Conditions**").

## **2.5 Prima Facie Evidence**

NL Crown hereby acknowledges and agrees that any amount set forth by the Collateral Agent in any NL Crown Payment Demand as being the amount required to be paid by it pursuant to the provisions hereof shall constitute *prima facie* evidence of the amount which, as of the date of any such NL Crown Payment Demand, is due and payable by NL Crown pursuant to the provisions hereof. Notwithstanding the foregoing, where at any time NL Crown has paid any amount set forth by the Collateral Agent in any NL Crown Payment Demand, or any other amount, and it is demonstrated at a later date that such payment was in excess of the amount required to be paid by NL Crown pursuant to the provisions hereof, then the amount of such excess payment shall be repaid to NL Crown, to the extent that it has not at such time already been used to pay for Project Costs.

## **2.6 Failure to Pay**

If by the fifth Business Day following the issuance by the Collateral Agent of a NL Crown Payment Demand, the amount specified in the NL Crown Payment Demand or required to be deposited in the Partnership Project Funding Account or the DSRA, as the case may be, is not deposited in such account or paid to the Collateral Agent for deposit to such account, the Collateral Agent shall thereupon be entitled to exercise all rights, remedies and recourses then available to it against NL Crown in order to obtain payment of such amount, it being expressly agreed that any payment by NL Crown of the amount so demanded shall be subject to the NL Payment Conditions being met as provided in Section 2.4.2. Any amount payable by the NL Crown pursuant to a NL Crown Payment Demand which is not paid within five (5) Business Days following the issuance of such NL Crown Payment Demand as herein provided will bear interest from and including such fifth Business Days until paid in full at the rate expressed to be payable on the debt of the Partnership under the LIL Project Finance Agreement. Any interest paid by the NL Crown under the terms of this Section shall constitute an equity investment by Nalcor LP in the Partnership and shall be deposited in the Partnership Project Funding Account

and shall be applied to defray the next following Nalcor Contribution required to be made under the terms of the ESA.

## **2.7 Withholding**

All amounts payable by the Guarantor under this Guarantee Agreement shall be made free and clear of and without deduction for or on account of any present or future taxes, charges, fees, levies, duties or withholdings of any kind. If the Guarantor is obliged to deduct or withhold an amount in respect of any such taxes, charges, fees, levies, duties or withholdings, then in such event the Guarantor shall pay to the Collateral Agent such additional amount as is necessary to ensure that the GAA Finance Parties receive and retain (on an after-tax basis, after payment of any and all income taxes on such additional amounts) an amount equal to the full amount otherwise payable hereunder, net of any such taxes, charges, fees, levies, duties or withholdings.

## **2.8 Postponed Subrogation**

The Guarantor shall not be subrogated to any right of the Collateral Agent until all the NL Guaranteed Obligations are paid in full as provided in Sections 2.3 and 2.4. Thereafter, the Guarantor (i) shall be subrogated to the rights of the Collateral Agent under, pursuant to and otherwise in respect of the ESA and (ii) may require the Collateral Agent to assign to it any of its rights then remaining under the ESA with respect to the NL Guaranteed Obligations, but any such assignment shall be without representation or warranty by, or recourse against, the Collateral Agent.

## **2.9 Set-Off**

The Guarantor hereby acknowledges and agrees that vis-à-vis the Collateral Agent and the GAA Finance Parties it has no available remedy of set-off. Accordingly, each payment to be made by the Guarantor hereunder in respect of the NL Guaranteed Obligations shall be made as required in whole without application of the right of set-off. Each payment to be made by the Guarantor hereunder in respect of its NL Guaranteed Obligations shall be made without regard to any equities between or among any of the LIL Parties, the Guarantor, the Collateral Agent and the GAA Finance Parties and without counterclaim, reduction, recoupment, retention or diminution of any kind or nature (including as a result of any defence, right of action, recoupment, retention or counterclaim of any nature that the Guarantor or any other LIL Parties may have or have had against any of the LIL Parties, the GAA Finance Parties or any other Person).

## **2.10 Imputation of moneys received in reduction of NL Guaranteed Obligations**

Notwithstanding every legal rule concerning the imputation of payments, all sums of money received by the Collateral Agent from the Guarantor pursuant to the provisions of this Article 2 shall be applied only as provided in Sections 2.3 and 2.4.

## **2.11 Irregularity**

Any obligation of any Contributing Party to make investments by way of equity under the ESA shall be considered as being part of the NL Guaranteed Obligations, notwithstanding any lack of capacity, irregularity, defect or flaw in the creation or continuance of such obligation, whether or

not the Collateral Agent was aware of the same, it being expressly understood that any such obligation which cannot be recovered from the Guarantor as guarantor hereunder by reason of any voidness of the principal obligation may be recovered from the Guarantor under the indemnity contained in Section 2.2 and shall be payable to the Collateral Agent upon demand therefor by the Collateral Agent in accordance with Sections 2.3 and 2.4.

## **2.12 No Release of Guarantor**

Until the NL Guaranteed Obligations have been paid in full as set forth in Sections 2.3 and 2.4, the obligations of the Guarantor hereunder shall not be reduced, limited or terminated, nor shall the Guarantor be discharged from any obligation hereunder for any reason whatsoever, including, but not limited to (whether or not the same shall have occurred or failed to occur once or more than once and, in the case of extensions of time for payment, observance or performance of obligations, whether such extensions or any of them are for periods longer than the respective periods then specified therefor and whether or not the Guarantor shall have received notice thereof or assented thereto):

2.12.1 any extension of the time for payment, observance or performance, or any other amendment or modification of any of the terms and conditions of the NL Guaranteed Obligations or the LIL Project Finance Documents;

2.12.2 any composition or settlement (whether by way of release, acceptance of a plan of reorganization or otherwise) of the NL Guaranteed Obligations;

2.12.3 any failure to exercise, delay in the exercise of, exercise or waiver of, or forbearance or other indulgence with respect to any rights, remedies and/or recourses available to any of the GAA Finance Parties or the Collateral Agent, including but not limited to:

2.12.3.1 any exercise of or failure to exercise any right of set-off, counterclaim, reduction, recoupment or retention;

2.12.3.2 any election of rights, remedies and/or recourses effected by any of them;

2.12.3.3 any subordination by operation of Law, whether present or future, of any or all of the NL Guaranteed Obligations; and

2.12.4 any other act or failure to act which varies the risks of the Guarantor hereunder or, but for the provisions hereof, under the terms of any Law, would operate to reduce, limit or terminate the obligations of the Guarantor from any obligation hereunder.

## **2.13 Certain Waivers.**

The Guarantor hereby waives:

2.13.1 except as set forth in Section 2.3, any requirement and any right to require, that any power be exercised or any action be taken against the Contributing Parties or any other guarantor or any collateral for any of the NL Guaranteed Obligations;

2.13.2 any and all defences to and counterclaims, reductions, retentions and claims of recoupment against any and all of the NL Guaranteed Obligations that may at any time be available to the Contributing Parties or any other guarantor. As regards set-offs, the Guarantor confirms the acknowledgement contained in Section 2.9;

2.13.3 any notice of acceptance of the incurrence or renewal of any NL Guaranteed Obligations;

2.13.4 all notices which may be required by Law to preserve any rights against the Guarantor hereunder including, but not limited to, any notice of default, demand, dishonour, presentment, noting of protest and protest;

2.13.5 diligence;

2.13.6 any defence based upon, arising out of or in any way related to:

2.13.6.1 any claim that any election of remedies by the Collateral Agent impaired, reduced, released or extinguished any rights that the Guarantor might otherwise have had against the Contributing Parties or any other guarantor;

2.13.6.2 any claim that the NL Guaranteed Obligations should be strictly construed against the Collateral Agent; and

2.13.6.3 any and all other defences related to the NL Guaranteed Obligations save and except for the receipt by the Collateral Agent of payment in full of the NL Guaranteed Obligations.

## **2.14 No Release in Event of Bankruptcy**

No settlement or discharge of the NL Guaranteed Obligations shall be effective if any payment by the Guarantor in respect thereof is avoided or reduced by virtue of any provision or enactment relating to any Insolvency Laws, Fraudulent Conveyance Laws or similar laws of general application from time to time, and if such payment is so avoided or reduced, the Collateral Agent shall be entitled to recover the amount of such payment as if such settlement or discharge had not occurred.

## **2.15 Additional Security**

This Guarantee Agreement shall be in addition to and without prejudice to any other security by whomsoever given, held at any time by the Collateral Agent or a GAA Finance Party.

## **2.16 Reasonableness of Waivers, Renunciations, Declarations and Authorizations**

The Guarantor agrees that each of the waivers, renunciations, declarations and authorizations set forth in this Guarantee Agreement is made with full knowledge of its significance and consequences and if any of such waivers, renunciations, declarations and authorizations is determined to be contrary to any Law or public policy, the Guarantor and the Collateral Agent agree that such waivers, renunciations, declarations and authorizations shall be effective only to the maximum extent permitted by Law.

## **2.17 Authority to Modify NL Guaranteed Obligations**

The Guarantor expressly authorizes the Collateral Agent, at any time and from time to time, without notice and without affecting the liability of the Guarantor hereunder, to:

2.17.1 change, modify, alter, amend, supplement, extend, renew, compromise, novate, replace, suspend or waive the terms of all or any part of the NL Guaranteed Obligations and any security and guarantees therefor;

2.17.2 accept new or additional instruments, documents, agreements, security or guarantees in connection with all or any part of the NL Guaranteed Obligations;

2.17.3 accept partial payments on the NL Guaranteed Obligations;

2.17.4 waive, release, reconvey, terminate, abandon, subordinate, exchange, substitute, transfer, compound, compromise, liquidate and enforce all or any part of the NL Guaranteed Obligations and any security or guarantee therefor, and apply any such security and direct the order or manner of sale thereof as the Collateral Agent (for the benefit of the GAA Finance Parties) in its discretion may determine, subject to and in accordance with the provisions of Section 2.4; and

2.17.5 otherwise change, modify, alter, amend, supplement, extend, renew, compromise, novate, replace, suspend or waive the provisions of the ESA or any of the LIL Project Finance Documents.

## **2.18 No Requirement to Exhaust Recourses**

Neither the Collateral Agent nor any GAA Finance Party shall be bound to seek or exhaust its recourses or remedies against the GP or any Contributing Party, any other guarantor or any other Person nor to enforce, marshal or value any Liens before the Collateral Agent, for and on behalf of the GAA Finance Parties, is entitled to payment under this Guarantee Agreement.

## **2.19 Cost Overrun Escrow Account**

For the purposes of this Agreement and notwithstanding any provision to the contrary herein, the parties hereto acknowledge that:

2.19.1 the NL Crown Payment Demand relating to any Base Equity Contribution or Contingency Equity Contribution set out above may include amounts required to fund the Cost Overrun Escrow Account, as such account is required to be funded under the terms of Section 10.28 of the LIL Project Finance Agreement; and

2.19.2 such funding shall be deemed to be on account of Project Costs, the Equity Rateable Share and Debt Rateable Share of which shall be 100% and 0%, respectively, the amounts of any such funding shall be deposited directly into the Cost Overrun Escrow Account and be used exclusively in accordance with Section 10.28 of the LIL Project Finance Agreement, and such funding shall constitute a Base Equity Contribution or a Contingency Equity Contribution dependent on whether or not the Base Equity Commitment is then exhausted.

Even if a Muskrat/LTA Event of Default or acceleration of the amounts owed by Labrador Transco under the Muskrat/LTA Project Finance Documents has occurred, the Collateral Agent shall not release any such LTA NL Crown Contribution from the Labrador Transco Project Funding Account until such LTA Debt Rateable Share has been deposited therein and the Collateral Agent can make the concurrent release referred to above;

2.4.2.6 the Collateral Agent shall only release the LTA NL Crown Contribution under the LTA DSRA Equity Commitment for deposit into the DSRA concurrently with the deposit of Labrador Transco's Project Rateable Share of the LTA Debt Rateable Share of the Minimum DSRA Requirement as at the Commissioning Date or the DSRA Prefunding, as the case may be, into the DSRA. ## **2.5 Prima Facie Evidence**

NL Crown hereby acknowledges and agrees that any amount set forth by the Collateral Agent in any LTA NL Crown Payment Demand as being the amount required to be paid by it pursuant to the provisions hereof shall constitute *prima facie* evidence of the amount which, as of the date of any such LTA NL Crown Payment Demand, is due and payable by NL Crown pursuant to the provisions hereof. Notwithstanding the foregoing, where at any time NL Crown has paid any amount set forth by the Collateral Agent in any LTA NL Crown Payment Demand, or any other amount, and it is demonstrated at a later date that such payment was in excess of the amount required to be paid by NL Crown pursuant to the provisions hereof, then the amount of such excess payment shall be repaid to NL Crown, to the extent that it has not at such time already been used to pay for LTA Project Costs.

## **2.6 Failure to Pay**

If by the fifth Business Day following the issuance by the Collateral Agent of a LTA NL Crown Payment Demand, the amount specified in the LTA NL Crown Payment Demand or required to be deposited in the Labrador Transco Project Funding Account, the DSRA or the LRA, as the case may be, is not deposited in such account or paid to the Collateral Agent for deposit to such account, the Collateral Agent shall thereupon be entitled to exercise all Rights, Remedies and/or Recourses then available to it against NL Crown in order to obtain payment of such amount, it being expressly agreed that any payment by NL Crown of the amount so demanded shall be subject to the LTA NL Payment Conditions being met as provided in Section 2.4.2. Any amount payable by the NL Crown pursuant to a LTA NL Crown Payment Demand which is not paid within five (5) Business Days following the issuance of such LTA NL Crown Payment Demand as herein provided will bear interest from and including such fifth Business Day until paid in full at the rate expressed to be payable on the debt of Labrador Transco under the Muskrat/LTA Project Finance Documents. Any interest paid by the NL Crown under the terms of this Section shall constitute an equity investment by Nalcor in Labrador Transco and shall be deposited in the Labrador Transco Project Funding Account and shall be applied to defray the next following Nalcor LTA Contribution required to be made under the terms of the LTAESA.

## **2.7 Withholding**

All amounts payable by the Guarantor under this Guarantee Agreement shall be made free and clear of and without deduction for or on account of any present or future taxes, charges, fees, levies, duties or withholdings of any kind. If the Guarantor is obliged to deduct or withhold an amount in respect of any such taxes, charges, fees, levies, duties or withholdings, then in such event the Guarantor shall pay to the Collateral Agent such additional amount as is necessary to ensure that the GAA Finance Parties receive and retain (on an after-tax basis, after payment of any and all income taxes on such additional amounts) an amount equal to the full amount otherwise payable hereunder, net of any such taxes, charges, fees, levies, duties or withholdings.

## **2.8 Postponed Subrogation**

The Guarantor shall not be subrogated to any right of the Collateral Agent until all the LTA Guaranteed Obligations are paid in full as provided in Sections 2.3 and 2.4. Each payment to be made by the Guarantor hereunder in respect of its LTA Guaranteed Obligations shall be made without regard to any equities between or among any of the LTA Parties, the Guarantor, the Collateral Agent and the GAA Finance Parties and without counterclaim, reduction, recoupment, retention or diminution of any kind or nature (including as a result of any defence, right of action, recoupment, retention or counterclaim of any nature that the Guarantor or any other LTA Parties may have or have had against any of the LTA Parties, the GAA Finance Parties or any other Person).

Any obligation of Nalcor to make investments by way of equity under the LTAESA shall be considered as being part of the LTA Guaranteed Obligations, notwithstanding any lack of capacity, irregularity, defect or flaw in the creation or continuance of such obligation, whether or not the Collateral Agent was aware of the same, it being expressly understood that any such obligation which cannot be recovered from the Guarantor as guarantor hereunder by reason of any voidness of the principal obligation may be recovered from the Guarantor under the indemnity contained in Section 2.2 and shall be payable to the Collateral Agent upon demand therefor by the Collateral Agent in accordance with Sections 2.3 and 2.4.

## **2.12 No Release of Guarantor**

Until the LTA Guaranteed Obligations have been paid in full as set forth in Sections 2.3 and 2.4, the obligations of the Guarantor hereunder shall not be reduced, limited or terminated, nor shall the Guarantor be discharged from any obligation hereunder for any reason whatsoever, including, but not limited to (whether or not the same shall have occurred or failed to occur once or more than once and, in the case of extensions of time for payment, observance or performance of obligations, whether such extensions or any of them are for periods longer than the respective

## **2.13 Certain Waivers.**

The Guarantor hereby waives:

2.13.1 except as set forth in Section 2.3, any requirement and any right to require, that any power be exercised or any action be taken against Nalcor or any other guarantor or any collateral for any of the LTA Guaranteed Obligations;

2.13.6.3 any and all other defences related to the LTA Guaranteed Obligations save and except for the receipt by the Collateral Agent of payment in full of the LTA Guaranteed Obligations.

## **2.14 No Release in Event of Bankruptcy**

No settlement or discharge of the LTA Guaranteed Obligations shall be effective if any payment by the Guarantor in respect thereof is avoided or reduced by virtue of any provision or enactment relating to any Insolvency Laws, Fraudulent Conveyance Laws or similar laws of general application from time to time, and if such payment is so avoided or reduced, the Collateral Agent shall be entitled to recover the amount of such payment as if such settlement or discharge had not occurred.

## **2.15 Additional Security**

This Guarantee Agreement shall be in addition to and without prejudice to any other security by whomsoever given, held at any time by the Collateral Agent or a GAA Finance Party.

**13.4 Unsatisfied Judgments**

**13.7 Denial of Obligations**

Should any Obligor deny to any material extent, its obligations under any IT Project Finance Document or claim any of the IT Project Finance Documents to be rescinded, terminated (other than a scheduled termination), invalid or withdrawn, in whole or in part, or if any IT Project Finance Document ceases to be in full force and effect otherwise than in accordance with the provisions thereof.

**13.10 LIL Cross Default**

**13.11 Muskrat/LTA Cross Default**

If any Muskrat/LTA Event of Default occurs, provided, however, that this IT Event of Default shall automatically be cured in the event that the Muskrat/LTA Event of Default is either remedied or waived by the Muskrat/LTA Collateral Agent before the Collateral Agent exercises any of the rights set forth in Article 14 hereof.

**ARTICLE 14**

**REMEDIES**

**14.1 Preliminary Measures**

To the extent that a Remedies Consultation Period has been triggered pursuant to the LIL Project Finance Agreement, the parties hereto shall concurrently be subject to the same Remedies Consultation Period and to the application of the terms and conditions of Section 14.1 of LIL Project Finance Agreement with respect to such Remedies Consultation Period.

**14.2 Termination and Acceleration**

Upon the occurrence and during the continuance of an Enforcement Event, the Collateral Agent may do any one or more of the following:

- 14.2.1 declare the whole or any part of the IT Facility to be cancelled, terminated or reduced, whereupon the Funding Vehicle shall not be required to make any further IT Advance hereunder in respect of such portion of the IT Facility so cancelled, terminated or reduced;
- 14.2.2 accelerate the maturity of all or any item or part of the IT Loan and declare them and any applicable IT Make-Whole Amount to be payable on demand or immediately due and payable, whereupon they shall be so accelerated and become so payable or due and payable, as the case may be;
- 14.2.3 enforce or realize upon all or any Lien granted under the IT Project Finance Documents;
- 14.2.4 suspend any rights of the Obligors under any IT Project Finance Document, whereupon such rights shall be so suspended; and

14.2.5 take any other action, commence any other suit, action or proceeding or exercise such other rights as may be permitted by any IT Project Finance Document or Applicable Law (whether or not provided for in any IT Project Finance Document) at such times and in such manner as the Collateral Agent may consider expedient,

all without any additional notice, demand, presentment for payment, protest, noting of protest, dishonour, notice of dishonour or any other action being required. If an Enforcement Event occurs and is continuing, the IT Facility shall immediately and automatically be cancelled and the IT Loan and the IT Make-Whole Amount shall be accelerated and become immediately and automatically due and payable without any action on the part of the Collateral Agent or any of the GAA Finance Parties being required.

14.3 **Distribution of Proceeds of Realization**

Any Proceeds of Realization received by any of the Funding Vehicle or the Collateral Agent, as the case may be, shall be applied as follows:

- 14.3.1 firstly, to pay all costs (including Realization Costs) incurred or paid by the Funding Vehicle, the other GAA Finance Parties and the Collateral Agent up to and including the day any Proceeds of Realization are distributed in accordance with the provisions of this subsection 14.3.1;

- 14.3.6 lastly, to pay any surplus to any Person or Persons who by Applicable Law shall have the right to receive same.

**14.4 Application of Payments**

**ARTICLE 15**

**INDEMNITIES**

**15.1 Change in Law**

If the Funding Vehicle determines (which determination shall be evidenced by a certificate submitted to the Intermediary Trust and the Collateral Agent by the Intermediary Trust and, in the absence of demonstrable error, such certificate shall constitute *prima facie* evidence of the subject matter thereof among the parties hereto) that:

15.1.1 a Change in Law has made or shall make it unlawful, impracticable or contrary to any Applicable Law for the Funding Vehicle to maintain or give effect to all or any part of its obligations as contemplated by this Agreement and the other IT Project Finance Documents, or to make or maintain all or any part of the IT Loan hereunder, then the obligations of the Funding Vehicle to maintain or give effect to such part of such obligations or to make or maintain such part of the IT Loan shall terminate and, subject to the provisions of any such Law and those of Section 15.2 with respect to losses and expenses, the Intermediary Trust shall repay in full any such affected IT Loan, together with all interest accrued thereon and the IT Make-Whole Amount, immediately upon demand of the Funding Vehicle; or

15.1.2 a Change in Law has:

15.1.2.1 imposed, modified, or deemed applicable any loan ceiling against the Funding Vehicle or imposed, modified or deemed applicable any special Tax (other than a Tax on the overall net income of the Funding Vehicle), reserve, deposit or similar requirement with respect to assets held by, deposits in or for the account of, the acquisition of funds by, or loans by the Funding Vehicle; or

15.1.2.2 changed the basis of taxation of payments to the Funding Vehicle under this Agreement (other than a change affecting taxation on the overall net income of the Funding Vehicle); or

15.1.2.3 imposed on the Funding Vehicle any other condition (including the amount of capital required or expected to be maintained by the Funding Vehicle as a result of this Agreement) or monetary restraint with respect to this Agreement; and

the result of any of the foregoing is to increase the cost to the Funding Vehicle of making or maintaining the IT Facility, the IT Loan or any part thereof or to reduce any amount receivable by the Funding Vehicle with respect to the IT Loan or any part thereof by an amount which the Funding Vehicle deems in its sole discretion to be material, within ten (10) Business Days of receipt of the certificate referred to above (which certificate shall contain all required computations and reasonable explanations of the amounts required to be paid); then

15.1.2.4 the Intermediary Trust shall pay to Collateral Agent, for the account of the Funding Vehicle, such additional amount computed by Collateral Agent as will, on an after-tax basis, compensate the Funding Vehicle for such additional cost or reduction in amounts receivable which the Funding Vehicle determines to be attributable to the Intermediary Trust or the IT Loan made to the Intermediary Trust; and

15.1.2.5 subject to the provisions of Section 15.2 with respect to losses and expenses, the Intermediary Trust may repay in full the IT Loan together, in each case, with accrued interest thereon and the IT Make-Whole Amount.

## 15.2 **Reimbursement of Losses and Expenses**

Whenever the Funding Vehicle shall sustain or incur any losses and expenses in connection with:

15.2.1 the failure of the Intermediary Trust to borrow pursuant to the IT Draw Request once delivered (whether by reason of the Intermediary Trust's decision not to proceed, the non-fulfilment by the Intermediary Trust of any of the conditions set forth herein, the existence of an IT Event of Default on the IT Drawdown Date or for any other reason other than default by the Intermediary Trust resulting from a default by the Funding Vehicle); or

15.2.2 the declaration by the Collateral Agent following the occurrence and during the continuance of an Enforcement Event that the IT Loan is immediately due and payable; or

15.2.3 the failure of the Intermediary Trust to pay when due any principal, interest, fees or other amount under this Agreement when due (whether at maturity, by reason of acceleration or otherwise).

(the events contemplated above shall be referred to individually as a "**IT Loss Event**" and the funds repaid, not borrowed or not repaid, as the case may be, which are subject to any such Loss Event shall be collectively referred to as the "**IT Affected Funds**");

the Intermediary Trust agrees to pay to the Collateral Agent for the account of the Funding Vehicle, upon demand, an amount certified by the Collateral Agent to be necessary to compensate the Funding Vehicle for all such losses and expenses. The certificate of the Collateral Agent shall also specify the computation and reasonable explanations of the amount to be paid.

**15.3 General Indemnity**

The Obligors hereby indemnify and hold harmless the Indemnified Parties from and against any and all losses and expenses, joint and several or joint or several, that may be incurred by or asserted or awarded against any Indemnified Party, in each case arising out of or in connection with or relating to any investigation, litigation or proceeding or the preparation of any defence with respect thereto arising out of or in connection with or relating to this Agreement (including, without limitation, any liability that any Indemnified Party incurs by virtue of being found, in respect of the Project, liable as a partner or joint venturer), the other IT Project Finance Documents or the transactions contemplated hereby or thereby, or any use made or proposed to be made with the proceeds of the IT Facility, whether or not such investigation, litigation or proceeding is brought by any Obligor or any of their respective partners, shareholders or creditors, an Indemnified Party or any other Person, or an Indemnified Party is otherwise a party thereto and whether or not the transactions contemplated hereby are consummated, except to the extent such losses and expenses are found in a final judgment to have directly resulted from such Indemnified Party's gross negligence or wilful misconduct.

**15.4 Claims under the Indemnities**

The Indemnified Party claiming indemnification under Section 15.3 shall give the Obligors notice in writing of particulars of any claim asserted by third parties against it which is covered by such indemnities and the Obligors shall, within fifteen (15) days, give notice in writing to such Indemnified Party whether they wish to dispute such claim at their sole cost and expense. The Indemnified Party shall not permit the settlement of or compromise of such claim without the written consent of one of the Obligors, unless the said fifteen (15) day period has expired without one of the Obligors having given written notice of its desire to dispute such claim. If the Indemnified Party is unable to obtain timely advice from the Obligors that they wish to dispute such claim as aforesaid, the Indemnified Party shall be entitled to deal with such claim in such manner as it deems appropriate. If the Obligors give such written notice to the Indemnified Party that they do wish to dispute such claim, the Obligors shall have the obligation to contest, settle, compromise or dispute such claim in the name of or on behalf of the Person against whom it is made, at their own cost and expense, and shall at their own cost and expense defend expeditiously the Person against whom such claim is made from all such actions or proceedings to which the said indemnity applies, and the Indemnified Party shall arrange that the Obligors shall have the right to carry on such actions or proceedings in its name; provided that, counsel retained by the Obligors to prosecute such defense is

approved by the Indemnified Party and the Obligors (i) shall keep the Indemnified Party advised as to the course of the proceedings, (ii) shall not settle any claim without the prior consent of the Indemnified Party unless the settlement results in a full and final release of the Indemnified Party without cost or any risk to the reputation of the Indemnified Party and does not contain any admission of fault, and (iii) shall prosecute and dispute or conduct such negotiations in good faith and with due diligence; and provided, further that, notwithstanding any provision herein contained, the Indemnified Party shall at all times have the right to retain its own counsel, with the prior written consent of the Obligors and at the reasonable cost and expense of the Obligors, to advise it in any of the foregoing, to appear in its name and act on its behalf in any proceedings or conduct negotiations on its behalf. Subject to the foregoing, the Indemnified Party shall make available to the Obligors copies of all files, books, records and documents, information and data (except for such files, books, records and documents, information and data which are confidential) in the possession and control of the Person against whom the claim is made relevant to such actions or proceedings for the purposes of such defence and shall cause such Person to cooperate without expense to itself in all reasonable respect and to assist in the defence of any such actions or proceedings.

## **ARTICLE 16**

Any and all of the representations, warranties, undertakings, covenants, indemnities, agreements and other obligations made on the part of the Issuer Trustee herein are made and intended not as personal representations, warranties, undertakings, covenants, indemnities, agreements and other obligations by the Issuer Trustee or for the purpose or with the intention of binding the Issuer Trustee in its personal capacity, but are made and intended for the purpose of binding only the Assets of the Funding Vehicle. - 14.3.3 thirdly, to pay all Funding Vehicle Project Costs and Expenses incurred or paid up to and including the day any Proceeds of Realization are distributed in accordance with the provisions of this subsection 14.3.3;

- 14.3.4 fourthly, to pay all Canada Project Costs and Expenses incurred or paid up to and including the day any Proceeds of Realization are distributed in accordance with the provisions of this subsection 14.3.4;
- 14.3.5 fifthly, to pay (i) all interest and IT Make-Whole Amount in respect of the IT Loan, (ii) all principal on the IT Loan, and (iii) all breakage costs and other losses and expenses, in all cases then due and payable pursuant to the provisions of the Consolidated Transaction Documents up to and including the day any Proceeds of Realization are distributed in accordance with the provisions of this subsection 14.3.5; and
- 14.3.6 lastly, to pay any surplus to any Person or Persons who by Applicable Law shall have the right to receive same.

14.4 **Application of Payments**

Any payments received in respect of the IT Secured Obligations from time to time may, notwithstanding any appropriation by the Funding Vehicle but subject to the provisions of Section 14.3, be appropriated to such parts of the obligations of the Intermediary Trust under any IT Project Finance Documents and in such order as the Collateral Agent, acting in accordance with the Requisite Instructions sees fit, and the Collateral Agent shall have the right to change any appropriation at any time pursuant to any such Requisite Instructions.

**ARTICLE 15**

**INDEMNITIES**

15.1 **Change in Law**

If the Funding Vehicle determines (which determination shall be evidenced by a certificate submitted to the Intermediary Trust and the Collateral Agent by the Intermediary Trust and, in the absence of demonstrable error, such certificate shall constitute *prima facie* evidence of the subject matter thereof among the parties hereto) that:

- 15.1.1 a Change in Law has made or shall make it unlawful, impracticable or contrary to any Applicable Law for the Funding Vehicle to maintain or give effect to all or any part of its obligations as contemplated by this Agreement and the other IT Project Finance Documents, or to make or maintain all or any part of the IT Loan hereunder, then the obligations of the Funding Vehicle to maintain or give effect to such part of such obligations or to make or maintain such part of the IT Loan shall terminate and, subject to the provisions of any such Law and those of Section 15.2 with respect to losses and expenses, the Intermediary Trust shall repay in full any such affected IT Loan, together with all interest accrued thereon and the IT Make-Whole Amount, immediately upon demand of the Funding Vehicle; or

15.1.2 a Change in Law has:

- 15.1.2.1 imposed, modified, or deemed applicable any loan ceiling against the Funding Vehicle or imposed, modified or deemed applicable any special Tax (other than a Tax on the overall net income of the Funding Vehicle), reserve, deposit or similar requirement with respect to assets held by, deposits in or for the account of, the acquisition of funds by, or loans by the Funding Vehicle; or
- 15.1.2.2 changed the basis of taxation of payments to the Funding Vehicle under this Agreement (other than a change affecting taxation on the overall net income of the Funding Vehicle); or
- 15.1.2.3 imposed on the Funding Vehicle any other condition (including the amount of capital required or expected to be maintained by the Funding Vehicle as a result of this Agreement) or monetary restraint with respect to this Agreement; and

the result of any of the foregoing is to increase the cost to the Funding Vehicle of making or maintaining the IT Facility, the IT Loan or any part thereof or to reduce any amount receivable by the Funding Vehicle with respect to the IT Loan or any part thereof by an amount which the Funding Vehicle deems in its sole discretion to be material, within ten (10) Business Days of receipt of the certificate referred to above (which certificate shall contain all required computations and reasonable explanations of the amounts required to be paid); then

- 15.1.2.4 the Intermediary Trust shall pay to Collateral Agent, for the account of the Funding Vehicle, such additional amount computed by Collateral Agent as will, on an after-tax basis, compensate the Funding Vehicle for such additional cost or reduction in amounts receivable which the Funding Vehicle determines to be attributable to the Intermediary Trust or the IT Loan made to the Intermediary Trust; and
- 15.1.2.5 subject to the provisions of Section 15.2 with respect to losses and expenses, the Intermediary Trust may repay in full the IT Loan together, in each case, with accrued interest thereon and the IT Make-Whole Amount.

## 15.2 **Reimbursement of Losses and Expenses**

Whenever the Funding Vehicle shall sustain or incur any losses and expenses in connection with:

- 15.2.1 the failure of the Intermediary Trust to borrow pursuant to the IT Draw Request once delivered (whether by reason of the Intermediary Trust's decision not to proceed, the non-fulfilment by the Intermediary Trust of any of

the conditions set forth herein, the existence of an IT Event of Default on the IT Drawdown Date or for any other reason other than default by the Intermediary Trust resulting from a default by the Funding Vehicle); or

- 15.2.2 the declaration by the Collateral Agent following the occurrence and during the continuance of an Enforcement Event that the IT Loan is immediately due and payable; or
- 15.2.3 the failure of the Intermediary Trust to pay when due any principal, interest, fees or other amount under this Agreement when due (whether at maturity, by reason of acceleration or otherwise).

(the events contemplated above shall be referred to individually as a "**IT Loss Event**" and the funds repaid, not borrowed or not repaid, as the case may be, which are subject to any such Loss Event shall be collectively referred to as the "**IT Affected Funds**");

the Intermediary Trust agrees to pay to the Collateral Agent for the account of the Funding Vehicle, upon demand, an amount certified by the Collateral Agent to be necessary to compensate the Funding Vehicle for all such losses and expenses. The certificate of the Collateral Agent shall also specify the computation and reasonable explanations of the amount to be paid.

### 15.3 **General Indemnity**

The Obligors hereby indemnify and hold harmless the Indemnified Parties from and against any and all losses and expenses, joint and several or joint or several, that may be incurred by or asserted or awarded against any Indemnified Party, in each case arising out of or in connection with or relating to any investigation, litigation or proceeding or the preparation of any defence with respect thereto arising out of or in connection with or relating to this Agreement (including, without limitation, any liability that any Indemnified Party incurs by virtue of being found, in respect of the Project, liable as a partner or joint venturer), the other IT Project Finance Documents or the transactions contemplated hereby or thereby, or any use made or proposed to be made with the proceeds of the IT Facility, whether or not such investigation, litigation or proceeding is brought by any Obligor or any of their respective partners, shareholders or creditors, an Indemnified Party or any other Person, or an Indemnified Party is otherwise a party thereto and whether or not the transactions contemplated hereby are consummated, except to the extent such losses and expenses are found in a final judgment to have directly resulted from such Indemnified Party's gross negligence or wilful misconduct.

### 15.4 **Claims under the Indemnities**

The Indemnified Party claiming indemnification under Section 15.3 shall give the Obligors notice in writing of particulars of any claim asserted by third parties against it which is covered by such indemnities and the Obligors shall, within fifteen (15) days, give notice in writing to such Indemnified Party whether they wish to dispute such claim at their sole cost and expense. The Indemnified Party shall not permit the settlement of or compromise of such claim without the written consent of one of the Obligors, unless the

said fifteen (15) day period has expired without one of the Obligors having given written notice of its desire to dispute such claim. If the Indemnified Party is unable to obtain timely advice from the Obligors that they wish to dispute such claim as aforesaid, the Indemnified Party shall be entitled to deal with such claim in such manner as it deems appropriate. If the Obligors give such written notice to the Indemnified Party that they do wish to dispute such claim, the Obligors shall have the obligation to contest, settle, compromise or dispute such claim in the name of or on behalf of the Person against whom it is made, at their own cost and expense, and shall at their own cost and expense defend expeditiously the Person against whom such claim is made from all such actions or proceedings to which the said indemnity applies, and the Indemnified Party shall arrange that the Obligors shall have the right to carry on such actions or proceedings in its name; provided that, counsel retained by the Obligors to prosecute such defense is approved by the Indemnified Party and the Obligors **(i)** shall keep the Indemnified Party advised as to the course of the proceedings, **(ii)** shall not settle any claim without the prior consent of the Indemnified Party unless the settlement results in a full and final release of the Indemnified Party without cost or any risk to the reputation of the Indemnified Party and does not contain any admission of fault, and **(iii)** shall prosecute and dispute or conduct such negotiations in good faith and with due diligence; and provided, further that, notwithstanding any provision herein contained, the Indemnified Party shall at all times have the right to retain its own counsel, with the prior written consent of the Obligors and at the reasonable cost and expense of the Obligors, to advise it in any of the foregoing, to appear in its name and act on its behalf in any proceedings or conduct negotiations on its behalf. Subject to the foregoing, the Indemnified Party shall make available to the Obligors copies of all files, books, records and documents, information and data (except for such files, books, records and documents, information and data which are confidential) in the possession and control of the Person against whom the claim is made relevant to such actions or proceedings for the purposes of such defence and shall cause such Person to cooperate without expense to itself in all reasonable respect and to assist in the defence of any such actions or proceedings.

## **ARTICLE 16**

### **SPECIAL PROVISIONS**

#### **16.1 Covenant of the Funding Vehicle**

The Funding Vehicle covenants and agrees that, on demand made by the Intermediary Trust from time to time, it shall claim from the Indenture Trustee any moneys set aside in connection with any redemption of any securities issued by the Funding Vehicle under Section 5.6 of the MTI six (6) years following such setting aside if the holders of such securities have not claimed such amounts and shall pay such amounts to the Intermediary Trust and the Intermediary Trust shall pay same to the Partnership upon receipt.

#### **16.2 Actions and Decisions of the Collateral Agent and GAA Finance Parties**

Whenever any reference is made in this Agreement to a decision or judgment to be made by, consent or waiver to be granted by, discretion to be exercised by, action to be taken

by, request to be made by, or otherwise to the Collateral Agent, the GAA Finance Parties or any one of them, or any other Person, including the Collateral Agent's Counsel, such reference shall be deemed to be a reference to such Person, acting reasonably. The Issuer Trustee has entered into this Agreement in its capacity as trustee of the Funding Vehicle. Any and all of the representations, warranties, undertakings, covenants, indemnities, agreements and other obligations made on the part of the Issuer Trustee herein are made and intended not as personal representations, warranties, undertakings, covenants, indemnities, agreements and other obligations by the Issuer Trustee or for the purpose or with the intention of binding the Issuer Trustee in its personal capacity, but are made and intended for the purpose of binding only the Assets of the Funding Vehicle. No Assets of the Issuer Trustee (other than the Assets of the Funding Vehicle), whether owned beneficially by it in its personal capacity or otherwise, will be subject to levy, execution or other enforcement procedures with regard to any of the representations, warranties, undertakings, covenants, indemnities, agreements and other obligations of the Funding Vehicle or the Issuer Trustee under this Agreement or any of the other documents accessory hereto. No recourse may be had or taken, directly or indirectly against the Issuer Trustee in its personal capacity, any beneficiary of the Funding Vehicle or any Affiliate, shareholder, officer, director, employee or agent of the Issuer Trustee or any predecessor or successor of the Issuer Trustee, with regard to the representations, warranties, undertakings, covenants, indemnities, agreements and other

This Agreement shall be binding upon and shall enure to the benefit of the parties hereto and their respective successors and assigns, provided that no party hereto shall assign any of its rights or obligations hereunder without the prior written consent of each of the other parties hereto.

Save and except for any assignment pursuant to the GAA Security Documents, the Funding Vehicle hereby covenants and agrees that it shall not sell, assign, transfer or otherwise dispose of, or grant a participating interest in, any Indebtedness owed to it by the Intermediary Trust or any Liens granted in connection therewith to any Person at any time, notwithstanding the existence of any IT Event of Default, without having obtained the express prior written consent of the Obligors.

**17.9 Rights and Recourses Cumulative**

The rights and remedies of the Funding Vehicle and the Collateral Agent under this Agreement shall be cumulative and not exclusive of any right or remedy which the Funding Vehicle would otherwise have and no failure or delay by the Collateral Agent or the Funding Vehicle in exercising any right shall operate as a waiver thereof, nor shall any single or partial exercise of any power or right preclude its other or further exercise or the exercise of any other power or right.

2.7.2 The Intermediary Trust shall issue an IT Voluntary Prepayment Notice immediately upon receipt by the Collateral Agent of the LIL Voluntary Prepayment Notice. Once delivered, no IT Voluntary Prepayment Notice may be revoked or withdrawn by the Intermediary Trust.

2.7.3 Upon an IT Voluntary Prepayment Notice having been so given, the IT Loan under the Initial IT Tranches or, as the case may be, under the New IT Tranches will thereupon be due and payable in an amount equal to that set forth in subsection 2.7.1 on the IT Voluntary Prepayment Date, in the same manner and with the same effect as if such date were the maturity date of such IT Loan, anything herein to the contrary notwithstanding, and from and after such IT Voluntary Prepayment, if the moneys necessary to prepay such IT Loan are paid as herein provided, such IT Loan will not be considered outstanding hereunder and interest will cease in respect of the portion of the IT Facility relating to such IT Loan.

#### 5.2 Nature of Guarantee

The obligations of the IT Guarantors hereunder are and shall be irrevocable, absolute and unconditional, present and continuing and constitute a guarantee of payment and not merely a guarantee of collection. As and by way of indemnity, the IT Guarantors shall irrevocably, absolutely and unconditionally pay to the Collateral Agent all such amounts as shall be required from time to time to ensure that the Collateral Agent receives and is paid the full amount of the IT Guaranteed Obligations regardless of (a) the unenforceability or invalidity of the IT Guaranteed Obligations or any failure by the

Intermediary Trust to duly and punctually pay in full the IT Guaranteed Obligations when due, (b) any loss of any right of the Collateral Agent or any GAA Finance Party against the Intermediary Trust in respect of the IT Guaranteed Obligations for any reason whatsoever, including by operation of any bankruptcy, insolvency or similar such laws, any laws affecting creditors' rights generally or general principles of equity and (c) any act or omission of the Collateral Agent or any GAA Finance Party in connection with the enforcement of any of the rights of the Collateral Agent or any GAA Finance Party against the Intermediary Trust.

Any amount payable by the IT Guarantors under this Article 5 which is not paid when required herein will bear interest from the date of such demand until paid in full at the rate or rates expressed to be payable on the corresponding IT Guaranteed Obligations owing under the applicable IT Project Finance Documents.

**5.4 Withholdings**

The Collateral Agent agrees to provide the IT Guarantors with the computations and calculations used by the Collateral Agent to prepare each such statement of account following a request therefor.

- 14.2.2 accelerate the maturity of all or any item or part of the IT Loan and declare them and any applicable IT Make-Whole Amount to be payable on demand or immediately due and payable, whereupon they shall be so accelerated and become so payable or due and payable, as the case may be;
- 14.2.3 enforce or realize upon all or any Lien granted under the IT Project Finance Documents;
- 14.2.4 suspend any rights of the Obligors under any IT Project Finance Document, whereupon such rights shall be so suspended; and
- 14.2.5 take any other action, commence any other suit, action or proceeding or exercise such other rights as may be permitted by any IT Project Finance Document or Applicable Law (whether or not provided for in any IT Project Finance Document) at such times and in such manner as the Collateral Agent may consider expedient,

all without any additional notice, demand, presentment for payment, protest, noting of protest, dishonour, notice of dishonour or any other action being required. If an Enforcement Event occurs and is continuing, the IT Facility shall immediately and automatically be cancelled and the IT Loan and the IT Make-Whole Amount shall be accelerated and become immediately and automatically due and payable without any action on the part of the Collateral Agent or any of the GAA Finance Parties being required.

**14.3 Distribution of Proceeds of Realization**

Any Proceeds of Realization received by any of the Funding Vehicle or the Collateral Agent, as the case may be, shall be applied as follows:

- 14.3.1 firstly, to pay all costs (including Realization Costs) incurred or paid by the Funding Vehicle, the other GAA Finance Parties and the Collateral Agent up to and including the day any Proceeds of Realization are distributed in accordance with the provisions of this subsection 14.3.1;
- 14.3.2 secondly, to pay all other Various Agent Costs and Expenses incurred or paid up to and including the day any Proceeds of Realization are distributed in accordance with the provisions of this subsection 14.3.2;

- 14.3.3 thirdly, to pay all Funding Vehicle Project Costs and Expenses incurred or paid up to and including the day any Proceeds of Realization are distributed in accordance with the provisions of this subsection 14.3.3;
- 14.3.4 fourthly, to pay all Canada Project Costs and Expenses incurred or paid up to and including the day any Proceeds of Realization are distributed in accordance with the provisions of this subsection 14.3.4;
- 14.3.5 fifthly, to pay (i) all interest and IT Make-Whole Amount in respect of the IT Loan, (ii) all principal on the IT Loan, and (iii) all breakage costs and other losses and expenses, in all cases then due and payable pursuant to the provisions of the Consolidated Transaction Documents up to and including the day any Proceeds of Realization are distributed in accordance with the provisions of this subsection 14.3.5; and
- 14.3.6 lastly, to pay any surplus to any Person or Persons who by Applicable Law shall have the right to receive same.

14.4 **Application of Payments**

Any payments received in respect of the IT Secured Obligations from time to time may, notwithstanding any appropriation by the Funding Vehicle but subject to the provisions of Section 14.3, be appropriated to such parts of the obligations of the Intermediary Trust under any IT Project Finance Documents and in such order as the Collateral Agent, acting in accordance with the Requisite Instructions sees fit, and the Collateral Agent shall have the right to change any appropriation at any time pursuant to any such Requisite Instructions.

**ARTICLE 15**

**INDEMNITIES**

15.1 **Change in Law**

If the Funding Vehicle determines (which determination shall be evidenced by a certificate submitted to the Intermediary Trust and the Collateral Agent by the Intermediary Trust and, in the absence of demonstrable error, such certificate shall constitute *prima facie* evidence of the subject matter thereof among the parties hereto) that:

- 15.1.1 a Change in Law has made or shall make it unlawful, impracticable or contrary to any Applicable Law for the Funding Vehicle to maintain or give effect to all or any part of its obligations as contemplated by this Agreement and the other IT Project Finance Documents, or to make or maintain all or any part of the IT Loan hereunder, then the obligations of the Funding Vehicle to maintain or give effect to such part of such obligations or to make or maintain such part of the IT Loan shall terminate and, subject to the provisions of any such Law and those of Section 15.2 with respect to losses and expenses, the

Intermediary Trust shall repay in full any such affected IT Loan, together with all interest accrued thereon and the IT Make-Whole Amount, immediately upon demand of the Funding Vehicle; or

15.1.2 a Change in Law has:

15.1.2.1 imposed, modified, or deemed applicable any loan ceiling against the Funding Vehicle or imposed, modified or deemed applicable any special Tax (other than a Tax on the overall net income of the Funding Vehicle), reserve, deposit or similar requirement with respect to assets held by, deposits in or for the account of, the acquisition of funds by, or loans by the Funding Vehicle; or

15.1.2.2 changed the basis of taxation of payments to the Funding Vehicle under this Agreement (other than a change affecting taxation on the overall net income of the Funding Vehicle); or

15.1.2.3 imposed on the Funding Vehicle any other condition (including the amount of capital required or expected to be maintained by the Funding Vehicle as a result of this Agreement) or monetary restraint with respect to this Agreement; and

the result of any of the foregoing is to increase the cost to the Funding Vehicle of making or maintaining the IT Facility, the IT Loan or any part thereof or to reduce any amount receivable by the Funding Vehicle with respect to the IT Loan or any part thereof by an amount which the Funding Vehicle deems in its sole discretion to be material, within ten (10) Business Days of receipt of the certificate referred to above (which certificate shall contain all required computations and reasonable explanations of the amounts required to be paid); then

15.1.2.4 the Intermediary Trust shall pay to Collateral Agent, for the account of the Funding Vehicle, such additional amount computed by Collateral Agent as will, on an after-tax basis, compensate the Funding Vehicle for such additional cost or reduction in amounts receivable which the Funding Vehicle determines to be attributable to the Intermediary Trust or the IT Loan made to the Intermediary Trust; and

15.1.2.5 subject to the provisions of Section 15.2 with respect to losses and expenses, the Intermediary Trust may repay in full the IT Loan together, in each case, with accrued interest thereon and the IT Make-Whole Amount.

**15.2 Reimbursement of Losses and Expenses**

Whenever the Funding Vehicle shall sustain or incur any losses and expenses in connection with:

- 15.2.1 the failure of the Intermediary Trust to borrow pursuant to an IT Draw Request once delivered (whether by reason of the Intermediary Trust's decision not to proceed, the non-fulfilment by the Intermediary Trust of any of the conditions set forth herein, the existence of an IT Event of Default on the IT Drawdown Date or for any other reason other than default by the Intermediary Trust resulting from a default by the Funding Vehicle); or
- 15.2.2 the declaration by the Collateral Agent following the occurrence and during the continuance of an Enforcement Event that the IT Loan is immediately due and payable; or
- 15.2.3 the failure of the Intermediary Trust to pay when due any principal, interest, fees or other amount under this Agreement when due (whether at maturity, by reason of acceleration or otherwise).

(the events contemplated above shall be referred to individually as a "**IT Loss Event**" and the funds repaid, not borrowed or not repaid, as the case may be, which are subject to any such Loss Event shall be collectively referred to as the "**IT Affected Funds**");

the Intermediary Trust agrees to pay to the Collateral Agent for the account of the Funding Vehicle, upon demand, an amount certified by the Collateral Agent to be necessary to compensate the Funding Vehicle for all such losses and expenses. The certificate of the Collateral Agent shall also specify the computation and reasonable explanations of the amount to be paid.

**15.3 General Indemnity**

The Obligors hereby indemnify and hold harmless the Indemnified Parties from and against any and all losses and expenses, joint and several or joint or several, that may be incurred by or asserted or awarded against any Indemnified Party, in each case arising out of or in connection with or relating to any investigation, litigation or proceeding or the preparation of any defence with respect thereto arising out of or in connection with or relating to this Agreement (including, without limitation, any liability that any Indemnified Party incurs by virtue of being found, in respect of the Project, liable as a partner or joint venturer), the other IT Project Finance Documents or the transactions contemplated hereby or thereby, or any use made or proposed to be made with the proceeds of the IT Facility, whether or not such investigation, litigation or proceeding is brought by any Obligor or any of their respective partners, shareholders or creditors, an Indemnified Party or any other Person, or an Indemnified Party is otherwise a party thereto and whether or not the transactions contemplated hereby are consummated, except to the extent such losses and expenses are found in a final judgment to have directly resulted from such Indemnified Party's gross negligence or wilful misconduct.

**15.4 Claims under the Indemnities**

The Indemnified Party claiming indemnification under Section 15.3 shall give the Obligors notice in writing of particulars of any claim asserted by third parties against it which is covered by such indemnities and the Obligors shall, within fifteen (15) days, give notice in writing to such Indemnified Party whether they wish to dispute such claim at their sole cost and expense. The Indemnified Party shall not permit the settlement of or compromise of such claim without the written consent of one of the Obligors, unless the said fifteen (15) day period has expired without one of the Obligors having given written notice of its desire to dispute such claim. If the Indemnified Party is unable to obtain timely advice from the Obligors that they wish to dispute such claim as aforesaid, the Indemnified Party shall be entitled to deal with such claim in such manner as it deems appropriate. If the Obligors give such written notice to the Indemnified Party that they do wish to dispute such claim, the Obligors shall have the obligation to contest, settle, compromise or dispute such claim in the name of or on behalf of the Person against whom it is made, at their own cost and expense, and shall at their own cost and expense defend expeditiously the Person against whom such claim is made from all such actions or proceedings to which the said indemnity applies, and the Indemnified Party shall arrange that the Obligors shall have the right to carry on such actions or proceedings in its name; provided that, counsel retained by the Obligors to prosecute such defense is approved by the Indemnified Party and the Obligors **(i)** shall keep the Indemnified Party advised as to the course of the proceedings, **(ii)** shall not settle any claim without the prior consent of the Indemnified Party unless the settlement results in a full and final release of the Indemnified Party without cost or any risk to the reputation of the Indemnified Party and does not contain any admission of fault, and **(iii)** shall prosecute and dispute or conduct such negotiations in good faith and with due diligence; and provided, further that, notwithstanding any provision herein contained, the Indemnified Party shall at all times have the right to retain its own counsel, with the prior written consent of the Obligors and at the reasonable cost and expense of the Obligors, to advise it in any of the foregoing, to appear in its name and act on its behalf in any proceedings or conduct negotiations on its behalf. Subject to the foregoing, the Indemnified Party shall make available to the Obligors copies of all files, books, records and documents, information and data (except for such files, books, records and documents, information and data which are confidential) in the possession and control of the Person against whom the claim is made relevant to such actions or proceedings for the purposes of such defence and shall cause such Person to cooperate without expense to itself in all reasonable respect and to assist in the defence of any such actions or proceedings.

**ARTICLE 16**

**SPECIAL PROVISIONS**

**16.1 Covenant of the Funding Vehicle**

The Funding Vehicle covenants and agrees that, on demand made by the Intermediary Trust from time to time, it shall claim from the Indenture Trustee any moneys set aside in connection with any redemption of any securities issued by the Funding Vehicle under

Section 5.6 of each MTI six (6) years following such setting aside if the holders of such securities have not claimed such amounts and shall pay such amounts to the Intermediary Trust and the Intermediary Trust shall pay same to the Partnership upon receipt.

**16.2 Actions and Decisions of the Collateral Agent and GAA Finance Parties**

Whenever any reference is made in this Agreement to a decision or judgment to be made by, consent or waiver to be granted by, discretion to be exercised by, action to be taken by, request to be made by, or otherwise to the Collateral Agent, the GAA Finance Parties or any one of them, or any other Person, including the Collateral Agent's Counsel, such reference shall be deemed to be a reference to such Person, acting reasonably. Moreover, and without limiting the foregoing, whenever any reference is made in this Agreement to a decision or judgment to be made by, consent or waiver to be granted by, discretion to be exercised by, action to be taken by, request to be made by, or otherwise to, the Collateral Agent, such reference shall be deemed to be to the Collateral Agent, acting in accordance with the Requisite Instructions.

### 17.3 **Amendments and Waivers**

17.3.1 Subject to subsection 17.3.2, this Agreement may be changed from time to time by all of the parties hereto.

17.3.2 No waiver of any provision of this Agreement, nor consent to any departure by any party therefrom, shall in any event be effective unless the same shall be in writing and signed by all the parties hereto, and then said waiver or consent shall be effective only in the specific instance and for the specific purpose for which given. No failure on the part of any party to exercise, and no delay in exercising, any right hereunder shall operate as a waiver thereof.

### 17.4 **Provision Regarding Liability of Issuer Trustee**

The Issuer Trustee has entered into this Agreement in its capacity as trustee of the Funding Vehicle. Any and all of the representations, warranties, undertakings, covenants, indemnities, agreements and other obligations made on the part of the Issuer Trustee herein are made and intended not as personal representations, warranties, undertakings, covenants, indemnities, agreements and other obligations by the Issuer Trustee or for the purpose or with the intention of binding the Issuer Trustee in its personal capacity, but are made and intended for the purpose of binding only the Assets of the Funding Vehicle. No Assets of the Issuer Trustee (other than the Assets of the Funding Vehicle), whether owned beneficially by it in its personal capacity or otherwise, will be subject to levy, execution or other enforcement procedures with regard to any of the representations, warranties, undertakings, covenants, indemnities, agreements and other obligations of the

Funding Vehicle or the Issuer Trustee under this Agreement or any of the other documents accessory hereto. No recourse may be had or taken, directly or indirectly against the Issuer Trustee in its personal capacity, any beneficiary of the Funding Vehicle or any Affiliate, shareholder, officer, director, employee or agent of the Issuer Trustee or any predecessor or successor of the Issuer Trustee, with regard to the representations, warranties, undertakings, covenants, indemnities, agreements and other obligations of the Funding Vehicle or the Issuer Trustee under this Agreement and the documents accessory hereto.

**17.5 Provisions Regarding Liability of IT Trustee**

The IT Trustee has entered into this Agreement in its capacity as trustee of the Intermediary Trust. Any and all of the representations, warranties, undertakings, covenants, indemnities, agreements and other obligations made on the part of the IT Trustee herein and therein are made and intended not as personal representations, warranties, undertakings, covenants, indemnities, agreements and other obligations by the IT Trustee or for the purpose or with the intention of binding the IT Trustee in its personal capacity, but are made and intended for the purpose of binding only the Assets of the Intermediary Trust. No Assets of the IT Trustee (other than the Assets of the Intermediary Trust), whether owned beneficially by it in its personal capacity or otherwise, will be subject to levy, execution or other enforcement procedures with regard to any of the representations, warranties, undertakings, covenants, indemnities, agreements and other obligations of the Intermediary Trust or the IT Trustee under this Agreement or any of the documents accessory hereto. No recourse may be had or taken, directly or indirectly against the IT Trustee in its personal capacity, any beneficiary of the Intermediary Trust or any Affiliate, shareholder, officer, director, employee or agent of the IT Trustee or any predecessor or successor of the IT Trustee, with regard to the representations, warranties, undertakings, covenants, indemnities, agreements and other obligations of the Intermediary Trust or the IT Trustee under this Agreement and the documents accessory hereto.

**17.6 Successors and Assigns**

This Agreement shall be binding upon and shall enure to the benefit of the parties hereto and their respective successors and assigns, provided that no party hereto shall assign any of its rights or obligations hereunder without the prior written consent of each of the other parties hereto.

Save and except for any assignment pursuant to the GAA Security Documents, the Funding Vehicle hereby covenants and agrees that it shall not sell, assign, transfer or otherwise dispose of, or grant a participating interest in, any Indebtedness owed to it by the Intermediary Trust or any Liens granted in connection therewith to any Person at any time, notwithstanding the existence of any IT Event of Default, without having obtained the express prior written consent of the Obligor.

17.7 **No Novation**

Any security provided by the Intermediary Trust shall not constitute a payment, nor shall it operate novation of any amount due hereunder and shall not operate by way of set-off of, or merge with, any Indebtedness or liability of the Intermediary Trust or of any other Person or Persons to the Funding Vehicle under any deed, guarantee, contract, bill of exchange, promissory note, letter of credit, certificate of deposit or other instrument by which the same may now or at any time hereafter be represented or evidenced.

17.8 **Obligation to Pay Absolute**

The obligations of the Intermediary Trust to make payments on the IT Loan as and when in this Agreement provided shall be unconditional and irrevocable, and shall be paid strictly in accordance with the terms of this Agreement under all circumstances without any right of compensation or set-off and notwithstanding any defense, right of action or claim of any nature whatsoever which the Intermediary Trust may at any time have or have had against the Collateral Agent or the Funding Vehicle, whether in connection with this Agreement or otherwise.

17.9 **Rights and Recourses Cumulative**

The rights and remedies of the Funding Vehicle and the Collateral Agent under this Agreement shall be cumulative and not exclusive of any right or remedy which the Funding Vehicle would otherwise have and no failure or delay by the Collateral Agent or the Funding Vehicle in exercising any right shall operate as a waiver thereof, nor shall any single or partial exercise of any power or right preclude its other or further exercise or the exercise of any other power or right.

17.10 **Further Assurances**

The parties hereto agree to execute and deliver such further and other documents and perform and cause to be performed such further and other acts and things as may be necessary or desirable in order to give full effect to this Agreement and every part thereof.
