Dear Ms. Hopkins:

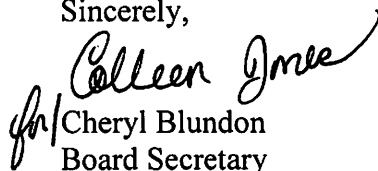

Re: Rate Mitigation Options and Impacts Reference - Request for Standing

The Board has reviewed Newfoundland Power's request for standing in this review. The Board believes that the participation of Newfoundland Power would be of assistance, both in terms of providing its perspective and also in terms of providing information which would be helpful and necessary with respect to some of the issues to be addressed.

The Board has determined that Newfoundland Power has a material interest which would not otherwise be represented and that its participation would be of assistance to the Board and would not unduly complicate or delay the proceeding. Newfoundland Power will have standing in this review.

If you have any questions, please contact the undersigned.

Sincerely,

for Cheryl Blundon
Board Secretary
