

1 Q. **Reference: Schedule 1, Appendix A: Minimizing Customer Impact upon Loss of**
2 **Supply HVGB, Rural Planning Study, Table A1, page 3 (Schedule 1, page 10 of 21)**

3

4 a) Please explain the meaning of the identifiers HV, HS, CR and NS.

5

6 **Preamble:**

7 Table A1 refers to “CR5 (end)” (a portion of line HV8), and Figure 1 (page 2) also
8 refers to “CR5 (end)”. However, Table A3 on page 3 refers to “End of HV5”.

9

10 b) Please confirm that “End of HV5” in Table A3 should instead read “End of CR5”.

11

12

13 A. a) The identifier HV refers to feeders originating from the Happy Valley Terminal
14 Station. The identifier HS refers to feeders originating from the Hunt Street
15 Substation. The identifier CR refers to feeders originating from the Corte Real
16 Substation. The Identifier NS refers to feeders originating from the North Side
17 Substation.

18

19 Both Corte Real, Hunt Street, and North Side substation are supplied by
20 distribution feeders originating the Happy Valley Terminal Station.

21

22 b) “End of HV5” in Table A3 should instead read “End of CR5”.
