

- 1 Q. Please explain the options available to Hydro for providing additional voltage  
2 support in Labrador East. For each one, please indicate the amount of additional  
3 load that it would make possible to serve, and the cost.  
4  
5
- 6 A. Sections 5.1 through 5.7 (2018 Capital Budget Application, Volume 2, Tab 13,  
7 Appendix A) provide the options available to provide the necessary system support  
8 to increase transfer capacity of the transmission system in eastern Labrador, the  
9 associated costs of each item and the load that can be served by the option. Hydro  
10 notes that the Net Present Value analysis (2018 Capital Budget Application, Volume  
11 2, Tab 13, Appendix A, Table 2) supports the proposed option.
